Morning Chronicle.

Portsmouth N. H.

WEDNESDAY, OCTOBER 17, 1866.

☞ In Concord on the evening of the 11th, a meeting of rejoicing over the elections, was held at Eagle Hall. Hon. Onslow Stearns presided, and in his address congratulated the audience most heartily upon the clear signs of a determination among the people, to preserve in their true spirit all those important elements of a free government which are best calculated to secure the equal rights of all classes of our citizens.

Hon. Edward H. Rollins rejoiced at the great victories at the polls. What are the issues at stake to-day? he asked. One is a rebel and the other a congressional policy. The former is supported by rebels, copperheads and Andrew Johnson; the latter by the Union people North and South. The question is whether the rebels or the Union people shall rule in the government? Andrew Johnson told the South to repudiate the rebel debt; they did it. He told them to pass the Constitutional Amendment; they did it. Then he ought to have told them to let every loyal man vote, whether white or black. (Great applause.) Andrew Johnson, however, let slip the golden opportunity to have restored the government, and now in a great measure we have got to fight the battle over again. In closing, Mr. R. believed if the Democrats had triumphed in the late elections, their members of Congress from the North would have united with members of the South and formed a Congress which would have been recognized by Andrew Johnson.

Col. Mason W. Tappan then took the platform. It rejoiced him that "Peace hath her victories, no less renowned than war." The late elections, he said, have settled the question beyond a doubt that the people of this country are going to govern themselves. They are not going to put power into the hands of representatives who would pass it over to a usurping President, no matter how many times he "swings around the circle." (Enthusiastic applause.) The elections have also settled that political power in this country will not go into the hands of rebels without indemnity for the past and ample security for the future. I don't care if the Southern States don't get back into the Union at present. They fought four years to break up the government, and no matter if it takes another generation to raise up a class at the South who will be true to the old flag so defiantly torn down at Sumter. I don't believe permanent peace will ever come to the nation, and I don't believe it ought to come, till we mete out justice to every man in the land. I don't ask for universal suffrage, for even Massachusetts doesn't give it; but I do ask that the color of a man's skin shall have no more to do with his voting than the color of his hair. (Applause.)

General Walter Harriman was the last speaker. He spoke at length and was often interrupted by cheers. In closing he remarked that we have lived to see the triumph of the nation, and to see the light of the coming glory. The people are right. The boys in blue are true and have moved on to victory. Most of the young men of the country are coming into the ranks of the party which has saved the nation. The present of the Democratic party is sorrow; its future is eternal gloom. The Union men will carry New York in November, and the other States; they will carry the Presidential election in 1868; and so we are coming, Andrew Johnson, 300,000 more. (Tremendous cheering.) Forgetting the things that are behind; that is, Andrew Johnson, (renewed cheering,) let us press forward to the great victories that await us.

☞ A correspondence has just been published, between the President and Atty. Gen. Stanberry, about Jeff Davis' trial. Stanberry suggests (as also does Judge Chase,) that Congress must make a new law about the Courts, before any Court can be found to try him. The most important item in Stanberry's letter is this:—

The District Attorney for the United States for the District of Virginia, where Mr. Davis stands indicted for treason, has been notified that the prisoner would be surrendered to the U. S. Marshal upon a *capias* under the indictment, but the District Attorney declines to have the *capias* issued, because there is no other place within the district where the prisoner could be safely kept, or where his personal comfort and health could be so well provided for. No application has been made within my knowledge, by the counsel for Mr. Davis for a transfer of the prisoner to civil custody.

☞ Severe storms have swept along the whole coast. A Fort Monroe dispatch of Monday says:—

The storm prevailed with great violence along the coast according to all accounts, and intelligence of numerous marine disasters is expected. It blew heavily last night from the northwest, and the sea is breaking inside the Capes in seven fathoms water.

— Horace Greeley was nominated for Congress on Monday night, in the Fourth (New York) District.

NEW HAMPSHIRE ITEMS.

—— Rev. T. H. Miller is to preach at South Hampton next Sunday.

—— The young rascal Wiggin, who set fire to the Stark House and Gamble House (both used for Reform School purposes) in Manchester, has been sent to the State Prison;—he is from Ossipee,—but should occupy a fire-proof cell, for the safety of the public.

—— At Exeter a town meeting was held on Saturday, Oct. 13, in connection with establishing the new Female Seminary anticipated by the will of Wm. Robinson.—Charles G. Conner was moderator. Woodbridge Odlin, Amos Tuck, Charles H. Bell, Jewett Conner and Alva Wood were appointed to report on the establishment of a Seminary, to decide upon the name, plan, and mode of conducting the same. A committee was chosen to examine sites for the location of suitable buildings. The article relative to the erection of buildings was referred to the first Com. to report at the adjournment. It was voted that the Supt. School Committee be requested to report on the practicability of a plan to open a school for girls as early as the coming spring. The meeting adjourned to Saturday, 10th of November.

FROM MEXICO, via New Orleans.—News from the Rio Grande has been received through the Galveston papers of the 12th to the effect that Escobedo and Nevino had been completely routed under the walls of Monterey by Gen. Mejia, who immediately afterward dispatched a division to Matamoras. A private letter confirms this report, and adds that Mejia had occupied Monterey, and that from the demonstration made on the 9th and 10th by Cortinas and Canales, a fight for the possession of Matamoras would take place on the 10th.

It has been currently reported for two days past that Gen. Sheridan has information that Maximilian has completed his preparations to follow Queen Charlotte.

☞ The Quebec fire seems to have been even more destructive than the first report represented. It burnt all day Sunday, beginning at 4 in the morning; the conflagration ceased at about five o'clock, when there was nothing more for it to feed upon. A moderate computation places the number of houses destroyed at 2500 and the loss of real property at from $2,500,000 to $3,000,000. The number of persons rendered houseless is estimated at 18,000.

☞ President Johnson has publicly exonerated the editors and writers for the Philadelphia Ledger, from all blame in regard to the Question Hoax. It now rests wholly on "Druid," who requests a suspension of public opinion. One thing is certain, viz: that he put into a concise form, the exact sentiments which the President has frequently expressed—and made so neat a counterfeit that thousands of readers believed it genuine.

☞ The New York Deputy Health Officer recommends removing the cholera patients from the floating hospital to some better place. The storm is so severe that it is impossible to bury the dead. He thinks all the patients would recover if the ship was in a favorable place. A boat and three men with ten dead bodies, which was sent to the land a day or two ago, has not since been heard from.

☞ A judge in Philadelphia, has granted an injunction to prevent the street cars from running on Sundays. Of course the final decision of the question rests with a higher court.

☞ A special Washington dispatch says all the compositors, pressmen and binders in the Government Printing Office struck on Monday, for the eight hour system.

☞ The President has appointed Geo. S. Hilliard of Boston, United States District Attorney for Massachusetts, in place of Richard H. Dana, resigned.

☞ The Turkish army in Candia has been twice repulsed in attacking the Greeks.

GEN. N. P. BANKS is nominated for Congress in the 6th District of Massachusetts. He had 143 votes in convention, D. W. Gooch 6, J. M. Stone 2.

HENRY WARD BEECHER made a speech at a Republican meeting in Brooklyn, Monday evening.

— Increased military activity prevails in Canada.

— The prospects of the allies in the Paraguayan war, are said to be bad.

— Hon. John Van Buren, son of Martin Van Buren, former President of the United States, died last Saturday, on board steamer Scotia from Liverpool.

— Hardinge, the U. S. naval officer who was seduced from his allegiance to his country by the rebel spy Belle Boyd, to whom he was afterward married, was lost on the Evening Star.

— The Herald's special says that Gen. Jeff. C. Davis reports to the Freedmen's Bureau a series of outrages perpetrated in Kentucky upon negroes by men in disguise, known as Regulators. Their acts are described as of the most fiendish description. The authorities cannot detect and punish them for want of identification.

☞ A leading copper Johnson paper says:—

The result of the late elections show very clearly that the contest has been almost precisely as it was two years ago, between the Democratic and the Union parties. The difference between Congress and the President have no perceptible influence upon the party divisions of the past four or five years. Nor has the Philadelphia Convention, strong as was the impression which it made at the outset upon the public mind, produced any marked effect upon political organizations in the several States where elections have been held.

In other words,—the loyal people, that sustained Congress and Pres. Lincoln during the war, to put down the rebellion,—do not sustain Pres. Johnson and the copperheads in their efforts to put down Congress, and restore the leading rebels to power! The loyal men are loyal still, to truth, and justice and equity.

☞ A private letter from Mayport Mills, says Gouldsby, the 2d mate of the Evening Star, has arrived there, having left the steamer with a boat load of ladies, all but two of whom were lost before getting near the shore. In landing these two ladies—whose names were Annie —— from Rhode Island, and Rosa Howard from New York —were lost. Both became insane from want and starvation. Their bodies were washed ashore. That of Rosa Howard was nearly devoured by sharks. The mate barely escaped alive. So far, it appears that 24 persons have been saved, out of 300 or over.

— Among the good things of this world we are compelled to give the preference (in the soap line) to the J. Monroe Taylor Gold Medal Soap; after having thoroughly tested, we do not hesitate to pronounce it the greatest, the finest and the best of any and all soaps in the market; and we are more than anxious that the ladies should test it, and thereby get something that will prove a true and lasting friend for life. Call upon your grocer for it, and have no other. 25

The State of New Hampshire.

BY HIS EXCELLENCY,

FREDERICK SMYTH, Governor.

A PROCLAMATION.

WHEREAS, by an act of the Legislature of New Hampshire, passed July 1, 1865, entitled "An Act in relation to Dams on certain Rivers," it is enacted:—

"SEC. 1.—That if any person shall erect or maintain any dam or weir upon the Connecticut or Merrimack rivers, or upon the Pemigewasset or Ammonoosuc or Ompiscoque rivers or Baker's River, without providing a suitable fish way over or through the same, which shall be approved in writing by the Fish Commissioners, and be kept open during the months of May and June in each year, he shall forfeit and pay for each day's continuance of said dam, without such fishways, the sum of ten dollars, to be recovered by indictment for the use of the county in which the offence is committed:

Provided, That this law shall go into effect whatsoever, and not before suitable fishways for the passage of sea fish over the dams on said river or rivers below the boundary of this State shall have been commenced; which fact is to be determined by the *proclamation of the Governor*."

And whereas suitable fish-ways for the passage of sea fish over the dams on Merrimack River, at Lowell and Lawrence, in the State of Massachusetts, have been commenced, the one at Lowell being already completed, and the other being under such progress as to ensure its completion the present season.

Now, therefore, I, Frederick Smyth, Governor of the State of New Hampshire, in pursuance of the authority in me vested by said act, do make this my *public proclamation*, that suitable fish-ways for the passage of sea fish over all the dams on said Merrimack River, below the boundary of this State, have been commenced within the meaning of said act, and that in respect to the Merrimack, Pemigewasset, Winnipiseogee and Baker's Rivers, the aforesaid act has now come into effect and is in full force.

Given at the Council Chamber in Concord, this fifteenth day of October, in the year of our Lord one thousand eight hundred and sixty-six, and the ninety-first of the Independence of the United States of America.

FREDERICK SMYTH.

By His Excellency the Governor.

WALTER HARRIMAN, *Sec'y of State.*

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver spot,) and Lentigo, or freckles, are often very annoying, particularly to ladies of light complexion, upon whom they stand more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $3 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

Hygienic Wine.

Approved by the Imperial School of Medicine, Paris.

Tested by the Committee on Chemistry of the American Medical Association, at their Convention, held in Baltimore, May 1st, 1866, and endorsed by its most prominent members.

This *IMPORTED* Tonic, recommended by the most eminent Physicians, is prepared in Paris from

PURE SHERRY!

Admits in its composition only Tonic, Aromatic, and Febrifuge substances. It *replaces* with a great superiority all other Bitters, which have for a base, nothing but Alcohol or inferior Whiskies. It is richer than any other Bitters in

Aromatic and Balsamic Principles,

and its taste is exquisite. Its soothing effects on the NERVOUS FLUIDS is most astonishing, for, while it gently exhilarates, by re-animating the functions of the DIGESTIVE ORGANS, and dissipates Languor, by gently refreshing and stimulating the brain, giving a healthy tone to the whole organism, it leaves behind none of the baneful influences that follow Alcoholic stimulants.

HYGIENIC WINE

is moreover

MOST DELICIOUS TO THE TASTE.

Possessing wonderful virtues in all cases of DYSPEPSIA and DEBILITY, and moreover is unexcelled as an

Appetizer,

IT IS NOT INTOXICATING IN THE LEAST.

MUSCAT PERLE, (Imported)

Is a rare fine Wine of most delightful flavor. It is the Pure Juice of a Most Delicious and generous GRAPE, and surpasses in excellence *any Table Wine in the Country.*

All who are solicitous about obtaining a *pure* and a superior Wine, will be delighted with

"MUSCAT PERLE."

☞ Church people are solicited to examine this Wine for communion purposes. A Communion Wine should be *above all things* PURE! In the second place it should be MILD. "Muscat Perle" combines these two most essential qualities, and a trial will convince any one of its superiority over all other Wines at present in the market.

These Wines are sold by all respectable Druggists and Dealers.

ALLCOCK'S POROUS PLASTERS.

BEST STRENGTHENING PLASTER IN THE WORLD.

ALLCOCK'S POROUS PLASTERS relieve and assuage pain by calling forth the acrid humors from parts internal to the skin and general circulation—thus, in many cases, positively evaporating the disease. JAMES LULL, M. D.

There is nothing equal, in the way of a plaster, to the Porous Plaster of Mr. ALLCOCK. Everything is pleasant about them. They are the plaster of the day, and a fit type of our present advancement in science and art. In Asthma, Cough, Kidney Affections, Gout, Rheumatism, and local deep-seated pains, they afford permanent relief.

J. F. JOHNSON, M. D., on Topical Remedies.

From a personal knowledge of these plasters, we can state that they are decidedly preferable to any other in use. Wherever relief is to be obtained by the use of a plaster, we should recommend them.

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

Messrs. J. N. HARRIS & Co:—

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It cause the phlegm and matter to raise, without ir itating those delicate organs (the Lungs), and without producing constipation of the bowels. It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state

COME TO THE WRONG PLACE.—A couple of the "low life" sporting gentry, whose principal business is to pick up flats, at Agricultural Fairs, Cattle Shows, Horse Trots, General Musters and other places where they most do congregate, arrived in this city on the late train, Monday evening. It so happened that soon after their *entree* into the city, they were spotted by an officer, whose duties cause him to look after evil doers throughout the country. He at once informed City Marshal Johnson, who in company with Mr. Pickering, "piped" the fellows about town. They first entered a well-known restaurant, where they were furnished with a plentiful supply to appease the stomach; upon leaving, they promised to pay some time—leaving the proprietor minus two tender loin steaks; they next entered a popular saloon where they endeavored to wheedle the proprietor to the belief that they were relatives of a friend of his, and succeeded in transferring from his pocket to theirs, a small loan. In a short time they were arrested by the officers, and the small loan was transferred to the pocket of the tender-loin steak man, and the strangers placed in durance vile. Several gambling implements were found on their persons, some of very late invention, and only understood by the initiated. As they had not yet committed any offense known to the laws of this Commonwealth, they were escorted by a body guard (not of their appointment,) to the Eastern Depot, where they embarked to visit City Marshal Heald of Portland, if they get in his view.

S. J. COURT, Thursday, Oct. 16.—The court met at 11 o'clock. The juniors were called, and prayer offered by Rev. Mr. Medbery. Judge Doe charged the Grand Jury, delivering at length his opinions on capital punishment, for which he thinks life-long imprisonment should be substituted with the abrogation of the pardoning power. The Grand Jury retired and the docket was called.

The case Piscataqua Exchange Bank vs. Albert A. Hayes, was given to the Jury. W. H. Y. Hackett and F. W. Hackett for plaintiff; J. S. H. Frink for deft.

☞ Gen. Gilman Marston, Hon. Jacob H. Ela and Hon. Samuel M. Wheeler were all in the city, Tuesday. Hon. E. Ashton Rollins was here a few days since. What's in the wind? We opine that a Congressman is to be nominated. They are all good men, and would do the State service and the District credit. But have we no man in Portsmouth whom Portsmouth voters can sustain? QUERIST.

☞ To morrow we shall give the list of Grand and Petit Jurors, which lack of space compels us to omit to-day.

☞ We are glad to learn that the Lyceum Committee have been so fortunate as to secure Wendell Philips, to lecture during the season. No better lecturer could be had. X.

☞ It will be seen by Mr. Joy's advertisement, that the schools to be taught by him will open next week.

[From the Chicago (Ill.) Journal of Oct 12.]

MEETING OF MEMBERS OF THE BAR—RESOLUTIONS OF RESPECT. — An adjourned meeting of members of the bar of this city was held at the rooms of the Law Institute in the Court House, to take action in reference in the death of Messrs. O'Sullivan, Rice and Parsons.

The following resolutions were presented in relation to the death of William A. Rice, Esq.:

Resolved, That the members of the Chicago bar and officers of the several courts in the city of Chicago deeply deplore the death of William A. Rice who, by his purity of character, his learning, industry and courtesy of manner won for himself an honorable position among them, and an affectionate personal regard.

Resolved, They will cherish a kind remembrance of his many virtues and professional worth, and that they will wear the usual badge of mourning.

Resolved, That the Chairman and Secretary of this meeting transmit a copy of these proceedings to the family of the deceased, and assure them of our condolence on account of the bereavement which they have sustained.

Resolved, That a copy of these proceedings be presented to the several courts, with a request that they be entered upon the minutes.

The resolutions were carried unanimously.

☞ The Newton (Mass.) Journal—a new weekly paper, and a handsome and spicy sheet—mentions that "on Monday evening last, a large collection of friends met at the house of Mr. John G. Tompson, Jr., on Otis street, Newtonville to celebrate the 'tin wedding' of the favored couple.—The interior of the house was finely decorated with evergreens and flowers, and the table, loaded with tinware of all kinds, contributions of the guests, was a great source of attraction and amusement. The evening was spent in singing and other social enjoyments, and Mr. Tompson and wife, as well as their friends, will have occasion long to remember the tenth anniversary of their wedding."

REDUCTION IN PRICE

OF THE

AMERICAN WATCHES,

MADE AT WALTHAM, MASS.

In consequence of the recent great improvements in our facilities for manufacturing, we have reduced our prices to as low a point as they can be placed

With Gold at Par,

so that no one need hesitate to buy a watch now, from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of

More than 200,000 Watches,

have given our productions the very highest rank among time keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to over eight hundred workmen.

We are fully justified in saying that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks on the plate:

1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy & Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,

ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED

to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that, unlike the guarantee of a foreign maker who can never be reached, this guarantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may at always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit orders for single watches.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

Dr. Schenck's

NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street**, Boston, where he will be professionally every WEDNESDAY from 9 to 3. Every person complaining with Consumption or any disease leading to it, are invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part, also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are able enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicine at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, last fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

Morning Chronicle.

HOW TRULY SWEET.—"The Dumbow Fitch is offered to happy couples this year, Charles, love," said Emma to her young husband.

"I don't care," said Charles, gravely. "I could not in honor compete for it. You have to swear that for a year and a day you have never wished yourself yourself unmarried."

"And you could not say that, Charles?" said Emma, her large blue eyes preparing for a swim.

"Certainly not. I have often wished it."

"Oh, Charles?"

"Yes. Because then I could have married you again."

[The rest would not interest a cold-hearted public.]—*Punch.*

— "What is the difference between sixty minutes and my youngest sister?" asked a precocious boy of his grave uncle. "I don't know, what is it?" was the uncle's reply. "Why, one's an hour, and the other's our Ann," was the stunning explanation.

— A gentleman hiring a servant, in New York, after patiently enduring the usual catechism propounded by "help," when asked, "And have you many children?" replied, "Yes, I have five, but I can drown two or three if you insist upon it."

—A dancing master has invented what he calls the "kiss cotillion," in which the gentlemen kiss the ladies as they "swing, the corners." This dance is said to be immensely popular with old maids, all of whom are talking of taking dancing lessons.

— A Southern paper tells of a visit to a cave near Augusta, Georgia. While the party were within investigating the gloomy interior, there was noticed an old colored man standing outside, and he was asked—"Say, Uncle, why don't you go in?" "Ah, my master," says he, "ah Lord, I see trouble enough on top of the earth, don't go in dat hole a searchin' arter misery."

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857.
78 State Street, opposite Kilby Street, BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters appertaining thereto. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as EVIDENCE OF THE BEST KEY OF ADVANTAGES AND ABILITIES he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past enables him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a more competent and trustworthy and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending.* Such unmistakable proof of great talent and ability on the part leads me to recommend any inventor to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

Important to the General People.
Next to the common articles of daily food, fruits, &c., there is nothing in more universal use than candies; and unhappily there is nothing more subject to adulteration as they are by the adoption of the use of deleterious substances destructive to health. An exposure of these adulterations and their pernicious effects was recently made in this paper, which caused much speculation, and no doubt warned many that the only safe use to be made of candies and confections was to obtain those which are known to be pure. The knowledge that they are thus pure is what has made Southmayd's candies so popular, and what has so enhanced his business as to encourage him to build a splendid marble edifice in Lynn Place, for his manufacturing and wholesale trade, while his retail business will be carried on at Horticultural Hall as usual. The finest and purest material, the use of none but the most innocuous and innocuous coloring materials, and the prettiest and most tasteful styles of manufacturing, constitute Southmayd's candies among the best, the safest, and the most popular in the market.—*Boston Journal.*

NOW OPEN!
MONTGOMERY'S
MUSIC PICTURE FRAME, AND VARIETY STORE,
10 1-2 Daniel Street,
(Over Miss Beal's Dry Goods Store.)

The Subscriber, formerly with S. F. COB would inform his friends and former patrons o Mr. Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Sheet Music, Covers, Sheet Music, Pianos, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.

PIANOS AND REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.

PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.

Having made arrangements with Prof W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M. Guild & Co. The superior merits of the former have too long been established to need any comments. Of the latter, suffice it to say that the sale of over fifty of them within the last five years by Mr. Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Safety Cottage Organs for sale on reasonable terms.

Every instrument carefully selected and fully warranted, under the inspection and approval of Prof Day. Also, the selection of SACRED MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman. D. H. MONTGOMERY.

CHEROKEE PILLS,
Or Female Regulator,

Cure *Suppressed, Excessive and Painful Menstruation, Whites, Sickness, Nervous and Spinal Affections, Pains in the Back, sick Headache, Dizziness, and all diseases that spring from irregularity,* by removing the cause and all the effects that follow in its train. They are perfectly *safe in all cases, except those forbidden by direction.* They are easily administered, as they are nicely *sugar coated.* They should be in the hands of every Maiden, Wife, and Mother in the land.

Ladies can address us in perfect confidence, and state their complaints in full, as we treat all female complaints, and prepare Medicines suitable for all diseases to which the female is subject.—Thirty-two page pamphlet, in a sealed envelope, free.

The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, on receipt of price, from observation, by addressing the sole proprietor,

DR. W. R. MERWIN, 37 Walker St., N. Y.

N. B.—Cherokee Pills No. 2 are prepared for *special cases*, when milder medicines fail; these are sent by mail, free of postage, on receipt of $5, *the price of each box.*

DR. WRIGHT'S
REJUVENATING ELIXIR,
Or, Essence of Life,

Cures *General Debility, Weakness, Nervous Debility in Females, Palpitation of the Heart and all Nervous Diseases.* It restores new life and vigor to the aged, causing the hot blood of youth to course the veins, restores the fire of living to the *Organs of Generation, removing impotency and this Elixir renews. Debility, restoring Manliness to the young and full vigor,* thus proving a *overcome disease.* It is perfect in removing *Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It is not a new issue of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to be filled with joy and happiness.

Price, one bottle $2; three bottles $5; sent by express to any address.

These Elixirs are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make more money. Be not deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,

☞ Peter Ridlon of Clarendon, Vt., on Friday, in returning home with his team from Rutland, on attempting to pass the second railroad crossing below the village, the engine "M. Strong," of the Rensselaer and Saratoga Railroad, struck the forward part of his wagon, catching Mr. Ridlon, and after carrying him two or three rods, threw him over the fence between the railroad track and the main road, injuring him so seriously that he died soon after assistance reached him. The wagon, with its contents, was completely demolished, and one of the horses instantly killed, while the other was so seriously injured that it was necessary to kill him in order to end his sufferings.

☞ "Sojourner Truth" is at Washington, D. C., laboring among the freed people, and instructing them "how to live in freedom." She is the only colored volunteer laborer in the district in behalf of the emancipated.—*Exchange.*

[Sojourner Truth is a noble and remarkable woman,—once a slave in a northern State—freed by the gradual emancipation process,—and for many years praying and laboring for emancipation, she has lived long enough to see the rising sun of freedom for all the people of the land,—which will rise and shine notwithstanding all clouds and storms.]

—A Western Massachusetts paper says: "We learn that peat ashes are being put in small boxes and sold to the people about the country for polishing powder. Our informant says they are excellent for the purpose, but the people need not pay a quarter a box for what they get for nothing by the shovelful."

— A contemporary thinks the pomological reputation of Massachusetts has departed when three cents each for little, miserable, misshapen, worm-eaten, good-for-nothing, wind-fallen, rotten-hearted apples is asked. Apples that three or five years ago would have been tossed out of a cider mill as unfit, are now displayed in the markets as "rare fruit!"

Morning Chronicle.

Portsmouth N. H.

THURSDAY, OCTOBER 18, 1866.

☞ Ex-Governor Hamilton Fish of New York, in a letter to a Republican meeting, says that he is among those who have thought that each Southern State should be admitted as soon as it presented loyal members of Congress, but he adds: "Yet I confess that recent occurrences throw many doubts into the consideration of this question, if viewed merely as one of expediency and of policy.

[We are glad to see some gleams of common sense breaking into the minds of shrewd politicians,—many of whom seem so blinded by some pet theory of government, or some fancied written unconstitutional notion, that they cannot see plain facts, and do not perceive such great truths as are quite obvious to working men who read the bible and the newspapers. These latter people see that rebels and traitors, like other criminals, must be kept under restraint for the public safety and general welfare:—and they vote accordingly, in spite of theories and abstractions.]

☞ The Washington Chronicle professes to believe that the President is about to change his policy, but those *friends* of the Administration who have *access* to the Executive, declare that he has no such intention, and that he will favor the ratification of no Constitutional amendment that is not adopted by a Congress where all of the States are represented.—*Exchange.*

Exactly so: he aims to give the leading rebels power to amend the Constitution, with the certain knowledge that they *will not do it.* But the people have a voice in the matter, and they do not endorse such suicidal policy.

☞ George Francis Train withdraws from the canvass as a candidate for Territorial Delegate in Congress from Nebraska, for reasons that are thus set forth:

"I am told to-day that money is wanted for carriages to bring up the voters, and to scatter among the beer shops and the groceries. Any spare money I may have I prefer to devote to education and Christian charities. Purchasing votes debases the franchise and demoralizes the people. I have lectured too often for the Irish Father Mathew Societies to go back on them by treating the voters. No wife, no little children, shall have reason to complain of a drunken husband or father on election day on my account."

Very much to George Francis Train's credit, is this declaration,—and his own personal appearance of health and vigor, is one of the strongest arguments in favor of total abstinence from liquor and wines, tobacco and opium.

☞ Rev. E. D. Kinney of Darien, Ct., preached his eight thousandth sermon Aug. 12, and the following Sabbath completed forty years since he began preaching. During his ministry he has seen eighty-three revivals of religion, in which three thousand souls were converted.—*Exchange.*

A long ministry, and according to the statistics, active and successful. The positiveness, with which conversions are numbered, is remarkable, if conversions be understood in the sense of salvation "from our sins and from God's anger," as Dr. Watts phrases it. If understood in the sense of the Book of Acts, Peter's converts at the day of Pentecost, were equal to all of these; as they that gladly received the word and were baptized, numbered 3000 souls.

WASHINGTON ITEMS.—The Washington special of the Boston Journal says:

I am enabled to say upon high authority that Hon. Edwin M. Stanton has in writing requested the President to relieve him of his position as Secretary of War, and that Mr. Stanton will be sent to Spain as Minister of the United States in place of Mr. Hale.

Lieut. Gen. Sherman will be requested to assume the duties of the War Department as Acting Secretary of War.

The Government printing office has established eight hours as the regular day's work from the present time until spring. This will add 20 per cent. to the labor expense of the Government.

The news of the defeat of Gen. Escobedo by Mejia is not believed here. The last dates from the City of Mexico received here were up to the 30th of September. Gen. Mejia was then about starting from Mexico city for San Louis Potosi. It was utterly impossible that in fifteen days he could have marched from the City of Mexico to Matamoras, a distance of nearly 800 miles, and have captured that city and the news of it been received.

There is no reason to doubt the authenticity of M. Elom's letter to Maximilian, published in Monday's papers.

SINGULAR CIRCUMSTANCES.—A sad case of family bereavement occurred at Baltimore last week. On the 7th inst. a daughter, 11 years old, of Mr. Wendel Sayder, died of scarlet fever. Two other daughters, aged 18 and 20 years, attended the funeral, and shortly after their return home were attacked by a similar disease. The elder partially recovered, but the younger, on Saturday evening, was in a dying condition. The elder sister approached the bed of the dying girl, and immediately fell to the floor lifeless, and before morning the spirit of the other had departed. Two other daughters are dangerously sick with the same disease.

— Santa Anna denies the story of his purchasing 10,000 Enfield rifles.

☞ On Monday the Mississippi Legislature met in extra session. The Governor's message says necessities compelled him to call them together. There was no special emergency, but a general exigency, resulting in the altered and deranged condition of our Federal relations and domestic affairs of the States. The removal of the negro troops from the State, and transfer of the Freedmen's Bureau to officers of the regular army, are subjects of congratulation. He deplores the state of the country, encloses a copy of the constitutional amendment, but presumes the mere reading of it will cause its rejection. He recommends the admission of negro testimony in all the courts, and requests provision to be made for the education of indigent children of Confederate soldiers, and for the relief of destitute and disabled Confederate and State soldiers. [Not a very promising kind of reconstruction.]

☞ An Augusta, Georgia dispatch of Tuesday, says a freedman was shot in Columbia county last night. The outrage originated from a difficulty with a white man which the negro reported to General Tillson, who advised him to seek redress from the civil authorities. A party of white men surrounded his house last night and murdered him while he was attempting to escape. The citizens are indignant at the outrage. A military force has been sent to arrest the perpetrators. Several Jayhawkers have been arrested by the military.

There has been a slight frost in the vicinity. The weather is favorable for the cotton crop, which is looking better.

☞ The New York Herald, in a review of the recent elections, says:

"We find, then, on looking over the field, that the last remnant of the democratic party is utterly and totally annihilated. The silly attempt to revive that organization on the strength of dissensions in the republican ranks has proved a signal failure. Everywhere it has been scouted by the people. The aid of the federal patronage has been powerless to impart to it even a temporary vitality. It has not a foothold in a single State government. Out of sixty Representatives to Congress it elects ten, or at the outside twelve. The democratic party is, therefore, as dead as Julius Cæsar."

☞ A Nashville, Tenn., dispatch of Oct. 16 says—"The rumors of an outbreak among the negroes are unfounded." When first published, we suggested that they were electioneering canards, designed to help the Johnsonian cause in the States which have just voted.

☞ The Lawrence American says that the Arlington Mills will be rebuilt as soon as the ruins can be cleared away, and the proprietors hope the works will be ready to run in two months. The building will be of wood, 50 feet wide and 144 long, and four and a half stories high. Due precautions will be taken to provide against accidents by fire.

THE GREAT FIRE AT QUEBEC.—At a public meeting called to devise measures of relief for the sufferers by the late fire, $15,000 were subscribed. A treasurer was appointed to receive further contributions.—The number of lives lost is now known to have been six. The number of houses burned is found to be even larger than previous estimates, and about 2300. Nearly 20,000 people are without shelter. The Skating Rink, drill sheds, Marine Hospital, Jacques' Cartier Hall and Lower Town Market are filled with people. The weather is very favorable.

CORN CROP.—The corn crop of the United States for the present year is estimated at the enormous amount of 1,039,000,000 bushels. It is stated that in the last twenty-five years the annual increase of the corn crop averaged four per cent., and in the three seasons last taken it is stated that: In 1840, 377,371,875 bushels; 1850, 592,671,104 bushels, and 1860, 830,451,707 bushels. Half the crop is grown in the Mississippi valley, north of Tennessee.

IMPORTANT DECISION ON BOUNTIES.—In the regulations promulgated from the War Department regarding the payment of bounties under the act of July 28, 1866, it is prescribed that the soldiers who enlisted for three years or during the war, who were discharged by reasons of the termination of the war, shall be considered as having served the period of their enlistment, and entitled to bounty under the act.

A SAD CASE.—J. D. Adams, Jr., formerly teller in the Pittsfield Bank, and who has since figured as a broker in New York, has been arrested in that city for numerous defalcations. His father, one of the most respectable citizens of Berkshire county, after having become seriously involved financially by the conduct of his only son, has from the same cause been reduced to a state of hopeless insanity.—*Springfield Republican.*

— Mrs. E. McDavitt, who resides on Washington street, Lynn, has recently gathered from two vines in her garden, twenty-seven pumpkins, weighing in the aggregate four hundred and forty-seven pounds. An old farmer says this is the largest yield of pumpkins that ever came to his knowledge.

NEW HAMPSHIRE ITEMS.

—— The Dartmouth College literary societies have invited Theodore Tilton to deliver the oration, and Mortimer Thompson the poem, at their next commencement.

—— On Monday, 8th inst., Mr. Lewis Barton, when returning from a fishing excursion, at Seabrook, N. H., was drowned by the capsizing of his boat; his companion escaped.

—— The Monadnock Mountain House at Troy, a three-story wooden building, nearly new, and owned by George D. Rich, was totally destroyed by fire on Thursday last. It was partially insured, and will be rebuilt as soon as may be. The family and workmen are living in the bowling alley. The house stood 2000 feet above the level of the sea.

BADGERING WITNESSES.—The English bench decided at Westminster, about a month ago, that it was a principle of common law that a counselor, in questioning a witness, should address him in ordinary tones, and in language of respect, such as is employed by one gentleman in conversation with another; that such lawyer has no right to question the private business or moral character of a witness, any further than it is apparent they absolutely affect his reliability, or touch the case in hand; and that a witness is not bound to answer questions put to him in an insulting or annoying manner. It is to be hoped that our judges will enforce a similar rule in the courts.

There is, really, no good reason why a lawyer should not be a christian gentleman; but these are some whose chief capital is brass, and their chief rhetoric impudence

NEBRASKA.—The official returns from this Territory are nearly completed. They show a Republican majority of between 600 and 700. The Legislature is two-thirds Republican.

LOUISIANA.—A circular from the State Department advices the Governor that schemes are on foot to induce freedmen to emigrate to foreign countries, especially to Peru, and suggests that any legal or moral means should be used to prevent the freedmen from being imposed upon.

VIRGINIA.—The Richmond Times says there is much gloom and despondency felt in that city at the fact, that although the season is nearly half gone, there has yet been nothing which deserves the name of a good fall trade.

The Times says it hears every day the most distressing reports of poverty and suffering in Richmond, some of which are so desperate as to be bordering on starvation.

SECRET SOCIETIES.—The Convention of the Congregational and Presbyterian Churches has appointed a committee "to consider the relation of secret societies to church fellowship, to report at the next annual meeting," with special instructions "to inquire particularly concerning the orders of Freemasons and Odd Fellows. If judged by their works of love and charity, neither association can have much to fear from such inquiry.

VINEYARDS AT THE WEST.—A Cincinnati correspondent of the New York Commercial Advertiser says:

"Our vineyard men are picking the grape berries from their stocks. Such lamentable sights I never saw before. Two or three good berries to about forty decayed ones! If each bunch never had more, one could stand it, but in spring there is always great promise which our summer effectually kills. Our vine dressers are giving it up, and every year diminishes the number of acres of vineyards, and restores them to rougher vegetation, such as corn and grass."

— The New Bedford Mercury says there is no probability that the Howland will case will be argued before May next, and that the end of the controversy may not be reached before 1870 [By that time the will of the contestant will probably be contested. How foolish, for an aged person, already rich, to plunge into a lawsuit in the vain hope of being richer.]

— A Washington special says that General Jeff. C. Davis reports to the Freedmen's Bureau a series of outrages perpetrated in Kentucky upon negroes by men in disguise, known as Regulators. Their acts are described as of the most fiendish description. The authorities cannot detect and punish them for want of identification.

— A young lady in Wisconsin had both legs and her collar bone broken by the kicking of a horse. Her hoops touched the horse while she was passing on the sidewalk. He began kicking, and one foot got entangled in her hoops.

— Geary's majority in Pennsylvania at the last advices was 16,852, which cannot be essentially varied by the official count.

— "Be thou chaste as ice and as pure as snow, thou shalt not escape using unhealthy compounds in your food," was a true maxim, until Herrick Allen's Gold Medal Saleratus came to our relief. Since using it, we feel that there is one article in the way of Saleratus that all can use with healthy results. We have almost cured our dyspepsia, and thanks to the Gold Medal Saleratus for it. Try it, and you will say with us, that perfection has been obtained, and the inventor has immortalized his name forever. Most of the Merchants have it.

PROCLAMATION.
TO THE PUBLIC GENERALLY.
WHEREAS, Being armed and equipped with such a stock of Fall and Winter Dry Goods as cannot fail to strike the beholder with bewildering amazement, and please the fancy of all lovers of the Beautiful; and Whereas, Having entered the field for the Fall and Winter Campaign of Trade, we are determined to repulse if not entirely vanquish the great system of monstrous prices and murderous profits, which has settled upon our whole country like a mighty incubus—sinking the poor into deeper depths of poverty, and dragging the affluent down, and even driving many to distraction—and Whereas, We have taken unusual pains in the selection of our New Stock, and have purchased it all at the Lowest Cash Prices which will enable us to accommodate the purchaser at the lowest possible figures: Therefore, We, A. Q. LEACH & CO., do here by issue this our proclamation, to dispose of our Stock upon such terms as must give satisfaction.
In witness whereof we have this, the 16th day of October, A. D. 1866, and of the independence of the United States of America the ninetieth year, hereunto placed our hands and caused the Great Seal to be affixed.

Hygienic Wine.

Approved by the Imperial School of Medicine, Paris.

Tested by the Committee on Chemistry of the American Medical Association, at their Convention, held in Baltimore, May 1st, 1866, and indorsed by its most prominent members.

This *IMPORTED* Tonic, recommended by the most eminent Physicians, is prepared in Paris from

PURE SHERRY!

Admits in its composition only Tonic, Aromatic, and Febrifuge substances. It *replaces* with a great superiority all other Bitters, which have for a base, nothing but Alcohol or inferior Whiskies. It is richer than any other Bitters.

Aromatic and Balsamic Principles,

and its taste is exquisite. Its soothing effects on the NERVOUS FLUIDS is most astonishing for, while it gently exhilarates, by re animating the functions of the DIGESTIVE ORGANS, and dissipates Languor, by gently refreshing and stimulating the brain, giving a healthy tone to the whole organism, it leaves behind none of the baneful influences that follow Alcoholic stimulants.

HYGIENIC WINE

is moreover

MOST DELICIOUS TO THE TASTE.

Possessing wonderful virtues in all cases of DYSPEPSIA and DEBILITY, and moreover is unexcelled as an

Appetizer.

IT IS NOT INTOXICATING IN THE LEAST.

MUSCAT PERLE, (Imported)

is a rare fine Wine of most delightful flavor. It is the Pure Juice of a Most Delicious and genuine GRAPE, and surpasses in excellence *any Tokay Wine in the Country.*

All who are solicitous about obtaining a *pure* and a superior Wine, will be delighted with

"Muscat Perle."

☞ Church people are solicited to examine this Wine for communion purposes. A Communion Wine should be *above all things* PURE! In the second place it should be MILD. "Muscat Perle" combines these two most essential qualities, and a trial will convince any one of its superiority over all other wines at present in the market.

These Wines are sold by all respectable Druggists and Dealers.

ALCOCK'S POROUS PLASTERS.

BEST STRENGTHENING PLASTER IN THE WORLD.

ALLCOCK'S POROUS PLASTERS relieve and assuage pain by calling forth the acrid humors from parts internal to the skin and general circulation—thus, in many cases, positively evaporating the disease. JAMES LULL, M. D.

There is nothing equal, in the way of a plaster, to the Porous Plaster of Mr. ALLCOCK. Everything is pleasant about them. They are the plaster of the day, and a fit type of our present advancement in science and art. In Asthma, Cough, Kidney Affections, Gout, Rheumatism, and local deep-seated pains, they afford permanent relief.

A. F. JOHNSON, M. D., on Topical Remedies.

From a personal knowledge of these plasters, we can state that they are decidedly preferable to any other in use. Wherever relief is to be obtained by the use of a plaster, we should recommend them.

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

MESSRS. J. N. HARRIS & CO.:—

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It causes the phlegm and matter to raise, without irritating those delicate organs (the Lungs), and without producing constipation of the bowels. It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state

THE PEOPLE'S FRIEND.

PERRY DAVIS' VEGETABLE PAIN KILLER possesses virtue, which not alone removes pain instantly, but regulates the stomach, gives strength, tone and vigor to the system. It is one of the medicines that is worth more than gold.

Don't experiment in testing new remedies, when you can buy the genuine Pain Killer, which everybody knows to be good.

The Woodstock (C. W.) Sentinel says: "It is a generally admitted fact that the medicine manufactured by Messrs. Perry Davis & Son has been instrumental in alleviating much pain, and giving relief to millions of suffering humanity. The medical faculty almost everywhere recommend the Pain Killer, and its reputation is now established as the most beneficial family medicine now in use, and may be taken internally and externally to expel pain." o1—dawim

Communication.

PORTSMOUTH, Oct. 18, 1866.

Editor Chronicle:—The communication from "Querist" in your last, reminds us that we are soon to be called upon to put in nomination some suitable person to represent the loyal people in the first District in this State, and also that we have men among us who are eminently qualified to fill the place, and whom the voters of this city and the adjoining towns would delight to honor. Why will not the voters of the several wards make this a point at their primary meetings, and send men to the Congressional Convention, who will bear in mind that we have in our city, such men as Hon. J. H. Bailey, Hon. Marcellus Bufford, E. A. Stevens, Esq., and others well qualified to represent us in Congress with credit to themselves and honor to their constituents. By all means let the delegates from this city be united on a Portsmouth man. QUILL.

☞ Mr. Blaisdell adds quite a lot of names this morning to the list of purchasers, of his favorite "Kearsarge Cook Stove." His success is deserved, for knowing full well how much a man may increase the sale of a good article by a liberal use of printers' ink, he is not afraid of inverting therein.

"INCIDENTS IN THE LIFE OF A BLIND GIRL."—Miss Mary L. Day, a young woman who lost her sight by exposure, at 11 years of age, has published a book with the above title, being her autobiography. The book is a straightforward tale of the experiences of one who once looked on the sunlight and beauty of creation, but was suddenly shut out from it. The authoress is out of health, and while travelling sells the work and pays her way. This is her only pecuniary dependence, and the reader who pays one dollar for the Book will not only have helped an afflicted one, but on reading it will be interested in many passages, and amused in not a few.

☞ Hartford publishers have been fortunate so far in offering works most popular with the public. Agents have made a corresponding profit therefrom. J. B. Burr & Co., announce in another column a historical engraving that will meet with great sale—"A council of War in '61."

There were some clauses of the Constitutional amendments which he would have altered, and he would have had all the States represented before passing them: still, they would pass. AMERICAN WATCH,

MADE AT WALTHAM, MASS., IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "nineres," "lepines" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have created an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of every grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

To the Debilitated and the Decrepid.

For general debility and exhaustion of the powers of nature, whether occasioned by sickness, fast living, constitutional decay, old age, or any other physical or mental cause, the one thing needful and indispensable is HOSTETTER'S CELEBRATED STOMACH BITTERS. When the fire of life seems to be absolutely dying out in the system, and the mind, sympathizing with the body, is reduced almost to a state of imbecility, the Bitters Restorative seems, as it were, to lift the sufferer out of the Slough of Despond, and recruit and reinvigorate both the frame and the intellect. An old farmer in the Valley of the Monongahela writes thus to Dr. Hostetter: "I can compare the operation of your Bitters upon me to nothing but the effect of a rain after a long dry spell in the fall of the year. The rain falling on the meadows starts the second crop of grass, and your wholesome medicine seems to have started a second crop of life and spirits in me." And this is truly the effect of this grateful and powerful preparation. Ladies of weak constitution, or whose strength has been impaired by sickness or age, find it a most efficacious and delightful Tonic, and it is administered with great success in marasmus or wasting of the flesh, to young children. In fact, it is a much safer and surer cordial for the nursery than anything advertised specially for that purpose. o14 1mo

Dr. Schenck's

NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street**, Boston, where he will be professionally every WEDNESDAY from 9 to 3. Every person complaining with Consumption or any disease leading to it, are invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars

Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part, also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

Morning Chronicle.

A PATHETIC APPEAL.—"Petroleum V. Nasby," with those recent political relations the world has become well acquainted, says that, at the instigation of "the very highest authority," he and an eminent statesman were employed to issue an address to the Democracy of the country. The thing has been done, and the following is about the pith of it:

"Shall we desert Andrew Johnson after all the trouble he hez bin to in gettin back to us? Shel we elect a Congress this fall so soaked in Ablishin—so filled with objeckshuns to our Southern brethren ez to refoose to receive em back into the seats which they vacated? Consider! The Southern Dimokracy hevn't and don't lay up nothin agin you. They are willin to forgive and forget. They failed, but they are willin to forgive the cause of the failyoor. They hev'n't got the government they wanted, but they find no fault with that, but are willin to take charge av the wun they hev been compelled to live under. Kin they offer fairer? The fate of war wuz again them; burying all hard feelins they extend to us Christchen charity and say here we are—take us—give us our old places. They hev bin chasened—their household gods hev bin destroyed and their temples torn down. Wun neighbor av mine lost two sons in the Confedrit army; another son wich he had refooced 1500 for in 1860, he was compelled to shoot, coz he woz bound to run away into the Federal army, and two octoroons wich he a dozen times refooced $2500 for, each, in Noo Orleans, he saw layin dead on the steps of a skool house in Memphis. Hez he suffered nothin? And yet he is willin to take a seat in Congress—forgettin all he hez suffered, and forgivin the cause thereof. What wickedness it is, which would further bruise sich a broken reed. Therefore, ez you love yourselves and hate the nigger I implore you to act. Take your choice av the platforms av the different States—vote ez a Johnson Unionist or ez a Dimocratic Johnsonian—but vote."

A LIBEL.—An exchange has this item: "It is said that the rose of Florida, the most beautiful of flowers, emits no fragrance; the bird of Paradise, the most beautiful of birds, gives no song; the cypress of Greece, the finest of trees, yields no fruit; dandies, the vainest of men, have no sense; and ball-room belles, the loveliest creatures in the world, generally ditto—only more so."

Important to the Afflicted.

DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practice, and a great field of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

NERVOUS WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotles, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, has combined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Important to the General People.

Next to the common articles of daily food, fruits, &c., there is nothing is more universal use than candies; and unhappily there is nothing made so subject to adulteration as they are by the adoption of the use of deleterious substances destructive to health. An exposure of these adulterations and their pernicious effects was recently made in this paper, which caused much speculation and no doubt warned many that of the only safe use to be made of candies and confections was to obtain those which are known to be pure. The knowledge that they are thus pure is what has made Southmayd's candies so popular, and what has so enhanced his business as to encourage him to build a splendid marble edifice in Temple Place, for his manufacturing and wholesale trade, while his retail business will be carried on at Horticultural Hall as usual. The finest and purest material, the use of none but the most innocent and innoxious coloring materials, and the neatest and most tasteful styles of manufacturing, constitute Southmayd's candies among the best, the safest, and the most popular in the market.—*Boston Journal.*

The Rae Patent Peat Machine,
(PATENTED MAY 23, 1866,)

GEMS OF BEAUTY.

Two of the greatest improvements of this age are
The Bemis Patent Shape.
AND THE
Patent Water Line Enameled Collars.

They are cut from *Linen Sash Note Paper*, and are superior in every respect to those of the heretofore most popular collars, and lower in price. The great and increased demand for these Collars is conclusive evidence of their merits, and upon trial they speak for themselves.

MONTGOMERY'S
MUSIC PICTURE FRAME, AND VARIETY STORE,
10 1-2 Daniel Street,
(Over Miss Beal's Dry Goods Store.)

The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr. Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Stools, Covers, Sheet Music, Fluting, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.

PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.

PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.

Having made arrangements with Prof. W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M. Guild & Co. The superior merits of the former have too long been established to need any comments. Of the latter, suffice it to say that the sale of over fifty of them within the last five years by Mr Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.

Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof. DAY. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive his just consideration by the same gentleman. D. H. MONTGOMERY.

VOL. XXIX. PORTSMOUTH, N. H. FRIDAY, OCTOBER 19, 1866. No. 93.

The Chronicle.

THE PRISON SYSEEM OF IRELAND.—The general system upon which the Irish prisons are conducted is pretty well understood. It is based upon the policy of rewards and punishments. The prisoners pass through four grades. The sentences are for a period of five years, and it is possible for a prisoner, by good behavior, to reduce it one year. As he shows himself deserving confidence, he is promoted from one class to the other, and the grade to which he belongs is indicated by a change of clothing, as well as by characteristic badges. When he has passed through all the grades, some honorable occupation is found for him, and he has every encouragement given to him to persevere in living on good terms with his fellow men.

PEAT.—The Bangor Whig says: "Owners of peat bogs are getting interested in their property just now, and are making anxious inquiries as to present or prospective values. If they do not commit the mistake of holding on for speculative prices, the article will, we think, come into general use as a fuel, and will bring down the price of coal in our markets. If extravagant prices are demanded, however, for the lands (now nearly valueless to the owners,) the whole thing will collapse, and the bogs may lay a hundred years before their contents are brought to a market."

SARDINES.—The French sardine fishery has been more successful this season than for the last ten years. At Douarnenez and Goncarneau, the principal centres of this species of industry, eight hundred and eighty-four boats caught upwards of one hundred and ten millions of sardines in the month of July alone, the sale producing 707,648 francs. At the end of the month one thousand sardines could be bought for two francs only.

— The patronage of the Administration, when used as Mr. Johnson uses it, is a powerful influence, but, though Philadelphia was packed and stuffed with Democratic votes, the Union majority was not sufficiently reduced to defeat a single Union Congressman. Thousands of men were given temporary employment in the Navy Yard, and we have a report that many of them were rebel soldiers.

Morning Chronicle.

Portsmouth N. H.

FRIDAY, OCTOBER 19, 1866.

☞ The Washington correspondent of the Boston Journal, (who it is said has access to the White House,) says:—

Whether Gen. Sherman can be spared from his duties in his department or not is yet an open question. He is known to be in favor of the President's policy, and Mr. Johnson desires to have Gen. Sherman act as Secretary of War until it can be determined who shall permanently succeed Mr. Stanton in the Cabinet.

Mexican affairs are assuming a definite shape, and information of the highest importance on that subject will be made public in a day or two. Treaties have been agreed upon, and are now under process of exchange. The French troops and Maximilian withdraw this year from Mexico. The United States assumes the protectorate over the republic, guaranteeing the French claims. In consideration Mexico cedes to the United States the peninsula of Lower California, and other territory south of our present southwest boundary.

Hon. Thomas Spooner, late Collector of the First Internal Revenue District of Ohio, has arrived here and is urged for the position of Commissioner of Internal Revenue, in place of the present incumbent of that office, Hon. E. A. Rollins. The grounds upon which this appointment is urged are purely political. It is admitted by all that there is no objection to Mr. Rollins on the score of either integrity, ability or efficiency.

THE SOUTHERN LOYALISTS AT THE TOMB OF LINCOLN.—The delegation of Southern loyalists visited the tomb of Lincoln at Springfield last week, escorted by a very large procession. Within the cemetery, a short distance from the entrance, and on the left of the road, was stretched a large placard, on which was inscribed the following words: "The murdered President—a political party prosper under God, the fruits of whose counsels ripened in this deed? Peace Democrats, this is your only contribution to the history of an age otherwise unparalleled in glory." A few yards further on the right was another with the words: "*In memoriam.* Let us this day resolve that the dead shall not have died in vain, that the nation shall, under God, have a new birth of freedom, and that a government by the people and for the people shall not perish from the earth!" The scene at the tomb is thus described in a special dispatch to the Chicago Tribune:

"The decorations were plain, but touching and suggestive. Extending over the top of the tomb, and hanging gracefully over the door, were festoons of leaves, of oak and maple, brilliant with the colors of autumn, and large wreaths of flowers, with crosses of immortelles and dahlias, hung over the door. On each side of the tomb were large rustic vases filled with flowers. Immediately over the door was inscribed the words 'Abraham Lincoln. Let his name be spoken but in reverence, for although he is dead, his great deeds live after him, and the lowly shall not hope in vain.'

The procession, with the flag at its head, marched slowly up the ascent and formed in double lines near the door, leaving a space in the centre, where, near the door of the tomb, stood Colonel C. T. Branscombe of Missouri, and Rev. Dr. Newman of New Orleans. A feeling of the deepest solemnity seemed to pervade the vast assemblage, and many eyes unused to weep were filled with tears, although no word had yet been spoken.

Colonel Branscombe then slowly read the following oath of consecration:

"Standing at the tomb of the illustrious dead, recalling his sublime words, his heroic virtue, his unswerving fidelity to the great trusts committed to him by the American people, we here make a new consecration of our lives, our fortunes and our sacred honor to the service of our country, and, with uncovered heads and uplifted hands, solemnly resolve, with the help of Almighty God, that we will never surrender the contest with despotic power until the fell spirit of rebellion shall be utterly crushed, until the right of free speech shall be maintained on every inch of American soil, and all men are established in the full possession of those inalienable rights which God has given, and to secure and protect which is the object of all good governments."

At the words 'with uncovered heads and uplifted hands,' the loyalists removed their hats and raised their right hands. The entire audience then kneeled, and Dr. Newman gave utterance to an impressive prayer after which the assemblage silently dispersed."

— In the class of Civil Engineers at Paris two young Americans stand first and third out of 113 students.

— Ten Rodman guns, 10-inch calibre, 12 feet in length, passed through Whitehall, N. Y., last week. They are to be placed in Fort Mongomery, at Rouse's Point.

— Miss Kate Bateman, the favorite actress, has abandoned the stage and married a young English surgeon, formerly connected with the Havre line of steamships.

Dea. Wm. H. Gibson of Canton, Mass. who was severely injured some weeks since on the Agricultural Branch Railroad, at the time his wife and daughter were killed, died on the 10th.

— A number of sudden deaths have recently taken place at Annapolis, caused by imprudence in the use of raw oysters, which the late rains in that section have rendered unwholesome. At the instance of eminent physicians, the corporate authorities have forbidden the bringing or offering for sale of oysters until the 1st day of November next.

NEW HAMPSHIRE ITEMS.

—— Wolfeboro' Academy has over 100 scholars.

—— Noah M. Proctor of Franklin, aged 51, committed suicide Wednesday morning; cause, domestic trouble. He leaves a wife.

—— Nearly 20,000,000 yards of cloth were manufactured in Manchester, last year, and 864,000 pairs of hose.

—— Mr. Stephen Smyth, in the 82d year of his age, died at Manchester on Tuesday:—an estimable man and highly esteemed—the father of our worthy and able chief magistrate Gov. Smyth.

—— The wife of Mr. Nathaniel Hayford has incontinently left his bed and board, taking with her in some mysterious manner, almost all of the household goods, leaving the house in a very unfurnished state.—This is the second wife he has lost in the same way. Truly, Mr. H. is very unfortunate.—*Wolfeboro' News.*

RAILROAD ACCIDENT—*Loss of Life.*—The express freight train from Portland for Boston, on the Boston & Maine Railroad, left South Berwick Junction at about half-past twelve o'clock Wednesday morning,—very long, nearly one hundred cars, drawn by two engines. There were a conductor, two engineers, two firemen, and two brakemen on the train. At half-past two, when within about a mile of the Haverhill depot, the train going at its usual rate, from some unknown cause the forward engine became detached from the train, and shot ahead, while the other was thrown violently off the track, dragging thirteen cars after it. The engine was made a wreck, six or eight cars passing over it, and demolishing the cars themselves.

The engineer, Isaac Horn, was struck by some piece of the gearing, inflicting a wound, from the effect of which he died in an hour. Mr. Horn was 30 years of age, and leaves a widow and two children in Charlestown. The fireman, Andrew S. Blodget, had both legs crushed, badly, besides being scalded about the shoulders, arms and hands. He died early the next morning, at Haverhill, and leaves a wife and three children who are residing in Charlestown. It is not known how the accident occurred, and the engine is so badly damaged that it was impossible to tell, but it is conjectured the axle of the engine broke and detached the coupling.

NEBRASKA.—There was an election in Nebraska on Tuesday of last week. The election was for both Territorial and State officers and for Delegate and Representative to the Fortieth Congress. The voters of Nebraska some time since adopted a State Constitution, and they are hoping for an early admission into the Union. To provide for the emergency of admission being refused them, however, they have elected two sets of officers, so as to be provided with men in authority whether the State is admitted or not. The Republicans have carried the State by about 500 majority in a vote of 10,000, and secured majorities in both Territorial and State Legislatures.—That is a considerable Republican gain over the vote at the last previous election, and, in case of the admission of the State, secures a gain of one Republican Congressman. The Territorial Delegate chosen was C. M. Marquette, and the Representative was Major John Taffe.

A LIBERAL OFFER.—The publishers of the new fortnightly magazine, announce that they will give to each purchaser of the number of "The Galaxy" for November 1st, which is now ready, a handsomely illustrated pamphlet book of 165 octavo pages, containing the first twenty-six chapters of "The Claverings," Anthony Trollope's latest and best novel. "The Claverings" is appearing in The Galaxy simultaneously with its publication in England, and will soon be completed. The book given away is equal in size and typography to novels which are ordinarily sold for 75 cents. The Galaxy for November 1st, with "The Claverings" extra, may be obtained at the leading newsdealers, or the magazine and the book will be sent by the publishers to any address on receipt of 30 cents. Address W. C. & F. P. Church, No. 39 Park Row, New York.

QUEBEC.—The Gov. General of Canada immediately after being notified of the sad catastrophe, ordered ten thousand rents to be forwarded to Quebec for the accommodation of the houseless sufferers.

RENTS.—A London correspondent says it will astonish rent payers in American cities to be informed that, in the nicest and healthiest parts of London, handsome three-story and basement, or eight room d houses, in perfect order, can be rented at from $250 to $300 per annum.

— The band of an expert printer travels nine miles in setting up 25,000 letters.

☞ Fourteen persons were killed, on Wednesday forenoon, by a boiler explosion at St. Louis. The boiler was in a turning shop; this was thrown down by the explosion, and two buildings adjoining. The rubbish immediately took fire.

☞ A fire in New York, Tuesday night, destroyed several stores in Washington and West streets. Loss $200,000.

GEN. SHERIDAN'S REPORT.—Maj. Gen. Sheridan, commanding the Department of the Gulf, has transmitted to Gen. Howard a report of the condition of the Freedmen of Louisiana for the quarter ending Sept. 30, 1866. The General states that the prospects of the cotton crop are gloomy. The heavy rains of August and the early part of September, together with the army or cotton worm in portions of the State, have affected the interests not only of the freedmen, but of the entire population of the State.

Many employers whose crops have been destroyed will not be able to pay their employees, and there appears to be a general desire to get rid of the responsibility of any longer maintaining employees, every pretext being sought for discharging them. Many of the men who were engaged to work for a share of the crops will be left not only destitute of the means of support the coming winter, but will be in debt to the owners of lands for supplies advanced to them during the summer. Complaints are frequent that the freedmen, after having labored faithfully from the date of their contracts (January 1, 1866,) until the crop was nearly ready to harvest, are being discharged and driven away, ostensibly on the ground of having been insolent. Frequent reports are made of cruelty, particularly in the northwestern parishes, where men go through the country at night disguised and take freedmen from their houses and whip and otherwise maltreat them. Homicides are frequent in some localities. Sometimes they are investigated by a coroner's jury, which justifies the act in some instances, and releases the perpetrator. In other cases, when the proof comes to the knowledge of the Agent of the Bureau, the parties are held to bail in nominal sums, but the trial of a white man for killing a freedman can, in the existing state of society in the State, be nothing more nor less than a farce.

The suspension of the issue of rations will cause much distress among a limited *class* of people in the State—the wives and children of those men who entered the service of the *United States* after the capture of New Orleans, and who were killed or have since died. In all the charitable appropriations by the parish authorities, these persons are excluded, and it is not seen how they can support themselves without aid from the Bureau. The location of homesteads by freedmen is progressing favorably, but it is questionable whether the freedmen will be allowed to remain peaceably upon the land. The contract system adopted by the Bureau in the States has proved to be well adapted to the interests of both planters and freedmen, under the supervision of the Quartermaster's Department.

[Congress should enlarge the powers of the Bureau, early in the session, and put it more out of President Johnson's reach.]

CHOLERA ATMOSPHERE IN CHICAGO. The cholera still rages in Chicago. A correspondent writes that the weather has been remarkable in that city for a week past. During that time the sun has scarcely made its appearance from behind the clouds, yet very little or no rain has fallen. The atmosphere is exceedingly humid, especially at night, when a blue vapor appears in the atmosphere, rising to the height of ten feet, while all above is clear. The wind during the whole period has been southeast, and it is just about cool enough to do without fire. The physicians attribute the spread of the cholera as an epidemic to the character of the atmosphere, and think there can be no permanent relief from it until a frost comes. Two eminent physicians—Drs. Hoph and Wimer—died of cholera on Thursday night of last week.

GEORGIA.—An Augusta dispatch of the 17th, says four white men charged with the murder of freedmen in Columbia, on Tuesday morning, were arrested by the military to-day and committed to jail. It is understood that they will have an examination to-morrow before the Judge of the County Court now in session.

Gen. Tillson will publish a communication to-morrow, stating that the civil authority of Henry county having failed to protect the freed people and the Agent of the Freedmen's Bureau, he will maintain a garrison in said county until the conduct of the people and the action of the civil authority will warrant the belief that the laws will be enforced, and all classes of citizens protected in their rights of person and property.

— We would again call attention to this indispensable article of Gold Medal Soap, for the laundries and the ladies. What the dear creatures will do when the manufacturer, in the course of human events, steps into another sphere of being, we are at a loss to imagine. Make the most of him while you have a chance to do so, for nature, art or science can never produce a second J. Monroe Taylor Gold Medal Soap. We cannot say half enough in its favor. After using, you will say the same. 19

PROCLAMATION.

TO THE PUBLIC GENERALLY.

WHEREAS, being armed and equipped with such a stock of Fall and Winter Dry Goods as cannot fail to strike the beholder with bewildering amazement, and please the fancy of all lovers of the Beautiful; and Whereas, During entered the field for the Fall and Winter Campaign of Trade, we are determined to repulse if not entirely vanquish the great system of monstrous prices and murderous profits, which has settled upon our whole country like a mighty incubus—sinking the poor into deeper depths of poverty, and dragging the affluent down, and even driving many to distraction;—and Whereas, We have taken unusual pains in the selection of our New Stock, and have purchased it all at the Lowest Cash Prices, which will enable us to accommodate the purchaser at the lowest possible figures

Therefore, We, A. Q. LEACH & CO., do hereby issue this our proclamation, to dispose of our stock upon such terms as must give satisfaction.

In witness whereof we have this, the 16th day of October, A. D 1866, and of the independence of the United States of America the ninetieth year, hereunto placed our hands and caused the Great Seal to be affixed.

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-crispot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discoloration spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a speciality has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

THE GREAT FEMALE REMEDY FOR IRREGULARITIES

These Drops are a scientifically compounded fluid preparation, and are free from the pills, powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world. for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions, stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

Hygienic Wine.

Approved by the Imperial School of Medicine, Paris.

Tested by the Committee on Chemistry of the American Medical Association, at their Convention, held in Baltimore, May 1st, 1866, and endorsed by its most prominent members.

This *IMPORTED* Tonic, recommended by the most eminent Physicians, is prepared in Paris from

PURE SHERRY!

Admits in its composition only Tonic, Aromatic, and Febrifuge substances. It *replaces* with a great superiority all other Bitters, which have for a base, nothing but alcohol or inferior Whiskies. It is richer than any other Bitters in

Aromatic and Balsamic Principles,

and its taste is exquisite. Its soothing effects on the NERVOUS FLUIDS is most astonishing for, while it gently exhilarates, by re-animating the functions of the DIGESTIVE ORGANS, and dissipates Languor, by gently refreshing and stimulating the brain, giving a healthy tone to the whole organism, it leaves behind none of the baneful influences that follow Alcoholic stimulants.

HYGIENIC WINE

is moreover

MOST DELICIOUS TO THE TASTE.

Possessing wonderful virtues in all cases of DYSPEPSIA AND DEBILITY, and moreover is unexcelled as an

Appetizer,

IT IS NOT INTOXICATING IN THE LEAST.

MUSCAT PERLE, (Imported)

is a rare fine Wine of most delightful flavor. It is the Pure Juice of a Most Delicious and generous GRAPE, and surpasses in excellence *any Table Wine* in this country.

All who are solicitous about obtaining a *pure* and a superior Wine, will be delighted with

"Muscat Perle."

☞ Church people are solicited to examine this Wine for sacramental purposes. A Communion Wine should be *above all things* PURE! In the second place it should be MILD. "Muscat Perle" combines these two most essential qualities, and a trial will convince any one of its superiority over all other wines at present in the market.

These Wines are sold by all respectable Druggists and Dealers.

ALCOCK'S POROUS PLASTERS.

BEST STRENGTHENING PLASTER IN THE WORLD.

ALLCOCK'S POROUS PLASTERS relieve at a glance pain by calling forth the acrid humors from parts internal to the skin and general circulation —thus, in many cases, positively evaporating the disease. JAMES LULL, M. D.

There is nothing equal, in the way of a plaster, to the Porous Plaster of Mr. ALLCOCK. Everything is pleasant about them. They are the plaster of the day, and a fit type of our present advancement in science and art. In Asthma, Cough, Kidney Affections, Gout, Rheumatism, and local deep-seated pains, they afford permanent relief.

J. F. JOHNSON, M. D., on Topical Remedies.

From a personal knowledge of these plasters, we can state that they are decidedly preferable to any other in use. Wherever relief is to be obtained by the use of a plaster, we should recommend them.

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

MESSRS. J. N. HARRIS & CO.:—

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs and all the early stages of Lung complaints, I believe it to be a certain cure; and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It causes the phlegm and matter to raise, without irritating those delicate organs (the Lungs), and without producing constipation of the bowels. It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state

Yours respectfully, A. W. SCOVILL.

Don't experiment in testing new remedies, when you can buy the genuine Pain Killer, which everybody knows to be good.

The Woodstock (C. W.) Sentinel says: "It is a generally admitted fact that the medicine manufactured by Messrs. Perry Davis & Son has been instrumental in alleviating much pain, and giving relief to millions of suffering humanity. The medical faculty almost everywhere recommend the Pain Killer, and its reputation is now established as the most beneficial family medicine now in use, and may be taken internally and externally to expel pain." o1—dawlm

POLICE COURT, Oct. 17.—*Odell, J.*—John Schepalla, arrested on a charge of drunkenness, was held to be innocent of the offence and was discharged.

Martin Johnson, for assault on Margaret Johnson, was fined $1 and costs $4 97, and gave bonds of $20 to keep the peace.

Thursday, Oct. 18.—Wm. Leonard and Wm. Golder, having each and severally indulged in a "drunk" were allowed each and severally to pay $6.86 for that indulgence.

S. J. COURT, Oct. 17.—In the case Piscataqua Exch. Bank vs. Albert A. Hayes, a verdict was returned for the defendant.

The case of Claggett vs. Drew, in review, was taken up. Hodgdon for plaintiff, Goodall for defendant.

THEATRICAL.—An entertainment will be given at the Temple Monday evening next, Oct. 22d, of an attractive character. The beautiful and accomplished Miss Helen Western, who was a favorite with our people in former days, when she was here with Mr. English, since which she has gained a great reputation on the stage, will appear as Miami, the wild huntress of the Mississippi, in the drama of the "Green Bushes." She will not fail to draw a crowded house, nor will the house fail to be delighted with the performance.

☞ We would again call attention to Mr. Barnabee's card, proposing a series of three Concerts in this city. That we should have these concerts seems to be a general desire, but we will state that they will *not* be undertaken until a sufficient number of tickets are subscribed for to cover expenses. They should be made profitable to so popular a son of Portsmouth, as they will assuredly be pleasureable to the hearers.

☞ Wednesday, Oct. 17th, witnessed the closing of the Base Ball season in Kittery. By invitation from the Whipple Club of K, the Rockingham Club of our city played a match game on the grounds of the former. The fine weather, and the interest felt in this popular game, induced many from our city, and crowds of residents of Kittery, to witness the contest. Play was called at 2 P M. and was concluded at 5:15; after which the nines, with invited guests, proceeded to the Piscataqua House, where tables teemed with an inviting repast. An hour happily spent in testing the superior quality of the viands was followed by brief speeches from the officers of the two clubs and other gentlemen. Later in the evening, Armory Hall presented a lively appearance, where were gathered the "Fair" of Kittery and our city, to the number of a hundred, to trip the light fantastic toe. Dancing was not concluded until the bell in the tower told of 3 o'clock, when the parties wended their ways homeward. All were highly satisfied with the generous entertainment given by the Whipple Club, which was a successful closing of the ball season in Kittery. We learn that a match game, within a few days, by the 1st and 2nd nines of the Rockingham, will close their play for 1866.

The Atlantic House will be kept open the entire season to accommodate visitors.

— A convention of the colored citizens of New York assembled at Albany on Tuesday to discuss the proper policy to be pursued by this class of our population. The nomination of Gov. Fenton was indorsed, and the eight thousand negro voters of the State were urged to support the ticket.

— It is stated that the cotton crop of the sea islands of South Carolina and Georgia, from whence the fine and extra fine grades of the great staple have usually been obtained, will not reach, the present season, even with a late frost, over 18,000 or 20,000 bales. There is, indeed, very little present cultivation of those islands, and an early total disappearance of the former fancy qualities of cotton is looked for.

— Elmore F. Studley, the young clerk in the New Bedford Post Office who was detected in purloining letters, pleaded guilty when arraigned before the U. S. District Court and had his case continued for sentence, being meanwhile liberated on $2000 bail.

NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street**, Boston, where he will be professionally every WEDNESDAY from 9 to 3. Every person complaining with Consumption or any disease leading to it, are invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part, also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint.

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1 50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

REASONS WHY THE

AMERICAN WATCH,

MADE AT WALTHAM, MASS.,

IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "anchers," "lepines" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

Morning Chronicle.

OCTOBER.

Sweet is the voice that calls
From babbling waterfalls,
In meadows where the cowny seeds are flying;
And the soft breezes blow
And eddying come and go
In faded gardens where the rose is dying.

Among the stubbled corn
The blithe quail pipes at morn,
The merry partridge drums in hidden places,
And glistening from the grass
Above the rosy stream
Where busy spiders spin their filmsy laces.

At eve, cool shadows fall
Across the garden wall,
And on the clustered grapes to purple turning,
And purple vapors lie
Along the eastern sky
Where the broad harvest moon is redly burning.

Ah! soon on field and hill
The wind shall whistle chill,
And patriarch swallows call their flocks together
To fly from frost and snow,
And seek for lands where blow
The fairer blossoms of balmier weather.

The pollen dusted bees
Search for the honey-lees
That linger in the last flowers of September,
While plaintive-mourning doves
Coo sadly to their loves
Of the dead summer they so well remember.

The cricket chirps all day,
"I, fairest summer, stay!"
The squirrel eyes askance the chestnut browning:
The wild fowl fly afar
Above the lonely lagoon
And hasten southward ere the skies are frowning.

Now comes a fragrant breeze
Through the dark cedar trees
And rouses about my temple fondly fingers.
In gentle playfulness
Like the soft caress
Bestowed in happier days by loving fingers.

Yet though a sense of grief
Comes with the falling leaf,
And memory makes the summer doubly pleasant,
In all my autumn dreams
A future summer gleams
Passing the fairest glories of the present!

AMERICAN AND FOREIGN PATENTS.
E. H. EDDY,
Solicitor of Patents.
Late Agent of the U. S. Patent Office, Washington, under the Act of 1837,
78 State Street, opposite Kilby Street, BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on reasonable terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting one Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE ONLY TRUE ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
Unequaled facilities, a large library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. E. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending.* Such numerical evidence of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twenty* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

HERRICK'S *Chalong Kid Strengthening Plasters*, that cures pains, weakness, and distress in five hours, and that has stood the test of experience thirty years, should not confound them with the miserable imitations of sensible paper, and other worthless preparations called Plasters, offered for sale by all stores, and often given in place of HERRICK'S. **Dr. Herrick's Kid Plasters and Sugar Coated Pills** are used in the U. S. Army and Navy, are introduced into most Hospitals, Asylums and Prisons, and marble communities with their wonderful cures. Five thousand physicians and surgeons are and endorse them. Call for the genuine that you get none but HERRICK'S KID PLASTERS AND SUGAR COATED PILLS. Sold by dealers everywhere.

"Dr. J. Collis Browne's Chlorodyne."
This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body. Thousands of persons testify to its wonderful effects and medical men extol its virtues, using it in great quantities in the following diseases: Consumption, Asthma, Bronchitis, Whooping Cough, Neuralgia, Diarrhœa, Rheumatism, Spasms, &c., &c.
CHOLERA.—Earl Russell communicated to the College of Physicians and J. T. Davenport that he had received information to the effect that the only remedy of any service in CHOLERA was CHLORODYNE. (See Lancet, December 31, 1864.)
CAUTION.—None genuine without the words "Dr. J. COLLIS BROWNE'S CHLORODYNE" on the Government stamp. Overwhelming medical testimony accompanies each bottle. Sole manufacturer, J. T. DAVENPORT, No. 33 Great Russell Street, Bloomsbury, London.
HENRY SMITH, Special Agent, No. 37 Nassau Street, New York. Sold by all Druggists. $1 and $2 per bottle. Orders by letter promptly attended to.

Important to the General People.
Next to the common articles of daily food, fruits, &c., there is nothing in more universal use than the tobacco plant. Unhappily there is nothing made so subject to adulteration as they are by the adoption of the use of deleterious substances destructive to health. An exposure of these adulterations and their pernicious effects was recently made in this paper, which caused much speculation, and no doubt warned many that the only safe use to be made of candies and confections was to obtain those which are known to be pure. The knowledge that they are thus pure is what has made Southmayd's candies so popular, and what has so enhanced his business as to encourage him to build a splendid marble edifice in which to manufacturing and wholesale trade, while his retail business will be carried on at Horticultural Hall as usual. The finest and purest material, the use of none but the most innocent and innoxious coloring materials, and the neatest and most tasteful styles of manufacturing constitute Southmayd's candies among the best, the safest, and the most popular in the market.—*Boston Journal.*

NOT FIT TO BE MADE.—Speaking of the nomination of John Morrissey to Congress by the Democrats of New York, the Tribune says "the fact is but an ordinary result of the corruption of New York politics. Though there have been worse men sent to Congress, yet public decency and the dignity of the National Legislature have seldom been so boldly outraged. To select an ex-prize fighter as a legislator is disgraceful enough, but Morrissey, should he go to Congress, will owe his nomination to the faro-bank."

A VENERABLE LADY.—A correspondent of the Fall River News says that Mrs. Sally Attwood, aged 105 years last August, resides at the Padelford place, near Myrickseville, East Taunton, enjoying remarkable health and physical power. Mr. Levi Peirce who resides in her house, and carries on her farming operations, says that he can scarcely detect any failure in her strength, activity, or intellect during the nine years he has been her tenant. She not only entertains but ushers in her numerous callers, visitors and friends, and a rap at her door is quickly answered by her presence, friendly greeting and cordial welcome. She distinctly remembers the burial of her sister, who died five years before the war of the Revolution began, and the alarms consequent upon that conflict, the anxieties of mothers and terrors of children are vividly alive in her memory. The terrible fright suffered by the family on the memorable night the British troops attempted to burn New Bedford, she says she never can forget; her father, a captain in the local militia, being called up at midnight, by the sonorous voice of the parish minister, who sitting upon his horse in the road, cried before each farm house, "Turn out! turn out!! boys! the British have landed and burned New Bedford, and will soon be here!"

FUNNY.—We suppose it is all right, but the knowing ones did laugh, the other day, to see a returned soldier pay a life insurance agent for a first-class (*perfect health*) policy, with money he had received only the day before from the selectmen of his town as State aid, in consideration of his being completely broken down with a complication of half the ills that flesh is heir to, all of which he contracted "in the line of his duty."—*Newburyport Herald.*

Morning Chronicle.

Portsmouth N. H.

SATURDAY, OCTOBER 20, 1866.

☞ *A Baltimore special dispatch to the Traveller says:—*

The Union men of this city believe that there is a conspiracy, of which Governor Swan of Maryland, is the leader, to remove the Police Commissioners on account of their refusing to appoint Judges to receive the votes of rebels at the coming election of the constitution and laws of Maryland.

This conspiracy will be most strenuously resisted by the Unionists. Governor Swan undoubtedly expects this, and when it is made it is believed that by a previous agreement with President Johnson a portion of the regular army will be sent to Baltimore to assist Governor Swan in carrying out his peculiar ideas. The President, however, may previously become convinced that the loyal people of the North, who crushed the rebellion in Maryland five years ago, will not submit to this, but will resolve again to protect her people in their rights by the constitution and laws, and the difficulty thus be avoided. If he does not come to this conclusion and endeavors to forcibly carry out Governor Swan's conspiracy, a conflict will be inevitable.

The N. Y. Tribune adds these remarks:

In these days of rumor it is well to doubt, and did we not have a trustworthy source, the statement from Baltimore that Andrew Johnson intends to call out the regular army, to remove the Police Commissioners of that city, and support Gov. Swan in his attempt to force Rebel votes into the polls, we should not print news so alarming. This would not be worse than the protection given to the Rebels of New Orleans. Yet the elections should have taught Mr. Johnson the spirit of the loyal North. We cannot believe that he would dare to take this step, and doubt that he has seriously intended it.

☞ *A Wilmington, N. C., dispatch of Thursday, says:—*

The election for State officers took place in this State to-day. The following is the vote for Governor in this city: Worth (Conservative) 218, Dockery 2. One Senator and two Representatives, all Conservatives, are elected to the Legislature by a nearly unanimous vote. Everything passed off quietly.

Exactly. Men loyal to the U. S. government, and to liberty and equality, are either afraid to vote, or count it useless, under the reign of policy there.

☞ A Baltimore committee appointed to visit Annapolis and present to Gov. Swan a petition for the removal of the Police Commissioners, together with affidavits charging them with official misconduct, had an interview with the Governor. Gov. Swan replied that he would examine the papers and act in the matter promptly. It is understood that he will summon the Commissioners to answer the charges this week.

This looks like preparation for mischief.

The Quebec Fire. — The Quebec Chronicle says, "like many other calamities of the sort, the fire originated in the criminal carelessness attendant on the prolongation of orgies of carousing and drunkenness, far into the night. It broke out in a house in St. Joseph street, used as a half grocery, half groggery, where numbers of the low characters, who abound in the neighborhood, were in the habit of resorting at night, for drinking and card playing. On Saturday night a number of them continued their carousals far into the Sabbath morning. When first observed, between half-past four and 5 o'clock, the flames were bursting out over the door of Trudor's shop or bar room in the lower flat. They were discovered by the police, who raised the alarm, and their number soon being augmented by a few persons, passing on their way to church for their morning devotions, the door was burst in, and an attempt made to stifle the fire, but the opening of the door served to give vent to the flames, and but a few minutes had elapsed when the whole interior of the house, a wooden one, was in a blaze—the inmates having only time to save themselves.

A private dispatch estimates the loss to the Quebec Fire Insurance Company at $400,000; Liverpool and London, $50,000; Royal, $5000; The British America, Western of England, North British and Imperial offices also lost heavily.

The Montreal Gazette, speaking of the fire, says:

The people of Quebec have themselves alone to thank for this misfortune. They have been warned over and over again of the danger which threatened them, the fearful risk they have been running. Their supply of water has not for years past been so good as it should have been, and the system of utilizing it for fires has been almost worse than no system at all.

☞ At Portland, Me., Oct. 18, two bodies—those of Mr. Slavin and his son, nine years of age—were found in the ruins of a tenement house which was burned the previous night, they having perished in the flames.

☞ Senator Sumner was married in Boston, Thursday, to Mrs. Alice Hooper.

NATURE'S PICTURES.

A morning stroll through the verdure-shaded and rustic-fenced Avenue that leads to our city of the dead, then up Lincoln Hill and across the pasture land, brings you to the craggy heights which bear the name of "Lookout Mountain." It is early morning; yet the sun is up, and the dazzling rays are flooding the fields and pastures with a glow of light, which makes the dew-drops sparkle on each bush and flower, studs the waving grass with glistening diamonds, and, like a silver sheen, spreads itself over the surface of the winding river, which stretches out almost at your feet. It is here that nature gives to the lovers of the beautiful one of her finest paintings: field and forest, meadow and waving crops, river and ocean, are spread out before you—a panorama of beauty. Beyond rise the roofs and spires of the city, half hid among the tree tops. The Lower Harbor discloses its forest of masts, while the distant shores of the river show here and there quiet hamlets and secluded farm houses.

In the dim distance, stretching all along the horizon, rise the shadowy hills of Deerfield, Northwood and Strafford; and as you gaze off on that chain of heights, thought carries you away to the crystal pinnacles which lie beyond,—and there comes to you swift visions of Mount Washington, and Willard, and Kearsarge, and Tuckerman's Ravine, and Franconia Notch, and a thousand other beauties which lie hid among the granite peaks so far away.

At another angle your eye rests upon *Agamenticus*, which, like a great green wave, surges up against the northern sky, the sight of which brings to mind days when you climbed its rough sides, and happy hours passed at the quaint old mansion at its base, and drives to the sea-side and the Cliff and Roaring Rock, and pleasant strolls on those old country roads, and through fields and forests, and by the rock-bound shores of the Cape.

Looking off to the eastward, you just catch a glimpse of blue ocean, through a gap in the woods that crown the cliffs of Sagamore. Whale's Back and Fort Lighthouses are seen, and beyond lie Smith's Isles, with a fleet of white sails studding the horizon, and an occasional steamer's pipe, leaving behind a comet-like tail of black smoke. To the south are maple woods, in their autumn garniture of crimson and gold, leafy copses of varied hues, and a wilderness of groves, stretching through the valleys and up the sloping hillsides—Natures own garden.

Beyond the hay-field that stretches away at your feet, and the dusty road winding through the hollow and over the hill, lies the quiet Cemetery, with its sea of graves; and as you look down on that garden, watered by so many tears, and muse on the shortness of human life, there come to you fond recollections of those who are laid there, but who once took part in the busy scenes of earth. Sweetly they rest in their lowly beds, while the soft winds of summer and the chilly blasts of winter that sweep through the trees above them chant funeral requiems to their memory.

And more—at your feet just below, over the pasture wall, stands Lincoln Hill, a spot dear to thousands (under its old name of Packer's Pasture), who in school-boy days made it their play-ground on Wednesday and Saturday afternoons, in the warm days of summer time. It seems but yesterday that Nature in its wildness held supreme sway over the storm-beaten ledges and apparently sterile pasture land; but how changed the scene! It would almost seem as if by enchantment some magician's wand had been waved over the hill and valley, changing the waste of rocks into a garden of flowers, and turning the barren lands into a plain of beauty. The moss-covered ledges, which for centuries reared their craggy heads to the skies, have been torn away by the workmen's drill and bar, and in their places are seen terraced banks, sloping lawns, smoothly-graded carriage-ways, graveled walks, tastefully arranged gardens, fountains and bright flowers. The heath, which was once o'erspread with the wild juniper, and ferns and briars, now teems with ripening harvests.

On the summit of the hill, standing out in strong relief against the clear sky, is a picturesque and elegant cottage. This fine specimen of a comfortable suburban residence, with its clustered gables, its stacks of icon-capped chimneys, its commanding cupola, its verandas and piazzas, its dormer and bay windows, together with its architectural and symmetrical building, grouped together in one harmonious whole, is a picture in itself,—framed in by beautiful vistas and charming landscapes—ever changing as the seasons change. It is an old adage and a true one, that "he who builds a fine, architectural house, is a public benefactor;" for he not only derives pleasure and gratification in his embellished mansion, but the whole community in which he resides is benefitted thereby. It would seem that here one might "sit and sing themselves away to everlasting bliss," for it is certainly a spot which betokens tranquil seclusion, calm and holy quiet, and peaceful rest. Indomitable energy and untiring perseverance on the part of the indefatigable proprietor has accomplished what to many would have been a hopeless undertaking and an impracticable task.

At the foot of the hill stands a row of giant elms. A century or more of years are their ages, but still in calm and venerable power they stretch their weird arms to heaven, and the young leaves drink in the light and strengthen and grow fair. Like grim sentinels they seem to guard the approach to the grounds above. Those who planted them, and all who grew up with their growth and rested beneath their cooling shade in the summer of long ago, have passed away; but the old elms live on, monuments of the past.

To many, this picture of nature's painting is familiar; and there are perhaps many, who enjoy the beauties of nature, who have not gazed on this scene, the most picturesque in this vicinity; and to those, this sketch of a morning's stroll, may prove of interest and serve to attract. J. H. H.

☞ A terrible hurricane commenced in the Bahamas on the 30th ult., and lasted two days. About half the town of Nassau was destroyed by the storm. Houses were blown down, roofs carried away, and trees uprooted, Trinity church was demolished, the roof of the marine hospital entirely blown off, and the Government House lost part of its roof. Vessels were driven ashore and knocked to pieces, and wharves demolished. The neighboring islands suffered in some degree. A large number of vessels have been lost or damaged.

The hurricane is the severest which has been experienced since 1813.

☞ A Washington item says, the ticket holders in the Vincent & Butterfield gift concert enterprise are unable to obtain information of the result of the drawing, which took place several weeks ago. Considerable money is invested in this affair. The members of the firm have left the city, and their office is closed here. No one supposes there will be any distribution of prizes what ever.

☞ In New York the surviving sailors of the Evening Star have made statements concerning the unseaworthiness of that vessel and say that she went to sea with but little more than half a crew.

Gold.—The Traveller says, the New York ring, which cleaned the market at 144 a 145, can now well afford to sell at the current rates, and even lower, if its members found their operations interfered with by speculators in other cities. From bulls they may become bears, and crush small holders by flooding the market.

Some Boston leading speculators have already interfered with the New York "ring," much to the annoyance of its members, and are making arrangements with a view to defeat a contemplated "corner."

Still the demand for cash gold will be active during the next six weeks, and those who may require it with which to pay duties on foreign imports, will be at the mercy of the New York "ring," unless dealers in other cities break up the combination. There is said to be gold enough in the country to meet all the wants of trade in the vicinity of 130, and that the present price has been brought about entirely by New Yorkers.

☞ The New York ring, it is said, are easing the market a little to absorb the floating gold and November coupons at as low rates as possible, and that when this is accomplished they will again bull the market. Their next upward movement will probably be 160, unless the importers of foreign merchandise take timely warning and countermand their orders. A few have done so, but such a movement, to be effectual, must be general.

— On Wednesday afternoon about one o'clock, as Miss Ann Chadwick, a resident of Salem, was walking up Essex street, in that city, she suddenly dropped to the sidewalk. Medical aid was immediately called, but the vital spark had fled. Heart disease was the cause. Her age was about 65 years.

— Would you save yourself from suffering after eating, or from acidity of the stomach, or burning sensation, or indigestion? Use Herrick Allen's Gold Medal Soleratus. Never use soda if you can procure this article. It will strengthen weak stomachs and relieve dyspepsia; is a saving in the quantity of flour, &c., &c. Try it. Grocers and, Druggists sell it. Reform in England.—It is reported that while the English radicals are quarreling among themselves, clamoring for residential suffrage and the ballot, and repudiating Bright and Gladstone for being too conservative, Disraeli is preparing to bring a bill into Parliament that will go far beyond that of Gladstone in its liberalities.—This will prove a parallel to the conduct of Peel, who took office on account of opposition to Catholic emancipation, and conceded more thereafter than even the friends of that measure required.

Hygienic Wine.

Approved by the Imperial School of Medicine, Paris.

Tested by the Committee on Chemistry of the American Medical Association, at their Convention, held in Baltimore, May 1st, 1866, and endorsed by its most prominent members.

This *IMPORTED* Tonic, recommended by the most eminent Physicians, is prepared in Paris from

PURE SHERRY;

Admits in its composition only Tonic, Aromatic, and Febrifuge substances. It *replaces* with a great superiority all other Bitters, which have for a base, nothing but Alcohol, Rum and Whiskies. It is richer than any other Bitters in

Aromatic and Balsamic Principles,

and its taste is exquisite. Its soothing effects on the NEUROUS FLUIDS is most astonishing for, while it gently excites to the TASTE, by re-animating the functions of the DIGESTIVE ORGANS, and dissipates Languor, by gently refreshing and stimulating the brain, giving a healthy tone to the whole organism, it leaves behind none of the baneful influences that follow Alcoholic stimulants.

HYGIENIC WINE

is moreover

MOST DELICIOUS TO THE TASTE.

Possessing wonderful virtues in all cases of DYSPEPSIA AND DEBILITY, and moreover is unexcelled as an

Appetizer,

IT IS NOT INTOXICATING IN THE LEAST.

MUSCAT PERLE, (Imported)

is a rare fine Wine of most delightful flavor. It is the Pure Juice of a Most Delicious and generous Grape, and surpasses in excellence *any Table Wine in the Country.*

All who are solicitous about obtaining a *pure* and a superior Wine, shall be delighted with

"MUSCAT PERLE."

☞ Church people are solicited to examine this Wine for communion purposes. A Communion Wine should be *above all things* PURE! In the second place it should be MILD. "Muscat Perle" combines these two most essential qualities, and a trial will convince any one of its superiority over all other Wines at present in the market.

These Wines are sold by all respectable Druggists and Dealers.

ALCOCK'S POROUS PLASTERS.

BEST STRENGTHENING PLASTER IN THE WORLD.

ALLCOCK'S POROUS PLASTERS relieve and assuage pain by calling forth the acrid humors from parts internal to the skin and general circulation—thus, in many cases, positively exporting the disease. JAMES ULL, M. D.

There is nothing equal, in the way of a plaster, to the Porous Plaster of Mr. ALLCOCK. Everything is pleasant about them. They are the plaster of the day, and a fit type of our present advancement in science and art. In Asthma, Cough, Kidney Affections, Gout, Rheumatism, and local deep-seated pains, they afford permanent relief.

J. F. JOHNSON, M. D., on Topical Remedies.

From a personal knowledge of these plasters, we can state that they are decidedly preferable to any other in use. Wherever relief is to be obtained by the use of a plaster, we should recommend them.

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

Messrs. J. N. HARRIS & Co:—

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It causes the phlegm and matter to raise, without irritating those delicate organs of the lungs, and without producing constipation of the bowels. It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

Yours respectfully, A. L. SCOVILL.

PERRY DAVIS' VEGETABLE PAIN KILLER possesses virtue, which not alone removes pain instantly, but regulates the stomach, gives strength, tone and vigor to the system. It is one of the medicines that is worth more than gold.

Don't experiment in testing new remedies, when you can buy the genuine Pain Killer, which everybody knows to be good.

The Woodstock (O. W.) Sentinel says: "It is a generally admitted fact that the medicine manufactured by Messrs. Perry Davis & Son has been instrumental in alleviating much pain, and giving relief to millions of suffering humanity. The medical faculty almost everywhere recommend the Pain Killer, and its reputation is now established as the most beneficial family medicine now in use, and may be taken internally and externally to expel pain." o1—dawlm

Local.

S. J. COURT.—Wednesday was consumed in the trial of an action, commenced Oct., 1856, by Josiah Drew vs. W. Claggett, on an account of about $300, annexed to the writ. A trial was had Oct. Term, 1859, and a judgment rendered in favor of the plff. for $112.27. A review was commenced the next year, and the action continued until the present term, when the jury returned a verdict for the plff. for $72.15. By the reduction the defendant will recover back $40.12, and costs on the review.

Friday forenoon and a portion of the afternoon, were occupied with the trial of Wentworth vs. DeRochemont and Odell, this was a claim for balance due on a sale of a large quantity of hay, for U. S. Government. The case was given to the jury at 3 1-2. Rollins for plff. Goodall and Frink for defts.

The Grand Jury, James W. Odlin, foreman, came in at three o'clock, and after presenting the following indictments were discharged:

Wm. H. Roberts of Boston, stealing horse from Somerby & Son of this city. Plea not guilty.

James Williams, stealing overcoat from W. S. Stevenson of this city. Plea not guilty.

James E. Brown, minor, stealing watch from Joseph Bean of Candia; also another indictment for stealing a mare from same party, and a third indictment for larceny from Gordon Bean at Candia. Plea guilty. Sent to House of Correction for three years.

Frank Bennett, Exeter, assault on Benj. Swain, police officer of Exeter. Plea not guilty. This not being an aggravated case, the respondent was sentenced to pay a fine of $25 and costs.

Abner Sewall, assault on Henrietta Wendell, Raymond. Plea not guilty.

Sedley A. Lowd, stealing a horse from Thomas Patterson of Londonderry. Plea not guilty.

John H. Eaton, larceny of wearing apparel from James W. Green of Hampton Falls, also for stealing hens from John Pike, jr. Plea not guilty, to both indictments.

George W. Demeritt, New Market, assault with intend to commit a rape on Margaret Simpson; same offence on Mary Ann Malloy. Plea not guilty to both indictments.

Augustus Robbins (otherwise known as George Varrell), adultery at Deerfield with Elvira Towle (otherwise known as Elvira H. Stevens); also for bigamy in marrying said Elvira H. Stevens. One of these is to be adjusted with the County Commissioners, and in the other Robbins is to go on his own recognizance. Wm. B. Small, County Solicitor, for the prosecution.

☞ Walter C. Brown, Portsmouth, larceny two pairs boots from Hill & Carr of this city. Plea guilty. Sentence—2 months county jail, $2 fine to county, and costs, and to pay $30 to Hill & Carr.

The next case in order on the civil dock is Garland vs. Furber and Hoyt. Frink for plf.; Hatch for deft.

☞ Mr. Wendell offers a large amount of Real Estate at auction, to day, viz: a house and barn on Cabot street, several lots of land and buildings thereon, on Charles street, and a wharf on Hancock street.

Betton & Co. sell miscellaneous goods.

ROBBING THE MAILS. — George. A. Smith of Concord, N. H., was arrested on Wednesday by United States Post Office Detective Johnson of Boston, upon a charge of purloining letters from the United States mail car on the Concord and Portsmouth Railroad, and taken before Commissioner Hackett at Portsmouth, N. H., for trial. Smith, who is a young boy employed in cleaning the cars and selling fruit, &c., on the trains, admitted the theft, and was bound over to the May term of the United States Circuit Court for trial.

On the 18th, Frank Ellis of Concord, a boy about 16 years old, was arraigned before the same Commissioner for participating in the same offence. Both were bound over to May term of the Circuit Court in this city.

☞ We learn that our esteemed fellow citizen Dr. R. O. Treadwell, takes leave of us to-day for Paris, where he will pass the winter in the pleasant pursuit of the science of his profession, and the enjoyment of the milder climate of France. May his health be preserved, and may another season restore him to us again with new treasures added to his already ripe experience.

☞ A meeting in celebration of the Centinary of "American Methodism," will be held in the State St. Methodist E. Church on the morning and afternoon of to-morrow. Rev. Dr. Patten of Concord will preach on the occasion.

☞ Rev. Mr. Chapin of Boston, will preach at the Universalist Church on Sunday, Oct. 21st.

☞ We are gratified to learn that Northwood is to have a course of Lyceum lectures, the coming winter. On Tuesday evening, Hon. William C. Patten of Kingston, will deliver the opening lecture; subject, "Henry Clay."

☞ We are indebted to Mr. Wm. Henry Fernald, formerly of this city, but now living at Pleasant Valley, Iowa, for a copy of the Davenport Weekly Gazette, of that State.

☞ "Hours at Home," for November, is received from A. Williams & Co. Published by Chas. Scribner & Co., New York, at $3 a year. For sale by J. F. Shores, Jr. It will be found excellent Sunday reading.

☞ A Baltimore dispatch of Friday says Gov. Swan has summoned the Police Commissioners to answer the charges against them, on Monday. He evidently intends mischief—and is playing Johnson.

NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street**, Boston, where he will be professionally every WEDNESDAY from 9 to 3. Every person complaining with Consumption or any disease leading to it, are invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part, also whether it is Tubercular, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healthy condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

REASONS WHY THE

AMERICAN WATCH,

MADE AT WALTHAM, MASS.,

IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. No jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "uncres," "lepines" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

Portsmouth, August 1, 1866.—3m

Morning Chronicle.

☞ Throughout all the South not one Union man supports Andrew Johnson's "policy." That of itself is an unanswerable, conclusive, startling argument. Among the hundreds of thousands of traitors North and South, there is not one who does not sustain this "policy." Can any voter who yet hesitates about his duty to his country need more to decide him than the bare statement of these two facts?

☞ The Rebels, repudiators on principle, have, in their new State Constitutions, repudiated the Confederate war debt. They never would have paid it anyhow. But they have nowhere repudiated their purpose to make the United States pay it. On the contrary, the very first month that sees them, with their copperhead allies, in a majority in Congress, will see that debt fastened on the North.

FEARFUL LOSS OF LIFE.—A terrible calamity has occurred in the Red Sea—the foundering of the Indian steamship Bhima, in consequence of a collision with another vessel called the Nada. The vessel began to sink immediately after the accident, and, horrible to relate, nearly every one on board was drowned. Nothing can illustrate more strikingly the swiftness with which the vessel went down than the fact that the four engineers on board perished. The Nada picked up twenty-two persons, but seventy-nine were drowned.

— Does the right to make laws for the people of the United States reside in a Congress elected by the ballot, or in a President elected by a bullet?

— Precisely one issue forced upon us in the coming elections by Johnson's "policy" is, whether one white Rebel in South Carolina, like Wade Hampton, shall count as much at the polls and in Congress as three such New York patriots as Peter Cooper, Ezra Cornell and Reuben E. Fenton.

— We want guarantees, not promises, from Andrew Johnson's Rebel friends. Twenty months' trial of the Presidential agent of the "unreconstructed" has taught us the utter worthlessness of professions and promises made by unrepentant rebellion to loyalty. The country now demands Constitutional guarantees, and will take nothing less.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY,

Solicitor of Patents,

Late Agent of the U. S. Patent Office, Washington, under the Act of 1836, with office at

78 State Street, opposite Kilby Street,

BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Canada, Great Britain, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it alone can the Patent Laws for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be adverted to elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE, than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant testimonials to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessary at a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful practitioners* with whom I have had official intercourse." CHARLES MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure them early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents

MR. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and the one pending, such unmistakable proof of great talent and ability on his part leads me to recommend *all inventors* to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN JAGGART

During eight months, the subscriber, in course of his large practice, made on inventors rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor by the Commissioner of Patents. Ex. **R. EDDY.**

Important to the General People.
Next to the common articles of daily food, fruits, &c., there is nothing is more universal use than candies; yet unhappily there is nothing more subject to adulteration as they are by the adoption of the use of deleterious substances destructive to health. An exposure of these adulterations and their pernicious effects was recently made in this paper, which caused much speculation, and no doubt warned many that the only safe way to be made of candies and confections was to obtain those which are known to be pure. The knowledge that they are thus pure is what has made Southmayd's candies so popular, and what has so enhanced his business as to encourage him to build a splendid marble edifice in Temple Place, for his manufacturing and wholesale trade, while his retail business will be carried on at Horticultural Hall as usual. The finest and purest material, the use of none but the most innocent and innoxious coloring materials, and the neatest and most tasteful styles of manufacturing, constitute Southmayd's candies among the best, the safest, and the most popular in the market.—*Review Journal.*

(Over Miss Beal's Dry Goods Store.)
The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Guitars, Sheet Music, Flutes, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.
PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.
PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.
Having made arrangements with Prof W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & sons, and Geo. M. Guild & Co. The superior merits of the former have too long been established to need any comments. Of the latter suffice it to say that the sale of over fifty of them within the last five years by Mr Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.
Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof. Day. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman. D. H. MONTGOMERY.

IRELAND.—Wilmer & Smith's European Times says Ireland is gradually becoming a grazing country, and the increase in late years in the rearing of cattle is remarkable. The decrease of land under crops this year, as compared with last year, is no less than 128,725 acres. The pigs have increased to the extent of 187,000, sheep 572,000, cattle 245,000; but against this must be placed the fact that with this increase there has been also an increase in emigration. During the first seven months of 1856 the emigration from Ireland amounted to 74,000, an increase of nearly 12,000 as compared with the corresponding period last year. There is thus more food for the people with fewer mouths to eat it, and for those who remain there will be a higher rates of wages. The stream of emigration continues toward the United States.

PRESENCE OF MIND.—Dr. Dio Lewis was driving a nervous horse down a long and steep hill in Lexington, the other day, having with him in the carriage a lady and gentlemen from the West, when the connection between the shaft and axle on one side gave way. The horse was moving very rapidly at the moment, and the Doctor saw there was imminent danger of a runaway and smash up. He dropped upon his knees in the bottom of the carriage, and, gathering the reins in one hand, seized one of the wheels with the other hand. Thus braced, he drew the horse back upon his haunches, and, having grappled one of the spokes, instantly brought the wheel to a stand still, making it slide upon the ground. Within twelve or fifteen feet from the point where the accident was observed, horse and carriage were stopped, and all made safe. This may serve, to suggest a means, and perhaps the only means of escape under such circumstances.—*Boston Transcript.*

—Temple Bar says that Dr. George Fordyce, the anatomist and chemical lecturer, lived for more than twenty years on one meal a day.

MONDAY, OCTOBER 22, 1866.

INDIAN MURDERS.—The Tribune remarks, it is impossible longer to doubt the reports of Indian massacres on the Powder river. We print to day further accounts, which show that the hostilities of the savages are general, and that hundreds of whites have been murdered. There is too much reason to much reason to believe that United States officers are in a great measure responsible for these crimes. The Laramie Peace Commissioners and Cols. Carrington and Maynadier are accused of giving the Indians arms and protection, and taking no steps to warn or aid emigrant trains and settlements. Some weeks ago the Leavenworth correspondent of the Tribune, telegraphed a statement to this effect, to which we called the attention of the Government. The truth of this dispatch was denied, but denial is no longer of any use. From Washington we learn that General Terry is to take charge of the Montana route, and that excellent officer will doubtless teach savages and their white allies a proper lesson. The charges against Carrington and Maynadier are so serious that the War Department is bound to institute an investigation.

QUEBEC.—A New York paper says that Quebec gave more, in proportion to its population, in aid of the sufferers by the Portland fire than New York did, and suggests that this fact should keep in full force the "reciprocity treaty of humanity.

In addition to the loss of property by the fire, there will fall an immense loss on the stockholders of the local insurance companies, the stock of which has largely depreciated. Nearly all the English companies have withdrawn since the fire.

At a public meeting the City Government was denounced for the criminal neglect and folly which led to so much loss of life and property.

— A New York paper having made the statement that Quebec gave more to Portland in proportion to its population than New York did, the Press this morning sets the record right; not one dollar having been received at the Mayor's office from that city. Nevertheless we agree with the Press that this does not release Portland from the fulfilment of the precept—Let charity abound.—*Portland Star.*

CHOLERA IN CHICAGO.—A young man residing in Chicago, writes October 15, as follows:

For two or three days the disease made sad work, and much uneasiness is felt by all classes of the community. Literally, the angel of death walked abroad, and no one knew who might not be stricken down. It took representatives from all classes, high and low, rich and poor.

But one thing has been generally noticed, and that is that nearly all who died were in the habit of using intoxicating liquors. Where the habits of the person attacked had been strictly temperate, the disease yielded much more readily to medical treatment.

☞ The Tribune's New Orleans special says that when Gov. Welles returns to the city, he will proceed to remove the sheriffs who refuse to perform their duties under his proclamation for election of delegates to the Convention. Threats are made to resist the removals and arrests, by secret rebel societies, and Gen. Sheridan has been appealed to for troops. He is concentrating troops to sustain the Governor.

☞ The New York Herald's Toronto special says that six Fenian prisoners were arraigned Friday, pleading not guilty. Gen. O'Neill and Col. Starr proposed through Col. Lynch's counsel, to go before the court and testify to Lynch's absence in the fights at Ridgeway and Fort Erie if exempt from arrest. The judge replied they would be liable to arrest.

☞ An interesting suit was commenced Friday in the Supreme Court, New York, by Mr. Calvin Lewis Robinson against Mr. Etheldred Woodward. Both parties at the outbreak of the war were residents of Jacksonville, Fla. The plaintiff claims that in March, 1862, the defendant headed a gang which burned up a large quantity of property belonging to him, and now sues to recover its value. Woodward was arrested in that city and held in $50,000. A motion was made to vacate the order of arrest.

☞ The Leavenworth News publishes a letter stating that Mr. Weston, editor of the Salt Lake Union Vidette, had been severely beaten by the Mormons and ordered to leave the place within six hours. Mr. Weston refused to leave. From the frequent outrages by the Mormons trouble is expected.

☞ Mrs. Nelson of Palmer, Mass., attempted to get on a moving train in Pittsfield, on Tuesday, and fell beneath the cars and had both legs cut off. She was alive next day.

— Mr. C. L. Daboll, inventor of the fog trumpet, died at New London, Connecticut, on the 13th instant, aged 48 years. He was the son of Nathan Daboll, the maker of Daboll's Arithmetic.

NEW HAMPSHIRE ITEMS.

—— Mr. Kelley, an elderly man, was gored by a bull in Salem, on Thursday; it is feared fatally.

—— Rev. Dr. Richards of Nashua has resigned his place as pastor of a Unitarian Congregational Church there, where he has preached 30 years.

—— Rev. B. F. Bowles, recently of Manchester, has been installed pastor of the Universalist Church, in Worcester, Mass.

—— The following new Postmasters have been appointed,—Samuel Nims, Newport; William A. Hunter, Boscawen; Jacob J. Brown, Ossipee.

—— St. Stephen's Church, Pittsfield, will be consecrated by the Right Rev. Bishop Chase, on Thursday next, the 25th inst.

—— J. C. Hough of Lebanon, has raised a pumpkin weighing 56 3 4 lbs. Ebenezer Cole of the same town has raised a turnip weighing 33 lbs., which nearly fills a bushel basket.

—— The N. H. Baptist Convention held its 40th Anniversary at Plaistow, beginning on the 16th. The churches were never better supplied with ministers, nor more united,—and the general prospects are said to be hopeful.

—— The stories of rich gold mines at Lisbon, will soon be proved or disproved. Large amounts of ore have been got out, and crushing mills will soon be in operation. Miners from Colorado and Nevada are hopeful of paying results. Many farms are beginning to contain rich ledges, and real estate is rising in value.

—— The will of the late Gen. David Culver of Lyme, was presented to the Probate Court at Haverhill, on Tuesday and Wednesday. The will was sustained, from which the heirs at-law took an appeal to the Supreme Judicial Court on the ground of incapacity of testator to make the will on account of alleged insanity. The case will not probably be reached for a trial by jury before September, 1867. The inventory of property amounts to about seventy-five thousand dollars, and the widow has waived the provisions made for her; the consequence of which will be that if the will is sustained she gets one third of the property; if it is not sustained, one-half. The question of accepting the conditional legacy to the State was indefinitely postponed by the last Legislature, which will carry the donation to Dartmouth College in case the will is sustained.

—— At the N. H. Baptist Convention the report of the Secretary showed that three Baptist ministers belonging to the State have died during the year, one of them being Rev. J. W. Horton, who was murdered at New Orleans in July. He had offended the rebels by printing and distributing in New Orleans one thousand copies of the Civil Rights Law.

Rev. H. F. Lane presented resolutions in favor of raising one thousand dollars for the New London Literary and Scientific Institution. Forty-five thousand dollars of this amount has been promised on condition that the whole amount be secured.

Rev. L. A. Grimes of Boston spoke on behalf of the National Theological Institute for Freedmen. Mr. Brown, a teacher of the American Baptist Home Mission Society in Lynchburg, Va., appealed for help to rebuild a church and schoolhouse, which was recently burnt by incendiaries.

☞ At the Massachusetts Universalist Convention, held in Malden, a resolution was offered by Rev. Mr. Patterson of Roxbury, urging the more close identification of the Sabbath School with the Church, which was unanimously adopted. The importance of the conference and prayer meeting was also recognized in a resolution submitted by Rev. J. G. Adams, which was unanimously adopted. In submitting his resolution Mr. A. made a speech urging the presence of more inspiring speakers in the prayer meetings.

There were in attendance during the Convention 144 delegates, as follows: 62 clergymen, 13 visiting brethren (2 Unitarians,) 13 life members, 30 lay delegates from societies, and 26 from Sabbath Schools.

LOUISIANA.—A military order directs the arrest of Terrence Toups, charged with shooting freedmen in the parish of Lafayette. The order was issued under General Grant's order, it being alleged that the civil authorities have neglected to bring the accused to trial.

Governor Wells has gone, it is said, to Calcasien county, in the southwestern part of the State, to prospect for oil springs on the lands of the Canal Company chartered by the Legislature of 1864, which was given by that body the greater part of the swamp lands of the State.

— An election is to be held in Tennessee to fill vacancies in the Legislature created by the disqualifications of members formerly elected, and expulsions for contumacy and contempt of authority. Mr. Cave Johnson, formerly of Congress, and Postmaster General under Polk, has resigned his seat on account of ill-health, and to enable Governor Brownlow to order a new election.

THE FAMILY SEWING MACHINE.

BY JENNIE JUNE.

To understand the value of the Sewing Machine, and the happy changes which it has effected in the social and family relations, one must be familiar with the quiet households scattered throughout the East and West, the North and South, of this great and thriving country.

Everywhere in the interior, domestic assistance of any kind is so difficult to be obtained, that it is scarcely looked for, and every good housewife relies upon her own exertions, not only to keep her house in order, her larder well supplied with the essential luxuries of home-made bread, cake, and pies, but her own, the children's, and frequently her husband's wardrobe furnished with all the useful, if not the ornamental, articles of dress.

This necessity provided an immense amount of work for one pair of hands to perform—the female head of the house, the hard tasked wife and mother, found not a moment for relaxation. The drudgery of the kitchen was succeeded by that of the work-basket, whose pile of shirts and small garments seemed never to decrease. Not a moment of time could be afforded for the gratification of any simple fancy, even in ornamental needlework; all, to the last moment, and far into Saturday night, was exhausted in the necessities of the plainest work upon little aprons, frocks, and drawers, and the inevitable weekly collection of family mending.

In a large number of these households the case is now widely different; the Sewing Machine, generally the Grover & Baker, occupies an honored place in the family sitting room, and accomplishes more and better than the most skillful seamstress. It is in a sense, which only those can appreciate who have known what it is to sew all the household garments by hand, the family friend. It is looked upon with eyes of real affection.

The interior of a country house, at this season of the year, is as pleasant as can be imagined; and it is made so, in a great degree, by the presence of the Sewing Machine. An hour's work in the afternoon, upon a bright, rapid, wonder-working Grover & Baker, will accomplish more than could be done by a weary hand working almost into midnight. It will not only finish the dozen shirts in "less than no time," but it will tuck drawers and chemises, ruffle nightgowns, stitch trowsers, quilt linings and coverlids, and all this, and much more, with such strength, beauty, and precision, as would throw the neatest hand-work into the shade.

A Sewing Machine needs only to be purchased once in a lifetime, it is therefore of the greatest importance to get the best; the one which, all things considered, is most perfectly adapted to meet the requirements.

This, we sincerely believe, and the opinion is corroborated by the highest authorities in the community, is the Grover & Baker Machine making the celebrated "Grover & Baker" stitch, the only stitch, as far as we know, sufficiently elastic to be adapted to all kinds of family sewing.

The peculiar qualities of the Grover & Baker Machine, are strength, beauty, elasticity and versatility, or adaptation to any kind of work. It compasses the whole range of family sewing completely, and without any of the vexatious delays in rewinding, fastening and finishing, which are common to other machines, and which occupy so much time, and waste so much material. It makes a beautiful, smooth, elastic seam upon cloth or cambric, which gives when it is washed or stretched, without breaking, and in which every stitch is so firmly locked that the seam can be cut off between every half dozen stitches without impairing its strength.

Testimonial letters, from ladies and housekeepers all over the country, speak unitedly of the beauty and superior elasticity of stitch. One lady says, it is the only machine that can "quilt;" another, that it is the only one "fit for boy's trowsers;" and a third, that she is particularly delighted with the way in which it makes "woolen drawers and flannel garments."

The Grover & Baker stitch is the only one that can be properly used upon bias seams, and is therefore adapted to an immense variety of garments containing such seams, and also seams which are subjected to much stretching and wear. In addition to the fact that no rewinding and no fastening is required, a great deal of time and temper too, is saved to the operator, by the simplicity, regularity and ease of the various movements, the adjustment without change of tension to different kinds of work, and the method by which it is thrown from the machine, without delay or embarrassment, and also in such way as to enable the operator to maintain a pleasant and graceful position.

For dress-makers, the Grover & Baker is the only suitable machine; it is the only one that will accomplish satisfactorily, and with an immense saving of time, all the plain sewing, stitching, and quilting which they have to accomplish.

For the heads of families it is equally valuable. It will do everything. It is simple, reliable, perfect in its operation, easy to be understood, not easy to get out of order, and gives such thorough satisfaction, as to leave no room for complaint.

THE MERRIMAC.—The Newburyport Herald says the late storm which swept the Atlantic, moving the waters to their greatest depths and throwing the surf upon our shores as not before seen for fifty years, wrought a change at the mouth of the Merrimac. Where before was the deepest water a sand bar has been formed, nearly stopping the passage. A pilot boat, running out on Wednesday, stopped on that bar, in so heavy a sea that they feared she would go to pieces. The men got off their boots and made other preparations for a swim for life before the boat could be relieved from her perilous condition.

☞ Godey's Lady's Book for November has for a frontispiece a steel engraving, "Out of an Engagement," with the usual varied matter which ladies require.

☞ The Atlantic Monthly for November will be found fully up to the average standard of excellence. It opens with a readable story entitled "Rhoda," by Ruth Harper. "Five Hundred Years Ago" is a good historical sketch of the period indicated. A new story, "Katharine Morne," by the author of "Herman," is well begun. Mr. Hazewell describes "The Progress of Prussia" with his accustomed intelligence and ability. That curiosity of human nature, the late Count "Gurowski," is admirably delineated by Robert Carter. There is a strong political article on "The President and His Accomplices," and a description of "Marshall's Portrait of Lincoln." The literary notices are full and very readable.

— As we have said scores of times, the J. Monroe Taylor Gold Medal Soap is, without exception, the nicest and best soap made; is the only kind that can be called a perfectly pure article, and goes nearly three times as far as any other soap and will always turn out whiter and nicer clothes than washing with any other article. Try it, and you will find what we say is true. 20

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-crespot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

THE GREAT FEMALE REMEDY FOR IRREGULARITIES

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions, stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. Price $1.50.

Hygienic Wine.

Approved by the Imperial School of Medicine, Paris.

Tested by the Committee on Chemistry of the American Medical Association, at their Convention, held in Baltimore, May 1st, 1866, and endorsed by its most prominent members.

This IMPORTED Tonic, recommended by the most eminent Physicians, is prepared in Paris from

PURE SHERRY!

Admits in its composition only Tonic, Aromatic, and Febrifuge substances. It replaces with a great superiority all other Bitters, which have for a base, nothing but Alcohol or inferior Whiskies. It is richer than any other Bitters in

Aromatic and Balsamic Principles,

and its taste is exquisite. Its soothing effects on the NERVOUS FUNCTIONS are most astonishing for, while it gently exhilarates, by re animating the functions of the DIGESTIVE ORGANS, and dissipates languor, by gently refreshing and stimulating the brain, giving a healthy tone to the whole organism, it leaves behind none of the baneful influences that follow Alcoholic stimulants.

HYGIENIC WINE

is moreover

MOST DELICIOUS TO THE TASTE,

Possessing wonderful virtues in all cases of DYSPEPSIA AND DEBILITY, and moreover is unexcelled as an

Appetizer,

IT IS NOT INTOXICATING IN THE LEAST.

MUSCAT PERLE, (Imported)

Is a rare fine Wine of most delightful flavor. It is the Paradise of a Most Delicious and generous GRAPE, and surpasses in excellence *any Table Wine in the Country.*

All who are solicitous about obtaining a *pure* and a superior Wine, will be delighted with

"MUSCAT PERLE."

☞ Church people are solicited to examine this Wine for communion purposes. A Communion Wine should be above all things PURE! In the second place it should be MILD. "Muscat Perle" combines these two most essential qualities, and a trial will convince any one of its superiority over all other Wines at present in the market.

These Wines are sold by all respectable Druggists and Dealers.

ALCOCK'S POROUS PLASTERS.

BEST STRENGTHENING PLASTER IN THE WORLD.

ALLCOCK'S POROUS PLASTERS relieve and assuage pain by calling forth the acrid humors from parts internal to the skin and general circulation—thus, in many cases, positively evaporating the disease. JAMES LULL, M. D.

There is nothing equal, in the way of a plaster, to the Porous Plaster of Mr. ALLCOCK. Everything is pleasant about them. They are the plaster of the day, and a fit type of our present advancement in science and art. In Asthma, Cough, Kidney Affections, Gout, Rheumatism, and local deep-seated pains, they afford permanent relief.

J. F. JOHNSON, M. D., on Topical Remedies.

From a personal knowledge of these plasters, we can state that they are decidedly preferable to any other in use. Wherever relief is to be obtained by the use of a plaster, we should recommend them.

Messrs. J. N. HARRIS & Co.:—

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It causes the phlegm and matter to cease, by healing those delicate organs (the Lungs), and without producing constipation of the bowels. It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

Yours respectfully, A. L. SCOVILL.

ARREST OF A MAIL ROBBER.—The Boston Traveller of Thursday evening states that Charles P. Johnson, special Agent of the P. O. Department, had detected a young man in robbing the mail on the Portsmouth and Concord Railroad. For several weeks there has been complaint that letters containing money have been missing on this route, and Mr. Johnson has been working up the case. A number of citizens of Portsmouth who had lost money and Post Master Adams had also called in the aid of U. S. Detective Kent of this city. Mr. K. has had his eye on a young man by the name of Frank Ellis, of Concord, N. H., and the person whom Mr. Johnson arrested. As soon as Johnson had caused the arrest of his man, Kent proceeded to Concord at once and arrested Ellis. He most persistently denied any knowledge of the transaction and could not be induced to acknowledge, his guilt, until he was confronted by the boy who was first arrested.

Ellis is the older and much the shrewdest of the two, and he as well as the other boy state that he (Ellis) concocted the theft in the first instance. The first letters were taken from the Mail car at New Market Junction by Ellis, and the money divided between them, and the letters thrown in the water closet. Ellis was examined before U. S. Commissioner Hackett, Thursday, and held in the sum of $1200 to appear at the U. S. Circuit Court at Exeter, next May, and Smith in the sum of $1000 to appear at the same tribunal They both secured bonds. It is proper to state in justice to the Smith boy, that he confessed at once. He is fifteen years of age.

S. J. COURT.—On Saturday morning the jury in case of Wentworth v. DeRochemont and Odell, Trustee, brought in a verdict for pltf. for $100.

Garland v. Furber and Hoyt was taken from the jury, and transferred on a point of law. Court adjourned till Monday morning.

☞ A return match game of Base Ball between the Granite State Club of this city and the Star Club of Kittery, (Juniors,) came off at the latter place Saturday afternoon. In a previous game the Granite State boys won by 19 runs and were again victorious in the return game, the score standing 36 for the Granite States and 35 for the Stars. Calvin L. Hayes, Esq, of Kittery, acted as umpire, performing the arduous duties with satisfaction to both clubs.

☞ The alarm of fire on Saturday evening was caused by the burning of the waste house of the Kearsarge Mills. About four months, ago, the waste house on the same spot was destroyed by fire, and since then we have had no fire in our city until that of Saturday night. A considerable quantity of waste was destroyed, but the building was not greatly injured.

☞ That popular actress, Helen Western, supported by a good troupe, begins a season of three nights at the Temple this evening. Buckstone's play of "The Green Bushes," and a musical burletta will form the bill.

FATAL ACCIDENT AT WELLS.—As Mr. Henry S. Williams was at work hoisting stone on Monday afternoon, one of the ropes holding the derrick broke, letting the derrick fall upon him, injuring him so severely that he lived but a few hours. He was much respected by all who knew him, and leaves a wife and four children to mourn his loss.

THE CONSTITUTIONAL AMENDMENT IN TEXAS.—The Galveston Bulletin of the 9th, says:

There is no doubt that if the South should accept the Constitutional amendment, she would be immediately admitted to representation in the national congress. This is now a chance for the South to make a merit of necessity, by adopting the amendment, as it is quite clear that it will be approved by the requisite number of States, even if the South holds out against it. So holding out will only invite and assume further Congressional action to secure the franchise for the negro, or to place the seceded States under provisional governments.

GOLD, Saturday, 146 5-8.

— Montgomery Blair has withdrawn as a Congressional candidate in Maryland.

— The Texas Legislature has rejected the Constitutional Amendment by a vote of 67 to 5.

— Thomas Cook, a Batavia, (New York) butcher, has absconded to Canada with $12,000 belonging to the farmers of whom he had bought cattle.

— An extensive Knitting firm at Cohoes, N. Y., has suspended, with liabilities estimated at $475,000, but which may amount to a million.

— Official returns from all but three counties in Ohio have been received. Taking the Cox and Morgan vote of these three counties as a basis, the Republican majority in the State is 43,311.

— In Washington the printers employed by Government suspended work Friday in consequence of the action of officials in refusing to recognize the eight hour system, as it is not acceded to in private printing offices.

— There is trouble in the Canadian Cabinet.

— The Fenian General Sweeny is now at his home in Waterford, N. Y. He has issued a card, in which he wishes it understood that he resigned the position of Secretary of War, and declined the offer of the commander-in-chief of the army of Ireland.

PROCLAMATION.

TO THE PUBLIC GENERALLY.

WHEREAS, Being armed and equipped with such a stock of Fall and Winter Dry Goods as cannot fail to strike the beholder with bewildering amazement, and please the fancy of all lovers of the Beautiful; and Whereas, Having entered the field for the Fall and Winter Campaign of Trade, we are determined to repulse it not entirely vanquish the great system of monstrous prices and murderous profits, which has settled upon our whole country like a mighty incubus—sinking the poor into deeper depths of poverty, and dragging the affluent down, and even driving many to distraction:—and Whereas, We have taken unusual pains in the selection of our New Stock, and have purchased it all at the Lowest Cash Prices, which will enable us to accommodate the purchaser at the lowest possible figures:

Therefore, We, A. Q. LEACH & CO., do hereby issue this our proclamation, to dispose of our Stock upon such terms as must give satisfaction.

In witness whereof we have this, the 16th day of October, A. D. 1866, and of the Independence of the United States of America the ninetieth year, hereunto placed our hands and caused the Great Seal to be affixed.

Dr. Schenck's NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street**, Boston, where he will be professionally every WEDNESDAY from 9 to 3. Every person complaining with Consumption or any disease leading to it, are invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part, also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint.

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver be kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

REASONS WHY THE

AMERICAN WATCH, MADE AT WALTHAM, MASS., IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. No jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "lances," "lepines" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

BEARS.—Recently fourteen Bears have been killed in Albany in this State. They have been quite bold. Three of them committed the science of visiting a farmer's orchard. When discovered, one of them had ascended a tree and was deliberately shaking off the fruit, while the other two were gathering it up. One bear was killed in Conway center, near the town house.

CITIZENS' LYCEUM.—The Committee are energetically at work with the intention of affording our citizens a really first class series of lectures and entertainments. It will be seen that the first lecture, by Judge Russell, who is already so well known here, is to have the additional attraction of a Concert by the favorite singer, Miss Carey. The tickets are only $1 50 for the course—cheap enough.

MR. BEECHER'S SPEECH.

Great interest was felt by the neighbors of Henry Ward Beecher to hear his views on the political issues of the day delivered in Brooklyn last Monday evening, and an immense gathering was present. As the public at large share the same interest to a considerable extent, we make the following extracts from a verbatim report of his speech:

THINGS TO BE DONE.

These, then, are in general the things that are to be done. First, the utter destruction of Slavery, root and branch, which has been the fundamental cause of national discord, treason and war. Second, the purgation of the Constitution of all influences derived from Slavery and the purgation of the laws and civil courts of all customs and proceedings derived from Slavery, or infected with it. Thirdly, the readjustment of the sundered political relation of States long in the condition of suspended animation. Fourthly, the security, the education and enfranchisement of the negro population, happily now made free. Lastly, the reestablishment of good will and cordiality among alienated citizens, the revival of the sentiment of unity in national life, the renewal of enterprise, industry and commerce, which, like the circulation of blood in the body, places the whole nation under the influence of one common central vital life.

ARRAIGNMENT OF THE DEMOCRATIC PARTY.

Now I charge the Democratic party with having lost and forgotten, through a long and critical period of our history, the peculiar doctrines of America, namely, the doctrine that all men have a right to liberty, life, and the pursuit of happiness. (Cheers.) I charge it with having joined hands with the strong to put down the weak; it made itself the servitor and understrapper of slavery. I charge it with betraying the North by its conspiracy with Southern traitors, and dividing with them the guilt of this gigantic war. (Cheers.) I charge it with open or concealed enmity to every step which our Government has attempted since to cleanse the land from slavery; and to ameliorate the laws, to reform the Constitution to a more perfect service of liberty, and thus by its history, by its wicked affinities, by its depraved sympathies, by its temper and spirit, it is quite to represent the regenerated spirit of this nation. (Cheers.)

WHY MR. BEECHER CANNOT BELONG TO THE DEMOCRATIC PARTY.

That party must be subjected to the same treatment as a fold that is overrun with Canada thistles—use the plow night and day, cut it up until the last root has lost power to generate, and then you may bring it back to grain again. Some things may be infected and quickly disinfected in a little time, a little musk, a little sulphur; but there are some things that take everlasting sulphur to disinfect them. (Loud cheers and laughter.) Now, consider the destruction of slavery as the one great object to be secured. Is the Democratic party exquisitely adapted to destroy slavery, that its whole life bowing down to his feet? We are now to purge the Constitution, the laws and all civil processes of the taint and contamination of slavery. Are they fit, at this moment, when, to the very last act of their party existence, they have been opposed to these changes? Are they to be put in possession of the administration at this time when that change is to take place? We are to readjust the sundered relations of the States that are out of the Union. Are they to adjust those relations who have been *partieps criminis* with them? The security, the education, the enfranchisement of the negro population is the most solemn, the most affecting, and the most binding duty of the hour! Are they, who have always spoken of the negro as less than a man, as of an inferior race, and uneducatable—are they to be the school masters of the national freedom? The re-establishment of good will and cordiality between the North and South—this is to take place. Are they the fit messengers of peace between the two parties? In view of all this I am say deliberately I cannot believe to that party. Excuse me, sirs, I have been united. (Laughter and applause.) It was the whale that swallowed Jonah and he did not like his accommodations. (Renewed laughter.) I cannot countenance their aspiration, their ambition, nor can I advise any one to join them nor to remain with them. (Applause and laughter.)

THE REPUBLICAN PARTY.

This is the party that includes in it East, West, North and South, that great array of men whose hopes, sympathies, labor and suffering have been poured forth with sublime earnestness for liberty. Notoriously is the party by its principles a party of liberty, but even more so by the character of its elements, by its population (if I may so say,) made up by men that are trained in liberty. In it are the old abolitionists; in it are the most recent anti-slavery men, the men and the women who in faith have prayed long for the rising light; the the sons who have learned from sainted mothers the very religion of liberty—they are to be considered more a party than any party if it is to commit the sacred work of reconstructing liberty. (Great applause.) It has carried the country through the war. (Cheers.) It has proved its fidelity and power. It has earned in blood a right to prescribe for a bleeding country. (Cheers.) I hear men say that the party had lost its traction, but it rose from an emergency, and now stands ready give way to a new party, ready to rise for the whole day of liberty. (Great applause.) It has made important progress in the elementary steps of reconstruction; it holds great fundamental principles, and is seeking for specific objects which no other party has, and though there may be difference of judgment respecting the methods of securing common objects, there ought to be none as to the objects themselves, and I think there is none. It is the duty of the Republican party to continue in power.

THE TRUE PEACEMAKER.

Peace and reconciliation with the South are to be made through the Republican party. A peace and reconciliation made by the party with the South will be final and abiding, because that party and it alone represents the sentiment that saved the nation. To make peace with the South through the Democratic party is not to make it at all. They have been so affiliated with the South before the war, and through the war. But for the South to make peace with them is little more than for them to make peace with themselves. (Laughter and cheers.)

There is a right to diversity of opinion in the Republican party. We have a right to discuss the expediency of measures. But whenever they have been settled and determined upon, then it is our duty to stand hand in hand, and shoulder to shoulder, and with locked step and unbroken ranks to go forward, and to maintain the government of the country.

☞ Caution in Time.
Persons that desire to use Dr. HERRICK'S *Oblong Self Strengthening Posters*, that cures pains, weakness, and distress in five hours, and that has stood the test of experience thirty years, should not confound them with the miserable unbleached muslin papers, and other worthless preparations called Plasters, offered for sale at all stores, and offered in place of HERRICK'S. **Dr. Herrick's Old Plasters and Blood Purifying Pills** are used in the U. S. Army and Navy, are introduced into most Hospitals, Alms Houses, and Prisons, and are the means of cures, with wonderful cures. Five thousand physicians and surgeons use and endorse them. Call for and see that you get genuine HERRICK'S OLD PLASTERS AND SUGAR COATED PILLS. Sold by dealers everywhere.

Important to the General People.
Next to the common articles of daily food, fruits, &c., there is nothing is more universal use than candies; and unhappily there is nothing more subject to adulteration as they are by the adoption of the use of deleterious substances destructive to health. An exposure of these adulterations and their pernicious effects was recently made in this paper, which caused much speculation, and no doubt warned many that the only safe way to be made of candies and confections was to obtain those which are known to be pure. The knowledge that they are thus pure is what has made Somerby's candies so popular, and what has so enhanced his business as to encourage him to build a splendid marble edifice in Temple Place, for his manufacturing and wholesale trade, while his retail business will be carried on at Horticultural Hall as usual. The purest material, the use of none but the most innocent and innoxious coloring materials, and the neatest and most tasteful styles of manufacturing constitute Somerby's candies among the best, the safest, and the most popular in the market. *—Boston Journal.*

PIANOS AND REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.
PICTURE FRAMES on hand and made to order.
LAMPS altered and repaired.
Having made arrangements with Prof W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M Guild & Co. The superior merits of the former have too long been established to need any comments. Of the latter, suffice it to say that the sale of over fifty of them within the last five years by Mr Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.
Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof Day. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman.

GEN. HOWARD ON THE FREEDMEN.—In an address at Baltimore on Thursday evening, Gen. Howard said the Freedmen's Bureau was now educating about one hundred and fifty thousand freedmen and their children. Although there had been twelve school-houses for colored people burned in Maryland during the year, he understood that there were three times that number now being constructed.

"He believed that five years would witness the putting aside of the follies and prejudices which now prevail in many quarters, though he did not, of course, apply this remark to all the people of the South, for there are some men there who are so full of malignity and hate that it would seem that they never, never can be changed—some of those men of whom General Sherman said, 'The country never will be at peace until they are killed or driven out of the country.'

"Those who claim that the negro will die off know that they state what is not true; all the evidences prove to the contrary. He was very hopeful with regard to the future. The Freedmen's Bureau was simply serving to save the stock of the colored man's transition from a life of slavery to one of freedom. The operation of this agency was only temporary, but the speaker had learned during the late war that there was power in the United States government, and that that power was not vested in one department, and he was satisfied that when the Freedmen's Bureau ceased its operations the government would be able to protect the humblest citizen in all his rights in every part of the country."

HEAVY SEANDER SUITS.—The St. Louis Democrat has been sued by four indignant secessionists for $25,000 each for slander—a pamphlet having been issued from the Democrat job office containing the names of 8000 persons disfranchised under the new Constitution, some for being rebels in arms, some for getting out foreign protection papers, some for running away from the draft, &c. The list was once called a roll of honor by all the rebel sympathizers in the city.

—The vine harvest is expected to be a bad one, all over Italy. The production has been small, and the oidium has committed ravages among the grapes which are coming to maturity.

KIND WORDS.—Kind words! how cheap, indeed, and yet how very dear. Kind words are Heaven's sweet Angel messengers. So is Herrick Allen's Gold Medal Saleratus earth's sweet messenger to all who love a good, light, nice white Biscuit. You had better throw your flour away, and go hungry, than use any other. Call for Herrick Allen's, and have no other; it is as harmless as flour. Try it. Most everybody sells it. Depot 112 Liberty Street. 45

Ayer's Ague Cure,

for the speedy cure of Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, Bilious Headache, and Bilious Fever—yes, indeed, for the whole class of diseases originating in biliousness, caused by the malaria of marshy countries.

Fever and Ague is not the only consequence of the miasmatic poison. A great variety of disorders arise from its irritation. A malarious district, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Karache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hypochondria, Pain in Bones, Limbs and Joints, Paralysis, and Derangement of the Stomach, all of which, when originating in this cause, yield to the intermittent influence of the periodical. This CURE expels the poison from the blood, and thus cures them all alike. It is not only the most efficacious remedy ever discovered for this class of complaints, but it is the cheapest, and moreover is perfectly safe. No harm can arise from its use, and the patient who was so long left unhealthy as if he had never had the disease. Can this be said of any other cure for Chills and Fever? It is true of this, and the importance to those afflicted with the complaint cannot be over-estimated. So sure is it to cure the Fever and Ague, that it may be truthfully said to be a certain remedy. One Dealer complains that it is not a good medicine to sell, because one bottle cures a whole neighborhood.

Prepared by J. C. AYER & CO., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. aug28—2m

Morning Chronicle.

Portsmouth N. H.

TUESDAY, OCTOBER 23, 1866.

☞ The N. Y. Herald's Rio Janeiro correspondence of Sept. 25th says the Allied fleet, in moving up the Panama river to attack Fort Curapaity, came upon a masked battery, when the iron-clad Rio de Janeiro was disabled by a 68 pound shot, and was finally blown to fragments by a torpedo. All the crew perished. On the 3d of September the army assaulted and captured the fort. Up to the 7th no further advance had been made.

☞ From Paris, Rome and Brussels we have intelligence that the mind of the Empress of Mexico, overtaxed by her mission and depressed by her failure, has given way, and that her majesty became insane after her interview with the Pope, and was taken from Rome to Brussels in this condition. The latest telegram from Brussels states that the mental "crisis" was allevi ated.

☞ On Sunday, at Baltimore, the Catholic Council closed its sessions. President Johnson was present. The proceedings and decrees are now to be sent to Rome for supervision by the Pope. It is rumored that the council recommend the appointment of twenty additional Bishops and one Archbishop for each six Dioceses.

SUPERSTITION AT SEA.—The New York World tells that after the death of John Van Buren, on board the Cunard steamer Scotia, a few days ago, the weather became tremendously stormy—the vessel having just sailed into the gale then raging along our eastern coast. The coincidence of Mr. Van Buren's death with the occurrence of the hurricane had an effect upon the minds of some of the working seamen, which, though not novel, considering their superstitious tendencies, is interesting to relate, in reference to the present occasion. The sailors esteemed it very very bad luck to keep the body on board, without instantly committing it to the deep, and were chagrined at the noble resolve of Commodore Judkins to bear the remains to our shore for interment. They requested its sea burial. It was refused. Still the storm continued, and the seamen considered the unconscious corpse a Jonah in their midst, not for the while remembering the almost indestructible stanchness of the Scotia, and their really absolute safety ensconsed by her strength. It is stated that a movement was frustrated by detection, which they had covertly considered if not determined, to cut the ropes that held the boat, on the port side, in which the coffined remains had been placed.

EUROPEAN ITEMS, May 10, by steamer. The Empress of Mexico was alarmingly ill in Rome.

The ratified treaty has been sent to Vienna, with thirty-five millions of florins in treasury bonds, in payment of the indemnity by Italy.

The Emperor of Austria has decided to renounce the title of King of Lombardy and Venetia.

Royal patents incorporating Frankfort, Nassau and Hessa Cassel have been promulgated. In those places the inhabitants remained quiet.

The patent annexing Hanover has been promulgated. The King protested against annexations to Prussia, but relieved his subjects from their oaths of allegiance to him.

Immediately upon the ratification of the treaty between Italy and Austria, the fortifications of Pescheira, Mantua, Lagrago, Verona, Palmanova and Venice and the Provinces of Venetia will be handed over to Gen. Leboeuf.

MARRIAGES SINCE THE WAR.—It appears by official statistics that the number of marriages in Ohio for the year ending July 1, 1866, is fully twenty per cent. above that in any one year, either before or during the war. Probably there has been a similar increase in other States, and if so, the waste of life by the war is likely to be made up.

☞ The down-train from Boston for Portland, on Monday morning, when near North Berwick station, ran off the track and six passenger cars, with the Boston and Maine baggage car, were capsized. Wonderful to relate, no person was hurt.

☞ Thomas' "Old Farmer's Almanacs" for 1867, has been received from the publishers, Brown & Tilleston, Boston. This venerable annual has attained its 75th issue.

☞ The Knitting firm in Cohoes, N. Y., whose failure for $1,000,000 has been announced, is said to be that of Allen, Frink & Co.

— The assessed value of Chicago this year is $91,000,000, an increase of $27,000,000 since last year.

— The New York courts have finally decreed that Harriet E. Christy is the lawful wife and rightful heiress of E. P. Christy the negro minstrel.

GOLD, Monday, 146.

NEW HAMPSHIRE ITEMS.

—— The barn of Ephraim W. Butterfield, at Bedford, was destroyed by fire on Saturday morning, with cows, horse, hogs, hay, &c. Loss $2000; partially insured.

—— The annual session of the Grand Lodge of Good Templars, was held at Sanbornton Bridge, on the 10th and 11th inst. The order is represented to be in a very prosperous condition.

—— Mr. George Peabody, whose munificent gifts for public purposes have excited admiration on both sides of the Atlantic, while on a visit to his sister in Barnstead, offered to give $300 toward the purchase of a bell for the Congregational Church at that place, provided a like sum should be contributed by the citizens. The Mirror learns that the requirement has been promptly met.

☞ The New York correspondent of the Providence Journal gives the following account of what a Democratic candidate for Congress in New York city has to go through. It is speaking of Hon. S. S. Cox, in the 4th district:

"If he can command twenty or thirty thousand dollars, he may obtain the countenance and support of Tammany Hall. After he has got that, he must, to be elected, obtain the countenance of Mozart Hall, of the McKeon party, and of the Young Men's Democratic Association, all of them hostile to Tammany, till a trade has been effected, and the "case has been worked up." After he has achieved all this, he will be confronted by the "Stumpers," a formidable faction, who always "mean work," and can only be silenced by pecuniary considerations. The rule that applies to Mr. Cox, applies to all the other candidates.

Until within the last five or six years Tammany Hall has been a great political Simonial manufactory; has created offices at will, and sold them by the pint, quart, peck, bushel, or at retail by the single article.

No man can obtain a nomination for Congress on the Democratic side, in this city, at a cost less than twenty-five or thirty thousand dollars, and a nomination, if endorsed by all Democratic factions, is deemed equivalent to an election."

JEFF. DAVIS.—The Fortress Monroe correspondent of the New York Herald, speaking of the absurd statements of Southern editors respecting Jeff. Davis' health and treatment, says:

"I might cite misstatements to any length but it is unnecessary. There is no gainsaying the fact, as I have recently written, that Mr. Davis' health is at present at peculiarly low ebb; but he was completely invalid when he came here, and had been for years. His reduced physical condition has not been brought about by his treatment as a prisoner. He has been most humanely treated, ten thousand times more humanely—and I write from four months' experience of Castle Thunder—than ever was a Northern prisoner at rebel hands."

☞ The London Morning Star publishes a correspondence between Prof. Newman and Neal Dow in relation to an apprehended appeal by Mr. Johnson to physical force in his battle with Congress. Prof. Newman's letter shows that the President's violence is awakening serious fears in the minds of thoughtful men abroad. Gen. Dow's letter is full of instruction to English minds, and discusses those internal matters in our system of government which are misunderstood by many leading men in that country. He shows that Mr. Johnson's appeal—if he were wicked enough to make it—would be futile; that the soldiers acknowledge no allegiance save to their country and the constitution.

☞ Messrs. Richardson & Co., of New York, will publish on the first of November, Mr. W. Gilmore Simms' collection of "War Poetry of the South." It is a source of congratulation that a Southern author of Mr. Simms' acknowledged ability has prepared a volume which must ever be one of great interest. It contains very many poems of high merit and interest, and records the intense feeling of the hour, as the varied scenes of war transpired. As soon as Mr. Simms' purpose to prepare this volume was announced, contributions poured in upon him from every Southern State—contributions, many of them, which would not have been called forth by any other author—and in the abundance of material, he has been enabled to select the best in every case. Here will be found the lyric which times the march to battle; the slogan which inspires the charge; the rally which re-inspires after reverse; and the elegy which recites the virtues of the beloved one. It is a grateful, though melancholy record, and although it tells of defeat and overthrow, and the forfeiture of confident hopes and anticipations, it also tells of heroic struggle and of resignation even after the defeat of every hope. The book is a very valuable contribution to our literature, and cannot fail to interest all intelligent readers. We are told that the book will not be for sale in the bookstores, but will be sold only by canvassing agents.

☞ Protecting the toes of children, Shoes from wear by Metal Tips, has proved a most important and useful invention. But until lately a great mistake has been made in applying them chiefly to the coarser grades of shoes. For the higher the cost of the shoe the more there is saved by protecting the toe from wear, which can only be done by a Metal-Tip. Genteel Metal-Tipped shoes are now being made and are worn by the best families in the city. Manufacturers could not have conferred a greater public favor than by supplying this great want.—*Boston Journal.*

— Loring Andrews has given $100,000 for the endowment of the University of New York.

THE RESOLUTIONS OF THE NATIONAL UNITARIAN CONFERENCE, at Syracuse, passed by a unanimous vote, the whole convention rising to their feet:

Resolved, By the National Conference of Unitarian and other Christian Churches, that we gratefully recognize the goodness of God in that he has in his providence brought to a triumphant conclusion the warfare which our people waged for the maintenance of our Union and the safety of our free institutions, and that He has made the civil contest in which we have been engaged to end in the emancipation of our land from the sin and curse of human slavery.

That we deem it to be the solemn duty of all loyal men to see to it that the Union which has been saved by loyal arms and cemented by loyal blood shall be intrusted to the supreme control of those who have proved themselves true to the cause of the government and the interests of freedom, and that we insist that the fruits of our great victory, won by such vast sacrifices and untold suffering, shall not be lost in an evil hour, to our country and to the world.

That we do most profoundly sympathize with our fellow-countrymen, both white and black, in the South, in all the persecutions and trials to which they are subjected, and that we will give ourselves no rest until black and white alike are secure in the enjoyment of the right of suffrage, and of all the privileges and immunities of free citizens of a free country.

That while other denominations of Christians are beginning to feel their obligations to the four millions of liberated slaves in the South and to do their part to educate and christianize them, we too would be deeply impressed with a sense of our own duty to these poor and long-afflicted classes of our common humanity, and we desire and purpose to fulfill our appropriate part of the work of lifting them up to a higher level of civilized life and spiritual progress.

☞ Last week a young couple were married at Cleveland, Ohio, and three days afterward, as they sat at breakfast, each complained of being seriously ill, and neither could eat. The husband was compelled almost immediately to retire to bed, and in a few minutes his wife followed him. A physician was sent for, who, after examination of the patients, pronounced their disease the cholera. Immediate attention was given to them, but they both died the same evening. The bridegroom and bride were robed in their wedding clothes, and on Tuesday last were buried in the same grave.

— A commission has arrived at Kingston, Jamaica, to try English officers for shooting negroes without trial.

— Formerly by band a pound of cotton was spun into a thread about a 108 yards long, but since the application of steam it will produce a thread 167 miles in length.

— A woman in Louisville lately gave birth to twins, and shortly afterwards sold them to two neighbors—the boy for two dollars and the girl for two pairs of children's shoes.

— Advices from Russia report that the Assistant Secretary of the Navy, Captain Fox, has been unsuccessful in his efforts to induce the Russian Government to contract with American parties for the building of a large number of iron-clads and monitors.

— During a flag presentation to a Zouave Volunteer Company of freedmen at Charleston, Gen. Scott arrested those wearing shoulder-straps and side arms, in violation of general orders of the Department, which prohibits military organizations of any kind in South Carolina.

— The engine in one of the Wamsutta Mills, at New Bedford, broke down so completely on Tuesday that a new one will have to be supplied, and it may be two or three months before work will be resumed. About 300 operatives are thus thrown out of employment.

— With reference to A. T. Stewart's proposition to provide model tenements at a cheap rate for the laboring classes, a gentleman writes to the Tribune that he will furnish lots enough in New York on which to erect as many buildings for the purpose proposed, as the money offered by Mr. Stewart will build.

— At Oak Hall, Farquier county, Va., a few days ago a man named Jones charged another named Bayly with piloting "Yankees" to his (Jones) house during the war. A scuffle ensued, and Bayly fired a pistol at Jones, the ball entering the neck of the latter and ranging downward, caused his death in a few hours.

— The Post Office at Cleveland has swung around the circle. In 1861, President Lincoln appointed Edward Cowles, editor of the Leader, the Radical organ, Postmaster. In 1865, Johnson appointed Benedict, editor of the Cleveland Herald, the Conservative organ; and a day or two since he appointed W. W. Armstrong, editor of the Plaindealer, Copperhead organ, to the same place.

— A horse belonging to Houston Devino of Winooski, Vermont, escaped from his pasture and got upon the railroad track just as the passenger train came rushing along at full speed. The frightened animal kept the track ahead of the engine for nearly three quarters of a mile, crossing two bridges, leaping two cattle guards, and reached the lime kiln station, there leaving the track unhart after its wild race with the steam horse.

— Mr. A. U. Bigelow of Hubbardston, Massachusetts, a teacher of freedmen, has been driven away from Aiken, S. C., by a Vigilance Committee, who would not permit him to begin his labors.

— On Thursday, in the U. S. District Court of New York, Mrs. Richards, a widow of 54 years, sought to recover the sum of $10,000 damages for the breach of a marriage promise. The defendant, Roberts, is a married man, aged 70. The jury rendered a verdict for defendant.

Special Notices.

Hygienic Wine.

Approved by the Imperial School of Medicine, Paris.

Tested by the Committee on Chemistry of the American Medical Association, at their Convention, held in Baltimore, May 1st, 1866, and endorsed by its most prominent members.

This *IMPORTED* Tonic, recommended by the most eminent Physicians, is prepared in Paris from

PURE SHERRY!

Admits in its composition only Tonic, Aromatic, and Febrifuge substances. It *replaces* with a great superiority all other Bitters, which have for a base, nothing but Alcohol or inferior Whiskies. It is richer than any other Bitters in

Aromatic and Balsamic Principles,

and its taste is exquisite. Its soothing effects on the NERVOUS FLUIDS is most astonishing for, while it gently exhilarates, by re animating the functions of the DIGESTIVE ORGANS, and dissipates Languor, by gently refreshing and stimulating the brain, giving a healthy tone to the whole organism, it leaves behind none of the baneful influences that follow Alcoholic stimulants.

HYGIENIC WINE

is moreover

MOST DELICIOUS TO THE TASTE.

Possessing wonderful virtues in all cases of DYSPEPSIA and DEBILITY, and moreover is unexcelled as an

Appetizer,

IT IS NOT INTOXICATING IN THE LEAST.

MUSCAT PERLE, (Imported)

is a rare fine Wine of most delightful flavor. It is the Pure Juice of a Most Delicious and generous Grape, and surpasses in excellence *any Table Wine in the Country.*

All who are solicitous about obtaining a *pure* and a superior Wine, will be delighted with

"HYGIENIC *Tonic.*"

☞ Church people are solicited to examine this Wine for communion purposes. A Communion Wine should be *above all things* PURE! In the second place it should be MILD. "Muscat Perle" combines these two most essential qualities, and a trial will convince any one of its superiority over all other wines at present in the market.

These Wines are sold by all respectable Druggists and Dealers.

ALCOCK'S POROUS PLASTERS.

BEST STRENGTHENING PLASTER IN THE WORLD.

ALLCOCK'S POROUS PLASTERS relieve and assuage pain by calling forth the acrid humors from parts internal to the skin and general circulation—thus, in many cases, positively evaporating the disease. JAMES LULL, M. D.

There is nothing equal, in the way of a plaster, to the Porous Plaster of Mr. ALLCOCK. Everything is pleasant about them. They are the plaster of the day, and a monument of our present advancement in science and art. In Asthma, Cough, Kidney Affections, Gout, Rheumatism, and local deep-seated pains, they afford permanent relief.

J. F. JOHNSON, M. D., on Topical Remedies.

From a personal knowledge of these plasters, we can state that they are decidedly preferable to any other in use. Wherever relief is to be obtained by the use of a plaster, we should recommend them.

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

MESSRS. J. N. HARRIS & CO.:—

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONTUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It causes the phlegm and matter to raise, without irritating those delicate organs (the Lungs), and without producing constipation of the bowels. It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state

Yours respectfully, A. L. SCOVILL.

THE PEOPLE'S FRIEND.

PERRY DAVIS' VEGETABLE PAIN KILLER possesses virtue, which not alone removes pain instantly, but regulates the stomach, gives strength, tone and vigor to the system. It is one of the medicines that is worth more than gold.

Don't experiment in testing new remedies, when you can buy the genuine Pain Killer, which everybody knows to be good.

The Woodstock (C. W.) Sentinel says: "It is a generally admitted fact that the medicine manufactured by Messrs. Perry Davis & Son has been instrumental in alleviating much pain, and giving relief to millions of suffering humanity. The medical faculty almost everywhere recommend the Pain Killer, and its reputation is now established as the most beneficial family medicine now in use, and may be taken internally and externally to expel pain." ol—dawim

Local.

S. J. COURT, Monday, Oct. 22.—Court came in at eleven o'clock. After calling the criminal docket, Abner Lowell, charged with aggravated assault and battery, retracted his plea of Friday last, and pleaded guilty. James Williams also retracted his former plea, and pleaded guilty of stealing an overcoat.

The first case on trial was State v. John H. Eaton. The offence alleged was stealing fourteen hens, the property of John Pike, Jr., of Salisbury, Mass. It appeared in evidence that in July last the hens were taken at night, and seven of them were next found in a barn occupied by the respondent, in Long Lane in Portsmouth. A large number of live fowl were also found there at the time of Eaton's arrest. The defence did not offer any testimony, but rested on the insufficiency of the evidence for the prosecution. Verdict guilty; value $5 25. Small, County Solicitor, for State; Hatch and Hodgdon for deft.

The trial upon a second indictment against John H. Eaton was, on motion of his counsel, postponed till the end of the criminal docket, in order to give the defence opportunity to procure an important witness. This was for stealing wearing apparel from James W. Green, of Hampton Falls.

State v. Dearborn, also postponed.

State v. Fritz, on trial.

POLICE COURT, Oct. 20.—John Grimshaw was brought to answer a charge of bastardy, preferred by Margaret O'Leary. He plead not guilty, but was ordered to give bond to said Margaret in $400 to appear at the S. J. Court, in Exeter, in January next.

NOTE BENA.—Mr. Simon Marston, who has a pretty little cottage and a well-stocked garden on South Road, raised this year from a single white bean, among the rocks of Lookout Mountain, no less than 802 (eight hundred and two) beans. He knows beans, sure.

☞ A desirable and convenient residence at West End, is advertised for sale in our auction column this morning. The scarcity of dwellings of this class, in our city, renders this a desirable investment at the present time.

NAVAL.—Gunner Thomas H. Fortune, has been ordered to duty at the naval station.

The resignation of Actg. Vol. Lieut. Charles Norton has been accepted.

☞ Helen Western, with an efficient company of supporters, will again delight our citizens, at the Temple, this evening.—It is but seldom that we have so good a company visit us, and those who fail to see them are themselves the losers.

Communication.

Messrs. Editors:—The owners of the Steam Factory have an undoubted right to consume their own "Waste" and "Waste-House" as often as they choose; but why should the City be endangered and put to the unnecessary expense incurred by the Fire Department every few months, when a *Ventilator* on the top of that Waste House would insure it from spontaneous combustion.

TAX-PAYER.

☞ In the U. S. District Court at Portland, on Tuesday of last week, the case U. S. by information v. mare Nellie Locke was called up. The Advertiser says this was on information filed against said mare for an alleged attempt of her owner to defraud the revenue. It is alleged that $900 in gold was paid for the mare in Canada, while she was entered in the U. S. Customs at only $65. Messrs. Sager, Rummery and Clement were appointed to appraise the value of the mare, and ordered the claimants to give bonds in double that amount, and also bonds for the costs, to abide the event of a jury trial in December. Saturday morning the appraisers rendered an appraisal at $4000, and the requisite bonds were given, and the mare was restored to claimants. Wm. H. Hackett of this city, and J. & E. M. Rand for claimants, and Dist. Atty. Talbot for government.

☞ The Marine Corps, numbering about 3600 men, is said to be nearly full, and with a better class of men than usual in years past. PROCLAMATION.

TO THE PUBLIC GENERALLY.

WHEREAS, being armed and equipped with such a stock of Fall and Winter Dry Goods as cannot fail to strike the beholder with wonder, amazement, and please the fancy of all lovers of the Beautiful; and Whereas, Having entered the field for the Fall and Winter Campaign of Trade, we are determined to repulse if not entirely vanquish the great system of monstrous prices and murderous profits, which has erected upon our whole country like a mighty incubus—sinking the poor into deeper depths of poverty, and dragging the affluent down, and even driving many to distraction:—and Whereas, We have taken unusual pains in the selection of our New stock, and have purchased it all at the Lowest Cash Prices, which will enable us to accommodate the purchaser at the lowest possible figures:

Therefore, We, A. Q. LEACH & CO., do hereby issue this our proclamation, to dispose of our Stock upon such terms as must give satisfaction.

In witness wherevof we have this, the 16th day of October, A. D 1866, and of the independence of the United States of America the ninetieth year, hereunto placed our hands and caused the Great Seal to be affixed.

Dr. Schenck's

NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street**, Boston, where he will be professionally every WEDNESDAY from 9 to 3. Every person complaining with Consumption or any disease leading to it, are invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part, also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

REASONS WHY THE

AMERICAN WATCH,

MADE AT WALTHAM, MASS.,

IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "anchres," "lepines" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, last fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

The 2½ story DWELLING-HOUSE, numbered Two on Dover Street, in this city, owned and occupied by EDWARD F. NOWELL, together with the land attached thereto, on which stands a good, well-appointed STABLE and WOOD-HOUSE.

The House contains ten finished Rooms, including wash-room (with boiler) and kitchen, dining-room, sitting-room, parlor and six sleeping apartments, besides sink-room and large pantry,—and is in excellent repair throughout. An L 14x20 feet, containing a spacious and beautifully finished dining-room, &c., has been added this season. The roof is tinned, and there is a piazza extending its entire length. The Garden has several varieties of apple, pear, plum and cherry trees, grape vines, currant and gooseberry bushes, etc., and also has sufficient area to grow enough vegetables for the wants of a large family.

This sale affords a rare opportunity of purchasing a very desirable and convenient residence.

The House will be open for examination on WEDNESDAY, Oct. 31st, from 10 A. M. to 1 P. M.

For further particulars enquire of T. S. NOWELL & CO., corner of State and Pleasant Streets.

BUTLER AT CHICAGO.—A special dispatch from Chicago Oct. 17, to the Traveller, says: Gen. B. had arrived there, and by invitation, addressed the members of the Board of Trade. The General spoke of the necessity of ship canal communication with the Atlantic ocean, arguing that as a military measure simply, the constitution conferred the power on Congress to act in the matter. His address was very well received by the merchants.

At the urgent request of leading citizens, he delivered his celebrated speech in favor of the impeachment of President Johnson. Besides the points already telegraphed he brought forward the following additional ones:

The President's conduct in the New Orleans massacre, and the appointment of men to office who cannot take the test oath, in defiance of the express law of Congress. He cited these as impeachable offences, and argued that the right of impeachment, and not a revolutionary measure, but fundamentally constitutional, clearly been engrafted by our fathers in the frame-work of the government as a popular safeguard against executive usurpation, and that, therefore, those opposing it are the revolutionists. The General remarked that it was absurd to suppose that the President could, constitutionally, hold office pending his trial or impeachment, because in addition to the wrongful use he might make of the power as Commander-in-Chief, he would in such a view of the case, have a clear constitutional right, should the Chief Justice die before the completion of his trial, to appoint his own judge.

MATRIMONIAL GOSSIP.—Mrs. Ritchie, the widowed daughter of the late General Wadsworth, of Genesee, N. Y., is said to be engaged to the Duke of Rutland, one of the wealthiest peers of England. Mrs. Ritchie is beautiful and *distingue*. She was some time ago the guest of the Lord Lieutenant of Ireland, and at a ball at Dublin Castle excited general admiration, and the Prince of Wales asked on that occasion to be introduced to her. The Duke of Rutland is an old man, while the lady is young, so that there is still some doubt whether she will consent to become the mistress of Helvoir Castle and of a number of other magnificent chateaus and estates.

Isaac H. Burch, formerly a banker of Chicago, but now in Paris, was married a few weeks since in the French capital to Miss Spaulding, who figured so prominently in the divorce suit as the friend of Burch and the enemy of Mrs. Burch.

— Thomas Bailey, Esq., of Amesbury Ferry, has raised the present season from one peck of "Horton Red" potatoes, fifteen bushels.

Furs! M. WALKO & Co. respectfully inform their friends and customers that their well assorted stock of FURS, manufactured by M. WALKO, personally, is now ready for inspection. Also, wish to inform those who have Old Furs to Alter or Repair not to leave it too late in the season, as the earlier they are brought the better attention can be paid them.

PLEASE TAKE NOTICE—*Not in the Mercantile Building, as formerly, but directly opposite, next door to Henry C. Leland's Clothing Store.* A good assortment of Ladies and Children's Hats, Ladies' Riding Hats. Highest price paid for Raw Furs. 3m

AMERICAN AND FOREIGN PATENTS. R. H. EDDY, Solicitor of Patents, Late Agent of the U. S. Patent Office, Washington, under the act of 1837. 78 State Street, opposite Gilbert Street, BOSTON.

After an extensive practice of upwards of twenty years, continues to procure Patents in the United States, also in Great Britain, France and other foreign countries. Caveats, Specifications, Reports, Assignments, and Other Papers relating to Patents, executed on liberal terms, and with despatch. Research made into American and foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of any claim of any Patent furnished by remitting one Dollar. Assignments recorded at Washington.

The ease with which the inventors of New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, compared with those remotely situated, is a boon for which each one is offered them elsewhere. The Testimonials below given prove that since THE SUCCESS OF AT THE PATENT OFFICE that the Subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate. The immense practice, during the past twenty years, has enabled him to accumulate a vast collection of specifications and official decisions relative to Patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHARLES MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their application in the form most favorable for them in the and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of SKILL, INTELLIGENCE and ON-the part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most original attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made no more rejected applications SIXTEEN APPLICATIONS of which was decided in his favor, by the Commissioner of Patents. R. H. EDDY.

Important to the General People. Next to the common articles of daily food, fruits, flowers and vegetables, nothing is more than candies, and unhappily there is nothing made so subject to adulteration as they are by the unscrupulous use of deleterious substances destructive to health. An exposure of these adulterations and their pernicious effects was recently made in this paper, which caused such speculation, and no doubt warned many that the only safe use to be made of candies and confections was to obtain those which are made to order from those in whom we knew that they are thus pure; and it is in pleasure to inform our readers that what has made Southmayd's candies so popular, and what has so enhanced his business as to compel him to build a splendid marble edifice in Temple Place, for his manufacturing and wholesale trade, while his retail business will be carried on at Washington Hall as heretofore. The finest and purest material, the use of none but the most innocent and innocuous coloring materials, now the rarest and most interesting and delicate flavoring, constitute Southmayd's candies among the best, the safest, and the most popular in the market.—*Ladies' Journal.*

The Chronicle.

THE KNIGHTS OF ARABIA.—It is said that the trial of the man McIvor, now in custody in New Orleans on the charge of being at the head of an organization treasonable to the United States, will prove conclusively that such is the character of the association. McIvor says he is a Scotsman, and, by his account, he has led a rather exciting and chequered life. He fought in the Crimea; was a rebel soldier after the fashion of his countryman, Dugald Dalgetty, who fought where there was the best pay to be had; joined the Mexican Liberals; was suspected of having been an Imperialist spy; had to decamp from Alexico to save his life, and came finally to the United States to raise American troops for Juarez. McIvor says that the Knights of Arabia are organized in support of a grand fillibustering scheme, and therefore inimical to the laws of the United States, but places it on a par with Fenianism. He does not hesitate to say that the object of the organization is the capture of an unmentionable island, the subjugation of its inhabitants, and the establishment of an independent government by the captors. He also states that ex officers of the United States army are members, and that its ramifications extend all over the country, both North and South, although there are more ex-Confederates in it than any other class. He argues that the by-laws of the association mention coffee, sugar, tobacco and cotton as the products of the "land of promise," proving that the object of the organization is not treasonable, as there is no coffee raised in this country.

McIvor, as his case has assumed a complicated aspect, claims British protection as a subject of Her British Majesty, and the English Consul at New Orleans has forwarded a statement of his case to Sir Frederick Bruce, in Washington, accompanied by a copy of the by-laws. General Sheridan has also forwarded a statement to the Secretary of War, accompanied not only by the by-laws, but very important documents in writing, including letters from Davis, Benjamin and other prominent personages of the rebellion, showing that McIvor made several trips to Europe as a confidential agent of the Confederacy. Proof is not wanting that he was a rebel spy in our lines at times during the war.

The Old Established Hospital,
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually.
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly safe in the Control of his Celebrated Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus unfitting themselves for the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in that manly vigor which alone makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody—Startling disclosures. DR. TELLER'S great work for the Married or those contemplating marriage—300 pages—full of plates—price 25 cts—Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Hippy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which he proposes to treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice. N. B.—No students or boys employed. Notice this, address all letters to

Morning Chronicle.

Portsmouth N. H.

WEDNESDAY, OCTOBER 24, 1866.

TALK BY THE WAYSIDE.—Happening to tarry in Newburyport in the time intervening between two railway trains, a pleasant half hours' walk at the North End, brought us near the ship-yards. But just before we reach them, on the water side of Merrimack street, there are the walls of a new brick manufactory going up, and a long, narrow wharf going out through the salt grass and thatch, to find deep water. On enquiry, we learn that Arms, i. e. rifles or muskets, are to be made in the building, and the wharf is to be used for landing iron, coal, &c. Musing on the question why such things might not be done in Portsmouth, the mental answer was, perhaps because there are not a large supply of houses in P. for the workmen to live in. This may not be the sole reason, but perhaps it is one of the reasons.

A little way from this building, up the hill, and near Washington steet, we passed through a Square, containing we should judge by the eye, about three acres, fenced in with a plain low fence, and fronting on four good streets. The north side of this Square was occupied by four buildings, apparently one engine house, and three school-houses, with rooms for five schools. The buildings were arranged in a row, with ample spaces between them, and, with their proper out-houses, occupied not more than 100 feet in breadth, leaving an ample play-ground for all the scholars, and a pleasant square through which was a well worn wide foot way for the public. The buildings were no way remarkable in outward appearance, unless it were for plainness, but their location and their ample play-ground suggested the thought that almost all our school lots in Portsmouth, are inconveniently small, and the kindred thought, that in future school-building, it were better to go out a few rods or even furlongs, beyond the limits of Market Square or Congress street, and get a piece of ground big enough for a school yard,—than it is to put a school under a church, or under a Court House, and fence it in with buildings to keep out light and stop the air, or to put it in the south half of a school house cellar, with a playground smaller than the school house.

We hope no one will construe this talk into a complaint that Portsmouth does not spend money freely for school houses, for that complaint would not be just. But it is intended to suggest what seems to us the better way, viz: to expend the money for more land, more light, and more air, rather than to put costly buildings in a crowded place.

On the other side of the Merrimac, a walk from Amesbury Mills to Salisbury Depot, brought us, in Salisbury, by a large new Factory building, which is designed to add business, population and wealth, to a place already active and prosperous. And a little farther on, at Rocky Hill, we stop and admire the wisdom and good taste of the old Salisbury Parish, in keeping their old meeting house in good repair, and using it for public worship just as it is, inside, without alteration. It has a large porch in front, nearly south: the pulpit on the opposite side, (not end) with sounding board above, square pews with a little balustrade at the top,—and all the arrangements antique. The whole roof has recently been shingled;—and we hope the old house may long remain unchanged.

The preacher, too, is in keeping with the house. Rev. Mr. Sawyer, now fourscore and five years old, has preached there as usual, regularly during the past summer; tho' for some winters past he has suspended such labors. Belonging to the past age, he is yet in full sympathy with the present, and looks forward with brave hope to the future: and attached to his own views and usages, he exercises a large and wholesome Christian Charity to the sheep not of his fold. U. T.

☞ At St. Louis, Mo., the coroner's jury have returned a verdict that the disastrous steam boiler explosion last week was the result of the negligence and ignorance of the engineer.

The damage by the tornado Sunday is estimated at $100,000. It did great damage to houses, churches and buildings of every description, several of which were blown down. A number of persons were injured. The Presbyterian Conference has passed a series of very radical resolutions condemning President Johnson and endorsing the action of Congress.

☞ The intelligence from Baltimore, is to the effect that the excitement still continues, and that all the Union organizations are organizing to resist the action of the Governor should he undertake to depose the Police Commissioners.

☞ On Sunday night at Chicago during a violent gale, a brick building in process of erection, was blown down, crushing five frame structures adjoining. Twelve persons were buried beneath the ruins, five of whom were killed and three others seriously injured.

NEW HAMPSHIRE ITEMS.

—— Rev. T. H. Miller is to preach at Fremont, next Sunday.

—— The Boston Herald of Tuesday says: Rev. Rowland Connor has resigned the pastorate of the Universalist Society of Concord, N. H., and accepted a call to be an assistant pastor with Rev. Dr. Miner in the School Street Church of Boston.

IN MARYLAND, Gov. Swan is playing Johnson, working against the loyal men who elected him, and playing into the hands of ex-rebels and copperheads. He is determined to try and depose the Commissioners,—and after denying his charges against them, they say:—

"Your Excellency: It is because we have upheld the law that we are assailed, not because we have broken it. It is for official fidelity during three years of war in which we have held office that this political attack is made by those who in this very Executive chamber proudly proclaim that they are Southern sympathizers. We believe that you have had abundant opportunity to know that this Board has done its duty. From respect to your official position, and from a decent regard for the opinions of mankind, we make this distinct and detailed denial of the charges. We cannot recognize your right to try us. We cannot give up the authority and duty existing in us and imposed on us, unless upon the judgment of the judicial tribunals of the State we are required to do so."

Gen. Canby has gone to Baltimore from Washington, and had an interview with the Mayor and Police Commissioners. It is understood that the object of his visit is to inform himself as to the condition of affairs in the city.

IN GEORGIA, at a preliminary examination before the Judge of the County Court, three of the parties arrested for the murder of a freedman in Columbia county were discharged, and one, named John Perrin, committed to await his trial upon a charge of murder at the next term of the Supreme Court.

The conflict in Perry county between the civil and military authorities has been adjusted.

Gen. Tillson has ordered the prisoners in Fort Pulaski, charged with offenses against freedmen, to be delivered up to the civil courts, the people pledging themselves to protect the freedmen in their rights.

FROM SAN DOMINGO.—Advices from San Domingo to the 9th inst. states that General Cabral had been elected President of the Republic by a majority of 4389, and had formed a ministry. Some revolutionary movements took place a few days before his inauguration, but it was thought that complete peace would be insured. The tobacco trade was dull. The island remained healthy.

NEW U. S. MARSHAL.—We notice that Mr. Russell Jarvis of Claremont, it is said, has been appointed U. S. Marshal, superseding Jacob H. Ela. Mr. Ela, in the late Congress in Maine, was outspoken in the support of Congress and did not expect to be retained after his speeches against the administration.

CIRCUS PERFORMERS INJURED.—At the performance of Howe's Circus, in Lancaster, Pa., on Tuesday, Lazelle and King, posturers and acrobats, fell headforemost, a distance of thirty-one feet, while performing on a trapez. King had one of his shoulders and one of his wrists fractured, and was injured internally. Lazelle received a concussion of the brain. The accident was caused by a bolt giving way.

IDAHO ELECTION.—The official return for Delegate to Congress from Idaho is as follows: Holbrook (Dem.) 3641; Kirkpatrick 2923; majority for Holbrook, 718.

☞ Mr. L. N. Converse, a New Hampshire soldier, who lost his right arm during the late war, will bear of something to his advantage on communicating his address to Wm. Oland Bourne, editor of the Soldier's Friend, New York City.

☞ Trunks containing opera dresses (no doubt from the Evening Star,) have been picked up at sea, and taken into Savannah.

☞ Spain, it is said, is about to sustain the Pope's temporal power, whenever France shall withdraw her troops from Rome.

☞ The "Plebescitum" (vote of the people) in Venetia, was almost unanimous for union with Italy.

☞ In Mexico, Cortina is said to be about attacking Matamoras.

— Charles Morton of Mattapoisett escaped from the Plymouth county House of Correction, on Monday last. He was sentenced to imprisonment about a year since for the term of three years, for taking a minor from Massachusetts to New Hampshire, and there enlisting him, and then cheating him out of his bounty.

— The recent election in Nebraska turns out to be much more favorable to the Republicans than the first dispatches indicated. They have made decided gains over the June election in almost every county, and while in June the Republican candidate for Governor had only 145 majority, the Republican majorities at the recent election will exceed 700.

☞ A New York correspondent of the Portland Advertiser says:

Horace Greely is nominated for Congress from one of the Districts in that city. It is a District that usually gives about ten Democratic votes to one Republican, and Horace stands about as good a chance to be elected as he does to be struck by chain-lightning in November.

Nevertheless a Democratic Club has ratified Horace Greely's nomination for Congress, in "view of the corruption and double dealing of Tammany Hall."

The New York Times says the Democrats in that city have registered one hundred thousand votes.

☞ At Winona, Minnesota, a few days ago, a man named Charles Russell, suspected of incendiarism, was closely watched.—Finally he was seen to enter a building in which is kept an omnibus. He had a can of kerosene, with which he saturated the cushions and every part of the omnibus, and then set fire to it. Just as he was about to step out of the omnibus he was caught, the bus was dragged from the building so as not to set fire to that, and the incendiary was kept in the burning vehicle till his clothes were burned from his body, his hair from his head, and his whiskers from his face, the intention being to make him confess to other crimes, and to declare his accomplices. This he would not do. He said, however, that Mr. Burridge hired him to burn the omnibus, because it was insured for more than it was worth, and he wanted to secure the insurance. Russell was lodged in jail.

☞ At New York on Friday last, David Bartlett, Edward Watson alias Edward McGuire alias "Fairy" McGuire, and Oren Simms alias "Rory" Simms, all of whom are notorious burglars, were arrested on a charge of having robbed the National Village Bank of Bowdoinham, Me., on the night of the 22d of June last. The officers arrested Simms in the street, while he was in company with a crowd of thieves, who showed fight, and tried to rescue him from the police:—but the officers held on, and sent all three of the burglars to Maine. It would have been a just thing to shoot a few of the gang of thieves.

☞ The November number of Our Young Folks is the most charming in point of illustration of any that we have ever seen. From the full page colored engraving opposite the title page to the illustration of the riddles, everything is spirited and exquisitely finished. The reading matter, by the first writers of the country, is of kindred excellence, so that a better periodical for the young could not be desired, and certainly is not likely to be seen.

☞ The President has ordered the pardon of Michael Keltran, who was convicted at May, 1866, term of the United States Court for the Northern District of Ohio, for passing counterfeit fractional currency, and sentenced to one year's imprisonment. This prisoner no doubt approved the President's policy,—and so, it is said, does Gen. Sherman—nevertheless, it is a very poor policy, not half so good as honesty. It is said Gen. S. is to be Acting Sec. of War.

☞ At Belfast, Me., in the action against certain parties for destroying the Bangor Democrat office in Augusta, 1861, which has been on trial in the Supreme Court, the jury, after being out seven hours, returned a verdict of $916 against John Taber of Oldtown, and Samuel A. Mann of Bangor; not guilty as to the remaing fourteen defendants. The case goes up to the full Court upon exceptions.

☞ The New York Observer, advertised in our columns to-day, is an old acquaintance, always ably conducted, from the first number to the paper of last week. It is Presbyterian in its connection, orthodox in its theology, and conservative in its tendency. It has distinguished correspondents at home and abroad. It is printed on a double sheet, one-half of its columns being secular, and contains news, literary, scientific and miscellaneous matter. The premiums offered are extremely liberal.

☞ In Washington, the employing printers have withdrawn their names from their late protest against the eight hour system, and thus the Typographical Society are triumphant.

PROCLAMATION.
TO THE PUBLIC GENERALLY.
WHEREAS, Being armed and equipped with such a stock of Fall and Winter Dry Goods as cannot fail to strike the beholder with bewildering amazement, and please the fancy of all lovers of the Beautiful; and Whereas, Having entered the field for the Fall and Winter Campaign of Trade, we are determined to repulse it not entirely vanquish the great system of monstrous prices and murderous profit, which has settled upon our whole country like a mighty incubus—sinking the poor into deeper depths of poverty, and dragging the affluent down, and even driving many to distraction:—and Whereas, We have taken unusual pains in the selection of our New Stock, and have purchased it all at the Lowest Cash Prices, which will enable us to accommodate the purchaser at the lowest possible figures:
Therefore, We, A. Q. LEACH & CO., do hereby issue this our proclamation, to dispose of our Stock upon such terms as must give satisfaction.
In witness whereof we have this, the 16th day of October, A. D. 1866, and of the independence of the United States of America the ninetieth year, hereunto placed our hands and caused the Great Seal to be affixed.

Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES.
These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, accompany each bottle. Producing effects contrary to nature's obscure laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. Price $1.50.
Prepared by JOHN L. LYON, 195 Chapel Street, New Haven, Conn, who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. Price $1.50 per bottle.
Sold by Druggists everywhere.

Hygienic Wine.

Approved by the Imperial School of Medicine, Paris.

Tested by the Committee on Chemistry of the American Medical Association, at their Convention, held in Baltimore, May 1st, 1860, and endorsed by its most prominent members.

This *IMPORTED* Tonic, recommended by the most eminent Physicians, is prepared in Paris from

PURE SHERRY!

Admits in its composition only Tonic, Aromatic, and Febrifuge substances. *Replaces* with a great superiority all other Bitters, which have for a base, nothing but Alcohol or inferior Whiskies. It is richer than any other Bitters in

Aromatic and Balsamic Principles,

and its taste is exquisite. Its soothing effects on the NERVOUS FLUIDS is most astonishing, for, while it gently exhilarates, by re animating the functions of the DIGESTIVE ORGANS, and digesting easy, by gently refreshing and stimulating the brain, giving a healthy tone to the whole organism, it leaves behind none of the baneful influences that follow Alcoholic stimulants.

HYGIENIC WINE

is moreover

MOST DELICIOUS TO THE TASTE,

Possessing wonderful virtues in all cases of DYSPEPSIA and DEBILITY, and moreover is unexcelled as an

Appetizer,

IT IS NOT INTOXICATING IN THE LEAST.

MUSCAT PERLE, (Imported)

is a rare fine Wine of most delightful flavor. It is the Pure Juice of a Most Delicious and generous GRAPE, and surpasses in excellence *any Table Wine in the Country.*

All who are solicitous about obtaining a *pure* and a superior Wine, will be delighted with

"Muscat Perle."

☞ Church people are solicited to examine this Wine for communion purposes. A Communion Wine should be *above all things* PURE! In the second place it should be MILD. "Muscat Perle" combines these two most essential qualities, and a trial will convince any one of its superiority over all other wines at present in the market.

These Wines are sold by all respectable Druggists and Dealers.

ALLCOCK'S POROUS PLASTERS.

BEST STRENGTHENING PLASTER IN THE WORLD.

ALLCOCK'S POROUS PLASTERS relieves and assuage pain by calling forth the acrid humors from parts internal to the skin and general circulation—thus, in many cases, positively evaporating the disease. JAMES LULL, M. D.

There is nothing equal, in the way of a plaster, to the Porous Plaster of Mr. ALLCOCK. Everything is pleasant about them. They are the plaster of the day, and a fit type of our present advancement in science and art. In Asthma, Cough, Kidney Affections, Gout, Rheumatism, and local deep-seated pains, they afford permanent relief.

J. F. JOHNSON, M. D., on Topical Remedies.

From a personal knowledge of these plasters, we can state that they are decidedly preferable to any other in use. Wherever relief is to be obtained by the use of a plaster, we should recommend them.

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

Messrs. J. N. HARRIS & Co.:—

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION! I have witnessed its effects on three young men, and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It causes the phlegm and matter to raise, without irritating those delicate organs (the lungs), and without producing constipation of the bowels. It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state

Yours respectfully, A. L. SCOVILL.

PERRY DAVIS' VEGETABLE PAIN KILLER possesses virtue, which not alone removes pain instantly, but regulates the stomach, gives strength, tone and vigor to the system. It is one of the medicines that is worth more than gold.

Don't experiment in testing new remedies, when you can buy the genuine Pain Killer, which everybody knows to be good.

The Woodstock (C. W.) Sentinel says: "It is a generally admitted fact that the medicine manufactured by Messrs. Perry Davis & Son has been instrumental in alleviating much pain, and giving relief to millions of suffering humanity. The medical faculty almost everywhere recommend the Pain Killer, and its reputation is now established as the most beneficial family medicine now in use, and may be taken internally and externally to expel pain." o1—dawim

S. J. COURT, Tuesday, Oct. 23d.—State v Fritz, a verdict of guilty was rendered; this was an indictment for selling liquor to William Norton, on Court street in this city. Small for prosecution, Hatch for defence.

State v. Dodge was taken up, an indictment for keeping a disorderly house. The respondent keeps the City Hotel in this city, and has kept it since May last. The prosecution brought forward evidence of the city police to show that the house was such as was charged; while the defence offered the testimony of several boarders and lodgers at the hotel, that the hotel was kept as quietly as hotels of this class generally. Verdict, guilty. The County Solicitor not being desirous of oppressing Mr. Dodge, agreed that sentence should not be passed, provided defendant paid costs and held himself liable to such sentence on repetition of any cause of disturbance. Small for prosecution; Hatch and Hackett, defence.

State v. McPherson, disorderly house. Plea *nolo contendere*, with understanding that defendant pays costs and gives no cause hereafter for complaint, &c. Small for pros.; Hatch and Hackett for deft.

State v. Lowd, stealing horse from Thos. Patterson of Londonderry in January last. No verdict rendered; the jury not agreeing, were discharged.

State v. Demerritt. Respondent retracts former plea of not guilty, and pleads guilty of simple assault.

☞ This evening is the last opportunity to witness the performances of Helen Western, in this city. Another change of programme will be made, the fair beneficiary sustaining three characters in the "French Spy," and also appearing in the afterpiece.

☞ In the North Berwick Railroad accident of Monday, it appears that the cause of the running off was the breaking out of the draw bar of the baggage car of the Eastern Railroad, and that falling on the road bed threw off the baggage car of the Boston and Maine Railroad, four passenger car of the Boston and Maine road.

☞ The Bowdoinham Bank Robbers were in one of the capsized cars at North Berwick;—but they could not escape, being well secured.

THE SCHOOLS OF FALL RIVER.—The Superintendent of Public Schools in Fall River, in a letter in the News, calls attention to some evils existing in the schools of that city. These are, irregular attendance and absenteeism, the use of tobacco in various forms by the pupils, and of some even in the primary grade, and intoxication.—The writer says: "I have been credibly informed by several teachers that pupils have come to their respective schools in an intoxicated state."

☞ The Washington special of the Boston Herald says:—

Dispatches from Annapolis state that Gov. Swan intends to remove the Police Commissioners, and it is believed that a collision will ensue. In the event of an actual outbreak, it is believed the Government will suppress the insurrection.

If "the Government" means Andrew Johnson, and if he puts down the loyal men and boys in blue by force and arms,—it will probably drive the last nail in his political coffin.

☞ Gov. Swan of Maryland, issued a proclamation on Tuesday, against "military and other combinations to deprive citizens of their just rights," [i. e. to keep ex-rebels from voting]—and warns the leaders that "the power of the State will be exhausted to bring them to prompt and merited punishment." This looks like threatening mischief, usurpation, and if need be, bloodshed, to carry his point of being dictator, and putting down the men who elected him, to put up such men as Marshal Kane, and his clan, who murdered Massachusetts and New Hampshire men five years ago in the streets of Baltimore! "The Lord reward him according to his works."

☞ It is announced that a single firm in New York, who are well-known tobacconists, pay the government internal revenue duties upon their manufactured tobacco an average of $70,000 per month, and that their entire taxes, including licenses, income and other taxes, during the year, amount to considerably more than $1,000,000.

☞ Geo. Peabody, having given $300,000 to found the Peabody Institute in Baltimore, has just given $250,000 more to the same object.

☞ Rev. Augustus Walker, a Missionary of the American Board, and a graduate of Yale College in 1849, died at Diarbeker, Turkey, Sept. 18, 1866.

☞ Rev. Chs. W. Mellen, of the Universalist Church in Taunton, Mass., died on Monday, after a short illness.

☞ Gen. Sherman has been called to Washington.

Dr. Schenck's

NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street**, Boston, where he will be professionally every WEDNESDAY from 9 to 3. Every person complaining with Consumption or any disease leading to it, are invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part, also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healthy condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

REASONS WHY THE

AMERICAN WATCH,

MADE AT WALTHAM, MASS.,

IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. No jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "ancres," "lepines" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is FIRE, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

VICTORIA'S FIVE DAUGHTERS.—Queen Victoria has five daughters. The oldest is the wife of the Crown Prince of Prussia.—She is destined to become the future Queen of Prussia. The second, Alice, is the wife of the Prince of Hesse-Darmstadt, whose principality has been lately absorbed by Prussia. The third, Helena, became recently the wife of the Prince of Teck, who is a Prince without a principality. Two remain unmarried—Louise, who is in her eighteenth year, and Beatrice, who is in her ninth. What is to be done with Louise, now that most of the Protestant German Princes have been ousted from their petty thrones by Prussia? There is only one Protestant Prince now available for royal conjugal purposes, and he is the brother of the Princess of Wales, King George of Greece. Mr. Gladstone is, consequently, to proceed to Athens to enter upon this delicate negotiation. Her proposed husband is a mere youth, who dances well and is fond of good cigars, and is tolerably good looking. He might make an admirable clerk in a millinery store, but is altogether out of his place as the chief of the spirited Greek nation.

☞ There is a jealousy springing up between the President and General Grant, Mr. Johnson having at heart been furiously enraged at the marked popular preference for Grant which was displayed during his western tour. In the recent appointments of field officers in the regular army, Gen. Grant's recommendations have been repeatedly ignored, and the vacancies filled with the candidates of Copperhead politicians. It is even said that the only appointment of a paymaster, which was recommended by the General has been refused.—*Chicago Tribune.*

WHEN THEY MARRIED.—Adam in his first year; Shakespeare, 18; Ben Johnson, 21; Franklin, 24; Mozart, 25; Dante, Kepler, Fuller, Johnson, Burke and Scott, 26; Tycho Brahe, Byron, Washington and Bonaparte, 27; Penn and Sterne, 28; Linnæus and Nelson, 29; Burns, 30; Chaucer, Hogarth and Peel, 32; Wordsworth and Davy, 33; Aristotle, 36; Sir Wm. Jones and Wellington, 37; Wilberforce, 38; Luther, 42; Addison, 44; Wesley and Young, 47; Swift, 49; Buffon, 55; old Parr, last time, to a widow, at 120.

— It is underbred to speak of the aristocracy as the upper crust of society.

— The Petersburg Express tells an almost incredible story to the effect that a young lady in that city did a young kitten up in her back hair, and went to a dancing party with a waterfall thus improvised for the emergency. The animal was soon jostled out, and general astonishment followed.

Important to the General People.

Next to the common articles of daily food, fruits, &c., there is nothing in more universal use than candies, and unhappily there is nothing made so subject to adulteration as they are by the adoption of the use of deleterious substances destructive to health. An exposure of these adulterations and their pernicious effects was recently made in this paper, which caused much speculation, and no doubt warned many that the only safe use to be made of candies and confections was to obtain those which are known to be pure. It is a knowledge that they are those pure to what has made Southmayd's candies so popular, and what has so enhanced his business as to encourage him to build a splendid marble edifice in the Public Place, for his manufacturing and wholesale trade, while his retail business will be carried on at Horticultural Hall as usual. The finest and purest fruits, and the most tasteful, the most innocent and innoxious coloring materials, and the neatest and most tasteful styles of manufacturing, constitute Southmayd's candies—and what has so enhanced his business as to encourage him to build a splendid marble edifice in the Public Place, for his manufacturing and wholesale trade, while his retail business will be carried on at Horticultural Hall as usual. The finest and purest fruits, and the most tasteful, the most innocent and innoxious coloring materials, and the neatest and most tasteful styles of manufacturing, constitute Southmayd's candies—and what is the best, the safest, and the most popular in the market.—*Boston Journal.*

MUSIC PICTURE FRAME, AND VARIETY STORE,
10 1-2 Daniel Street,
(Over Miss Beal's Dry Goods Store.)

The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Sheet Music, Covers, Sheet Music, Violins, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.

PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.

PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.

Having made arrangements with Prof W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M. Guild & Co. The superior merits of the former have long been established to need any comments. Of the latter, suffice it to say that the sale of over fifty of them within the last five years by Mr. Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.

Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof. Day. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman.

The Chronicle.

DEATH FROM FEAR.—In a late French journal we find narrated the particulars of an interesting case of death from fear, just prior to an operation for lithotomy. Had chloroform been administered, it would probably have been regarded as the cause of death. The patient was a distinguished veterinary surgeon of Bordeaux, about sixty years of age, of good constitution and endowed with great force of character. He had suffered long from disease of the bladder, which, on examination, was found to contain calculi. At first it was hoped that he would be relieved of this by a different operation, but his surgeon, M. Cazenave, ascertained that it would be necessary to have recourse to lithotomy. Of this last operation the patient was known to entertain a great dread, but, nevertheless, he at once gave his consent to its performance, while retaining, to all appearance his habitual calmness. The patient having been placed in position, and the operator about to begin, but as yet not having touched his patient, the latter, who had exhibited entire calmness and serenity during the preparations, was observed to become pale and faint, and in the course of ten minutes, in spite of all that was done to revive him, he died.

VERY WELL PUT.—Some one writes both gracefully and forcibly:

I would be glad to see more parents understand that when they spend money judiciously to improve and adorn the house and the ground around it, they are in effect paying their children a premium to stay at home, as much as possible to enjoy it; but that when they spend money unnecessarily in fine clothing and jewelry for their children, they are paying them a premium to spend their time away from home—that is, in those places where they can attract the most attention and make the most display.

— A man met a big Indian on the Plains a few weeks ago. The gentle savage had a large bundle of scalps, and the white man made bold to ask him what he had been doing. "Heugh!" said the noble red man, "me been skirmishing for waterfalls!"

Ayer's Ague Cure,
for the speedy cure of
Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in bilious derangement, caused by the malaria of miasmatic countries
Fever and Ague is not the only consequence of the miasmatic poison. A great variety of disorders arise from its irritation, in malarious districts, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis, and Derangement of the stomach, all of which, when originating in this cause, put on the *intermittent type*, or become periodical. This "CURE" expels the poison from the blood, and thus cures them all alike. It is not only the most effectual remedy ever discovered for this class of complaints, but it is the cheapest, and moreover is perfectly safe. No harm can arise from its use, and the patient when cured is left as healthy as if he had never had the disease. Can this be said of any other cure for Chills and Fever? It is true of this, and its importance to those afflicted with the complaint cannot be over-estimated. So sure is it to cure the Fever and Ague, that it may be truthfully said to be a certain remedy. One Dealer complains that it is not a good medicine to sell, because one bottle cures a whole neighborhood.
Prepared by J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. au29—2m

THURSDAY, OCTOBER 25, 1866.

GOOD THOUGHT.—The New York Evening Post says: "We hear, on what we have reason to believe good authority, that the President some days ago entertained the thought of advising the Southern voters to adopt the Constitutional Amendment." We are not told what the President finally concluded about that good "thought."

No: and perhaps it is better that we should not be *told* any thing about it: for we have observed, so far, that most of the President's good promises have been broken: if his good thoughts can be preserved and acted out, all the better: but in this the people have no faith. Whatever he may do that is not bad, will be so much clear gain, beyond expectation.

JEFF DAVIS.—The Springfield Republican learns that Jeff Davis, though treated kindly and considerately attended, is wasting away, not slowly, but with daily increasing rapidity. The Republican regards the postponement of his trial for so long a time as inexcusable, and says, "if he should now die a prisoner, it would be a national disgrace not easily effaced." As his trial cannot now take place till after Congress meets, it urges the President at once to release him on bail or parole.

[Well; why should he not waste away, as rapidly as the Lord sees fit to permit or cause him to do so? If he is kindly treated and considerately attended, so much is due to the forbearance or sympathy of our Executive, whose prisoner he is. But does any one remember how *kindly* and *considerately*, he and his satraps treated and attended our soldiers and officers at the Libby Prison, Andersonville and Fort Pillow? Should he happen to die in that very comfortable prison, Fortress Monroe, what then? How much *better* is he than thousands of our men who perished in his prisons? The world might say, verily there is a God who judgeth in the earth! We think the Nation would survive the shock, and outlive the disgrace. We have lived on, after some sort, since Lincoln has been murdered, and even since Johnson has been swinging round the circle. We don't believe the country would give up the ghost at the death of poor Jeff Davis. U. T.]

JOHNSON, SWAN AND BALTIMORE.—The Washington correspondent of the Boston Journal says:—

The Proclamation of Governor Swan is fully approved by the President; and should it be necessary for him to call for aid in maintaining peace and order, and enforcing his legal authority, it will be promptly furnished.

Gov. Swan of Maryland had a protracted interview with the President, at which the aspect of affairs in that State was fully discussed. It is understood that the subject was before the Cabinet. The President declines to interfere between the parties in Maryland in any way, but if officially called upon by the Governor for military assistance to suppress riot and disorder, uncontrollable by the State forces, it will be rendered, as it has been decided by the Supreme Court in the Dorr case, he is bound to do upon the requisition of any de facto Governor.

In the case of the threatened resistance in Louisiana by the "boys in grey" to the authority of the Governor of that State in the removal of the sheriffs, the same source will be pursued; but it is hoped that in both cases the necessity may not arise.

[But if it should arise in both;—does any rane man believe that Andrew Johnson will make the same rule work both ways? If he should, it would be a great departure from his policy. We do not expect it:—but if he should act fairly in the premises, we will certainly make a note of it.]

☞ There are a variety of rumors from Washington, about a new policy, which shall cause the United States to buy Napoleon's Mexican Empire off his hands, pay all the costs and old debts on *both sides*, and then—establish a *Protectorate* over Mexico. Whether Johnson, or Davis, or Beauregard is to be Protector, "the papers don't say."

☞ *In New Jersey* a convention of Democrats and others disaffected by the nomination of Hon. A. J. Rogers, nominated Hon. John Huyder as their candidate for Congress from the 4th District.

☞ The large house in Cambridge, Mass., known as Webster's Folly, (built by Prof. Webster the murderer,) was destroyed by an incendiary, Monday evening.

☞ It is reported from Japan that the Tycoon is dead.

— Recent experiments in England, by the British artillery, have proved conclusively that projectiles thrown by the 9-inch wrought-iron Woolwich rifle gun will pierce the armor of any iron-clad afloat.

— Rebel officers and all personal friends who desire, are permitted to visit Jeff. Davis at Fortress Monroe. Unrestricted communication with Davis and his family are allowed.

— It is proposed to establish a direct line of emigrant packets between New Orleans and Germany, for the purpose of attracting to that city a portion of the foreign emigration.

— Sailors, though not generally a musical class of men, are always able to sound the *C* correctly.

NEW HAMPSHIRE ITEMS.

—— It is said C. B. Bowers is appointed Collector of Internal Revenue in the 3d District.

—— Gov. Smith, with advice of Council, has appointed Thursday, Nov. 29, as the Annual Thanksgiving,—in accordance with the National Day.

—— The Third Congressional District is already the scene of a lively contest over the nomination of a Representative as a successor to the Hon. James W. Patterson, now a Senator elect to the Fortieth Congress, and candidates are numerous.

—— The bears in New Hampshire have become very bold this fall, and they plunder the farmers' orchards with impunity. One of them was lately discovered in a tree shaking off the apples, while two of his companions, on the ground, were deliberately gathering them up. Fourteen of them were lately killed at Albany, and one at Canary Village, near the Town House.—*Exchange.*

There are some bears down this way, that steal apples now and then—and lowls, &c.—but people don't kill them, as their skins would not sell.

NEW COINAGE.—We are likely soon to be treated to another new system, which is now under consideration, and will in all probability be adopted. This proposed new cent is to be made of nickel, the same as at present, but the centre of the coin has a raised star, the nucleus of which is represented by a hole through the coin. The two cent pieces have two perforated stars, and the three cent coins three. Thus by holding either denomination to the light, or by simply touching them so as to feel the holes, the value of a piece of money is unmistakably known. The half-dimes and dimes are a larger coin of better metal, but are to be distinguished by one and two perforated stars.

KIDNAPPING AT NASHVILLE, TENN.—Reports of a riotous disposition among the freedmen at Nashville, Tennessee, have been forwarded North, and a good deal of excitement has been caused thereby; but (says the Boston Journal,) although good cause has existed for dissatisfaction among the negroes, no disturbance whatever has taken place. It appears that a few days ago certain colored men were apprehended for vagrancy and fifty sent to the workhouse because they could not pay charges. A Nashville letter says that Messrs. Beach and Cheatham, two Mississippi planters were in the city at the time trying to obtain hands to pick cotton for them. They being well known among the colored people, were unsuccessful. They must have hands; the crop must be taken care of.—What was to be done to secure men? Nothing less than to obtain the services of the city police, and the above named arrests and commitments were the result. These gentlemen then "very honorably" step forward and offer to pay the fines of "the vagrants" in the "Work House." The offer was accepted, and these "vagrants" so obtained, were sent, without their consent, to Mississippi to pick cotton under guard.—These poor fellows were so taken away from their homes and families, without their friends having any knowledge of their whereabouts. When their wives and families heard of this outrage they made complaints, but not threats. This was construed into conspiracy to raise an insurrection of the blacks and to murder the whites. This outbreak, however, did not occur; for although the blacks have good cause, those about here have no other ideas than such as become peaceable, law abiding citizens.

☞ Mexican advices, via San Francisco, state that Marshal Bazaine had issued orders to evacuate Mazatlan, notwithstanding Maximilian had ordered him to hold the place at all hazards.

A letter from Acapulco says the Imperialists, apparently, are making preparations to abandon that place. Three war steamers in the harbor are expected to carry away the garrison.

☞ At New Orleans, Tuesday morning, seven buildings on Fulton and Front Levee streets, occupied mostly by wholesale grocers, were destroyed by fire. Loss $400,000, of which about one-third is covered by insurance. Four persons were severely injured by falling walls.

☞ See the advertisement of Harper's Weekly. It is *the* illustrated paper of this country, and its editorials have a spice to them worthy their distinguished writer.

— Rev. J. T. Greenwood of Malden, Mass., has been nominated by the Democrats of that district for the State Senate.

— There are three hundred and twenty brick stores in course of construction at Atlanta, Ga.

— The New York Herald, speaking of the coming election in that State says that "the probabilities are in favor of the Republican ticket by a majority of between thirty-five and forty-five thousand."

— A dispatch from Nashville, Tenn., says that in the special election held in seven counties, five conservatives and three radicals were elected to the Legislature—a gain of two radicals.

NEW BOOKS.—Sheldon & Co., 498 and 500 Broadway, New York, announce the immediate publication of the following works:—

"SUNNYBANK," by Marion Harland. 1 vol., 12mo., Cloth. Price, $1.75.

The numerous readers and admirers of Marion Harland's works will be gratified to receive a new work by this gifted author. It is entitled "Sunnybank," and is the first continuous story from her pen since "Miriam," which was published in the fall of 1862. Her later volumes have been composed of briefer tales and sketches. This new book will be found worthy to rank with any of her former books, so esteemed for their delineation of character and high moral tone. The Boston Saturday Evening Gazette says:

"There is an originality in her thinking which strikes one with peculiar force, and he finds himself unconsciously recurring to what had such a powerful effect on him."

They have also new editions of "Alone," "Nemesis," "Hidden Path," "Miriam," "Moss Side," Husbands and Homes," and "Husks," by the same author. Each in 1 vol., 12mo., cloth. Price $1 75.

"MORNING BY MORNING" or Daily Bible Readings." 1 vol., 12mo. Price $1.75. By Rev. Dr. Spurgeon.

The 300,000 volumes of Spurgeon's works already sold in this country attest their popularity here.

"THE CHRISTMAS HOLLY," a book for the holidays. 1 vol., 4 to. By Marion Harland. Printed on toned paper, and elegantly illustrated by wood engravings, printed in three tints. Price, bound in cloth, full gilt sides and edges, $4.

This will be an elegant presentation volume.

☞ The Portland Advertiser of Oct. 24 says:—

On the first of next month, we shall suspend the publication of the Daily Advertiser, and continue the Weekly, issued on Wednesday, and a Semi-Weekly Advertiser issued on Wednesday and Sunday mornings. This we do by reason of the continued high price of paper and labor, and consequently inadequate compensation of a daily paper of the independent party views of the Advertiser.

The semi weekly is to be $3.50 a year, the Weekly $2, alone, $2 50.

"The general tone of its political columns will remain independent in views. [It has been very coppery, and Johnsonian.]—But we shall seek to impart more varied interest and especially of a manufacturing and commercial character, to both our original and selected matter, and make the paper more acceptable to the general and literary reader, and less an exponent of party politics."

AN EIGHT HOUR LAW DECISION.—The Baltimore papers record a case just tried there in which two employees in the City Water Department claimed of the City Government one-fifth additional pay for an excess of two hours a day of labor performed over eight hours, which, by the ordinances of the city, are made a legal day's work for all persons employed in every department of the City Government. The facts of the case having been proved by the plaintiffs, the Court decided that it was optional for for the plaintiffs to work the ten hours required of them or to resign their positions as laborers, and that they could make no legal claim for extra compensation.

VERMONT LEGISLATURE elected three U. S. Senators on Tuesday; in the Senate the vote was unanimous, 29 votes for each: in the House 213 to 16. Justin S. Morrill is elected for 6 years from March 1867,—and Poland and Edmunds to fill up two unexpired terms. Messrs. Poland and Edmunds are the same gentlemen appointed to the vacancies last season by Governor Dillingham. The result of the ballot is highly gratifying to all Republicans.

☞ The management of the Crosby Opera House Art Association beg leave to state that it has been decided that the Subscription Books shall remain open for a short time longer. The present rapid sale of Shares warrants the announcement of a final closing of the books. The day for the award of the premiums will, therefore, speedily be made. J. H. Foster, agent for this vicinity.

☞ It was said in the hearing of a New Jersey Quaker lady that Mr. Johnson had threatened to kick out all officeholders who do not also hold "my policy." "But John," she inquired, with delightful naivete, 'But, John, *can* he do it? Does thee think he can stand on one leg long enough to kick anybody?"

☞ Peterson's Magazine for November is received from the publisher, Chas. J. Peterson, Philadelphia. A large amount of reading for the fair sex is here furnished at $2 a year.

MAXIMILIAN SENT FOR.—It is inferred in some quarters that the steamer ordered by the Emperor of Austria to sail from Trieste to Mexico, is designed to carry back Maximilian—the unhappy state of the Empress Carlotta being a good excuse for such style of abdication.

TRIAL AND FRIENDSHIP.—Herrick Allen's Gold Medal Saleratus has had a trial among three million families, and is pronounced the best Saleratus in the known world. He has always brings a smile to the household; it keeps them in health; it helps make the weak strong, and saves hundreds from that dreadful disease, dyspepsia. As you value health, use it. Most of the Grocers sell it. Depot 112 Liberty street, New York. 46

— The Frost family have had $30,000,000 left them. The money is in England.

— Anna Dickinson is said to have rejected an offer from a distinguished politician.

— The operatives in the cotton mills at Fall River, have presented a petition to their employers asking that the hours of labor be reduced from eleven to ten, to take effect on or before the 29th inst.

— A few weeks since, a cow belonging to Mr. N. Proctor of Wells, met another belonging to a neighbor, Mr. G. Lord, in the highway; a short fight ensued in which the latter was killed, by having her neck broken.

PROCLAMATION.
TO THE PUBLIC GENERALLY.
WHEREAS, being armed and equipped with such a stock of Fall and Winter Dry Goods as cannot fail to strike the beholder with bewildering amazement, and please the fancy of all lovers of the Beautiful; and Whereas, Having entered the field for the Fall and Winter Campaign of Trade, we are determined to repulse if not entirely vanquish the great system of monstrous prices and murderous profits, which has settled upon our whole country like a mighty incubus—sinking the poor into deeper depths of poverty, and dragging the affluent down, and even driving many to distraction:—and Whereas, We have taken unusual pains in the selection of our New stock, and have purchased it all at the Lowest Cash Prices, which will enable us to accommodate the purchaser at the lowest possible figures:
Therefore, We, A. Q. LEACH & CO., do hereby issue this our proclamation, to dispose of our Stock upon such terms as must give satisfaction.
In witness whereof we have this, the 15th day of October, A. D 1866, and of the independence of the United States of America the ninetieth year, hereunto placed our hands and caused the Great Seal to be affixed.

Hygienic Wine.

Approved by the Imperial School of Medicine, Paris.

Tested by the Committee on Chemistry of the American Medical Association, at their Convention, held in Baltimore, May 1st, 1866, and endorsed by its most prominent members.

This *IMPORTED* Tonic, recommended by the most eminent Physicians, is prepared in Paris from

PURE SHERRY!

Admixed in its composition only Tonic, Aromatic, and Febrifuge substances. It *replaces* with a great superiority all other Bitters, which have for a base, nothing but Alcohol or Inferior Whiskies. It is richer than any other Bitters in

Aromatic and Balsamic Principles,

and its taste is exquisite. Its soothing effects on the NERVOUS FLUIDS are most astonishing for, while it gently exhilarates, it re-animates the functions of the DIGESTIVE ORGANS, and dissipates Languor, by gently refreshing and stimulating the brain, giving a healthy tone to the whole organism, it leaves behind none of the baneful influences that follow Alcoholic stimulants.

HYGIENIC WINE

is moreover

MOST DELICIOUS TO THE TASTE.

Possessing wonderful virtues in all cases of DYSPEPSIA AND DEBILITY, and moreover is unexcelled as an

Appetizer,

IT IS NOT INTOXICATING IN THE LEAST.

MUSCAT PERLE, (Imported)

is a rare fine Wine of most delightful flavor. It is the Pure Juice of a Most Delicious and generous GRAPE, and surpasses in excellence *any Table Wine made in this Country.*

All who are solicitous about obtaining a *pure* and a superior Wine, will be delighted with

MUSCAT PERLE.

☞ Church people are solicited to examine this Wine for communion purposes. A Communion Wine should be *above all things* PURE! In the second place it should be MILD. "Muscat Perle" combines these two most essential qualities, and a trial will convince any one of its superiority over all other wines at present in the market.

These Wines are sold by all respectable Druggists and Dealers.

ALCOCK'S POROUS PLASTERS.

BEST STRENGTHENING PLASTER IN THE WORLD.

ALLCOCK'S POROUS PLASTERS relieve and assuage pain by calling forth the acrid humors from parts internal to the skin and general circulation—thus, in many cases, positively cooperating the disease. JAMES LULL, M. D.

There is nothing equal, in the way of a plaster, to the Porous Plaster of Mr. ALLCOCK. Everything is pleasant about them. They are the plaster of the day, and a fit type of our present advancement in science and art. In Asthma, Cough, Kidney Affections, Gout, Rheumatism, and local deep-seated pains, they afford permanent relief.

J. F. JOHNSON, M. D., on Topical Remedies.

From a personal knowledge of these plasters, we can state that they are decidedly preferable to any other in use. Wherever relief is to be obtained by the use of a plaster, we should recommend them.

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

MESSRS. J. S. HARRIS & CO.:—

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in the worst and most deep-seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs and all the early stages of Lung complaints, I believe it to be a sovereign remedy. If every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It causes the phlegm and matter to raise, without irritating those delicate organs (the Lungs), and without producing constipation of the bowels. It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

Yours respectfully, A. . . STOVILL.

SUPREME JUDICIAL COURT, Wednesday, Oct. 24.—State v. Deborah Warren was taken up. This was an indictment for perjury alleged to have been committed in the Police Court of this city in April last. The complaint in the Police Court was instituted by Thomas Roberts, for malicious mischief, against Charles Hodgdon, a minor. It was there set forth in evidence that the boy Hodgdon entered the orchard of Mr. Roberts in north part of the city, on the evening of the 25th April, and carried away and destroyed grafts from one or more pear trees. The boy's mother and the respondent swore that the boy was in Newington at the alleged time of the offence, and the boy was discharged on the ground of the proof of an alibi. Mrs. Hodgdon, the boy's mother, subsequently acknowledged that she had perjured herself, and the boy having confessed himself guilty of the offence, this indictment was found by the grand jury against Mrs. Warren, with whom the boy lived at the time of the complaint. Several witnesses were examined to substantiate the charge of the prosecution. At the coming in of the Court in the afternoon, Mrs. Warren, the respondent, did not appear. Her bail was forfeited. Small for State; Christie, Hackett and Wentworth for defence.

Sheriff Morse and U. S Detective Kent, after a lively chase captured the woman in a house near Eliot Depot. She had been carried there in a team, and was waiting to take the cars to the eastward. She was brought to this city and placed in jail to await trial this morning.

Communication.

QUALIFICATIONS OF OFFICERS.—No man can gain honors by holding an office, the duties of which he is not qualified to perform. But the people have a deep interest in electing those who are qualified. In submitting the following remarks we make no application to any individual. It has been correctly said, that the office should seek the man, not the man the office. When our city charter was adoped by only five majority, we had confidence, that by strict economy, the expenses would be reduced, and that better qualified officers would be elected than before. We confess our disappointment, altho' we were told that there would be more office-seekers for the loaves and fishes, and that the expenses would be increased. The expenses under the town government were generally under twenty thousand dollars. If our city form of government is to be the means of improvement, our citizens should look carefully to the *qualifications*, not popularity, of those whom they may elect to fill the municipal offices. If they will not, the consequences fall upon themselves.

To fill the most responsible offices, it is requisite to elect men not only of strict integrity but who unite all the qualifications, knowledge and experience, to discharge their official duties, and some of them should be well versed in respect to financial affairs.—In times past we had many dignified citizens—of age and experience, whose counsels in our town-meetings the people looked up to, and we hope there may be a revival of such times. A CITIZEN.

☞ The double wedding, of two sisters at the Middle street Church, on Wednesday afternoon, was quite an interesting event for the ladies—not only the two fair ones especially concerned, but the ladies generally, we mean it; and for the benefit of our lady readers who were not witnesses of the scene, we will say that these brides were dressed in traveling costume, and of course appeared lovely, as in duty bound on such occasion. May joy go with them.

☞ Mr. Wendell will sell a lot of stock, farming tools and furniture at auction at 10 o'clock to-day, at the farm of Capt. Geo. T. Ball, in Greenland. Should the weather be stormy the sale will be the first fair day.

☞ Prof. O. S. Fowler, the celebrated phrenologist from New York, is to deliver a course of four lectures at the Temple, beginning this evening, when admission will be free. Subject—"Health, Self-Improvement," &c. Other lectures will follow on Friday, Monday and Tuesday evenings.

SUDDENLY RICH.—One day last week a hard working young man received a letter from New York, announcing the death of an aunt who left a large estate, a full half million of which will come to him. He appears to be a sensible, as he is an industrious and temperate man, and on receiving the intelligence completed his day's work as though nothing had happened, and after having been to New York to confirm the facts in the case, has returned to his daily labors, which he will continue till the administration of the estate is completed.—*Newburyport Herald.*

☞ A thunderbolt from a perfectly cloudless sky struck a church and three dwelling houses at Rising Sun, Ind., a few days ago. It killed a girl outright and stripped all the clothing from a boy, whom, strange to say, it only stunned. A more remarkable electrical phenomenon has rarely occurred.

— The little city of San Antonio, Texas, has had 400 deaths from cholera this season.

Dr. Schenck's

NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of No. 35 Hanover Street, Boston, where he will be professionally every WEDNESDAY from 9 to 3. Every person complaining with Consumption or any disease leading to it, are invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part, also whether it is Tubercular or Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint.

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

REASONS WHY THE

AMERICAN WATCH,

MADE AT WALTHAM, MASS.,

IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "levers," "lepines" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have large and costly facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

Morning Chronicle.

☞ Mr. Dockery, who received a few Union votes in the recent North Carolina election, declined the nomination some time ago, and that discouraged the friends of the Constitutional Amendment. The Sentinel, the organ of Gov. Worth, is pledged against the amendment, and the Raleigh Standard says that, of the 25 political papers published in the State, but six are in its favor.

— The Nantucket Inquirer reports that the sum of $17,000 has been raised for the establishment of another fishing fleet from that port, and there is now no fear but that sufficient subscriptions will be raised to insure the enterprise. The parties concerned proposed to immediately repair the New North wharf.

— "Have you read my last speech?" said a vain orator to a friend. "I hope so," was the reply.

— According to the census recently taken of the city of Paris, its population, exclusive of foreigners sojourning there, is about 1,700,000.

— Gardeners mind their peas; actors mind their cues; but church wardens, instead of minding their "p's" and "q's," very often give all their attention to their pews and keys.

— The Rocky Mountain News tells of an enthused young Missourian, who eulogising the beauty of his "gal," said "I'll be doggoned if she ain't as pretty as a red wagon."

— A fellow coming out of a tavern, one frosty morning, rather top heavy, fell on the door-step; trying to regain his footing, he remarked: "If it be true that the wicked stand on slippery ground, I must belong to a different class, for it's more than I can do."

— "How are you Smith?" said Jones.— Smith pretended not to know him, and answered hesitatingly.

"Sir you have the advantage of me."

"Yes, I suppose so; everybody has that's got common sense.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY,

Solicitor of Patents,

Late Agent of the U. S. Patent Office, Washington, under the Act of 1837.

78 State Street, opposite Kilby Street, BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions, and legal opinions given, rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to unite a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more *competent and trustworthy*, and more capable of putting their applications in such form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all of which Patents or Reissues have been granted, and that is now *pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made as many rejected applications SIXTEEN APPEALS, SEVEN ONE of which was decided in his favor, by the Commissioner of Patents.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow detotes a great part of his time to the treatment of these cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to any part of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, and No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Important to the General People.

Next to the common articles of daily food, fruits, &c., there is nothing in more universal use than candies; and unhappily there is nothing made so subject to adulteration as they are by the adoption of the use of deleterious substances destructive to health. An exposure of these adulterations and their pernicious effects was recently made in this paper, which caused much speculation, and no doubt warned many that the only safe one to be made of candies and confections was to obtain those which are known to be pure. The knowledge that they are thus pure is what has made Southmayd's candies so popular, and what has so enhanced his business as to encourage him to build a splendid marble edifice in Temple Place, for his manufacturing and wholesale trade, while his retail business will be carried on at Horticultural Hall as usual. The finest and purest material, the use of none but the most innocent and innoxious coloring materials, and the neatest and most tasteful styles of manufacturing, constitute Southmayd's candies among the best, the safest, and the most popular in the market.—*Boston Journal.*

NOW OPEN!

MONTGOMERY'S

MUSIC PICTURE FRAME, AND VARIETY STORE.

10 1-2 Daniel Street,

(Over Miss Beal's Dry Goods Store.)

The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr. Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Sheet Music, Covers, Sheet Music, Flutinas, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.

PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.

PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.

Having made arrangements with Prof W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M. Guild & Co. The superior merits of the former have too long been established to need any comments. Of the latter, suffice it to say that the sale of over fifty of them within the last five years by Mr. Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.

Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof Day. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman.

D. H. MONTGOMERY.

CHEROKEE CURE,

THE GREAT

INDIAN MEDICINE,

Cures all diseases caused by solitary habits, such as *Impotence, Gleet, Stricture, Seminal Weakness, Night-Emissions, Loss of Manhood, Premature Decrepitude, Pain in the Back, Dimness of Vision, Premature Old Age, Nervous Debility, Difficult Breathing, Pale Countenance, Insanity, Consumption,* and all diseases that follow as a sequence of youthful indiscretions.

The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.

Price $2 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy,

Cures all Urinary Complaints, viz: *Gravel, Inflammation of the Bladder and Kidneys, Retention of Urine, Strictures of the Urethra, Dropsical Scalds, Weakness, Brick Dust Deposits,* and all diseases that require a diuretic, and when used in conjunction with the

CHEROKEE INJECTION,

does not fail to cure *Gonorrhœa, Gleet and all Mucous Discharges* in Male or Female, *curing recent cases in from one to three days,* and is especially recommended in those cases of *Fluor Albus or Whites in Females.* The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have failed to effect a permanent cure.

Price, Remedy, One Bottle, $2, Three Bottles, $5.
" Injection, " " $2, " " $5.

The Cherokee "*Cure*," "*Remedy*," and "*Injection*" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds,—in order to make money—in place of these. *Be not deceived.* If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us in *perfect confidence.* We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

POVERTY OF THE SOUTH.—Gentlemen from different portions of the South represent that there is bound to be more suffering there this winter than at any time since the close of the war. As a general rule the crops have been a failure in all of the States. The cotton crop has fallen far below the general expectation and will add but little in the way of money to the material prosperity of the South. In South Carolina and in certain portions of Virginia there has not near enough been raised for the actual necessities of the people. There is no demand for employment in the country. Those who were in business prior to the war cannot command the capital to resume again. In fact they are just as badly off as they were when the war closed. In Richmond even the destitution is great, and unless there is some unforeseen change before winter public charity must step in to prevent actual starvation. The unsettled condition of affairs in the Southern States is repelling Northern and foreign capital. European capitalists who a year since contemplated erecting iron-works in the Blue Ridge have abandoned the idea.—*Boston Herald.*

Yet, in the face of such facts as these, we have a President pursuing the miserable policy of doing his utmost to break down and render useless the Bureau of Refugees, Freedmen and Public lands:—and as he has been doing something of the sort for nearly a year, we have seen some men foolish or dishonest enough to uphold him in it. His course and theirs, has *kept back* a proper settlement, on which Southern prosperity must greatly depend. If the article copied above is substantially correct, Congress must enlarge the Bureau, and authorize Gen. Howard with plenary powers to manage it,—at the same time tying up the hands of the maniac who aims to destroy it.

— If you were to ride upon a donkey, what fruit would you resemble? A *pear* (pair).

Morning Chronicle.

Portsmouth N. H.

FRIDAY, OCTOBER 26, 1866.

— It is reported that Governor Swan has an offer of one hundred thousand men from New York to maintain his side of the question against the Baltimore Police Commissioners.—*Exchange.*

If there be any truth in the story, then the same men who made the July Draft Riots in New York, offer to go and aid their brethren who murdered the Yankees in Baltimore. Whatever quibles may be raised about nice legal points,—these are the plain facts.

COUNTERFEITING.—From all accounts, it would seem that counterfeiting was never carried on more extensively, or with greater success than at present. The Bank Review says that many of the most skillful workmen are engaged in the business on their own account, and many more under pay of the most notorious and successful *dealers* in counterfeit currency.

No doubt this is all true: but it is not the whole truth.—It should be added, that *the business* is greatly encouraged and enlarged by the well-known fact that our President's policy is to pardon these rascals by wholesale! so that when convicted, they know they will soon be at large again.

RIOT AND MURDER AT HAGERSTOWN, MD.—It appears that the Mayor of Hagerstown, who is represented a tool of the rebel sympathisers, has appointed police officers, against the wish of the entire Board of Councilmen, and the opinion is current among Union and law abiding men that these policemen are not officers of the law, and when they lay hands on any individual they are committing an assault and are liable to the consequences—summary or otherwise. On Saturday there was a mass meeting of the Union party, and in the afternoon an altercation took place at Stanhope's hotel, in which the Mayor's policemen and their adherents, and the Mayor himself, took part. Finnally a turbulent crowd gathered, and Sands and Gall, two of the policemen, fired and emptied their revolvers into it, apparrently at random.

A bystander named Joseph Renner, was *struck in the side*, the ball penetrating his liver. The special policemen and their friends, who now numbered fifteen or twenty, fell back toward Church street, firing as they retreated. The crowd pressed after them, although no one of the Union party was armed—at least no shots were fired at the policemen till they had crossed Franklin street.

At this juncture some young men came running to the scene with muskets, and a fire was opened on both sides. The special police party now retreated to a house on the corner of Johnathan and Church streets, kept by a notorious gambler and blackleg, named James Kuhn, who formerly belonged to the special police himself.

In this house a number of markets and carbines had been collected and were kept ready loaded for any emergency. A Johnson pole had been erected in front of the house, and some threats having been made that it would be cut down, the armament had been increased. There were not less than ten loaded muskets in the house.

The police opened a destructive fire from the doors and windows, wounding many of the assailants. The muskets were loaded with buckshot. Charles Gall, the leader of the party, was firing from a second story window when he was struck in the head by a rifle ball, and fell headlong to the pavement, dead.

The house was then charged, and completely "gutted." Sands was dragged from the house, cruelly beaten and stabbed. It is feared the wound will prove fatal. Several more of the police party were captured and beaten. Not a window or door was left in the house. The furniture, liquor and gambling implements were thrown into the street in a miscellaneous heap. This ended the riot.

One person was killed, two were seriously, and most probably fatally wounded. About 20 persons were wounded, including one lady, shot through the arm. This, of course, does not include the large number struck with stones and beaten with clubs."

LETTER TO MADAME PAREPA.—Last week, in Baltimore, Madame Parepa received from a lady of that city, a very handsome and kindly-written letter, in which the writer reminded the singer that by the loss of the Evening Star the souls of an opera troupe have been suddenly sent to perdition, and besought her to abandon her profession of a public singer, and attend to the salvation of her soul.

— The fire departments of New York and New Orleans are said to be the best in the world.

— The Bridgeport (Ct.) Furniture Company's factory, consisting of three large brick buildings, was destroyed by fire Sunday night. The loss is estimated at about seventy-five thousand dollars; insured for about forty thousand dollars. Nearly one hundred men are thrown out of employment.

NEW HAMPSHIRE ITEMS.

—— Gov. Smyth and Council have appointed Jacob G. Cilley, of Manchester, Bank Commissioner.

—— Samuel Nudd, of Wolfeboro', has raised a potato weighing four pounds and nine ounces. If potatoes grow much larger farmers will need a derrick to "raise" them.

—— The moulders connected with the foundry of the Manchester Locomotive Works are on a strike for an advance of pay. There are sixteen hands employed at this foundry, who receive on an average $2.25 per day. They demand an advance of 10 per cent.

FOREIGN ITEMS.—It is said the delusion from which the Empress of Mexico is suffering consists in a belief that she is surrounded by people who attempt to poison her. It is thought at Rome that when Maximilian hears of the affliction which has befallen the Empress he will abdicate; for it was under her influence that he accepted the Mexican crown, and it is owing to her that he has persevered in his hazardous enterprise.

A calamity occurred in Liverpool on the 9th by the explosion of a boiler attached to a small steam engine engaged in removing cargo from a ship in the Bramley Moore Dock. The result was the death of eight men.

Very alarming reports still continue to circulate in Paris respecting the Emperor's health. A correspondent, writing on the 10th, says that it is whispered among persons who are usually well informed as to what is going on at court, that his brain is affected.

A NEW BANK TAXATION.—It is understood, says the N. Y. Tribune of Tuesday, that agents of the Government now in New York city, are visiting each National Bank having Government deposits, with a subscription paper in aid of funds for the Johnson party. They have a private paper showing the amount of the deposit in each bank, and will exact a tax proportionally. No political coercion attempted of late by the allies of the President exceeds the outrage of a demand so meanly criminal and tyrannical, and we shall not fail to call earnestly on Congress at its next session to investigate the secret of the business thoroughly. If it shall then be found that any National Bank paid out the money of its stockholders for a venal party purpose, its charter should be recalled at once.

IN NASHVILLE, Tenn., a fire broke out Tuesday afternoon, and burnt till 3 o'clock Wednesday morning, destroying a million dollars worth of property, including the Banner newspaper office, the large drug store of Yargan & Co., the Louisiana Billiard Saloon, the drug house of Haslock & Co., and everything south of Front and Cedar streets, from Cherry street to Printer's alley, and thence to Deadrich street.—Moore's photograph gallery, well known to the Army of the Cumberland, was entirely consumed.

KEROSENE EXPLOSION AT SALEM.—An explosion of kerosene oil took place in the ship chandler's shop of William P. Goodhue, at 11 1 4 o'clock, Wednesday, setting fire to the buildings and causing the death of William Gray, a clerk, by smoke and gas. A man named George Dawson was seriously injured.

No cause can be ascertained for the ignition of the oil. No fire was in the vicinity of the men engaged in transferring it from a cask to cans. The fire spread and burned the interior of the store and a large part of the stock. Loss probably $8000, nearly covered by insurance.

☞ The New Orleans horse railroads have tried an experiment. The Rampart street line was run three months with conductors, and three months without. In the last instance the receipts of the company were $25,000 greater than in the former The company holds that were it to employ conductors it would be ruined.

☞ On Tuesday, in the Superior Court, at Lowell, Mass., two criminals, named Pratt and Horn, were convicted of setting fire to the city building in Winthrop street, Charlestown, in July. The penalty for this offence is imprisonment in the State Prison for life.

☞ Charles Smallage of South Boston, conductor of a Western freight train, was killed near Grantville, on Wednesday, by falling from his train and being run over.

☞ John Monsell of Salem, Mass., was injured, perhaps fatally, by falling under a gravel train, on which he was at work, near Wenham, on Wednesday.

☞ Reports from Mexico are favorable to the Liberals at some points, and to the Empire at others. Balance rather against the Emperor.

☞ In Troy, N. Y., it is said the liabilities of the firms recently failed amount to $5,241,110.

— It is stated that there are not less than fifty thousand French Canadians—men and women—at work in mechanical and manufacturing establishments in Eastern and Central Massachusetts.

☞ The Texas Legislature has rejected the Constitutional Amendment by the decisive vote of 67 to 5 Commenting on our hopes that the Southern States would be wise enough to accept the liberal and just terms offered them by Congress, the Raleigh Standard of the 18th inst. says:

"The Tribune was never more mistaken. The recently insurgent States will not accept it. We doubt whether they would accept it even if the President were to request them to do so. They might, if he should request it, but he would at once incur the mortal hatred of those leaders already so inflamed against the Northern people that they will not even tolerate advice on this subject when offered by Southern men. The Southern man who urges the adoption of the Amendment merely as the lesser evil, and not on its merits, is held up as a Radical, as a mean white man, and as a traitor to the South. And we are sorry to say that this feeling manifested by the leaders is extending itself to some of the Unionists of the South."

The October elections unquestionably show that the Amendment will be adopted by the loyal States. Texas, in refusing it, has justified it, has justified every argument against her readmission to Congress. Loyal men are disappointed; but there is no reason to change their course. Just terms have been laid down for the Rebel States, and their leaders are blind if they believe that the North will not enforce them.—*Tribune.*

JOHN BROWN'S WIDOW.—A letter from Red Bluff, Cal., says:

"As she is called, the wife of the great John Brown still resides here, pleasantly situated, and surrounded with pleasant, comfortable influences. She has won the esteem and confidence of the people, and commands the admiration of all parties, irrespective of political opinion. Her home is freed from debt, and under her own vine and fig tree she lives, with none to molest or make her afraid. She has three daughters, who have been engaged in teaching school. They are said to be very intelligent ladies. The eldest has received many calls to go back South and help to educate the race her father died to benefit. She feels it somewhat her duty, and will probably go. Since living here Mrs. Brown has received aid from England, and many letters expressing high regard for her husband's memory. She has made this place her permanent home, and intends to spend her days among this people."

WHAT IT COSTS TO REBEL.—One of the editors of the Selma (Ala.) Messsenger, writing from Tuscaloosa, says:

"A little business in the court-house led me to inquire into the financial condition of this portion of the country, and I learn that sheriff's sales are becoming so common that almost purchasers are found for the valuable lands and other property exposed for sale. A gentleman informed me that about twenty farmers had been sold out lately, their lands bringing less than one dollar per acre. A sad instance of the reverse of fortune produced by the war, was mentioned in the case of old Mr. Prewett, of this county, whose estate was sold out on the first Monday in this month. At the breaking out of the war he was the wealthiest citizen of Tuscaloosa county. He owned three hundred and sixty slaves, and large tracts of land. He had large sums of money out at interest, secured by mortgage on negro property and land. He was a homespun, economical countryman, who bought everything at the lowest price for cash. He paid his physician's bills before the doctor left the house. When General Croxton came to Tuscaloosa he took from this old man about forty head of horses and mules, all his money, provisions, etc., which was his first calamity. Next came emancipation, which swept his slave property. Next came the breaking up of all the men to whom Prewett had loaned money, or for whom he stood security. Finally an execution was levied on his property for a few thousand dollars, and all his real estate was sold under the sheriff's hammer for six hundred dollars!"

MURDER BY A NANTUCKET SHIPMASTER.—The New Bedford Standard says that a letter has been received in Dartmouth, dated Bay of Islands, 25th August, stating that Capt. Alfred Coffin, late of ship Alabama of Nantucket, was in jail at Tahiti in July, on a charge of murder. The Alabama was lost about two years ago at Chatham Islands, and Capt. Coffin was taken to Sydney, where he remained some time, until Capt. Perkins, of ship Hermon of that port, took him out of charity as mate for a trip to San Francisco, to help him on his way home. On the passage Coffin murdered Capt. Perkins and threw his body overboard. The Hermon was condemned at Tahiti, 25th June, and sold. The crime is said to have been caused by intoxication on the part of Capt. Coffin. He was addicted to intemperance, and though an amiable man when sober, was perfectly wild when under the influence of liquor. His wife lives in Nantucket.

— The startling report that Rebels of New Orleans intend a massacre of Union citizens, Nov. 1, seems improbable—but the premeditated massacre in July entitles the rumor to serious investigation.

— Ladies, if you wish a treat, either go yourself or coax your husband to go to your grocer, and get a few bars of that justly celebrated article, known as the J. Monroe Taylor Gold Medal Soap. We have tried it and know that it is far superior to any soap in the world; it is truly called the woman's companion and friend on a washing day; besides it only takes half as much to do the same work.

☞ In California, Mr. M. Avery refused to surrender the office of U. S. Assessor for Sacramento District to John Bigler, who has a commission from the President, on the ground that the President's nomination required confirmation by the U. S. Senate. The matter was referred to Washington.

In addition to the above, should the subscription warrant, will be given the novel Lyceum Entertainment entitled

"Too Late for the Train,"

by Messrs. Baker and Barnabee.

Tickets will be issued at the extremely low price of **One Dollar for the Series.**

Subscription lists may be found at the Drug and Book stores of Messrs. Foster, Shores, Preston and Thacher. o13—2w

PROCLAMATION.

TO THE PUBLIC GENERALLY.

WHEREAS, being armed and equipped with such a stock of Fall and Winter Dry Goods as cannot fail to strike the beholder with bewildering amazement, and please the fancy of all lovers of the Beautiful; and Whereas, Having entered the field for the Fall and Winter Campaign of Trade, we are determined to repulse if not entirely vanquish the great system of monstrous prices and murderous profit, which has settled upon our whole country like a mighty incubus—sinking the poor into deeper depths of poverty, and dragging the affluent down, and even driving many to distraction;—and Whereas, We have taken unusual pains in the selection of our New stock, and have purchased it all at the Lowest Cash Prices, which will enable us to accommodate the purchaser at the lowest possible figures: Therefore, We, A. Q. LEACH & CO., do hereby issue this our proclamation, to dispose of our Stock upon such terms as must give satisfaction. In witness whereof we have this, the 16th day of October, A. D. 1866, and of the independence of the United States of America the ninetieth year, hereunto placed our hands and caused the Great Seal to be affixed.

Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, or could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the signature of Jesus L. Lyon, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn, who can be consulted either personally, or by mail, (enclosing stamps) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

Sold by Druggists everywhere.

Hygienic Wine.

Approved by the Imperial School of Medicine, Paris.

Tested by the Committee on Chemistry of the American Medical Association, at their Convention, held in Baltimore, May 1st, 1866, and endorsed by its most prominent members.

This *IMPORTED* Tonic, recommended by the most eminent Physicians, is prepared in Paris from

PURE SHERRY!

Admits in its composition only Tonic, Aromatic, and Febrifuge substances. It *replaces* with a great superiority all other Bitters, which have for a base, nothing but Alcohol or Inferior Whiskies. It is richer than any other Bitters in

Aromatic and Balsamic Principles,

and its taste is exquisite. Its soothing effects on the NERVOUS FLUIDS is most astonishing for, while it gently exhilarates, by reanimating the functions of the DIGESTIVE ORGANS, and dissipates Languor, by gently refreshing and stimulating the brain, giving a healthy tone to the whole organism, it leaves behind none of the baneful influences that follow Alcoholic stimulants.

HYGIENIC WINE

is moreover

MOST DELICIOUS TO THE TASTE,

Possessing wonderful virtues in all cases of DYSPEPSIA AND DEBILITY, and moreover is unexcelled as an

Appetizer,

IT IS NOT INTOXICATING IN THE LEAST.

MUSCAT PERLE, (Imported)

is a rare fine Wine of most delightful flavor. It is the Pure Juice of a Most Delicious and generous GRAPE, and surpasses in excellence *any Table Wine in the Country.*

All who are solicitous about obtaining a *pure* and a superior Wine, will be delighted with

"MUSCAT PERLE."

☞ Church people are solicited to examine this Wine for communion purposes. A Communion Wine should be *above all things* PURE! In the second place it should be MILD. "Muscat Perle" combines these two most essential qualities, and a trial will convince any one of its superiority over all other Wines at present in the market.

These Wines are sold by all respectable Druggists and Dealers.

ALCOCK'S POROUS PLASTERS.

BEST STRENGTHENING PLASTER IN THE WORLD.

ALLCOCK'S POROUS PLASTERS relieves and cures pain by calling forth the acrid humors from parts internal to the skin and general circulation—thus, in many cases, positively evaporating the disease. JAMES LULL, M. D.

There is nothing equal, in the way of a plaster, to the Porous Plaster of Mr. ALLCOCK. Everything is pleasant about them. They are the plaster of the day, and a fit type of our present advancement in science and art. In Asthma, Cough, Kidney Affections, Gout, Rheumatism, and local deep-seated pains, they afford permanent relief.

H. F. JOHNSON, M. D., on Topical Remedies.

From a personal knowledge of these plasters, we can state that they are decidedly preferable to any other in use. Wherever relief is to be obtained by the use of a plaster, we should recommend them.

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

MESSRS. J. N. HARRIS & CO.:—

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep seated PULMONARY CONSUMPTION. I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant mixture with which I am acquainted. For Coughs and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It causes the phlegm and matter to raise, without irritating those delicate organs (the Lungs), and without producing constipation of the bowels. It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state

Local.

☞ His Excellency Governor Smyth and lady have been spending a day or two socially with friends in this city; and on Thursday morning, visited the Navy Yard (where he received a salute) and Fort Constitution,—the party being in charge of Col. Charles G. Pickering of this city, of the Governor's staff.

The Governor and suite took a drive to Greenland, in the afternoon, calling at Col. March's estate, and dining with friends at the bayside; and returning to this city, looking in upon Mr. Winchester's merry husking party by the way, at a later hour were complimented with a fine serenade by the Portsmouth Cornet Band, in the evening; and took the early train home this morning.

PERSONAL. — A subscriber on Daniel street, complains that his Chronicle has been stolen from his door, for four mornings past. He has knowledge as to the transgressor, and unless further operations of this kind are stopped he will appear as evidence against the offenders. If the gentlemen who so seek after the local news will be kind enough to ring the bell, the long-suffering subscriber will be pleased to open the door and allow them to peruse the news, but his wife says she "must have the Chronicle."

S. J. COURT, Oct. 25—Doe J.—At the coming in of the Court this morning, Deborah Warren (charged with perjury) retracted her plea of not guilty, and pleaded *nolo contendere.* Sentenced to State Prison for two years.

A number of criminal cases were disposed of.

Libby v. Pierce and Jewett was commenced. This is an action by the holder of a promissory note for $1500 against the defendants as endorsers. The note was cashed at the Farmers and Mechanics' Bank in Rochester, and the plffs. do business in New York city. Defence—want of proper notice; and an agreement that plffs. were to take up the note, accepting certain railroad bonds as collateral security, and discharging the maker and endorsers. Bell and Soule (of New York) for plffs.; Christie and Hackett for defts.

☞ A free lecture by Prof. Fowler, at the Temple, this evening.

FATAL ACCIDENT.—A promising little son, aged two and a half years, only child of Capt. Moses L. Staples of Ogunquit, Me., was drowned on Wednesday afternoon, Oct. 24, by falling head-first into a spring near the house. There was a barrel set in the spring covered over, and containing about one foot of water.

☞ A hurricane on Friday, Sept. 30, destroyed 800 houses at Turks Island, killed 20 people, and wounded many. All the public buildings were destroyed or badly wrecked; 120,000 bushels of salt washed away, 18 vessels lost, and 20 people of the crews. At Salt Kay and Cockburn harbor there were similar disasters.

☞ A rich city is Chihuahua, (i. e. city of joy,) in Mexico. Most of the houses therein are built of ore, from which the silver has been only partially extracted. The number of inhabitants h s been reduced from 80,000 to 12,000. An American proposed lately to buy all the buildings, gradually, and to extract the silver from them.

☞ A person meeting with an acquaintance after a long absence, told him he was surprised to see him, for he had heard that he was dead.

"But," says the other, "you find the report false."

"'Tis hard to determine," he replied, "for the man that told me was one whose word I would sooner take than yours."

☞ At the Superior Court in Lawrence, Mass., Oct. 25, Geo. A. Kenniston was sent to the State Prison for 20 years, on account of two burglaries in Beverly.

GOLD, Thursday, 147.

— The people of Victoria, Vancouver's Island, have petitioned Queen Victoria to allow the colony to withdraw from the British and annex itself to the United States Government.

— The largest masses of gold ever found were—first, that found at Ballarat, Australia, in 1859, which weighed 234 pounds; second, that found in Calaveras county, Cal., in 1855, which weighed 195 pounds.

— The Democracy in all of the States look coldly upon the meager accession of Johnson men to their ranks, and refuse to give them the places of honor upon the Copperhead ticket. This is acting upon the principle that "the tail can't wag the dog."—*Tribune.*

— Gen. Custer writes that he supports the President, but denounces Copperheads. We are anxious to know how much support remains to the President, after his conservative friends begin denouncing Copperheads? Is a Copperhead so much worse than a Rebel?—*Tribune.*

— A clergyman being deposed from his ministry for holding certain heretical opinions, said: "It should cost a hundred men their lives." This alarming speech being reported, he was taken before a magistrate and examined, when he explained himself by saying his meaning was that "he intended to practice physic."

ON LONELY DINNERS.—At dinner, behold an immense joint of roast veal! I would willingly have had some assistance in the discussion of this great piece of calf. I am ashamed to eat alone; it becomes the mere gratification of animal appetite—the tribute we are compelled to pay to our grosser nature; whereas in the company of another it is refined and moralized and spiritualized; and over our earthly victuals (or rather *vittles*, for the former is a very foolish mode of spelling)—over our earthly vittles is diffused a sauce of lofty and gentle thoughts, and tough meat is mollified with tender feelings. But O! these solitary meals are the dismalest part of my present experience. When the company rose from table, they all in my single person ascended to the study, and employed themselves in reading the article on Oregon in the Democratic Review. Then they plodded onward in the rugged and bewildering depths of Tock's tale until five o'clock, when with one accord they went out to split wood.—*Hawthorne.*

☞ "A disunion Congress!" "An unconstitutional Congress!" "A Congress hanging on the verge of the Government!" expectorated Andrew Johnson as he swung round the circle of suicidal speech making. To get rid of this lawless and accursed body, hundreds of Virginian and Maryland rebels were imported into Pennsylvania to vote. The police in Philadelphia, Saturday before election, picked up and jugged one Samuel Miller, an "unreconstructed" soldier of Stonewall Jackson's Division, who defiantly owned up that he was one of a "consignment of six," who had been sent up from London county, Virginia, railroad-fare paid, to vote for Heister Clymer and some good Union Congressmen!

— A soldier with artificial legs recently declared that he would much rather be on his "last legs" than his new ones

House and an Acre and a half of Land For Sale.

The HOUSE and LAND on Freeman's Point, owned by Mr. MOSES WHEELDEN, is offered for sale. The House is a well-built two-story dwelling, 18 by 36 feet, with an L 17 by 12 feet. It contains 8 rooms, outside cellar, and the situation is one of the finest around the city, rivalling in its extent and variety of prospect the celebrated view from "Lincoln Hill." The terms of sale will be most favorable to the purchaser, and in these days of high prices of building materials, the opportunity to get a well built house in a pleasant situation and superior neighborhood, at a low cost, is well worthy the consideration of any one desiring to buy.

Dr. Schenck's

NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street**, Boston, where he will be professionally every WEDNESDAY from 9 to 3. Every person complaining with Consumption or any disease leading to it, are invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part, also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

REASONS WHY THE

AMERICAN WATCH,

MADE AT WALTHAM, MASS.,

IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "anchres," "lepines" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world For this purpose we have the amplest facilities, which we have added in addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this stove, are subjoined, for convenient reference:

☞ The oil fever which, one year ago, raged so high in Maine that hundreds left the State during the period of excitement, and either in Pennsylvania or Canada West embarked not only their surplus funds but in many cases their all, in the search for petroleum, has completely subsided, and the larger number of parties who were carried away in the whirl expecting to realize large fortunes, have returned home sadder if not wiser men. A moderate estimate shows that the result of the petroleum mania is a net loss to Maine of at least half a million dollars, which falls principally upon citizens of Lewiston, Bangor and Bath.

Important to the General People.
Next to the common articles of daily food, fruits, &c., there is nothing in more universal use than candies, and unhappily there is nothing more subject to adulteration as they are by the adoption of the use of deleterious substances destructive to health. An exposure of these adulterations and their pernicious effects was recently made in this paper, which caused much speculation, and we could wonder how that the only safe use to be made of candies and confections was to obtain those which are known to be pure. Our knowledge that they are thus pure is what has made Southmayd's candies so popular, and what has so enhanced his business as to encourage him to build a splendid marble edifice in Chapel Place, for his manufacturing and wholesale trade, while his retail business will be carried on at Horticultural Hall as usual. The finest and purest material, the use of none but the most innocent and innoxious coloring materials, also the neatest and most tasteful styles of manufacturing, constitute Southmayd's candies among the best, the safest, and the most popular in the market.—*Boston Journal.*

NOW OPEN!
MONTGOMERY'S
MUSIC PICTURE FRAME, AND VARIETY STORE,
10 1-2 Daniel Street,
(Over Miss Beal's Dry Goods Store.)
The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Stools, Covers, Sheet Music, Pianinas, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.
PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.
PICTURE FRAMES on hand and made to order.
LAMPS altered and repaired.
Having made arrangements with Prof W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M. Guild & Co. The superior merits of the former have too long been established to need any comments. Of the latter suffice it to say that the sale of over fifty of them within the last five years by Mr Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.
Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof Day. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman.
D. H. MONTGOMERY.

CHEROKEE CURE,
THE GREAT
INDIAN MEDICINE,
Cures all diseases caused by self-abuse, viz:—*Spermatorrhœa, Seminal Weakness, Night-Emissions, Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Pale Countenance, Insanity, Consumption*, and all diseases that follow as a sequence of youthful indiscretions.
The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.
Price $2 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,
Dr. W. E. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy,
Cures all Urinary Complaints, viz: *Gravel, Inflammation of the Bladder and Kidneys, Retention of Urine, Strictures of the Urethra, Dropsical Swellings, Brick Dust Deposits*, and all diseases that require a diuretic, and when used in conjunction with the
CHEROKEE INJECTION,
does not fail to cure *Gonorrhea, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in from one to three days*, and is especially recommended in these cases of *Mucous Albus or Whites in Females.* The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.
Price, Remedy, one Bottle, $2, Three Bottles, $5.
" Injection, " " $3.
The Cherokee "*Cure*," "*Remedy*," and "*Injection*" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds,—in order to make money—in place of these. *Be not deceived.* Druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us *in perfect confidence.* We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

VOL. XXIX. PORTSMOUTH, N. H. SATURDAY, OCTOBER 27, 1866. No. 100.

The Chronicle.

☞ Sir Curtis Miscendar Lampson, created a Baronet in England for his services in the Atlantic Telegraph enterprise, is a native of Vermont. His early life was passed in the hunting and fishing grounds of Canada and the Hudson's Bay territory. He was married in Vermont, and in 1834 went to England, where he became permanently settled, taking the oath of allegiance in 1848, and engaging in the Hudson's Bay fur trade. He was one of the earliest directors and shareholders of the Atlantic Telegraph Company, and has since continued his active interest in that work. The new baronet is the owner of a fine estate at Rowfant, near East Grinstead.

— The official vote of all but eight counties gives the Union majority in the State of Indiana at 14,095. Colt Grover in the 4th Congressional District and Gen. Graham in the 2d—both Union men—will contest the seats of their opponents, on the ground of fraudulent voting.

— A prisoner in the Memphis jail recently picked the pocket of one of the jailers of his watch, and sold it by another jailer to a confectioner, and had it pawned for five dollars' worth of cakes, with which to treat his fellow prisoners.

— Not long since twenty-nine graduates of Oxford and Cambridge Universities sat down to dinner together at Melbourne, Australia.

— "I do not say," remarked Mr. Brown, that Jones is a thief, but I do say that if he's farm joined mine, I would not keep sheep."

— Jones said to Hawkins, a rusty old bachelor, —"What a pity that poor old Golden has gone blind. Loss of sight is a terrible thing, and the poor fellow's eyes are quite sealed up." "Let him marry, then," exclaim the wayspah old celibate; "let him marry, and if that don't open his eyes, then—then—his case is indeed hopeless!"

— The manufacturers of the J. Monroe Taylor Gold Medal Soap have signally succeeded in placing that valuable article foremost of all the soaps in existence, and we congratulate them upon the eminent success which has already crowned their efforts. It should be in every household from the Atlantic to the Pacific. It is indispensably necessary for the comfort, pleasure and happiness of invalids, and in fact, half the mitigation of a very heavy burden upon womankind; try it and you will ever buy it. Morning Chronicle.

Portsmouth N. H.

SATURDAY, OCTOBER 27, 1866.

☞ The Washington correspondent of the Philadelphia Telegraph says that when Congress meets, an effort will be made to check the President in the matter of appointments. The commencement will be made in the Treasury branch of the public service, the Internal Revenue Bureau, and the Customs Department of the Treasury. It will be done in a strictly constitutional manner. The second clause of the second section of the Constitution provides, that "the Congress may, by law, vest the appointment of such interior officers as they think proper in the President alone, in the courts of law, or in the heads of departments." Under this authority Congress will enact a law designating the Commissioner of Internal Revenue and the Commissioner of Customs as heads of department, and providing that they shall be appointed by Judge Chase, of the Supreme Court. The appointment of subordinate officers in these departments will be placed in the head appointed by Judge Chase. This will secure the offices to the Republicans.

STOLEN AND SQUANDERED.—A young man, resident in a neighboring city, was arrested on Tuesday last by Detective Curtis, of Boston, on a charge of stealing $1800 in government bonds from an elder brother, whose hard earnings they were, and who kept them in a trunk in the house where the whole family resided. The larceny had been going on ever since July last, and was not discovered until the money was all gone. The young man had "sported it" very much on ill-gotten gains, had driven fast and fancy teams, patronized fast girls, fought "the tiger," given free suppers to his friends, drained the wine cup and worn diamond rings. He was detected while endeavoring to negotiate the last $100 bond, and he confesses all.

POSTAL MONEY ORDERS.—A clerk in a business house in New York was sent out recently to inquire the price of a draft of $4800 on California. He ascertained that it would be three per cent., or $144. His principal directed him to go to a well known banker to see if better rates could not be obtained. The clerk, mistaking the name given him, called on Postmaster Kelly, and was informed that his money could be sent by post office orders for $24. This was an unexpected condition of affairs; money orders had not been thought of; but after due consideration the sum it was proposed to send to California was forwarded by means of these orders. The rate was just one-half of one per cent.

A FAINTFUL DEATH.—At Chicago, a few days since, a student at Eastman's Business College, named Reuben T. Bryant, swallowed a mouthful of liquid from a bottle marked "Blackberry Cordial." Immediately on taking a second mouthful, he discovered that, whatever the mixture was, it was not what it purported to be. With a vague sensation of terror he hurried to the door and spit out what was in his mouth. In a few minutes afterward he became sick and began to vomit violently. Though labelled "Blackberry Cordial," the bottle really contained nitric acid, which some of the young man's fellow boarders had been using for the purpose of forming a battery for a small telegraph instrument with which they had been in the habit of experimenting. A physician was immediately sent for, and before he arrived the violent vomiting had ceased. Milk and sweet oil were given him with the hope of neutralizing the effect of the terrible poison which it was well known had even then begun to eat its way through his bowels. When the vomiting recommenced it was but two evident that all efforts to arrest its progress would be in vain.

☞ The Augusta (Ga.) Constitutionalist says that on the 16th inst., a mob of white men in Columbia county went to the house of Harry Wightman, a freedman, about 2 o'clock in the morning, and after threats and other manifestations of violence, caused him and his wife to attempt their escape. After leaving the house the woman was violently handled by the ruffians, who choked her nearly to death and then put handcuffs upon her wrists. She cried "murder," and her husband came from under the house and fired upon her assailants, when they turned and fired at him, killing him instantly.

— A letter from Japan reports that Prince Satsuma is exceedingly civil to foreigners. The officers of the British war ship Princess Royal have received from him profuse gifts of pigs, poultry and fruit, but when any of the crew go ashore they are obliged to be protected by a strong guard of the Prince's troops from the troublesome curiosity of thousands of the populace, who follow the English about the streets of Kagosima.

— The Census Bureau estimates the present population of this country at thirty-five millions.

NEW HAMPSHIRE ITEMS.

—— Isaac Adams, of Sandwich, has been appointed Trustee of the Asylum for the Insane, in place of Gen. C. H. Peaslee, deceased.

—— The Messrs. Adams, brewers, of Concord, advertise "Adams's Ale" for sale. Many folks seem to think this modern kind an improvement on the original brand.

—— The annual meeting of the Grand Division of Sons of Temperance for this State, was held at Concord on the 24th. Jeremiah Smith, of Dover, was elected G. W. P. for the ensuing year, and F. H. Leslie, of this city, G. W. A.

SONS OF TEMPERANCE IN NEW HAMPSHIRE.—The annual session of the Grand Division of Sons of Temperance in this State, was held in Concord on Wednesday, Grand Worthy Patriarch Wm. C. Hatch, of Portsmouth, presiding. The amendment to the Constitution made by the National Division, giving subordinate Divisions the right to make members of ladies, was adopted. The time was spent very pleasantly, and it is hoped profitably. After the transaction of general business, the following officers were elected for the ensuing year: G. W. P., Jeremiah Smith, Dover; G. W. A., Edwin H. Leslie, Portsmouth; G. S., F. S. Crawford, Concord; G. T., True Osgood, Concord; G. Chaplain, E. Cummings, Concord; G. Scribe, F. D. Woodbury, Concord.

CAMP MEETING OUTRAGE IN MARYLAND.—The Freedmen's Bureau has concluded its investigation of the recent outrage on the camp meeting in Anne Arundel county, Maryland. From this report it appears that the camp meeting was an old established affair, attended annually by both white and colored people, for a long series of years, the latter class having their camping ground assigned to them by the officers in charge; that the meeting was one of more than usual quiet and solemnity when the disturbance occurred, and that the riot was instigated by a number of white men making an attack upon colored people while in the act of prayer, evidently with a view of involving the whites engaged in camp meeting in a riot. This latter fact is shown from the white rioters always retreating within the circle of the white people's tents when pursued by the negroes, and also by threats against the white ministers. It is shown conclusively by the evidence that the negroes acted only in self-defense, and left the ground entirely when advised to do so by the white preachers, thus leaving their tents and goods to be destroyed and burned by white rioters. From a careful reading of the whole testimony, says Major General E. M. Gregory, who signed the report, it is impossible to resist the conclusion that the riot was premeditated, and that the object of the riot was—first, an attack upon the colored people, and second, a deliberate attempt to break up the camp meeting of the Methodist Episcopal Church on account of the alleged anti-slavery sentiments of its ministers and members.

WEST VIRGINIA.—The New York Tribune's Wheeling special returns from West Virginia election thus far received show gains on the vote for the Constitutional amendment last May, which was carried by over 7000. Hubbard is undoubtedly elected to Congress by a large majority. Bowman is certainly elected Governor.

STATE TEMPERANCE CONVENTION.—The committee appointed by the New Hampshire delegates at the late New England Convention in Boston have decided to call a State Convention to meet in Concord on the 12th day of December next.

— Col. Forney says that a gentleman who recommended a Republican to Secretary Welles for an appointment a few days ago, got for answer: "That as the Republicans now in office were all to be discharged, it was madness to expect he would appoint men of the same stamp."

GEN. TILLSON, U. S. commanding officer in Georgia, has written an official letter to citizens of Henry Co., who had had sent him a copy of certain resolutions passed by them at a meeting. His answer is dated at Augusta, Oct. 16, and speaks for itself. We copy a part of it:

In reply, I beg leave to make the following statement: On the 18th of May last, reports reached these headquarters of outrages upon freed people, and threats on the part of citizens to shoot Mr. Phillips, agent of the Bureau, if he dared to arrest any person for whipping a 'damned nigger.'

May 25. Similar reports were received.

July 20. Information reached these headquarters of the existence of a gang of Jayhawkers in Henry county, who were whipping, robbing and killing freed people, and driving them from plantations where they were employed.

July 31. I addressed a letter to the Judges of the Inferior Court, and the Sheriff of Henry county, calling upon the civil authorities to enforce the laws and protect the freed people.

This letter was sent through Mr. Phillips, who reported its delivery, and the reply of the Judge and Sheriff that they 'could not do anything.' He further reported that the outrages upon the freed people still continued. August 22, one G. D. Gardner whipped a freed girl most unmercifully. The blood was oozing from her back and arms when she presented herself before the agent. Gardner was arrested by the soldiers on duty with the agent, and afterward released on a writ of habeas corpus issued by the Hon. S. O. McDaniel, Judge of the County Court. The agent was instructed to re arrest Mr. Gardner and hold him under general orders No. 44 (C. S.) from headquarters of the army, unless the civil authorities instituted proceedings against him. The Judge of the county was informed of the instruction of the agent.

About this time the gang of outlaws before referred to murdered a freedman. The agent reported that he asked the Judge if the guilty parties would be tried by him if they were arrested by the agent. The Judge replied that he would not, that the arrest would be illegal. In addition to these reports others were received from Captain Walbridge, A. S. A. Commissioner at Atlanta, and Captain Ehlers at Griffin, that freed people who had been subjected to cruelties in Henry county had appeared before them to make complaint, bearing upon their bruised and bloody persons the proof of their statements.

Captain Walbridge states that frequent complaints reached him from Henry county that the inhabitants attacked the scholars and teachers of freedmen's schools—stoned them on their way home and threatened to 'kill every d—d nigger or white man' who upheld the establishment and continuation of the 'nigger school.' He further states that he notified the civil authorities, and called upon them to remedy the evil; but they took no notice of, and claimed they could not. In one instance a freed woman was fearfully beaten, her person outraged, and afterward subjected to cruelties so atrocious and revolting that a description would be unfit for publication.

On one occasion after Mr. Phillips had arrested a man in pursuance of orders from these headquarters, a mob of armed citizens of the county, numbering from one hundred to two hundred, compelled Mr. Phillips to release the prisoner.

On another occasion a United States soldier, in the discharge of his duty, was fired upon, and on many other occasions the rightful authority of the government of the United States has been insulted, defied and treated with contempt by the citizens and civil authorities of Henry county.

IN GEORGIA, General Tillson concludes, in a letter to citizens of Henry County, dated Oct. 16,—to hold his prisoners, and preserve his authority. After showing up oppressions and persecutions, fully proved, he says:

All peaceful efforts having been exhausted and failed, the civil authorities having shown themselves unable, or unwilling, to protect freed people in their rights of person and property, or bring to trial and punishment persons guilty of inflicting monstrous cruelties upon them, there was no alternative but to use military force, in compliance with General Orders No. 44, above referred to.

I shall hold the prisoners, and maintain a garrison in Henry county, until the conduct of the people and the action of the civil authorities warrant the belief that the laws will be enforced, all classes of citizens protected. Longer to trust mere professions, in presence of facts in my possession, would be to indulge in criminal credulity.

As the publication of the resolutions sent me, give the impression that the military authorities have acted in an oppressive and tyrannical manner, without due investigation or knowledge of facts, I shall publish the foregoing statement.

☞ The N. Y. Tribune says:

"We have assurance that a number of Democratic associations in this city have fearlessly repudiated the Hollman ticket, and will vote for Gov. Fenton and the Republican candidate for Congress in the Fourth District. Large clubs of the Democratic young men of the First and Eighth Wards have taken this action with great enthusiasm, and do not propose to recede from it in any way."

Hon. J. N. Morris of Quincy, Ill., who formerly represented that District in Congress, and who was never anything but an uncompromising Democrat, has repudiated the Copper Johnson party and is now advocating the principles and policy of the Republican party.

— Snow fell in Central Vermont Thursday.

— "Dr. Mary Walker," one of the latest American bloomerites, is now in England, preaching reforms in women's dress and political position. At the Manchester social science meeting, she said woman was overworked, and her vitality exhausted in carrying around a dry goods store.

— The man that overlooks most offences is the tallest one.

— A Salt Lake telegram says Dr. John King Robinson, formerly Assistant Surgeon at Camp Douglass, was decoyed from his home at a late hour on Monday night, under a pretext that his services were professionally required, and murdered within half a block of his own house. His funeral was under the direction of the Order of Odd Fellows. An investigation into the murder has elicited nothing except that five or six persons were concerned in it.

PROCLAMATION.

TO THE PUBLIC GENERALLY.

WHEREAS, Being armed and equipped with such a stock of Fall and Winter Dry Goods as cannot fail to strike the beholder with bewildering amazement, and please the fancy of all lovers of the Beautiful; and Whereas, Having entered the field for the Fall and Winter Campaign of Trade, we are determined to repulse if not entirely vanquish the great system of monstrous prices and murderous profits, which has settled upon our whole country like a mighty incubus—sinking the poor into deeper depths of poverty, and dragging the affluent down, and even driving many to distraction.—and Whereas, We have taken unusual pains in the selection of our New Stock, and have purchased it all at the Lowest Cash Prices, which will enable us to accommodate the purchaser at the lowest possible figures: Therefore, We, A. Q. LEACH & CO., do hereby issue this our proclamation, to dispose of our Stock upon such terms as must give satisfaction.

In witness whereof we have this, the 16th day of October, A. D 1866, and of the independence of the United States of America the ninetieth year, hereunto placed our hands and caused the Great Seal to be affixed.

Hygienic Wine.

Approved by the Imperial School of Medicine, Paris.

Tested by the Committee on Chemistry of the American Medical Association, at their Convention, held in Baltimore, May 1st, 1866, and endorsed by its most prominent members.

This *IMPORTED* Tonic, recommended by the most eminent Physicians, is prepared in Paris from

PURE SHERRY!

Admits in its composition only Tonic, Aromatic, and Febrifuge substances. It *replaces* with a great superiority all other Bitters, which have for a base, nothing but Alcohol or inferior Whiskies. It is richer than any other Bitters in

Aromatic and Balsamic Principles,

and its taste is exquisite: Its soothing effects on the NERVOUS FLUIDS is most astonishing for, while it gently exhilarates, by re-animating the functions of the DIGESTIVE ORGANS, and dissipates Languor, by gently refreshing and stimulating the brain, giving a healthy tone to the whole organism, it leaves behind none of the baneful influences that follow Alcoholic stimulants.

HYGIENIC WINE

is moreover

MOST DELICIOUS TO THE TASTE.

Possessing wonderful virtues in all cases of DYSPEPSIA AND DEBILITY, and moreover is unexcelled as an

Appetizer,

IT IS NOT INTOXICATING IN THE LEAST.

MUSCAT PERLE, (Imported)

Is a rare fine Wine of most delightful flavor. It is the Pure Juice of a Most Delicious and generous GRAPE, and surpasses in excellence *any Table Wine in the Country.*

All who are solicitous about obtaining a *pure* and a superior Wine, will be delighted with

"Muscat Perle."

☞ Church people are solicited to examine this Wine for communion purposes. A Communion Wine should be *above all things* PURE! In the second place it should be MILD. "Muscat Perle" combines these two most essential qualities, and a trial will convince any one of its superiority over all other wines at present in the market.

These Wines are sold by all respectable Druggists and Dealers.

ALCOCK'S POROUS PLASTERS.

BEST STRENGTHENING PLASTER IN THE WORLD.

ALLCOCK'S POROUS PLASTERS relieve and assuage pain by calling forth the acrid humors from parts internal to the skin and general circulation—thus, in many cases, positively evaporating the disease. JAMES ALLL, M. D.

There is nothing equal, in the way of a plaster, to the Porous Plaster of Mr. ALLCOCK. Everything is pleasant about them. They are the plaster of the day, and a fit type of our present advancement in science and art. In Asthma, Cough, Kidney Affections, Gout, Rheumatism, and local deep-seated pains, they afford permanent relief.

J. F. JOHNSON, M. D., on Topical Remedies.

From a personal knowledge of these plasters, we can state that they are decidedly preferable to any other in use. Wherever relief is to be obtained by the use of a plaster, we should recommend them.

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

Messrs. J. N. HARRIS & Co.:—

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs and all the early stages of Lung complaint, I believe it to be a certain cure, and if every family would keep it by them, and administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It causes the phlegm and matter to raise, without irritating those delicate organs (the Lungs), and without producing constipation of the bowels. It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state

PERRY DAVIS' VEGETABLE PAIN KILLER possesses virtue, which not alone removes pain instantly, but regulates the stomach, gives strength, tone and vigor to the system. It is one of the medicines that is worth more than gold.

Don't experiment in testing new remedies, when you can buy the genuine Pain Killer, which everybody knows to be good.

The Woodstock (C. W.) Sentinel says: "It is a generally admitted fact that the medicine manufactured by Messrs. Perry Davis & Son has been instrumental in alleviating much pain, and giving relief to millions of suffering humanity. The medical faculty almost everywhere recommend the Pain Killer, and its reputation is now established as the most beneficial family medicine now in use, and may be taken internally and externally to expel pain." o1—dawlm

Local.

☞ Sunday last presented a beautiful sample of the perfection of Summer,—Indian Summer, at any rate; while Thursday was almost equally the perfection of Winter, all but the snow. We have rarely known more glorious weather, each of its kind, or more sudden and complete changes, than during this week. The sun's risings and settings have been gorgeous, the beams of the full moon were never clearer or brighter; while the brimming fall tides combined with the harvest clad fields and bright tinted forests, to render the landscape lovely in the mellow haze of autumn, almost beyond even the fresh greenness of June's brightest blue day. But the week bids fair to end drear and cheerless enough.

☞ The publisher of the Chronicle would most gratefully acknowledge his indebtedness to the Portsmouth Cornet Band, for their delightful visit and fine music at his residence on Thursday evening — which he is happy to regard as a testimonial for himself, that he has wished to aid and encourage this really creditable musical institution, and a token of respect for the distinguished guests on the occasion. We need not assure the Band that the compliment was duly appreciated by all concerned, and that they will ever have our best wishes for their fullest success and reward for their endeavors to furnish the public with good music. May their notes long pass current at par, and never be counterfeited.

☞ Huskings are the order of the day, about this time—or rather, more properly speaking, the *disorder* of the night. We hear of them in all quarters—and "Oh, *such* good times" as the girls say they have, and no doubt the boys help them. At the Parsons' farm, the other night, the Cornet Band materially contributed toward making up a ringing good time; and at Mr. Winchester's, the tableaux presented, in that spacious and well-filled barn, was one of plenty, content and happiness, while in the house ample tables were piled with inviting viands—and music invited the tripping of the light fantastic, after the huge heaps of corn had been sorted of all its red ears.—Oh, dear!

☞ We all grow old almost imperceptibly, until something in the looks or movements of others brings the fact home to ourselves. So the commencement of a new volume (the 111th) of the New Hampshire Gazette, on the 7th inst., was passed by without notice from us. This is beyond all doubt or controversy the oldest paper in this country, and bids fair to live some time yet.

☞ The Lyceum Committee are to give the public a good Course this winter; but how they manage to reduce the price of tickets, while the cost of lecturers is ever increasing, is a mystery. Tickets only $1 50 for the whole—50c for single evening, we believe. We hope they will have the Cornet Band for music.

☞ A romantic young man calls our attention to the occurrence of another double wedding in town this week—the marriage of two brides of the sea—the launch of two vessels from a North End ship-yard, as before noted.

☞ A local correspondent writes us that the Kearsarge mill has tested the advantage of laying pipe to the pond, as the late fire shows its efficiency; and advises us to copy all good examples.

☞ To-day is a busy time for the auctioneers. Mr. Wendell sells stoves, blankets, cloths, &c., at 10 o'clock.

Betton & Co., have their regular sale of varieties, at the same hour.

A valuable lot of woodland and other real estate on the road from South Newmarket to Epping, will also be sold at 10 o'clock.

At noon, Maj. Hackett will dispose of the convenient two-story house, corner of Daniel and Mulberry streets, with garden and outbuildings.

☞ We learn that first lieutenant Geo. F. Towle, United States army, has been appointed Chief of Ordnance, of the Department of the Arkansas, on the staff of Maj. Gen. Ord, and placed in charge of the U. S. Arsenal at Little Rock.

S. J. COURT, Oct. 26th.—Doc, J.—In the case Libby *et al* v. Pierce *et al*, the jury rendered a verdict of $1500, in favor of the piff. It is understood that the case will be carried up as exceptions, or a review be prosecuted.

Packer v. Weeks is now on trial, and jurors not sitting in this case have been discharged. This is an action relating to the title to certain real estate in Greenland. Bell and Wiggin for piff. Hatch and Frink for deft.

☞ The Boston Transcript notices that Rev. A. J. Patterson, the recently settled pastor of the Universalist Society at Roxbury, begun last week an interesting course of Sunday evening lectures, his opening subject being "The Family Home," which was treated with marked ability.

THE HUMANE SOCIETY will hold their first meeting at Mrs. Lyman's, Austin St., on Monday, Oct. 29th.

GOLD, Friday, 147 1-2.

☞ It is said that the trial of Jeff. Davis is postponed to next spring.

☞ Peter McNeil got between two railway trains at Rowley, Thursday evening. An engine struck him on the shoulder, breaking his arm, and doing other injury.

— Troubles accumulate in the South. A Richmond local pathetically mourns over the facts that oysters and larger beer are severely double the price there that they are at the North.

— Two large boa constrictors recently escaped from a menagerie in Medina County, Ohio, and are still at large. An alligator, which escaped at the same time, took possession of a field and drove out the cattle. He was soon secured, however.

— John Van Buren got the title of Prince by Queen Victoria, before her marriage, dancing with him, when John was Secretary of Legation under his father, then the Minister of London.

— The oldest journal in Germany, and one of the oldest in the world, has just disappeared, suppressed by Count Bismarck. It was the Postzeitung (Postoffice Journal,) published at Frankfort, established in 1616, and owned by two German princes.

Dr. Schenck's

NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street**, Boston, where he will be professionally every WEDNESDAY from 9 to 3. Every person complaining with Consumption or any disease leading to it, are invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part, also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

REASONS WHY THE

AMERICAN WATCH,

MADE AT WALTHAM, MASS.,

IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "anores," "lepines" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the fine imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

☞ When Johnson accepted his nomination as Vice President, he touched the heart of the country with this declaration: "If the man who gave his means to destroy the Government should be permitted to participate in the great work of reorganization, then all the precious blood so freely poured out will have been wantonly spilled, and all our victories go for naught." Now he threatens to "kick out" every federal office-holder in the United States who does not support his policy of instantly admitting Rebels into Congress to settle the terms upon which they are to be received back into the Union. The people in their turn unquestionably will "kick" every office-holder in the country who does support this policy, and will kick him hard too.

THE ANCIENT JEWISH COLONY IN CHINA.—A correspondent of the Times writes from Pekin under date of June, that the Jewish colony in the Chinese city of Kaifung-fee is rapidly falling to pieces. Their synagogue is in ruins, their numbers are reduced to three or four hundred, their ritual worship has ceased, and they have begun to intermarry with the Chinese. The writer says: "They remember the names of the Feast of Tabernacles, the Feast of Unleavened Bread and a few other ceremonial rites which were practiced by a former generation, but all such usages are now neglected, and the next half century is not unlikely to put a period to their existence as a distinct people."

WAY DOCTORS PAY. SERVANTS.—"What's the matter, Uncle Jerre?" said Mr. Tompkins, as old Jeremiah Reynolds was passing by, growing most ferociously. "Matter?" said the old man, stopping short. "Why, there I've been a-lugging water all the morning for Dr. Chester's wife to wash with, and what do you suppose I got for it?" "Why, I suppose ten cents," answered Mr. T. "Ten cents! She told me the doctor would pull a tooth for the same time."

AMERICAN AND FOREIGN PATENTS.
H. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, 28 State Street, Boston.

After an extensive practical acquaintance of twenty years, obtained at Boston Patents for the United States, also in Great Britain, France and other foreign countries. Also, Reissues, Extensions, Assignments, and all Papers or Drawings for Patents, executed on the shortest notice and on the most reasonable terms. Models of Patents, Designs, Specimens of manufacture, Copies of patents or inventions—and legal or other advice rendered on all matters appertaining to patents. Obtain the claims of any Patent issued in the United States, also a complete record of Washington.

The Agency is one of the largest in New England, but strongly recommended have advantage for securing Patents in Great Britain, because the facility of procuring an opinion of patentability of inventions or improvements, and the necessarily superior skill by which can be obtained them quickly and cheaply. Have been given proof that none of my PATENTS HAVE BEEN SUCCESSFULLY THE PATENT OFFICE than the Undersigned and A. S. HOW, M. D. of Washington, ADVANTAGES AND SKILL of the Undersigned that he has at one time in 1854 and 1855 can prove, that at a time when the Patent Office the charges for procuring a patent were greater.

The immense business of the Office during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, add to the facilities of obtaining patents in the United States and Europe. Inventors in the United States and Europe, residing at a distance, can be supplied with all necessary information, and the best means of obtaining patents, by addressing the undersigned.

All necessary data for securing a patent, if inventors are here have invented, or improvements.

"I regard Mr. Eddy as one of the most efficient and successful practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of securing their applications in a form to secure for them ample and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. H. H. Eddy has made for me THIRTEEN applications, all of which have been granted, and I have no hesitation in recommending his unmistakable PROFICIENCY, PERSEVERANCE and ability in his particular line to recommend all inventors to apply to him for the securing of their patents, as they may be sure of having the most skillful attention bestowed on their business, and at the most reasonable charges."
JOHN TAGGART.

During eight months, I have employed Mr. Eddy in a large number of his large practice, and have never had a case rejected upon the ground of defective specifications, SECTIONAL APPEALS, EXTENSIONS, of which was decided in his favor, by the Commissioner of Patents.

Agents Wanted For
The Camp, the Battlefield, and the Hospital, OR, LIFE AMONG THE SOLDIERS.

There is a certain portion of the war that will never go into the regular histories, nor be embodied in poetry or song, but which is a very real part of it, and will, if preserved, convey to succeeding generations a better idea of the spirit of the soldiers than many dry reports or certain narratives of facts, and this part may be called the gossip, the fun, the pathos of the war. The illustrator of the character of the leaders, the humor of the soldiers, the sights of camps, the bravery of men, the pluck of our heroes, the romance and hardships of the service.

The author's position, illustrated with over 100 engravings by the first artists, which are not only really of, worthy of examination as specimens of the art, are taken from original sketches, including choice of camp, picket, fig, scout, bivouac, siege and battlefield adventures, ludicrous facts of soldier life, military, comical and incidents of service, etc., etc.

Amusement as well as instruction may be found in a very graphic sketch, brilliant and amusing, which will be published between now and the week of January next.

Important to the Afflicted.
DR. DOW continues to be consulted at his Office, No. 4 and 7 BANCROFT STREET, BOSTON, for the treatment of SPERMATORRHŒA and CONSTITUTIONAL DEBILITY. By a long course of study and great experience, he is enabled to cure the most inveterate cases of SEMINAL WEAKNESS, and all diseases that have resisted the skill of other physicians. Dr. Dow's cures are permanent, and he invites the most inveterate cases of Diseases that have resisted the skill of other physicians to call on Dr. Dow.
Patients who wish to remain under Dr. Dow's care for a few days or weeks, will be furnished with pleasant rooms, and charged for board moderate.
Medicines sent to all parts of the country, with full directions for use, by receiving descriptive letters from the sick. Dr. Dow's Medicines are safely Valuable. Price of

HANDSOME GIFT TO LOWELL.—The Lowell Courier says that Dr. J. C. Ayer has offered that city a bronze statue of Victory, purchased by him in Italy. It is about eight feet high, and will stand on a pedestal ten feet in height, making it altogether about eighteen feet from the base to the top of the figure, and will be a fit mate to the monument on Monument Square, already erected to the first martyrs of that terrible struggle which finally terminated in *victory*. The city council accepted the gift with thanks.

— Why is there no occasion for a flute-player to go to Germany for his health? Because he can stay at home and breathe a German air.

— A constable in Ohio lately testified in court as follows: "I know nothing of her but what I hear the neighbors say; and, in my opinion, what a woman says of another is not worthy of belief."

— A bellman of a seaport not one hundred miles from Whitby, in announcing a tectotal meeting, to be held in the Temperance Hall at that place, said that the meeting would be addressed by six females who never spoke before!

— The English papers announce that Mr. Sutherland Edwards has a novel entitled, "The Three Louisas." It has been facetiously proposed to make the name more popular by changing it to "Unlimited Loo."

— "The lion and the lamb lying down together—the lamb inside the lion," is the definition the Union men of Chicago give to Andrew Johnson's policy.

— A man named Dawson, residing at Fredericksburg, Virginia, was recently knocked down by lightning. He had been at death's door with rheumatism previously, but had not felt a twinge since. He need not take out a patent for that cure.

IMPORTANT.—The fact cannot be too often stated, or too strongly urged upon the public, that the majority of the Saleratus in the market is not only *very unhealthy*, but actually a slow poison, causing teeth to decay, and bringing on disease generally. Thanks to science, skill, perseverance and energy, that the man still lives who invented Herrick Allen's Gold Medal Saleratus, which has and is still doing such great wonders in the culinary department. We say that one trial will convince the most skeptical that there is none other to be compared with it. Most of our Merchants have it for sale. Their depot is 112 Liberty Street, New York. 47

Morning Chronicle.

Portsmouth N. H.

MONDAY, OCTOBER 29, 1866.

☞ Another Fenian, John McMahan, was convicted at Toronto, Oct. 26. On his trial, the counsel for the defense argued that the prisoner, who was a Catholic priest, was forcibly compelled to go with the Fenians to give spiritual comfort to the wounded; that as a priest he could not refuse to attend the wounded; that he was on his way to Montreal on private business when the Fenians at Buffalo compelled his attendance.

The prosecutor replied, saying in law the fact of the prisoner having in any way aided the invaders made him equally guilty.

The jury brought in a verdict of guilty, and the prisoner was sentenced to be hung on the 13th of December.

☞ The Philadelphia Press of Thursday morning says that Hon. John L. Thomas, Representative in Congress from the Second Maryland District, and a candidate for re-election, had a recent conversation with General Grant, in New York, in which the latter explicitly and voluntarily took ground in favor of the Constitutional Amendment, and declared that it would be fatal to the South if they refused to adopt it. In all the speeches of Mr. Thomas he gives the particulars of this conversation, in which the General gave him this unqualified assurance.

☞ The Chicago Republican has the following suggestive remarks:

Had the Union party in Louisiana and Maryland extended the suffrage to all loyal men when it had the power, it might in safety have permitted, or with ease have prevented, the rebels from voting, whichever it deemed the more expedient policy. In universal suffrage it would have secured loyal ascendancy. But in restricted suffrage it erects a bulwark of quicksand, which the constant current and pressure of events tend to bear away and overwhelm. In Virginia the rebels leaped into power and swept away the barrier against rebel voting, without an effort. In Louisiana their success was slower, but it is now nearly complete. In Tennessee the loyal element has only been saved by almost superhuman pluck and energy. In Arkansas it is quite subdued. In Missouri it is fighting hard. And now it is rampant in Maryland. We believe the true lesson to be derived from these events is, that the safer as well as more democratic policy is to extend rather than restrict the right of suffrage. The sounitest political principle for all time is generally the most expedient policy for the time being.

MOSQUITOES.—Timothy Driscoll of Mobile, committed suicide "because the musquitoes bothered him so."

A New Orleans physician undertakes to prove that mosquitoes are a blessing, not a curse—that their bite is healthy and necessary. He is turning his attention to raising them, and hopes to turn some out with bills as large as toothpicks.—*Ex.*

That's why people don't like them.—Wholesome articles are seldome those in popular demand.

A PARIS ITEM of Oct. 25, says that the condition of the Empress Carlotta is described as being hopeless. The Emperor Maximilian will probably return in the Austrian frigate which was recently despatched from Trieste by the Emperor Francis Joseph. It is said that twenty war steamers will leave for Mexico in November, to bring home the entire French force now in that country.

HEAVY FAILURE.—We learn of the failure of a large oil merchant of Boston, long known and highly respected in this community. His liabilities are $250,000; at least $100,000 to parties here.—*New Bedford Mercury.*

CABLE DISPATCHES.—Cyrus W. Field announces that on and after the 1st of November, the tariff on all messages passing through the Atlantic Cable will be reduced 50 per cent.

☞ Blackwood's Magazine (American edition) for October, is received from the L. Scott Publishing Co., New York. The contents are well up to its regular standard.

☞ On Thursday night, at St. Louis, the extensive wagon factory of John Cook was burned. Loss between $40,000 and $50,000; insured for $25,000 in city offices.

A FUSSY TRAVELLER.—The midnight Albany train, a few weeks since, left a load of passengers at one of our western towns. Among the number was a nervous, fidgety old man who was in a great stew about his baggage. His foot had hardly touched the platform, when he commenced dogging the baggage master for his baggage. Finally, after being repeatedly dunned for the baggage, before he had time to get it at the bottom of the huge pile, the baggage man turned to the man and thus addressed him —"Mister, it's a pity that you want born an elephant instead of a jackass, and thin you'd have had yer trunk always under yer nose!"

— A campanological company, called the Bannister family—the oldest member of which is seventy years old—rang a stupendous number of changes upon some Kentish (England) church chimes the other day. The time occupied was three hours and ten minutes, and "a true and complete peal of five thousand and forty grandsire triples" was rung.

NEW HAMPSHIRE ITEMS.

—— The Enfield Shakers have raised a beet weighing 28 pounds, and want somebody to beat it.

—— Samuel Stickney of Lebanon, 75 years old, recently dug 1500 bills of potatoes in a single day.

—— The Hillsboro' County Musical Convention is to be held at Wilton, commencing to-day. Yes, Musical Conventions flourish everywhere but here—why?

—— Mrs. Eastman, of Salisbury, now in the 105th year of her age, rode out last Wednesday—aiding herself in getting into and leaving the carriage. Her mind is clear and her bodily vigor remarkable.

GOLD, Saturday, 145 3-4.

— Two of the Bowdoinham bank robbers —Simms and Bartlett—have been ordered to give $50,000 bail each for their appearance at the S. J. Court in April next, at Bath, where their examination was held.

— A new daily journal has appeared in Vienna, price one fifth of a penny. This paper is a government organ, intended for distribution among the people. It is printed on good paper and contains eight pages quarto.

— Mr. Robedoax, the first white man who penetrated the Upper Missouri, is still living. He is eighty-two years of age, and is the founder of St. Joseph, Mo. St. Louis was a mere trading port when he passed that way.

— The N. Y. Herald's Fort Leavenworth dispatch says Dr. Robinson of Utah, Superintendent of the only Christian Sabbath School in Salt Lake city, was murdered by Mormons on the 24th inst.

— The railway between Calcutta and Bombay is about 1000 miles long, and is traversed by trains in about four days. The only through traffic at present consists of mail and cargo. European passengers cannot travel the whole distance on account of the heat.

— Nearly 2000 Germans leave Europe every week for the United States, in the Bremen and Hamburg mail steamers. A company is established at Copenhagen to encourage the emigration of Danes, Norwegians and Swedes to the United States.

— The Madison (Wis.) Journal says it has trustworthy information that one hundred and fifty thousand dollars have been placed in the hands of Postmaster General Randall by eastern Copper-Johnsonites, to defeat Senator Howe and promote the Johnson policy generally in Wisconsin.

— The Nashville Banner says: "Nearly twice as much is being sown in this section of Tennessee as was sown last year. It is feared that labor will be even more scarce than has hitherto been the case; the freedmen are refusing to make contracts for the ensuing year, preferring to till land on their 'own hook.'"

— Post's Washington dispatch says that "at the Cabinet meeting yesterday it was decided that the forthcoming elections should be uninfluenced by any further general sacrifice of Federal office-holders." There has been such a "general sacrifice," then, to "influence" the previous elections?

— Gen. Thomas, Adjutant General of the United States, was in Detroit on Tuesday evening last, and, being serenaded, he made a brief speech, in which he alluded to politics, and declared himself heartily in favor of the Congressional plan of restoration, and opposed to "my policy," and especially its practical effect in the South.

— From year to year the Falls of Niagara gradually wear away—but it is hardly perceptible. But within the past two weeks the American Fall has undergone a very great change; huge masses of rock have caved away, giving this part of the fall quite as perfect a horse-shoe shape as that on the Canadian side of the river.

— Some boys were playing in the Park, at St. Louis, when the great storm commenced, on Sunday evening. Suddenly one boy, ten or twelve years of age, was caught up by the whirling gusts and carried over a fence, some twenty or thirty yards distant, and landed upon the top of a shanty, without, however, sustaining serious injury.

— It has been discovered, according to the Canadian papers, that the conductors and other employees of the Buffalo and Lake Huron Railway have, with few exceptions, been engaged in a general system of plundering, so that the income of the road has suffered seriously. Several of the conductors have been arrested. Suspicion was excited by an extravagant fashion of wearing diamond jewelry, which prevailed among the officials.

— The Quincy (Fla.) Commonwealth says: "Dr. Toland, who was convicted of bigamy at the August term of the county criminal court, was put upon the block and hired out by Sheriff Jordan to the highest bidder. He was bid in by the county of Gadsden for five years for $1127, the amount of fine and costs of prosecution. He was remanded to jail and there awaits the command of the Board of County Comissioners."

REPRESENTATION.—The copperhead orators and newspapers keep wholly out of sight the injustice which will be done to the Northern and Western States, in the matter of representation, unless the amendments to the Constitution now pending adopted. Without these amendments the South will return to the Union with more votes and greater power in Congress, than they had when they went into rebellion!—If we take the whole population of each State as the number which measures the right of representation, and suppose that the white men alone of the Southern States cast the votes of the State, a brief calculation will show that every hundred of the white inhabitants of South Carolina will have as much power through their representatives as two hundred and forty of the people of Iowa; one hundred white men in Mississippi will equal two hundred and twenty-three men in Wisconsin; one hundred white men in Louisiana will equal one hundred and ninety-eight in New Hampshire; one hundred white men in Alabama will equal one hundred and eighty-three in Connecticut; and one hundred white men in Alabama and Louisiana together, will equal one hundred and eighty-nine in Indiana; and one voting citizen of South Carolina has more power in electing Congressmen and Presidents than two voting citizens of New Hampshire and Maine.

In the years before the war the doughfaces in the North conspired and combined with oligarchs of the South in the name of slavery to control the politics of the nation. This same party of doughfaces are now conspiring and combining with the same men in the South to keep the Northern States in the degrading inequality which the above figures indicate.

GEN. SHERIDAN, at New Orleans, Oct. 23, issued the following important order of instruction to Gen. Sedgwick, at Brownsville, Texas:

I am satisfied there is only one way in which the state of affairs on the Rio Grande can be bettered, and that is by giving the heartiest support to the government in Mexico recognized by our own—the only one which is friendly to us. You will, therefore, warn all adherents of any party or pretended government in Mexico or the State of Tamaulipas, that they will not be permitted to violate the neutrality laws between the Liberal Government of Mexico and the United States, and also that they will not be allowed to remain in our territory and receive the protection of our flag in order to complete their machinations for the violation of our neutrality laws. These instructions will be enforced against the adherents of the Imperial buccaneers representing the so called Imperial Government of Mexico, and also against the Ortega, Santa Anna and other factions. President Juarez is the acknowledged head of the Liberal Government of Mexico.

DIAMONDS IN BRAZIL.—We have been gratified by a visit from H. M. Lane, Esq., the agent for Ayer's Pills, Sarsaparilla, and Cherry Pectoral, in South America, who has just visited the mines with his medicines, and described to us the process of taking gems from the earth. A driver places his gang of slaves in a mud hole, where the gems are found, and pans out the earth in the water, like gold washers. The negroes are naked, to prevent their secreting the diamonds in their clothes. They are required to work facing their overseer, and forbidden to raise a hand to the face, lest they should swallow the jewels when found. Yet they do carry them away by becoming so expert that they can snap them with their fingers from the pan to their mouth, without detection. Ayers' medicines are the talismans for their diseases, and it is not difficult to exchange, with the negroes, Ayer's Pills in about even weight, for the rough stones in which the brilliants are holden.—*Boston Leader.*

MRS. CUNNINGHAM BURDELL.—The supposed heroine of the great Bond St. tragedy, was on board the ill-fated steamer. She had established an extensive and fashionable masion de grisettes in New Orleans, and was returning to that place from a visit to Philadelphia, Baltimore and Boston, where she had collected a fresh troop of young girls, known as nymphs du pave, whom Mrs. Cunningham was conveying to the Crescent City, in order to promote her nefarious business, which was assuming vast proportions. This maitress du salon has gone to the bottom of the ocean, in company with thirty employees and co workers in crime.—*N. Y. Clipper.*

WEST VIRGINIA.—The vote for Congressmen and State officers was larger than at any election since the Presidential campaign of 1864. The returns thus far received, as compared with the vote on the Constitutional amendment which was carried by 7000 majority, show Republican gains. Governor Boreman is re-elected by an equal majority. Hubbard, (Republican) for Congress 1st District, about 1600 majority. Returns from the 2d District indicate the re-election of Kitchen (Republican.)

THE "AMERICAN ARTISAN."—We have been in receipt of this most excellent journal for some months. To the inventor and patentee it is invaluable, while at the same time its pages are replete with information for every working-man who has a taste for the study of mechanical science. Published by Brown, Coombs & Co., 189 Broadway, N. Y., at $2.50 a year.

PAYMENT FOR SLAVES.—The Commission appointed to pay loyal men for their slaves who enlisted in the United States army, will meet in Lexington, Kentucky, on the 1st day of November, and commence operations. The Commission consists of two Kentuckians and Gen. McAlister of Springfield, Pa.

MORRISSEY AND HOFFMAN.—The New York Herald thus runs a parallel, not exactly in the fashion of Dr. Johnson, between two prominent Democratic politicians in that city:

We would like to know why the corporation ring should hang back and put on airs, and assume to ignore their bargain with the prize ring? John Morrissey is every bit as good looking as John Hoffman. John Morrissey has a finer mustache than John Hoffman. John Morrissey has a larger account at the bank—at any bank, in fact—than John Hoffman. If John Hoffman can make a longer speech than John Morrissey, John Morrissey can fight a longer fight than John Hoffman. And this certainly is a striking point in favor of John Morrissey.

— In Japan the Tycoon's forces are said to have been beaten in four great battles, with heavy slaughter on both sides.

— In Richmond the officers of the Freedman's Bureau are still issuing rations to a small number of persons, white and colored.

Ayer's Cathartic Pills

ARE the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their testimony therefore, to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immense y to the relief of our afflicted, suffering fellow men.

The Agent below named is pleased to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be important they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by DR. J. C. AYER & CO., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. o29—2m

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the safest, surest and most reliable preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the signature of Dr. JOHN L. LYON, without which none are genuine. Price $1.50.

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. Price $1.50 per bottle.

Hygienic Wine.

Approved by the Imperial School of Medicine, Paris.

Tested by the Committee on Chemistry of the American Medical Association, at their Convention, held in Baltimore, May 1st, 1866, and endorsed by its most prominent members.

This *IMPORTED* Tonic, recommended by the most eminent Physicians, is prepared in Paris from

PURE SHERRY!

Admits in its composition only Tonic, Aromatic, and Febrifuge substances. It *replaces* with a great superiority all other Bitters, which have for a base, nothing but Alcohol or inferior Whiskies. It is richer than any other Bitters in

Aromatic and Balsamic Principles,

and its taste is exquisite. Its soothing effects on the NERVOUS FEVERS is most astonishing for, while it gently exhilarates, by re-animating the functions of the DIGESTIVE ORGANS, and dissipates Languor, by gently refreshing and stimulating the brain, giving a healthy tone to the whole organism, it leaves behind none of the baneful influences that follow Alcoholic stimulants.

HYGIENIC WINE

is moreover

MOST DELICIOUS TO THE TASTE.

Possessing wonderful virtues in all cases of DYSPEPSIA AND DEBILITY, and moreover is unexcelled as an

Appetizer,

IT IS NOT INTOXICATING IN THE LEAST.

MUSCAT PERLE, (Imported)

is a rare fine Wine of most delightful flavor. It is the Pure Juice of a Most Delicious and generous GRAPE, and surpasses in excellence *any Table Wine in the Country.*

All who are solicitous about obtaining a *pure* and a superior Wine, will be delighted with

"MUSCAT PERLE."

☞ Church people are solicited to examine this Wine for communion purposes. A Communion Wine should be *above all things* PURE! In the second place it should be MILD. "Muscat Perle" combines these two most essential qualities, and a trial will convince any one of its superiority over all other wines at present in the market.

These Wines are sold by all respectable Druggists and Dealers.

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

Messrs. J. N. HARRIS & Co:—

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY COMPLAINT! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs and all the early stages of Lung complaints I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It causes the phlegm and matter to raise, without irritating those delicate organs (the Lungs), and without producing constipation of the bowels. It also gives strength to the system, stops the night sweats, and changes all the morbid secretions to a healthy state.

Yours respectfully, A. L. SCOVILL.

PERRY DAVIS' VEGETABLE PAIN KILLER possesses virtue, which not alone removes pain instantly, but regulates the stomach, gives strength, tone and vigor to the system. It is one of the medicines that is worth more than gold.

Don't experiment in testing new remedies, when you can buy the genuine Pain Killer, which everybody knows to be good.

The Woodstock (C. W.) Sentinel says: "It is a generally admitted fact that the medicine manufactured by Messrs. Perry Davis & Son, has been instrumental in alleviating much pain, and giving relief to millions of suffering humanity. The medical faculty almost every where recommend the Pain Killer, and its reputation is now established as the most beneficial family medicine now in use, and may be taken internally and externally to expel pain." o1—dawlm

☞ A son of John Brown, of this city, 7 years old, while playing in the neighborhood of the South School House, Saturday morning, fell from a high fence, striking his forehead on the hard gravel, cutting a deep gash, and fracturing his skull. Drs. Oliver and Hall were immediately called to attend the case, but it was not expected that the child could live.

☞ Arrangements are being made to build a Trotting Park near this city; and it will be seen that a meeting of the subscribers to the stock is called this evening, to consider the subject. The announcement that managers for the same had been decided on, is an error. It is proposed to locate it near Greenland Road.

☞ Among those receiving promotion for bravery and meritorious conduct during the war, we are pleased to see the name of Col. M. F. Wentworth of Kittery, who has been made a brevet Brigadier General of Volunteers, to date we believe from March, 1865.

☞ It is stated that Rear Admiral Theodorus Bailey has been placed on the retired list.

☞ The Philharmonic Rehearsal Tuesday Evening at half-past 7.

☞ The Massachusetts and Maine Brick Company, of which Albert Blaisdell, Esq., of Greenland, is President, has just been organized and has purchased landed property in Westbrook, Me., and right on the bank of a canal, a most beautiful and accessible place with an endless supply of the best quality of clay. The company own the patent right for New England of the Chamber's brick machine, and have in operation the first one ever put up in the eastern States. Like all great inventions this machine is simple. The clay is put into a hopper as grain in a mill, and a vast number of revolving knives cut and grind as fine as powder and at the same time tempers it to a consistency for working. A screw then forces the clay through a die or mould, as a bar of iron comes from the rollers, while, a knife affixed, cuts this bar into bricks. These bricks are then at once taken (after having been dusted as pills are sugar coated,) and put in the kiln, being handled without any danger of disturbing their shape, and all there remains is to burn them.

CHORAL FESTIVAL.—We call the attention of our Singers and musical people to the advertisement of the Rockingham Musical Association. A Programme has been arranged for a good time. These Festivals are an excellent institution, and are doing a good work in elevating and sustaining musical taste. Messrs. Dr. Schenck's

NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street**, Boston, where he will be professionally every WEDNESDAY from 9 to 3. Every person complaining with Consumption or any disease leading to it, are invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part, also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver are kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

REASONS WHY THE

AMERICAN WATCH,

MADE AT WALTHAM, MASS., IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "Geneva," "Swiss" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

PROCLAMATION.

TO THE PUBLIC GENERALLY.

WHEREAS, being armed and equipped with such a stock of Fall and Winter Dry Goods as cannot fail to strike the beholder with bewildering amazement, and please the fancy of all lovers of the Beautiful; and Whereas, Having entered the field this Fall and Winter in the Dry Goods Trade, we are determined to repulse it not entirely vanquish the great system of monstrous prices and murderous profits, which has settled upon our whole country like a mighty incubus—sinking the poor into deeper depths of poverty, and dragging the affluent down, and even driving many to distraction;—and Whereas, We have taken unusual pains in the selection of our New Stock, and have purchased it all at the Lowest Cash Prices, which will enable us to accommodate the purchaser at the lowest possible figures:

Therefore, We, A. Q. LEACH & CO., do hereby issue this our proclamation, to dispose of our Stock upon such terms as must give satisfaction.

In witness whereof we have this, the 16th day of October, A. D. 1866, and of the independence of the United States of America the ninetieth year, hereunto placed our hands and caused the Great Seal to be affixed.

From the Portsmouth Journal

"MY POLICY" IN "MY MARYLAND."

There is trouble in Maryland which may result in blood, if the supporters of Andrew Johnson and "my policy" shall persist in their determination to trample the laws under their feet, in the attempt to place the government of the State in the hands of unrepentant Rebels. There is upon the statute book of Maryland, an enactment, known as the "Registry Law,"—which rigidly excludes rebel votes from the ballot box. It was passed during the war, and it has never been opened prudent to repeal it: for the spirit of disloyalty has always been rampant in Maryland, and is so to-day. By means of this law, however, loyal men have succeeded in keeping a pretty strong hold of the State Government, and in getting some good men into Congress.

The Copperheads, Conservatives, Rebels, or whatever you may call them, headed by B. Harris, Reverdy Johnson and Montgomery Blair, hate the Registry Law; it stands in the way of their purposes. Gov. Swann who has cheated those who elected him, as Andrew Johnson has those who elected him, Vice President, has sold himself to "my policy," and is therefore ready to do works meet for treacherous dunkeyism. He has done what he could to nullify the registry law by appointing as registrars only the enemies of that law.

But the conspirators find trouble with Baltimore. The Police Commissioners there were chosen by the loyal Legislature, and are loyal men, and they appoint the judges of elections. These judges are, of course, loyal men, and go for the strict enforcement of the registry law. Baltimore has a heavy vote, and sends twenty or more members to the Legislature, who will all be loyal men, if the registry law is enforced. Gov. Swann himself wants to go to the U. S. Senate, and all the Copperhead-Conservative conspirators would like a Legislature which would elect a different man for U. S. Senator than the true hearted Creswell. Thus the all sorts that make up the Administration Party in Maryland are death on the registry law. If they can get the Police Commissioners of Baltimore removed, the judges of elections can be made of safer material, the city will be handed over to the mercies of the "Blood Tubs" and "Plug Uglies," the law disregarded in Baltimore will be more or less so throughout the State, and all will be "lovely," in the devil's sense of the term—and "my policy" may possibly get the ascendency in "My Maryland."

This is the programme of the Rebel conspirators. The law for the appointment of the Commissioners provides that, in the recess of the Legislature, they may be removed by the Governor "*for official misconduct.*" The natural construction of this is, that such "*misconduct*" must be made out by regular examination, and that summary removal without trial is not lawful. The Governor is urged to remove them; he wants to do it; but they have not been guilty of "official misconduct." He goes to Washington and consults the President. He returns; he summons the Commissioners to appear at Annapolis and answer to some trumped up charges; their Counsel appear and subject to the jurisdiction. The Governor is ready their readiness to answer before a Court of competent jurisdiction; the Governor decides that he has jurisdiction, whereupon the Counsel for the Commissioners withdraw, declaring their mission at an end, and the Governor assigns the 20th inst. for proceeding with the trial.

In the meantime, there is growing excitement in Baltimore, and indeed, throughout Maryland. The Mayor of Baltimore and the Police Commissioners are receiving assurances of support against the high handed attempt of the Governor backed by the Rebels styling themselves "Conservatives," to override a law of the State. Three thousand "Boys in Blue" and eight hundred men of the Police have reported to the Mayor as ready for duty. It is rumored that the President has agreed to supply Swann an armed force, if needed to carry out the purpose of the wicked conspiracy. We shall see what we shall see. "My Policy" is in a desperate condition, and its adherents may resort to desperate expedients.—*Ind. Dem.*

BALTIMORE, Oct. 24.—There have been no new developments in regard to the Police Commissioners. Their counsel still are in the original determination not to participate in the examination of witnesses on Friday. Rumors have been current here to-day of the arrival of troops from Washington, but they are incorrect.

CHEEVER'S LYCEUM LECTURES.—The Fourth Series of Public Lectures under direction of this association commences at the Temple on Tuesday evening, Nov. 13, by a lecture from Judge Russel, who is already well known here, and a Grand Concert by the favorite singer, Mrs. Cary of Boston. The course will be followed by some of the best speakers in the country, such as—Ex Gov. Boutwell, Anna E. Dickinson, Geo. Wm. Curtis, Dr. Bellows and others. The Committee are now in correspondence with Gen. Howard, Gen. Logan and Gen. Butler, and it is expected that one or more of them will appear during the season. Those who wish to attend these lectures, will do well to secure their tickets early, as there is already quite a demand for them. They are to be found on and after Monday next at the usual places, and may be obtained of the officers of the association, at the low price of $1.50.

☞ The Governors of New Hampshire and Massachusetts have appointed Thursday, Nov. 29, as the day for Thanksgiving in these States—the same as has been designated by the President for a National Thanksgiving. It is probable that in all the States where this festival is observed, the same day will be selected by the State authorities.

DIFFERENCE OF TASTES.—A letter received recently from a friend in Philadelphia states, that thirty-six years since, Sept. 24, he left Portsmouth for Philadelphia. He was fourteen days from Boston in the *Trio*, to New York, and an entire day through Jersey sands to Philadelphia. This was common speed at that time.

MEMORIAL OF MOODY KENT.—The Memorial of this munificent benefactor of the N. H. Insane Asylum, delivered by the Rev. Charles Burroughs, D. D., President of the Board of Trustees, has, by request of the Trustees, been printed for the occasion. It is a handsome memorial of the liberal donor of $110,000 to the institution. A sketch of the Kent family is given, and the traits of character of the subject of the memorial are well and truly drawn.

A shocking murder was perpetrated in West Hartford, Ct., last evening, Oct. 21. The victim was a Mr. Julius Thompson, a bachelor, 40 years of age, who lived with his mother and sister, on the road leading to Lakes Mountain. Between 7 and 8 o'clock a young man called at the house and requested Mr. Thompson to call him, as his wagon had broken down. Mr. Thompson went out with the stranger, and was found, by his sister, about an hour afterwards, under a tree on the highway, mortally wounded. His skull was broken open with some implement or club. No arrests have yet been made, but our Hartford police are on the track of the supposed murderer. A suspicious character has been seen for several days hovering about the village, and is supposed to be the murderer. Robbery is supposed to have been his object, as Thompson had some money and bonds in the house.

Agents Wanted For

The Camp, the Battlefield, and the Hospital,

Or Sights and Shadows of the Great Rebellion.

There is a certain portion of the war that will never go into the regular histories, nor be embodied in romance or poetry, which is a very real part of it, and will, if preserved, convey to succeeding generations a better idea of the spirit of the conflict than many dry reports or careful narratives of events, and this part may be called the gossip, the fun, the pathos of the war. This illustrates the character of the leaders, the humor of the soldiers, the devotion of women, the misery of men, the pluck of our heroes, the romance and hardships of the service.

The volume is profusely illustrated with over 100 engravings by the best artists, which are *beautiful*, worthy of examination as specimens of the art. The book's contents include terrible accounts of camp, picket, spy, scouting, siege, and battlefield adventures; thrilling feats of bravery, wit, drollery, comical and ludicrous adventures, etc., etc.

Amusement as well as instruction may be found in every page, as graphic detail, brilliant wit and authentic history are skillfully interwoven in this work of literary art.

This work sells itself. The people are tired of dry details and partisan works, and want something humorous, romantic, and startling. Our agents are making from $100 to $200 per month, clear of all expenses. Send for circulars, giving particulars, and see our terms at the end of the above assertion. Address NATIONAL PUBLISHING CO., 118 Water Street, Boston, Mass.

The Cherokee "*Cure*," "*Remedy*," and "*Injection*" are to be found in all well regulated drug stores, and are recommended by physicians and druggists as the most reliable, meritorious and meritorious. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds,—in order to make money—in place of these. The proprietors of the above drugs will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us on *perfect confidence*. We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

PETER BAYNE ON BEECHER.—The Christian Watchman has a London Correspondent who subscribes himself Peter Bayne, and whose letters are always worth reading. In one of his late letters he says:

As I have spoke of America, I may allude to the feeling entertained in England respecting the late movements in American politics. The tidings that Henry Ward Beecher was no longer in the van of the Republican array, but, on the contrary had fallen out of the ranks and caused the heart of the enemy to sing for joy, startled many into at least momentary doubtfulness, and caused the most enthusiastic admirers of the policy of President Lincoln and of Congress to review their ground, and consider whether the Republicans were not going too fast or too far. I have carefully considered Mr. Beecher's two letters, and I can both endorse his avowals of loyalty to his country, and admire the courage and determination with which he maintains what he believes to be the right cause.

But my conviction is clear and unalterable that he is in the wrong. Many times in history has compromise seemed infinitely desirable, but in the crises of national destiny compromises are not possible. The Presbyterians of England and Scotland in 1644 wished to compromise it with King Charles, but Cromwell declared compromise to be impossible, and all the world now acknowledges that Cromwell was in the right. The Girondins of France, in 1792, wished to effect a compromise between Monarchy and Republicanism, but the men who went all lengths prevailed against them and saved France.

The Republican party of America must also, I believe, go through with its work, resolute that what was won by the sword shall not be lost by the pen; that the sacrifice of blood and treasure in the war shall not purchase predominance for the South and social oppression for those who helped the North in her time of need; that the war which has put an end to chattel slavery shall not be the prelude to a deferred but, if the Southerners now carry all before them, an inevitable war for the abolition of negro serfdom.

WILL NOT EAT DIRT.—Gen. J. F. Cary, the Republican war horse, was appointed Collector of Internal Revenue at Cincinnati. The position is a very lucrative one, and the General is by no means overburdened with a superfluity of this world's goods. But he will not consent to eat dirt as a condition of holding his place. On the contrary, he comes out with a strong and able letter, in which he takes decided ground against the President, and in support of the policy of Congress. The New York World, always on the lookout for victims, says that the General is "baring his neck to the axe." He will snap his fingers at such threats.

— Would you have sweet and healthy Bread, Biscuit, Cakes and Puddings? Use Herrick Allen's Gold Medal Saleratus. It takes less in quantity, will not make your Biscuit or Bread yellow, is a sure preventive to the decay of teeth, is perfectly healthy, and makes one-fifth more Bread and Biscuit from a barrel of flour, than other soda if you can procure this article. Try it. Most all good Grocers sell it. 48

PROPOSALS FOR RATIONS.

QUARTERMASTER'S OFFICE,
U. S. MARINE CORPS,
Washington, 19th Oct., 1866.

SEALED PROPOSALS will be received at this office until 2 o'clock, P. M., of TUESDAY, the 27th day of November next, for furnishing rations to the United States Marines, at the following stations from 1st January, 1867, to 30th June, 1868, viz:

PORTSMOUTH,	New Hampshire.
CHARLESTOWN,	Massachusetts.
BROOKLYN,	New York.
PHILADELPHIA,	Pennsylvania.
WASHINGTON CITY,	Dist of Columbia.
GOSPORT, near	Norfolk, Virginia.
MOUND CITY,	Illinois.
PENSACOLA,	Florida.

Each ration to consist of three fourths of a pound of pork or beef, or one-half pound or one-fourth pound of fresh or salt beef; eighteen ounces of bread or flour, or twelve ounces of hard bread, or one-and-a-fourth pound of corn meal; and at the rate to one hundred rations of eight quarts of beans; or, in lieu thereof, ten pounds of rice; or, in lieu thereof twice per week, one hundred and fifty ounces of dehicated potatoes, and one hundred ounces of mixed vegetables; ten pounds of coffee; or, in lieu thereof, one-and-a half pound of tea; fifteen pounds of sugar; four quarts of vinegar; one pound of sperm candles, or one-and one-fourth pound of adamantine candles, or one-and-one-half pound of tallow; four pounds of soap, and two quarts of salt.

The rations are to be delivered upon the order of the commanding officer of each station; the fresh beef, either in bulk or by the single ration, of good quality, with an equal portion of hind and fore quarters, necks and kidney tallow excluded; the pork No. 1 prime mess pork; the flour, known as extra superfine in the market of the place where the station is located; the coffee good Rio; the sugar good New Orleans, or its equivalen; and the beans, vinegar, candles, soap, salt, &c., to be of good quality.

All subject to inspection.

All bids must be accompanied by the following guarantee:

The undersigned ——, of ——, in the State of ——, and ——, of ——, in the State of ——, hereby guarantee that in case the foregoing bid of —— for rations as above described be accepted, he or they will within ten days of the receipt of the contract at the post office named, execute the contract for the same, with good and sufficient securities; and in case the said —— shall fail to enter into contract as aforesaid, we guarantee to make good the difference between the offer of the said —— and that which may be accepted.

A. B., Guarantor.
C. D., Guarantor.

Witness:
E. F.

——, 186—.

I hereby certify that the above named —— are known to me as men of property, and able to make good their guarantee.

To be signed by the United States District Judge, United States District Attorney or Collector.

No proposal will be considered unless accompanied by the above guarantee.

Newspapers authorized to publish the above will send the paper containing the first insertion to this office for examination.

Proposals to be endorsed "Proposals for Rations," and addressed to the undersigned.

TUESDAY, OCTOBER 30, 1866.

THE PUBLIC DEBT.—Secretary McCulloch makes every loyal American feel a just pride in his country; and we do not see how even a disloyal man, if he has any patriotism, can fail to participate in that emotion. On the first of August, 1865,—fifteen months ago,—when we had got far enough through the war, to count up the cost of the Rebellion, the National debt stood at $2,759,253,276. On the first of October, 1866, it stood at $2,573,336,942,—a diminution, in fourteen months, of $185,916,334. The strength of the government is seen, not only in its ability to raise revenues, but in the further fact that on the 1st of this month it had in the treasury 86 million dollars in coin, with which to take care of its gold-bearing obligations.

On this state of things the Worcester Palladium, (an able republican paper) that has tried all along to harmonize with President Johnson without violating its own principles, offers the following remarks:

While the country is able to make this grand exhibit of its financial strength, how great is the cause for regret that there should ever have been a break between the Administration and any considerable portion of the people; (1) that the country and the government could not have kept along in harmonious action, (2) strengthening itself against all disaffection in any quarter, and quietly demonstrating to the world our ability to carry on the most expensive war ever known for a period of four years, without the aid of foreign bankers, and at once enter upon a course of liquidation of the public debt at the rate of more than 13 millions of dollars a month.

If, as some say, there is to be a change in the political character of the Administration, the new party (3) that will come in to take the direction, will find upon its hands a most oppressive weight of responsibility. It will have upon itself the burden of providing the means of paying the heavy amount of interest on the public debt; and the country will not be satisfied unless, in addition to the interest, the government shall keep on reducing the public debt.

On these great questions that are vital to the public welfare, we dislike to speak of parties; especially in the style in which the people have long been accustomed to speak of them. But the question is a pertinent one;—Whether after a change that shall produce an estrangement between the Administration and the Republican party, (4) the government can reasonably expect to raise revenues in abundance, and with the facility it now raises them? If it cannot thus raise funds, the change will be most disastrous to both government and people. The composition of the party that carried the government through the war against the Rebellion, was fortunately of a character to furnish the government with the funds its necessities required. (5) Will the government have such a party to sustain it with cheerfulness, if there shall come a political change? We shall see. (6)

NOTES. 1. The people have made no *break*; they have kept right on their course. Mr. Johnson (here called "the Administration,") *has broken* away from his promises, his professions, and from the people who elected him.

2. The people and their Representatives are in *harmony* with each other, and they desired to be in harmony with President Johnson, (who is here called "the government,") —but this was impossible, unless they also broke their promises, violated their pledges, and delivered their friends into the hands of their foes.

3. *No new* party, we trust. There is no new party any where about here now, except the *Johnson* party. Our proposal is, to reinstate, at the earliest opportunity, the same party that Johnson & Co. have destroyed, in Administrative power. We have no objection to the responsibility.

4. *Not shall* produce, but *has produced* the estrangement! Doolittle, Johnson & Co. have done the *strange work!* The party alluded to has only kept straight onward.

5. Exactly so;—and the *same* party, mainly, keeps *together* now.

6. *We do not look for a political change*, but hope the remaining elections will turn out like those we have had so far, or even better, so as to defeat the machinations of those false friends who would give us an Administration of Confederate Rebels and Mercenary Traitors. U. T.

☞ The impression gains ground that the removal of the Police Commissioners of Baltimore is a foregone conclusion, and that the present trial by Gov. Swann is merely to afford a legal coloring to his action in the premises, should he remove them. All legal measures will be resorted to, to thwart his action; but it is probable, unless he should resort to force in anticipation of the action of the Judiciary, to oust the present board, there will be no trouble; but should the Governor do so, there is a probability of serious disturbance, which would require the assistance of the United States troops to quell.

☞ Beadle & Co., New York, have just published "The Dead Letter," an American Romance, by Seeley Register, in pamphlet form. It has been very popular as a serial in their magazine, and is illustrated. Price 50 cents.

THE MODEL FIGHTER.

The little peddler boy Jimmy, who was so well known in our village as an honest lad, must have been somewhat acquainted with the art of keeping the heart strings pure. I will tell you a story or two about him, and then you can judge for yourselves; for Xenobia would not use the "judgment" for the boys and girls without their leave, any sooner than she would any other of their valuable private property.

One day Jimmy went to a neighboring village, to sell some wares. Pins, needles, tape, cord, buttons, soap, matches, braid—indeed, I am not merchant enough to carry in my brain the long list of articles which he carried in his basket. Jimmy's brains and arms both must have been pretty strong, for he carried a regular "notion merchant's store!"

With this varied stock, one day, he stepped out of the cars, whistling from a spirit of peace with all men, when up came a rude boy, and "just for mischief," as he said, gave the well-laden basket a sudden knock. Away went all the goods and chattels, to the four winds, and to the ground! Now where is the boy to be found who would not have been at least a little vexed at such a provocation? Jimmy's temper was naturally pretty quick, and his blood instantly boiled at this deliberate piece of wickedness.

"Look out, old fellow!" said he, on the spur of the moment; and he almost obeyed the impulse to strike. But he recollected himself, or rather he recollected his duty to his God and to his neighbor. Instantly his whole manner changed. A smile took the place of the angry frown, and he said quietly, "I don't believe you meant that?"

"Yes, I did, too," said the tantalizing boy.

"O well, never mind," said Jim; "I'll be your friend, though; I guess we wont quarrel just yet."

"Hallo! there's a saint for you!" bawled out the rude boy, at the top of his voice.

Jimmy did not wish particularly to have his "saintliness" thus proclaimed upon the public streets; but he knew it was better Christian policy to place a guard at the door of his mouth. So, almost biting his lips, and lifting his heart in prayer to God, he stopped to gather up his scattered stock in trade. His spirit was soon tranquil, and he went on his way.

A gentleman and his wife had noticed, from a window of their house, across the street, the whole performance. Said he to the lady, "My dear, call the boy in, and buy from him all the cotton, and pins, etc., which you will want for the next six months." So Master Jim was relieved of his load in a much more agreeable mode than before. And you see, his forbearance had its reward. Does not virtue always carry its own reward? Use your own judgment now and answer.

Two weeks after, Jimmy had another trial with the same boy. The fellow must have been what is called a "bully." That is the name which suits his character, at any rate, and so we will adopt it for him, although rather inelegant. Worcester's big Dictionary describes him finely, in giving a definition of the word: "A noisy, blustering, overbearing fellow, known more for empty threats and insolence, than for courage, and disposed to provoke quarrels."

Going along through the same village, though rather in its outskirts, Bully jumped over a fence, and, without any warning, gave Jimmy a blow upon the side of the head, exclaiming:

"Ha, ha, sir! You are the saint what's afraid to fight!"

Jimmy knew him instantly, and, setting down his basket, stood back, saying:

"No sir—I am not afraid; but I had a great deal rather not. Still I can do it. I tell you beforehand, sir, it's not my way of doing. I would much rather be a friend to you."

"I'm no friend to saints; so take that!" said Bully, dealing a no very gentle blow and this time with his double fist.

Now Jimmy was no coward, and not lacking in physical strength, either. So he just seized Bully by the collar, and, extending his right foot, tripped up the feet of his antagonist, laying him low upon the ground. There he held him tightly for a minute or two. Bully was completely in Jimmy's power, unable to move a limb. He screamed out, "Let me go! let me go!" But Jimmy sat, a monument of victory, utterly unmoved. He saw that his captive was not in a condition for self government, so he had no notion yet to "let him go." Full five minutes he sat there, patient and self-respectful, his own spirit entirely tranquil, and his heart full of love to the vanquished boy. And there he meant to sit until Bully's spirit was somewhat subdued. At last the poor boy begged to be released.

"Promise me first," said Jimmy, "that you will strike no more boys in the street?"

"I'll promise," said Bull.

"Mind now—you really mean it, do you?" said Jimmy.

"Yes, I'll promise true," said Bully.

"And promise to remember that' Im your friend, and don't want to fight you?

"Yes," said Bully.

So he was allowed to rise; and he went on his way, a somewhat wiser fellow than he was before. Religion does not take true manly spirit from a boy. It makes him much more manly, for it helps him to curb his temper, and act with cool deliberation. "He that raleth his spirit, is greater than he that taketh a city."

We cut the above piece of good reading from a noted copperhead paper, where it appears (not original) as an article for family perusal. It occurred to us, that the Bully of the story was an emblem of Jeff. Davis, Wise, and Co.,—and that Jimmy might be type of the Loyal States and their Congress, which now "hangs on the verge."

☞ Secretary Seward has written a letter to Sir F. W. Bruce, in Canada, in behalf of the Fenian prisoners who are there condemned to death.

BENEFIT OF GOING BAREFOOT.—A letter has been addressed to the committee of the Ladies Sanitary Association, London, by the Comptesse de Noailles, on the benefit of going barefoot. There is a great deal to be said in favor of this plan, whether we regard development, temperature, or cleanliness. Look at the magnificent gait of a barefoot Highland girl, and the elastic play of every muscle, and compare her feet with those of girls who have been tortured in boots, too short or too narrow at the toes, the object of which seems to be to compress the foot into one unshapely and inelastic mass, like a bootmaker's "last." As to warmth, it is pretty certain that boots, set they are, are quite as often make the feet cold as warm. If people have good stout boots to walk out in, and change them when they come in and sit still, it is very well. But as for the poor, than, leaky, half-worn boots of poor women and children, they are but a sham; they do not keep out cold and wet; and it is needless to say that people who have no boots at all can not "catch their death" by sitting indoors in wet boots. As for cleanliness, the thing speaks for itself. Feet freely exposed to the air are not offensive, and if soiled by a walk would be washed or wiped as a matter of course. "The smell in a close schoolroom," says Madame de Noailles, "of so many unwashed feet, carefully enclosed in still dirtier stockings and shoes, is very unwholesome," whereas "no one ever felt disgusted at the little bare brown feet of the Italian peasant children." The thing is so rational that it only needs to be set going, and the benevolent authoress suggests to her aristocratic fellow sanitarians that they should set an example by allowing some of their children to go barefoot in the park. Probably a simple sole, worn as a sandal, would obviate some difficulties. It would flow of free aeration and free play of the muscles, and would necessitate cleanliness; it might be elegantly fitted on, after the antique, and it would insure the sole of the foot from injury and from contact with disgusting dirt. *Medical Times.*

[In our early boyhood, it was the fashion for boys to go barefooted. Of the 120 boys at the North School in 1806–1810, not more than half, we think not more than a third, wore shoes in summer; and at Gravelly Ridge School, very few shoes were seen on boys or girls in summer: it was not felt to be a hardship, at all, but a pleasure, to get off the shoes when the summer came.]

NEW HAMPSHIRE ITEMS.

—— The Universalist Society in Concord have accepted the resignation of their pastor, Rev. Rowland Connor, to take effect Jan. 1, when he is to begin his services in Boston.

—— St. Stephen's (Protestant Episcopal) Church at Pittsfield, was consecrated on Thursday, Oct. 15. Prayer of Consecration by Bishop Chase; and the Sentence of Consecration was pronounced by Rev. T. F. Davies.

☞ The N. Y. papers say that on Sunday fifty thousand people assembled at Jones' Wood, to hear Stephens' last speech in America. He said he would return to Ireland, where he would strike a blow before the new year. An army of 50,000 was organized there, who reject the political dictation of the Catholic clergy. He urged the same disposition upon his audience, but counseled respect in all that pertains to their calling as spiritual advisers. A man in the crowd, supposed to be a British spy, was beaten almost to death; but after the row was over, he was proved innocent of such charge.

At the meeting of the Fenian Circles, Sunday night, it was resolved to avenge the death of the convicted Fenians in Canada, and dare the Canadians to execute them.

The Toronto guard over the Fenian prisoners has been doubled. The threats by the Fenians in the United States are having a bad effect upon the treatment of the prisoners, who now suffer from want of clothing.

Large Fenian meetings were held in Chicago and Buffalo Sunday, denouncing the Canadian Government and threatening retaliation.

NAPOLEON'S HOLD ON MEXICO.—A New York paper suggests that Napoleon, while suffering Maximilian to leave Mexico, will himself attempt to hold, by French force, the ports of Vera Cruz, Tampico, Mazatlan, and others, there to collect the revenue on imports, and devote it to the payment of his fraudulent claims against Mexico. This, the Evening Post says, presents a new complication—but one easy enough to solve. No doubt, if Napoleon should do this, President Juarez and the Mexican Congress would declare all Mexican ports open to the free entry of goods. In that case Napoleon would have to deal with the foreign importers, whom he dares not rob. He may, to be sure, blockade the Mexican ports; but it will cost him more than he is likely to get for it.

LIQUOR CONSUMED. — The Revenue Commissioners estimate that over 42,000,000 gallons of distilled spirits, 186,000,000 gallons of fermented liquors, and 10,000,000 gallons of imported liquors, are annually consumed in this country, costing $500,000,000. The Government revenue derived from the liquor business is estimated at $47,727,276 annually.

— So great is the demand for accommodation of the increased population of New Orleans, the builders are compelled to offer such inducements as will secure the services of workmen and mechanics on Sundays, in order to fulfil their contracts.

☞ A letter just received at Washington from Vera Cruz, Mexico, Oct. 12, says:

The St. Nazaire steamer arrived here this evening, Gen. Castelman being on board. His instructions are to send to France in two detachments all the troops that are here. He brings besides a message from Napoleon to Maximilian, advising him to abdicate in favor of anybody he pleases, and to go home. He is authorized to offer Maximilian the protection of the French flag, with a view that he may return safely to Miramar. The Marquis DeGallifet has no mission of any kind, and he only comes to join his regiment and return to France. Gen. Bazaine came to Puebla to meet Gen. Castelman. The General feels very sore against Maximilian for the very discreditable reports that Carlotta has spread in Europe.

Ayer's Cathartic Pills

ARE the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure the purgative properties of which the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate the sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take, and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such character and position as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immense y to the relief of our afflicted suffering fellow men.

The Agent below named is prepared to furnish gratis our American Almanac, containing circulars for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inactivity of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require a cathartic medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they would reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand Ayer's and take no other. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. o29–2m

Special Notices.

Hygienic Wine.

Approved by the Imperial School of Medicine, 1865:

Tested by the Committee on Chemistry of the American Medical Association, at their Convention, held in Baltimore, May 1st, 1866, and endorsed by the Medical profession in more than two hundred cities.

This *IMPORTED* Tonic, recommended by the most eminent Physicians, is prepared in Paris from

PURE SHERRY!

Admitted to be composition only Tonic, Aromatic, and nutritious Substances. It is unlike, with a great superiority all other Bitters, which have for a base, nothing but Alcohol or inferior Whiskies. It is richer than any other Bitters in

Aromatic and Balsamic Principles,

and its taste is exquisite. Its soothing effects on the nervous System is a new discovery for, while it gently exhilarates, by invigorating the functions of the digestive organs, and dissipates Languor, by gently refreshing and stimulating the brain, giving a healthy tone to the whole organism, it leaves behind none of the painful influences that follow Alcoholic stimulants.

HYGIENIC WINE

is moreover

MOST DELICIOUS TO THE TASTE.

Possessing wonderful virtues in all cases of DYSPEPSIA AND DEBILITY, and moreover is unexcelled as an

Appetizer,

IT IS NOT INTOXICATING IN THE LEAST.

MUSCAT PERLE, (Imported)

is a rare fine Wine of most delightful flavor. It is the Juice of a most Delicious and generous GRAPE, and surpasses in excellence *any Table Wine in the Country.*

All who are solicitous about obtaining a *pure* and a superior Wine, will be delighted with

"Muscat Perle."

☞ Church people are solicited to examine this Wine for communion purposes. A Communion Wine should be above *all things* PURE! In the second place it should be MILD. "Muscat Perle" combines these two most essential qualities, and a trial will convince any one of its superiority over all other wines at present in the market.

Here Wines are sold by all respectable Druggists and Dealers.

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

Messrs. J. N. Hannis & Co.:—

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION. I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs and all the early stages of Lung complaints, I believe it to be a certain cure; and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It causes the phlegm and matter to raise, without irritating those delicate organs (the Lungs), and without producing constipation of the bowels. It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state

☞ We are glad to learn that Mr. Geo. W. Marston of this city, who has for the past year filled the office of City Messenger to good acceptance—has received the appointment of a clerkship ("winter's" situation we believe they call it) in the Chief Engineer's office at the Navy Yard; and we understand he has resigned the former office, and entered upon his new duties on Monday. He takes the place of Mr. S. P. Cooper, who it is said is to enter a store in this city. But the duties of the position are not new to Mr. Marston, after all, as he was formerly for several years employed in the Engineer's office, and only lost the situation then (if we recollect the circumstances aright) by resigning in favor of a fellow clerk, when one must go with the reduction of forces, and his high sense of honor led him to go himself. It is a good sign, we always think, for a man to be called for again by an old employer; and this is just what we should expect of our old friend George, for we have always esteemed him as one of the most sterling young men in our community, ever since he so faithfully performed his duties as one of the original carriers of this Chronicle—for we have found that a boy who has brains, pluck and integrity enough to carry papers well, can be relied upon for any duty. We always regard such as "our boys," and shall say a good word for them when we can, though to be sure good wine needs no bush.

☞ We understand that Father Murphy of the Catholic Church in this city, was surprised and of course pleased, on Saturday evening, by the presentation, from the young ladies of his church, of an elegant silver tea set. We are glad of it—for Mr. Murphy is doing well for his church, and merits well from them.

Dr. Schenck's

NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street**, Boston, where he will be professionally every WEDNESDAY from 9 to 3. Every person complaining with Consumption or any disease leading to it, are invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part, also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.00 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

REASONS WHY THE

AMERICAN WATCH,

MADE AT WALTHAM, MASS.,

IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. No jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "unrows," "lepines" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

Valuable Residence and Land

AT AUCTION.

On Saturday, Nov. 3, 1866, at 12 o'clock, M.,

Will be sold at Public Auction,

On the premises,

The 2½ story DWELLING-HOUSE, numbered Two on Dover Street, in this city, owned and occupied by EDWARD P. NOWELL, together with the land attached thereto, on which stands a good, well-appointed STABLE and WOOD-HOUSE.

The House contains ten finished Rooms, including wash-room (with boiler) and kitchen, dining-room, sitting-room, parlor and six sleeping apartments, besides sink-room and large pantry—and is in excellent repair throughout. An L 14x30 feet, containing a spacious and beautifully finished dining-room, &c., has been added this season. The roof is tinned, and there is a piazza extending its entire length. The Garden has several varieties of apple, pear, plum and cherry trees, grape vines, currant and gooseberry bushes, etc., and also has sufficient area to grow enough vegetables for the wants of a large family.

This sale affords a rare opportunity of purchasing a very desirable and convenient residence.

The House will be open for examination on WEDNESDAY, Oct. 31st, from 10 A. M. to 1 P. M.

For further particulars enquire of T. S. NOWELL & CO., corner of State and Pleasant Streets

RAVEN'S WING BLACKING.

L. LAIGHTON.

House and an Acre and a half of Land For Sale.

The HOUSE and LAND on Freeman's Point, owned by Mr. MOSES WHERREN, is offered for sale. The House is a well-built two-story dwelling, 18 by 36 feet, with an L 17 by 12 feet. It contains 8 rooms, conveniently arranged. The situation is one of the finest around the city, rivalling in the extent and variety of prospect the celebrated view from "Lincoln Hill." The terms of sale will be most favorable to the purchaser, and in these days of high prices of building materials, the opportunity to get a well built house in a pleasant situation and superior neighborhood, at a low cost, is well worthy the consideration of any one desiring a home.

PROCLAMATION.

TO THE PUBLIC GENERALLY.

WHEREAS, being armed and equipped with such a stock of Fall and Winter Dry Goods as cannot fail to strike the beholder with bewildering amazement, and please the fancy of all lovers of the Beautiful; and Whereas, Having entered the field for the Fall and Winter Campaign of Trade, we are determined to repulse it not entirely vanquish the great system of monstrous prices and murderous profits, which has settled upon our whole country like a mighty incubus—sinking the poor into deeper depths of poverty, and dragging the eminent down, and even driving many to distraction;—and Whereas, We have taken unusual pains in the selection of our New Stock, and have purchased it all at the Lowest Cash Prices, which will enable us to accommodate the purchaser at the lowest possible figures:

Therefore, We, A. Q. LEACH & Co., do hereby issue this our proclamation, to dispose of our Stock upon such terms as must give satisfaction.

In witness whereof we have this, the 16th day of October, A. D. 1866, and of the Independence of the United States of America the ninetieth year, hereunto placed our hands and caused the Great Seal to be affixed.

Morning Chronicle.

A VALUABLE DISTINCTION is made in an extract below, which we make from the Portland Advertiser of Oct. 26. We have already noticed that the Advertiser is hereafter to be a semi-weekly paper, and to be mere commercial, literary and scientific than political, though still independent, and not afraid to praise or blame. The late editor, in retiring, gave reasons, and expressed his faith in the Democratic party's success and return to governing the country.

As a proper reply to this, the proprietor, (Hon. F. O. J. Smith,) publishes an address to his patrons, from which we copy the following paragraphs:

Our retired editor and publisher has assigned one very good and honest reason for his "appropriate" withdrawal. But not all the reasons, nor perhaps the most urgent once—that made it so appropriate, but of which we need not care to say anything prejudicial to him.

Our faith in Democratic principles is as enduring as that of any other man, perhaps. But, one may be a little blind in not discerning a very clear distinction between Democratic principles, and the existing organization of the Democratic party. While we have faith in the perpetuity of the one, we have no faith in the longer practical utility of the other; nor that, in this generation, it will ever regain public confidence, or an ascendancy in the affairs of government. Those who desire, or like to stay licked, for the next quarter of a century, may be gratified, as they have been for a half dozen years past, in sticking to the Democratic organization. Those who don't wish that, and are not too obstinate to conform, as a first principle of the Democratic creed, to a clearly expressed popular judgment, will open a new set of books and correct short comings and defalcations, even if they part company with long abiding friendships.

We, the proprietor, may be timid, and time serving. But, such has not been hitherto reckoned among either our virtues or faults. We have not, to say the least, knowingly misled friends, or skulkingly evaded opponents in our columns. And when we warn Democratic leaders, that their mission for good has ended, and the sooner they will abandon the idea of Democratic victories, under an organization which the vast majority of voters have evidently renounced forever, in all the New England States—in all the West, in Pennsylvania, and will soon do the same in the Empire State of New York, the sooner they will emancipate their followers from a thankless and hopeless doom of exclusion from public honors, emoluments, influence and offices. The talent of Webster—the genius of Clay—the Everetts of Massachusetts—the Erwins and Corwins of Ohio—the Crittendens of Kentucky—and a thousand like brilliant minds, were not equal to maintaining the Whig organization, no more than the Otises, and Adamses, and Amesces, and their like,—minds of Godlike gifts and virtues—could save the old federal party, after it had become irrevocably odious to the popular sense.

Agents Wanted For *The Camp, the Battlefield, and the Hospital*, Or Lights and Shadows of the Great Rebellion.

There is a certain portion of the war that will never go into the regular histories, nor be embodied in romance or poetry, which is a very real part of it, and will, if preserved, convey to succeeding generations a better idea of the spirit of the conflict than many dry reports or careful narratives of events, and this part may be called the gossip, the fun, the pathos of the war. This illustrates the character of the leaders, the humor of the soldiers, the devotion of women, the bravery of men, the pluck of our heroes, the romance and hardships of the service.

The volume is profusely illustrated with over 100 engravings by the first artists, which are *really beautiful*; worthy of examination as specimens of the art. The book's contents include reminiscences of camps, picket, spy, scouts, bivouac, and battlefield adventures; thrilling feats of bravery, wit, drollery, comical and ludicrous adventures, etc., etc.

Amusement as well as instruction may be found in every page, as graphic detail, brilliant wit and authentic history are skillfully interwoven in this work of literary art.

This work sells itself. The people are tired of dry details and partisan works, and want something humorous, romantic, and startling. Our agents are making from $100 to $200 per month, clear of all expenses. Send for circulars, giving particulars, and see our terms and proof of the above assertion. Address NATIONAL PUBLISHING CO., 118 Water Street, Boston, Mass.

A SPICY REPLY.—The Johnson State Central Committee of Pennsylvania, being sadly in need of the needful funds for electioneering purposes, attempted to make a "raise" upon the Postmasters and other officials. For instance, they assessed the Postmaster of Wellsborough, $45, and for their pains received a spicy letter, of which the following is the conclusion:

I have no doubt that funds are greatly needed by the N. U. S. C. Committee; if for their private pockets, they will need all they can get; and it needed for buying up the people of this commonwealth to support "My Policy," they will need more than they can get, even if every Postmaster should be assessed his entire salary for ten years. But Postmasters are not all verdant, even if many of them do live in the country. Not long ago a fellow of your class wrote me that he would send me a prize ticket for $10,000, if I would only tell all my neighbors that I had drawn it in lottery, and send him just $10 to pay for the ticket in advance! You may think it strange, but it is a fact that I didn't do it! Very likely you can find find some hungry fellows about here who will send you the $45 you want, and tell all the neighbors what a nice "Policy" it is that produces massacres of Unionists in the South, if you will only promise him this Post Office for a prize ($810 a year for doing $1500 worth of work,) but you must excuse

Yours, respectfully,
HUGH YOUNG.

☞ "Sir," said a fierce lawyer, "do you on you solemn oath declare this is not your handwriting?"

"I reckon not," was the cool reply.

"Does it resemble your handwriting?"

"Yes, sir, I think it don't."

"Do you swear that it don't resemble your writing?

"Well I do, old head."

"You take your solemn oath that this writing does not resemble your in a single letter?"

"Y-e-s sir."

"Now how do you know?"

"Cause I can't write."

☞ An exchange has the following: During the past winter a little girl of our acquaintance attended the wedding of her brother, and, judging by the sequel, was very much struck by one line of the marriage service, which she understood literally. A few after, passing through the room where the bride was sitting in the lap of her liege lord, she exclaimed, with all the simplicity imaginable, "To have and to hold."

— The J. Monroe Taylor Gold Medal Soap the ladies cannot do without; as a matter of economy it is worth more than twice the cost of it; one pound will go farther and do much better work than two pounds of any other; for washing paint and all kinds of wood work, it has no rival; it will not injure the finest fabrics, while it will make your washing so much easier, besides looking so much better than any other in the market; it is acknowledged by the ladies to be the best, the cheapest, and the only soap fit for a washing day. 23

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. DOW, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Morning Chronicle.

Portsmouth N. H.

WEDNESDAY, OCTOBER 31, 1866.

☞ The Advertisements in a newspaper are often as interesting and important as the contents of any other department—excepting always the deaths and marriages, to the ladies.

This morning we call attention to the card of Mr. Burtt which sets forth somewhat in detail, the attractions offered at his watch, jewelry and fancy goods store; and we observe in passing, that his window presents a beautiful and tasteful display.

Mr. John Kelley has an earnest appeal to those people who wear boots and shoes,—the moral of which points to Daniel street as the place to buy your leather.

Mr. Harraden offers a few words on the benefit of Weather Strips, &c., and we know he says true as to the good service they render. He doesn't mention the tireless Washing Machine which he manufactures, as he has got the ladies talking up that for him now, and no doubt thinks he may as well leave it to them.

The clothiers (for ladies and gents) are now heard, as usual at this season; and among the rest, Messrs. Bachman & Co., desire us to call attention to the fact that they have got a large stock of cloaks and capes for ladies' wear, of all fabrics and various prices, but all in good style, and cheap as the cheapest.

These are only a few among our many advertisers; but our attention has been called to them especially to-day, by one thing or another. There are numerous others equally meriting notice from our readers.

NEW HAMPSHIRE ITEMS.

—— Postmasters have been appointed as follows: Samuel Nims, Newport; W. Hunter, Boscawen; J. J. Brown, Campee; J. R. Russell, Barnstead.

—— Patrick Barry was arrested at his father's residence in Boston, on Saturday, for breaking jail at Concord on the 7th of August last. Barry was in custody for horse stealing, and had been committed to Concord jail for trial.

—— Rev. Nathaniel Bouton, D. D., lately appointed State Colonial Historian, has resigned the pastorate of the Old North Society of Concord, his resignation to take effect in March next, just forty-two years from his settlement there in 1825.

TERRIBLE EXPLOSION.—A St. Louis paper says that a wagon containing five hundred pounds of powder recently blew up while crossing the plains. The wagon was torn to fragments and scattered in every direction, its hub being the largest piece found. Three yoke of oxen were torn to pieces and two other yoke badly burned. All that could be found of the driver was a piece of one of his feet, a joint of a finger and a fragment of his skull.

☞ The new proprietors of the Exeter News Letter have printed it, this week, on new type; and have greatly improved the paper in all respects.

☞ Hall's Journal of Health for November, contains good essays on The Family Relation, Fireside Associations, Immutable Morality, &c., &c.

☞ Sec. Seward has lost his youngest child, an only daughter, by death, after a long illness.

☞ The violent storms of wind and rain, on Tuesday, kept back the telegraphic news.

— George D. Prentice, of the Louisville Journal, is seriously ill with bronchitis. His recovery is doubtful.

— Fifty-eight vessels, mostly laden with lumber and coal, arrived at Chicago in one day last week.

— The *Chronique Suisse* states that a Protestant minister, named Mathys, who died recently at Stanz (Underwalden), has left an autobiography written in twenty-seven languages.

— It is reliably stated that Gen. Sheridan has been ordered to report at Washington. It is understood that the order originated from the present condition of our Mexican relations.

— A man with a large family was recently complaining of the difficulty he had in supporting them all, and was told by a friend that he "had sons big enough to earn something." His answer was, "Yes, but they are too big to work."

— Nine roughs went out from Portland to Scarboro', the other day, to rob an orchard, and took with them a wagon in which to carry off the fruit. The farmer and his boys, with a neighbor or two, met them vi et armis, knocked them down as fast as they came on, and beat them until they begged to be allowed to "go home."

— Mary Knights, of Topsham, Me., 13 years of age, died last Saturday of a peculiar disease. She would drink a large pail of water during the night. Sometimes she would drop down going from school, entirely helpless, Her blood changed to sugar. She was sick six months.

Correspondence of the Chronicle.

NEW YORK, Oct. 30.

Brooklyn honored itself and was honored in return on Thursday, the 26th. On that day four thousand soldiers and sailors, veterans of the late bloody war, received from the municipal Government of our sister city, chaste medals of bronze as testimonials of their courage and valor. The grand ceremonies of this occasion took place at Fort Green. Admiral Farragut was there, and bore his gold medallion, the city's gift, with all his usual modesty. Gov. Fenton, the Rev. Dr. Stone, Mayor Booth, and ex-Mayor Wood assisted in the demonstration. The display of the militia was unusually fine, and, though the day was slightly cold and the sky overcast, the celebration was from first to last an unquestioned success. At the place of presentation nearly fifty thousand people assembled, while throughout the town the shops were closed, and the public offices gaily adorned. They evidently know how to do things in the City of Churches.

At the last meeting of the Board of Health a very curious subject was introduced. It appears that a report has spread through various foreign ports, to the effect that the Board prohibited the landing of all rags brought to this country from abroad. In that connection Dr. Stone read an interesting paper received from the American Consul in Liverpool, which has some points in it worth repeating.

The report mentioned the kinds of rags now in the New York market, namely: 1. Those gathered from dwellings and the streets. 2. Those brought from the Southern and Western States. 3. Foreign rags from Alexandria, Trieste, Leghorn and from the Northern parts of Europe. The domestic rags are often very dirty and loosely packed. The foreign rags are washed before packing, and arrive here in tightly compressed bales. Some of them are iron bound, and are so well known to the trade by the marks upon them, and so much confidence is established in these marks as an indication of their quality, that they are purchased without any inspection. Others whose character is not so well known are examined by cutting the bales and taking out samples. The usual course is to send out the rags to paper factories where they are cleaned, washed and reassorted. If rags are wet or moist they should be excluded as being likely to generate disease. Impediments like this are thrown in the way of paper manufacturers, the report says, the price of paper will rise at once, and it might happen that the publication of books might be driven to foreign countries.

Williamsbarg, or, as it is less generally named, the Eastern district of Brooklyn, is getting a dangerous reputation for murders. Two men have been killed there within three weeks, and on Tuesday, last, another tragedy or rather melo drama was enacted. On the evening of that day, the report of a pistol was heard on the street and with it the cry of murder. On repairing to the scene of the disturbance, Chas. Jackson, clerk in a drug store, was found bleeding fearfully. His story was that a strange man with melancholy eyes and a slouched hat, had suddenly placed himself athwart his path, and asked for a light from his cigar. Just as this request was being responded to the mysterious unknown drew a pistol and exclaiming in tragic tone "Revenge," pulled the trigger; Jackson will explain nothing more. He insists upon a most romantic silence; but in his pocket there has been found a letter couched in these terms:

"CHARLIE: beware! Your life is in danger. I would help you if possible, but I cannot. CARRIE."

In the man's frantic ravings are heard strange dislocated sentences, such as "Barnum's Museum" "Carrie, Carrie." "Death, oh Death." I give the interesting particulars partly because the man is evidently under the influence of Beadle's Dime Novels; and partly that the romantic youth of other sections may know how to conduct in similar circumstances. Jackson at latest accounts is getting better, everybody believes that he shot himself, and the general opinion is that as soon as he is recovered a dose of Glauber's salts will not be injurious to his spiritual economy.

By an Act of Congress passed in July, 1852, Supervising Inspectors of vessels were appointed to report on the seaworthiness of ocean and lake steamers. Several members of that body are now here, inquiring into the causes of the loss of the Evening Star. Capt. W. M. Mew, Special Agent from the Treasury Department, having charge of the administration of the laws, is also assisting in the investigation. The matter has been under consideration for about two weeks, and a large mass of testimony has been taken. A number of witnesses yet remain to be examined before the Commissioners will be able to render a decision in reference to the causes which involved so great a loss of life and property.

A funny story has been circulating in town lately, which bears hard upon the Mexican Liberalists. Let me premise what your readers already know, but what for the sake of the point must be repeated—that the Crosby Art Association has gained golden praise by its eminently honorable management. The public trusts it as heartily as a merchant would Astor's or Stewart's signature. Whatever representations they may make will be believed in their entirety. Moreover the whole enterprise is exceedingly popular and the certificates go like lager beer at a German pic nic. Well, it is now said that Ortega, Juarez and Santa Anna have agreed to put up the Mexican republic and their own precious heads as prizes; they will issue bonds to the extent of seven millions. These will be scattered over the whole globe, and on the day of the grand drawing, each of these little properties will be delivered over to the holder of the lucky tickets. In that event, I pity the men who shall be so unhappy as to draw either of the Liberalist leaders. The person who drew the elephant will not be a circumstance compared with them. Indeed so unruly, dangerous, impracticable are all these heads of factions regarded by our New York capitalists, that a general feeling is rapidly developing itself in favor of the recognition of Maximilian. It is reported that he is ready to accede to any reasonable terms, will repudiate France, accept the Monroe Doctrine and guarantee the permanent peace of Mexico. If he does this he will certainly satisfy the requirements of the great body of American citizens, since no one wishes the cause of liberty to be prostituted to brigandage and robbery as at present under Liberal rule.

Some days ago Mr. Leonce Albert, a native of France, arrived from Europe, and engaged an apartment at the Hotel Fijux, No. 10 Waverly place. On Wednesday night Mr. Albert returned to his room as usual, and yesterday was found dead in his bed, suffocated by the gas which had escaped from one of the burners of the chandelier which he had left open. Mr. Abert was a resident of New Orleans, and a banker of occupation. He was aged about 45 years.

The moral of this calamity is a short one Don't forget to turn off the gas before going to bed.

TOUCHSTONE.

☞ The Rochester Courier thinks that "unless they are very much mistaken, the men whom the copperheads are hunting down with a 'my policy' scalping knife, will be the ones whom the people will not fear to elevate and trust. The fact that Andrew Johnson considers Mr. Ela the first man in the State to kick out of office, will not be likely to injure him with the Union Republicans of this Congressional District."—That's so, we guess.

☞ In allusion to the "Lost Cause," The Memphis Bulletin well says: "In truth, there can be no cause lost that was never won and never defined. If we fought to establish another Union, we fought without a purpose, since we already had a Union; if to duplicate offices, it was a politicians' war; if to secure freedom of States, we should have fought under the 'old flag,' and never gone beyond a 'Provisional Government.'" The Bulletin, however, omits the fact that the Rebellion had a cause in Slavery, and as that is lost forever: so are all the elements that nurtured it. It is the will of the nation that the South shall guarantee that in no form shall that cause ever be revived.—*Tribune.*

☞ The steeple of a Roman Catholic cathedral in Stockholm, fell in while the men were at work upon it, dreadfully injuring some twenty of the laborers. The Lutheran pastor placed his church at the disposal of the Roman Catholics, and on the following Sunday the Roman Catholic Bishop officiated within the walls of the Protestant church. That is quite credible, as well as creditable;—but if the Lutheran House had been ruined—would the Lutheran pastor have officiated in the Catholic Cathedral? We suppose not.

— Governor Humphreys of Mississippi, in view of the precarious condition of Jeff. Davis' health, recommends the Legislature to appoint one or more commissioners to proceed to Washington to confer with the President with a view to his release on parole or bail.

Invites the Ladies of this city to call on her, at

No. 50 Congress Street,

AND EXAMINE HER PAINTINGS.

A member of the class at Augusta, Me., says, "I have never been half as much delighted with any accomplishment."

From Brooklyn, L. I., a lady writes—"I have never painted before, and the knowledge of colors and proficiency in their use which I have acquired in one course of lessons is equally surprising and gratifying to myself and friends."

"The Photographs colored for me by Mrs. Colt, two years ago, remain unchanged—as beautiful and perfect as ever!"——is the testimony of a resident of Providence, R. I.

"Mrs. Colt has been the most acceptable artist in Water Colors ever in this city.
N. D. MORGAN, Norwich, Conn."

"From my long acquaintance with art and study of Painting in Italy, I feel qualified to judge, and willingly assure those interested that I consider Mrs. Colt a true Artist and accomplished Teacher. Under her tuition I made great progress in a little time. LUIGI DAMA.
Room 5, Chickering Building, Boston, Mass."

The peculiar methods which Mrs. Colt teaches she will guarrantee to impart thoroughly and satisfactorily in one course of lessons. Those interested are requested to call on her early as her stay in Portsmouth is limited by other engagements. Materials furnished free of charge during the lessons. AMERICAN LIFE DROPS!

FOR THE SPEEDY CURE OF

Diphtheria,

Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the Three half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

BOSTON, Mass.

"ORRIN SKINNER & CO.—*Sirs:*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. R. ELDER."

The Life Drops are carefully prepared by

PERRY DAVIS' PAIN KILLER.

Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and mo asses, and a gill of hot water. Stir well together and drink hot. Repeat the dose every hour until relieved. If the pains be severe, bathe the bowels and back with the medicine, clear.

Fishermen, so often exposed to hurts by having their skin pierced with hooks and fins of fish, can be much relieved by bathing with a little Pain Killer as soon as the accident occurs; in this way the anguish is soon abated; bathe as often as once in five minutes, say three or four times, and you will seldom have any trouble. nl dawlm

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions, irregularities of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted, either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

Hygienic Wine.

Approved by the Imperial School of Medicine, Paris.

Tested by the Committee on Chemistry of the American Medical Association, at their Convention, held in Baltimore, May 1st, 1866, and endorsed by its most prominent members.

This *IMPORTED* Tonic, recommended by the most eminent Physicians, is prepared in Paris from

PURE SHERRY!

Admits in its composition only Tonic, Aromatic, and Febrifuge substances. It replaces with a great superiority all other Bitters, which have for a base, nothing but Alcohol or inferior Whiskies. It is richer than any other Bitters in

Aromatic and Balsamic Principles,

and its taste is exquisite. Its soothing effects on the NERVOUS FLUIDS is most astonishing for, while it gently calmates, by re-animating the functions of the DIGESTIVE ORGANS, and dissipates Languor, by gently refreshing and stimulating the brain, giving a healthy tone to the whole organism, it leaves behind none of the baneful influences that follow Alcoholic stimulants.

HYGIENIC WINE

is moreover

MOST DELICIOUS TO THE TASTE,

Possessing wonderful virtues in all cases of DYSPEPSIA AND DEBILITY, and moreover is unexcelled as an

Appetizer,

IT IS NOT INTOXICATING IN THE LEAST.

MUSCAT PERLE, (Imported)

is a rare fine Wine of most delightful flavor. It is the Pure Juice of a Most Delicious and generous GRAPE and possesses in excellence *any Table Wine in the Country.*

All who are solicitous about obtaining a *pure* and a superior Wine, will be delighted with

"MUSCAT PERLE."

☞ Church people are solicited to examine this Wine for communion purposes. A Communion Wine should be *above all things* PURE! In the second place it should be MILD. "Muscat Perle" combines these two most essential qualities, and a trial will convince any one of its superiority over all other wines at present in the market.

These Wines are sold by all respectable Druggists and Dealers.

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

Messrs. J. N. HARRIS & Co.:—

GENTS—I make the following statement from a perfect conviction of my knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It causes the phlegm and matter to raise, without irritating those delicate organs (the Lungs), and without producing constipation of the bowels. It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state

SUPREME JUDICIAL COURT.—Doe, J.—On Friday, a portion of the day was occupied with the trial of No. 89, Packer v. Weeks, real estate in Greenland. This case was, however, taken from the jury and a settlement was effected between the parties. The Court adjourned over till Monday.

The Court went in at noon on Monday. The new docket was called. In accordance with a suggestion of the Court, the bar agreed unanimously, that a certain number of cases should be set down for this week, and a recess be taken for the whole of next week.

In the afternoon, case Edward P. Prescott and others, v. John Clement and John S. Palmer was tried. This was an action brought to recover the price of flour sold the defts. who were members of a "Union Store" at Exeter. There being but a question of law developed by the trial, on Tuesday morning it was taken from the jury and verdict ordered for the pliff., and the question of law reserved for the full bench.

An unsuccessful attempt was made on Tuesday forenoon to try the action, Ivory H. Blazo and wife v. Langdon Whidden, but the case was finally continued on account of absence of witnesses.

The case of Dr. Goodwin v. City of Portsmouth, was commenced. This was an action of assumpsit, to recover about $800 for services as physician, rendered during the prevalence of yellow fever in this city, in 1864. Defence that the pliff received a regular salary as Health officer from the city, which precluded him from making charges as in cases of individual attendance. Hatch for pliff., Goodall, City Solicitor, for defts.

☞ The storm of Tuesday was quite severe in this vicinity, and the heavy wind stripped limbs from trees, blew down old fences, deposited the top of the chimney of Dearborn's store on Market street, in the street, took the roofing slate off one end of the new ordnance building at the Navy Yard, tore up by the roots several trees on Peirce's Island, blew hens overboard at the South End, tore gates from their hinges, and raised a great commotion on land and sea generally, and (it is rumored) there are several wrecks of schooners outside, of which we have no authentic information, and beg leave to have our doubts. The tide of Tuesday evening was very full, and many citizens visited the seashore to enjoy a look at old ocean, and see how "the waves come when navies are stranded."

☞ It really looks as if we should have a Trotting Course in Portsmouth, as they have almost everywhere else. A meeting of the subscribers to the stock was held on Monday evening, at the Franklin House,—William H. Hackett being called to the chair, and Frank W. Miller Secretary. The shares are to be $100 each, the capital stock not less than $3000 nor more than $4000, a good portion of which is taken. It is proposed to purchase and prepare the land immediately; and Messrs. Frank Jones, Henry R. Stoddard and John H. Ferguson were chosen Trustees, to manage the business of the concern till a charter can be had next June. A good track, well managed by responsible gentlemen, may and should be a public benefit, as the source of much innocent amusement and healthful out-door entertainment.

☞ At a meeting of the Rockingham Bar held in this city Oct. 30th, Wm. W. Stickney of Exeter, W. H. Y. Hackett of this city, and Wm. B Small of Newmarket, were appointed a committee to prepare resolutions appropriate for the bar to adopt, with reference to the death of the Hon. David A. Gregg, late a member of this bar.

☞ It will be noticed, that the sale of nice Furniture at the Navy Yard, by Betton & Co., which was postponed by the storm of Tuesday, is appointed for this forenoon at 11 o'clock, if then suitable weather, or the next fair day.

☞ Mr. Joy commences his Singing School for small children, this afternoon at 3 o'clock.

Class in Book-keeping and Penmanship, this evening at 7 1-2 o'clock. Entrance to School Room, No. 6 Daniel St. Enquire at Wm. B. Lowd's Bookstore.

Mr. Joy opens all his classes this week. We hope they will be well patronized.

CITIZENS' LYCEUM.—Tickets for the very fine course of lectures, announced by the committee of this association, are now for sale at the usual places, and by the officers of the association.

GOLD, Tuesday, 146 1-4.

— Since the fire at Portland, on July 4, there have been between six and seven hundred buildings erected, including fifteen three-story brick and granite blocks, containing in all twenty-four stores.

— A girl dressed in male attire was arrested in Philadelphia, last week, for highway robbery. She and a young man waylaid and robbed a Catholic priest. She is about sixteen years old, and has been leading a reckless life for three years.

SENTENCE FOR ARSON.—William H. Orne and Love Pratt, recently convicted of setting fire to the school house on Winthrop street in July last, have both been sentenced to imprisonment for life. It is said that measures will be taken by several prominent citizens to have Pratt's sentence somewhat modified, on the ground of previous good character.

— Mr. Richards, of Providence, has invented a combination bosom and collar, obtained a patent, and sold it for the comfortable sum of $300,000.

— Thomas Smock, of Marion county, Ky., has been convicted of a violation of the revenue laws by selling whiskey bearing counterfeit inspection marks, and fined $11,618.

— Thomas Grimshaw, formerly of Lawrence, Mass., and a brother, have been arrested at Dalkeith, Scotland, for passing counterfeit notes on the Union Bank, Edinburg, of which they had a large number. They confessed their guilt.

Dr. Schenck's

NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street**, Boston, where he will be professionally every WEDNESDAY from 9 to 3. Every person complaining with Consumption or any disease leading to it, are invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part, also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an aggravated throat and catarrh, or from Liver Complaint.

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

REASONS WHY THE

AMERICAN WATCH,

MADE AT WALTHAM, MASS.,

IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. No jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "anores," "lepines" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have created an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

PROCLAMATION.

TO THE PUBLIC GENERALLY.

WHEREAS, Being armed and equipped with such a stock of Fall and Winter Dry Goods as cannot fail to strike the beholder with bewildering amazement, and please the fancy of all lovers of the Beautiful; and Whereas, Having entered the field for the Fall and Winter Campaign of Trade, we are determined to repulse if not entirely vanquish the great system of monstrous prices and murderous profits, which has settled upon our whole country like a mighty incubus—sinking the poor into deeper depths of poverty, and dragging the affluent down, and even driving many to distraction:—and Whereas, We have taken unusual pains in the selection of our New Stock, and have purchased it at the Lowest Cash Prices, which will enable us to accommodate the purchaser at the lowest possible figures:

Therefore, We, A. Q. LEACH & CO., do hereby issue this our proclamation, to dispose of our Stock upon such terms as must give satisfaction.

In witness whereof we have hereunto this 16th day of October, A. D. 1866, and of the independence of the United States of America the ninetieth year, hereunto placed our hands and caused the Great Seal to be affixed.

SUPERSTITION.—Before leaving Hanover, Queen Mary, the spouse of the dethroned monarch, was waited upon by a deputation which came to console her. On this occasion the Queen accounted for her husband's opposition to Prussia by telling the astonished citizens that he had often had revelations from on high granted to to him in the watches of the night. It was after one such divine command that he resolved to hold out to the last, even at the risk of war!

Or Light and Shadows of the Great Rebellion.

There is a certain portion of the war that will never go into the regular histories, nor be embodied in reports or poetry, which is a very real part of it, and will, if preserved, convey to succeeding generations a better idea of the spirit of the civilian than many dry reports or careful narratives of events, and this part may be called the gossip, the fun, the pathos of the war. This illustrates the character of the leaders, the humor of the soldiers, the devotion of women, the bravery of men, the pluck of our heroes, the romance and hardships of the service.

The volume is profusely illustrated with over 100 engravings by the first artists, which are *really beautiful;* worthy of examination as specimens of the art. The books contents include reminiscences of camp, picket, spy, scout, bivouac, siege, and battlefield adventures; thrilling feats of bravery, wit, drollery, comical and ludicrous adventures, etc., etc.

Amusement as well as instruction may be found in every page, as graphic pictures of the war, and authentic history are skillfully interwoven in this work of literary art.

This work sells itself. The people are tired of dry details and partisan works, and want something humorous, romantic, and startling. Our agents are making from $10 to $30 per month, clear of all expenses, and for circulars, giving particulars, and see our terms and proof of the above assertion, address NATIONAL PUBLISHING CO., 118 Water Street, Boston, Mass.

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1837.
78 State Street, opposite Kilby Street,
BOSTON.

After an extensive practice of upwards of twenty years, continued in secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and Papers or Drawings for Patents, executed on liberal terms, and on dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting **Three Dollars.** Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any other agency offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of any kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past has enabled him to form and late a vast collection of specifications and official decisions relative to patents.

Hence, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more *competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending.* Such unmistakeable proof of great talent and ability on his part, I cannot but recommend to inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

R. H. EDDY.

MONTGOMERY'S
MUSIC PICTURE FRAME, AND VARIETY STORE,
10 1-2 Daniel Street,
(Over Miss Beal's Dry Goods Store.)

The Subscriber, formerly with S. F. COB, would inform his friends and former patrons of Mr Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Stools, Covers, Sheet Music, Flutinas, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.

PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.

PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.

Having made arrangements with Prof W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M. Guild & Co. The superior merits of the former have too long been established to need any comments. Of the latter suffice it to say that the sale of over fifty of them within the last five years by Mr. Cobb, proves a sufficient quantity of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.

Every Instrument carefully selected and fully warranted, subject to inspection and approval of Prof Day. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman.

MARYLAND.—There is no doubt that Gov. Swann intends to remove the Police Commissioners before the election, and will not even wait should they then be unable to procure important evidence. Justice is in a hurry, as the Governor understands it, and cannot proceed with usual deliberation. He has not only declared his intention to finish the trial by Wednesday, but the moment he is satisfied of the guilt of the Commissioners, will remove them in the midst of the proceedings without even waiting to hear the rest of the evidence. This indecent haste is the strongest proof that the Governor regards the trial as a mere form, which, unfortunately, he is obliged to observe, and that the dignity of the State is to be sacrificed to the interests of his party at the polls. Our special telegram states that the Governor made this singular announcement just after an interview with the President, and the public will not be at a loss to trace in the tyrannical proceedings promised the spirit that encouraged the Rebel Mayor of New Orleans. Gov. Swann will commit a gross wrong should he remove the Commissioners without fully trying the case and hearing every syllable of the evidence they have to offer.—*Tribune.*

RICHMOND.—The Richmond Examiner states that the education of the colored youth of that city is receiving proper attention, and that the plan proposed has been adopted in other Virginia cities, and has been found to work well. The teachers are chiefly ladies from the North. The city is to be divided into five school districts, and the pupils in each district will be required to attend the school in their district. The ages of the pupils vary from five to thirty years. They are apt as a general thing, and give their instructors very little trouble.

☞ For several days after the intelligence was received in South Carolina of the thundering majority with which Maine sustained Congress against the warfare of the President, The Charleston News and The Mercury were significantly silent. When comment came on the great political fact, see the vindication of the wisdom of the people's policy of reconstruction, as declared by other representatives in Congress. Each of those papers published leading editorials, intimating that the political situation would "compel" the President and the South to accept the Constitutional amendments as the "final adjustment" of the difficulties of reconstruction. In mercy to the deceived, misled and ruined South, roll up our Congressional majorities in every Northern and Western State, and knock from under sectional hate, mortification and discontent the only foundation on which they stand out with obstinate hope—the treasonable "policy" of Andrew Johnson.—*Tribune.*

— A 4 year old went to church Sunday, and when he got home his grandmother asked him what the minister said. "Don't know," said he; "he didn't speak to me." A good many older people might answer in the same way.

— I have had occasion to observe that a warm, blundering man does more for the world than a frigid, wise man. One who gets in the habit of inquiring about proprieties, expediences and occasions, often spends his whole life without doing anything to purpose.—*Cecil.*

House and Acre and a half of Land For Sale.
The HOUSE and LAND on Freeman's Point, owned by Mr. MOSES WHERREN, is offered for sale. The House is a well-built two-story dwelling, 18 by 36 feet, with an L 17 by 12 feet. It contains 8 rooms, conveniently arranged. The situation is one of the finest around the city, rivalling in its extent and variety of prospect the celebrated view from "Lincoln Hill." The terms of sale will be most favorable to the purchaser, and in these days of high prices of building materials, the opportunity to get a well built house in a pleasant situation and superior neighborhood, at a low cost, is well worthy the consideration of any one desiring a home.

Morning Chronicle.

Portsmouth N. H.

THURSDAY, NOVEMBER 1, 1866.

☞ Mr. Greeley, speaking of New York, says:

"We have been all over the State, and have generally been assured by active Republicans, 'Things look remarkably well in this county. We shall do better than last year here. We shall largely increase our vote, and considerably increase our majority.' Generally the meetings of our friends are large as well as spirited. In several counties we hear that the naturalizations are in our favor, which is unusual. Everywhere a large majority of the young men who have come of age within the last year are Republicans."

John Morrissey received, last Saturday evening, the formal tender of a nomination for Congress from all the Democratic organizations of his district. He accepted it and declared that he was "one of the humble exponents of the principles of the Democratic party. Too true."

☞ The Knoxville (Tenn.) Whig in its last issue says:

"On Thursday last a prominent citizen of middle Tennessee passed through that city direct from Washington. He made some developments, in conversation with a number of Johnson men, which were overheard by a Radical citizen of as high character as any man in the State. This Middle Tennessee Johnsonite said he had had a long interview with the President. That the President was disappointed at the result of the recent elections, but he would not abandon his policy unless New York went against him. That if did, he would support the Constitutional Amendment.—But if New York sustained him, he would fight the amendment during his term of service. This Johnsonite further declared that if New York sustained the President, Brownlow and his usurping Legislature would be driven from the Capitol."

☞ The Mineral Point Tribune reports a beautiful illustration of the Johnsonian policy of making appointments. Postmaster General Randall has removed from the Post Office at Benton, Lafayette County, the widow of Mark Richards, who was killed by Copperheads while in the discharge of his duties as Enrolling Officer, and appointed in her place, Tom Duffey, a deserter,—a man who was drafted, and ran away. Mrs. Richards, a worthy and capable lady, secured the position of Postmistress, through the influence of Colonel Cobb and others, to aid her in the support of herself and her children, who have been deprived of a father by the bullet of a rebel and she is now deprived of her office to reward a cowardly deserter who refused to serve his adopted country in time of need.

☞ A letter from Matamoras states that the overthrow of Caravajal was a deliberate plot in which Caravajal, Canales and a Matamoras merchant were the principals, and that three hundred thousand dollars were not only divided between them, but that Caravajal was enabled to repudiate his debts and retire with a snug pile. It will be remembered that Caravajal was an authorized agent of the Republic of Mexico, and vested with extraordinary powers, subject, however, to the approval of Minister Romero at Washington.

☞ The Legislature of Vermont have passed resolutions in behalf of the condemned Fenians, which are to be forwarded to the Gov. Gen. of Canada. On Tuesday a vote was taken in the House upon the proposed amendments to the Constitution. It stood as follows: Yeas, 190; Nays, 11. The Senate of course will be unanimous, as there is no Democratic party there.

☞ The rebel Gen. Lafayette McLaws has been pardoned by the President. Rebels get pardon of the President, very readily; but radicals are not easily forgiven by him.

☞ Schuyler Colfax recently said in a speech in Illinois "Johnson is the body hanging on the verge of the government, and if he don't mind his p's and q's he'll drop off."

SAVED BY MEANS OF A BALMORAL.—The schooner Trident foundered off Point Judith, a few days ago. The Captain and crew were saved by displaying a signal. Finding the vessel rapidly sinking, and having nothing but a leaky boat by which to save themselves, and no signal handy by which to indicate their condition, the captain's wife slipped off her Balmoral skirt, and by flaunting it attracted the attention of a passing vessel, which drew near and rescued those on board just before the vessel went down.

— The work of repairing the city building at Portland, which was seriously injured by the great fire in July, is progressing favorably, and the roof will probably be completed before winter. The cost of the re-building will be $150,000.

— Peter German, a laborer in the Derfee mill at Fall River, on Friday drank from a jug which he supposed contained "the craythur," but discovered his mistake when he had got down a mouthful or two of oil of vitriol, and roared with agony.—A stomach pump removed the terrible dose, but the man was so much injured that his recovery is doubtful.

Local.

☞ We understand that some parties from Biddeford and Saco, Me., have recently visited our place, for the purpose of introducing their new steamboat, Enterprise, now running between the former places and Boston;—and if sufficient encouragement should be given to the proprietors of the boat, they contemplate the experiment of taking freight from Boston to Portsmouth—and touching here on her downward trip weekly, on regular days, for the accommodation of our merchants.

This is a want we have long felt here, and we trust that this *enterprising* stranger will be welcomed with a kindly reception, and favored with a liberal patronage; for we are not asked to *invest* in the *enterprise*—and have no risks to run in the experiment, which ought to be a successful one.

The Enterprise is a new propellor and a first-class freight boat of about 240 tons; with accommodations for a few passengers—an excellent seaboat, and has an experienced and popular commander.

The present may be the opportunity to encourage an undertaking, that may yet open up more extensive operations in the same direction, and give traders a chance to secure reasonable rates and regularity of transportation.

☞ Our young townsman Frank W. Hackett, Esq., has just left for Philadelphia, to engage in the practice of law,—for which profession he is well fitted,—and in which his literary and moral tastes and habits, will give him honorable distinction.

S. J. COURT, Oct. 31.—The case of Goodwin v. City of Portsmouth, was taken from the jury and transferred on a question of law.

The case of Main v. Rockingham Mutual Ins. Co., was commenced in the afternoon, and was on trial when we last heard from the Court House.

ACCIDENT.—Samuel Fernald, of Kittery, while getting into his boat on Wednesday morning, to go gunning, struck the hammer of his gun, discharging the contents into his bowels. Dr. Wentworth was called, but it is feared he cannot live. He has a family. His age was about 22 years.

☞ Wm. B. Russell, Esq., for many years one of the leading members of the Democratic party in this city, died on Wednesday, of consumption. The American flag was hoisted at half mast, on Liberty Bridge, as a token of respect to the deceased.

☞ We learn that a new Methodist Church will be erected very soon in the neighboring town of Kittery: A lot of land and timber for the frame, having been given to the new Society, by Mrs. Rice of that place.

☞ We understand that a first class Eating-House is to be soon opened in this city in the third store of Congress Block. Mr. Batchelder, the Newspaper dealer, is to be the Proprietor.

THE LYCEUM advertisement contains the positive engagement of six lecturers of talent and celebrity, which should be sufficient to ensure the success of the course.

☞ The Cutts house has been sold to Rev. Mr. Berry, a native of Newington, but recently from the South, for $5500. It is to be used for a Young Ladies' Seminary.

For the Chronicle.

Praise to God and thanks to Dr. Strouinski, the celebrated Physician of Portsmouth, N. H. who has cured me of deafness. Being deaf almost 17 years of both ears, and having tried a great many Physicians through the country, but never received any benefit from any one, I was recommended at last to Dr. Strouinski. I had not much faith at first, for the Doctor looked to me very young, and small of stature, and only "old looking faces" could be able to restore my health. Under his care a great humor came, *to sight*, beyond the back, between the shoulders, and after the humor was clear routed out of the system, I to my astonishment could hear of both ears. I consider him now as the greatest physician I ever met with through the United States, and recommend him to everybody, who needs help, for he is a man of knowledge and science, and is able to do more good to any sufferer of diseases, then all the "old looking faces," wearing spectacles, sticks, &c. For any information of my above mentioned case, please address or call and see me.

"THE IRON CROWN OF LOMBARDY."—It would appear by the remarks of some journals that the famous "Iron Crown of Lombardy" is a thing intrinsically worthless, and indebted for its value solely to its history and the superstition that hangs around it. But it is not so. The crown is composed of a broad circle of gold, set with large rubies, emeralds and sapphires, on a ground of blue and gold enamel. But the most important part of the iron crown, from which it derives its name, is a narrow rim or band of iron three-eighths of an of an inch broad and one-tenth of an inch in thickness, attached to the inner circumference of a circle. This inner band of sacred iron is believed to have been made of one of the nails used at the Crucifixion, and accounts for the veneration in which it has been always held.—*Boston Journal.*

NEW HAMPSHIRE ITEMS.

—— A few days since, Nathaniel Davis, Esq. of Warner, fell from a pile of lumber which he was measuring, and was injured so severely that he died on Wednesday last. Mr. Davis was an influential citizen and highly esteemed.

—— The Littleton Gazette learns that the starch factory of Charles Libbey, Esq. of Whitefield, together with 1,000 bushels of potatoes and 10 tons of starch, were consumed on Friday last. The fire took in the dryer. The property was insured as follows: On the factory $1,500; on potatoes and starch $1,000.

—— B. W. Putnam of South Hampton, is engaged in manufacturing polishing brick and powder, from a fine quality of sand found on the Powow river. He employs six men, and makes 2000 bricks per day. These are packed in cases of a dozen each, instead of in bulk, as are English brick, and are used for the same purpose as Bristol brick.

THE QUEBEC FIRE.—The following is from a Quebec letter to the Montreal Gazette:

In driving through the ruins, we find here and there small groups of families searching among the *debris*, in sad silence and with tearful eyes, for some missing member of their once happy homes, who had probably perished. In one mass, huddled together, were the remains of three females; in another, those of a man; in another, a mother sat on a corner stone gazing sadly upon some ruins, and beside her was a faithful dog. Both seemed moved with the same sorrow. Close beside them were the lifeless remains of one of her children, burnt into a crisp. All that was mortal of it could have been held on a plate. From all I can learn, the loss of life is greater than is yet believed. I think it will not fall short of twelve or fifteen persons.

It is useless to endeavor to suppress the fact that this fire originated from drunken debauchery in a tavern. At near daylight the guilty men were disputing over their ill-gotten gains at cards. From words they came to blows, and the table being upset, on which was a coal oil lamp, in a minute the oil was ignited, then the furniture, and the building in a few minutes more.

WASHINGTON ITEMS, Oct. 30—The Boston Journal's correspondent says: Notwithstanding the persistent efforts to oust Mr. Rollins from the Commissionership of Internal Revenue, it is pretty well settled that he is not to be removed, and will not resign. All reports of his removal or resignation are untrue.

The President has pardoned Erastus O. Parker, convicted at the October term, 1862, of the U. S. Circuit Court of Massachusetts, for receiving and concealing stolen money, and sentenced to five years' imprisonment.

Judge Underwood will leave for Norfolk to-morrow, to hold the session of the United States District Court at that place on the 1st of November, and at Richmond on the 12th.

Lieut. Gen. Sherman had another long interview with the President to-day. He accepts the position in connection with the Embassy to Mexico. He leaves to-morrow for Ohio to settle some private affairs, and will go to Mexico in about ten days for the purposes previously stated.

There is no truth in the statement that Gen. Sheridan has been ordered to report at Washington. There is no expectation in official quarters that such an order will be issued, as his course in reference to Mexican affairs is in strict accord with the views and purposes of the administration.

It being now definitely settled that Gen. Sherman will not assume the administration of the War Department, Gen. Grant will succeed Secretary Stanton as Secretary, *ad interim*, on his retirement.

MEXICO.—The official paper of the Mexican Government publishes General Martinez's report of several successes obtained by the Liberal forces in the State of Sonora during the month of August.

A communication from Gen. Lozada is also published, showing that this General, who had at the beginning joined the French and Maximilian, is thoroughly disgusted with them and made up his mind to desert their cause. He advises his countrymen who have taken sides with the invaders to abandon that cause. This is a great blow to Maximilian, as General Lozada was one of the main supporters of his empire and a man of much influence in his district.

— At a late meeting in New Orleans, Mr. Roselius stated that, since the close of the war, property in New Orleans advanced to double its former value, owing to the surplus of Northern capital, and the influx of enterprising people from the North who were not afraid to settle.

— A young lad, named James Bennet, was admitted into the Newcastle Infirmary on the 8th. He had placed a steel ring upon his finger, which fitted so tightly that he could not remove it again. He had been to two or three places in order to have it filed off, but it had sank so much into the flesh that nothing could be done for him.—He then went to the Infirmary, and as all attempts to get it off were unavailing, the finger had at last to be amputated.

PENNSYLVANIA. — A letter from the Secretary of the Commonwealth states the following as the complete official vote for Governor: Geary, 307,274; Clymer, 290,006. Majority, 17,178. In the Legislature the House stands 62 Union to 38 Democrats; the Senate stands 24 Union to 12 Democrats—thus making 36 Union majority on joint ballot.

A member of the class at Augusta, Me., says, "I have never been half as much delighted with any accomplishment."

From Brooklyn, L. I., a lady writes—"I have never painted before, and the knowledge of colors and proximity in their use which I have acquired in one course of lessons is equally surprising and gratifying to myself and friends."

"The Photographs colored for me by Mrs. Coit, two years ago, remain unchanged—as beautiful and perfect as ever"—is the testimony of a resident of Providence, R. I.

"Mrs. Coit has been the most acceptable artist in Water Colors ever in this city."—
N. D. MORGAN, Norwich, Conn."

"From my long acquaintance with art and study of Painting in Italy, I feel qualified to judge, and willingly assure those interested that I consider Mrs Coit a true Artist and accomplished Teacher. Under her tuition I made great progress in a little time. LUTHY DAMA.

Rooms, Dickering Building, Boston, Mass."

The peculiar methods which Mrs. Coit teaches she will guarantee to impart thoroughly and satisfactorily in one course of lessons. AMERICAN LIFE DROPS!
FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

"BOSTON, Mass.

"ORRIN SKINNER & CO.—*Sirs:*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."

PERRY DAVIS' PAIN KILLER.

Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and molasses, and a gill of hot water. Stir well together and drink hot. Repeat the dose every hour until relieved. If the pains be severe, bathe the bowels and back with the medicine, clear.

Fishermen, so often exposed to hurts by having their skin pierced with hooks and fins of fish, can be much relieved by bathing with a little Pain Killer as soon as the accident occurs; in this way the anguish is soon abated; bathe as often as once in five minutes, say three or four times, and you will seldom have any trouble. ni dawlm

Hygienic Wine,

Approved by the Imperial School of Medicine, Paris.

Tested by the Committee on Chemistry of the American Medical Association, at their Convention, held in Baltimore, May 1st, 1866, and endorsed by its most prominent members.

This *IMPORTED* Tonic, recommended by the most eminent Physicians, is prepared in Paris from

PURE SHERRY!

Admits in its composition only Tonic, Aromatic, and Febrifuge substances. *Urophase* with a great superiority all other Bitters, which have for a base, nothing but Alcohol or inferior Whiskies. It is richer than any other Bitters in

Aromatic and Balsamic Principles,

and its taste is exquisite. Its soothing effects on the NERVOUS FLUIDS is most astonishing for, while it gently exhilarates, by re animating the functions of the DIGESTIVE ORGANS, and dissipates languor, by gently refreshing and stimulating the brain, giving a healthy tone to the whole organism, it leaves behind none of the baneful influences that follow Alcoholic stimulants.

HYGIENIC WINE

is moreover

MOST DELICIOUS TO THE TASTE.

Possessing wonderful virtues in all cases of DYSPEPSIA AND DEBILITY, and moreover is unexcelled as an

Appetizer,

IT IS NOT INTOXICATING IN THE LEAST.

MUSCAT PERLE, (Imported)

Is a rare fine Wine of most delightful flavor. It is the Finest Juice of the Most Delicious and generous GRAPE, and surpasses in excellence *any Table Wine in the Country.*

All who are solicitous about obtaining a *pure* and a superior Wine, will be delighted with

"MUSCAT PERLE."

☞ Church people are solicited to examine this Wine for communion purposes. A Communion Wine should be above all *PURE!* In the second place it should be MILD. "Muscat Perle" combines these two most essential qualities, and a trial will convince any one of its superiority over all other Wines at present in the market.

These Wines are sold by all respectable Druggists and Dealers.

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

Messrs. J. N. HARRIS & Co.:—

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It causes the phlegm and matter to raise, without it fretting those delicate organs (the Lungs), and without producing constipation of the bowels. It also gives strength to the system, stops the nightsweats, and changes all the morbid secretions to a healthy state

Local.

THE STORM of Tuesday was more severe and effective for serious damage in this vicinity, than was generally supposed. A large number of casualties occurred in our harbor on the Kittery side, and on Wednesday many persons visited the scene of the disasters.

Just above the Kittery Point bridge the schooner Monitor, Parker master, of Boston, laden with wood, went ashore and bilged, having parted both chains, and also her sedge.

Around Fort McClary the scene was such as to testify to the fury of the storm. There lay three shattered hulks, the remnants of what but yesterday were vessels, bidding fair to weather many a blow—now never again to whiten the ocean with their canvas.

Between the fort and its wharf lies the wreck of the schooner Wankinco, Collins, master, of Gardiner. She was laden with hay, bark and wood, and bound from Gardiner to Salem, consigned to Manning & Co. A considerable portion of her cargo will be saved, but the vessel is a total wreck.

Just to the eastward of the wharf lie two total wrecks, thrown together high up on the rocks. They are the schooners Peru, Creamer master, and Frederick Hahn, Haupt master. Both vessels hail from Waldoboro', and were light. The Hahn lost an anchor, and both wrecks have been well stripped of what the storm left them.

On the next point, near Gunnison's Hall, are two more wrecks. First the schooner Frances, Amee master, hailing from this port, laden with bark and bound from Bangor for Charlestown Neck. She parted from one anchor and dragged two. Her jibboom is carried away and her stern ripped out.

Next is the schooner Maria Foss, of Philadelphia, Orcutt master, bound from Salem to Bangor, light. The captain thinks she would have ridden out the storm had not the Frances dragged under her bow. Then the Foss dragged both anchors and went ashore, staving bottom badly, starting stern post and unhanging rudder. Her sails and rigging have been saved in good order. These last two vessels will doubtless be sold as they lay.

The waves are reported to have been terrific, breaking entirely over the lighthouse at Whale's Back.

At Freeman's Point the large old barn at the river's edge was blown down on Tuesday night.

A large number of the great pines on Love Lane, Kittery, were torn up by the roots during the storm.

☞ We always had an idea that danger was connected with labor, when pursued at a great height, but since having a hammer strike in our immediate vicinity, which had fallen from the upper portion of Congress Block, we have concluded that those who remain upon terra firma, are not exempt from all risk.

☞ We learn that the new ship, recently launched at the yard of Tobey & Littlefield, has been sold to Messrs. John S. Pray, Nathl. K. Walker, Capt. Edwin Gerrish, Samuel Adams and others for $75,000, ready for sea.

☞ Mr. Wilcox, organist of the "Church of the Immaculate Conception," Boston, was in the city, Monday evening, and gave a rich treat to a few friends, by his rendering of a variety of spirited symphonies on the organ of the Unitarian church.

☞ Timo. G. Senter, Esq., formerly of this city, but for several years past, principal of the High School at Lynn, has accepted the position of principal in an Academy at Franklin, Mass.

GALE ON LAKE HURON.—The Saginaw (Mich.) Enterprise has details of the experiences of a fleet of barges, tugs and sailing vessels in the late gale off Point-au Basques, in Lake Huron. The steam barge Mowrey was lost control of, and when last seen was rolling in the waves, wholly at their mercy. She is probably lost with all her crew. Four lumber barges, the Ontario, Eliot, Detroit and Oak, were also separated from tugs by the gale, and were last seen driving toward the Canadian shore, near Goderich. It is feared that many lives were lost among them.

REV. SYLVANUS COBB, D. D. of the Universalist Church, died in East Boston, Wednesday morning, aged 68.

GOLD, Wednesday, 146 1-2.

— The Mobile Times, announcing that a Southern publishing house is about to be established in New Orleans, expresses the opinion that "it will aid the South in getting rid of the heavy tax it pays to the North in the way of literary productions, the most popular of which are due to Southern pens!"

— William Stetson, esq., a survivor of the Dartmoor prisoners, now eighty years of age and in vigorous health, is at present engaged in the Boston and Sandwich Glass Company's Works, where he has devoted about forty years of his life.

LET BEEF-EATERS REJOICE.—The cattle market has got a "black eye," and prices are strongly and steadily sinking downward. Within a year beef cattle have sold in this market at from 19c to 22c per lb; yesterday the price of average beef was only about 14c., while the prospect is that the market will be much worse for sellers before it is better. At least, such is the calculation of the oldest and shrewdest dealers.—*N. Y. World, 23d.*

Holloway's Pills and Ointment.—Erysipelas—These deservedly popular medicines have met with astonishing success in the cure of erysipelas, king's evil, ring worm scurvy, scrofulous eruptions, and all inflammatory diseases of the skin. Other preparations may afford a temporary relief, but the combined action of these remedies will by their detergent and purifying properties effect a radical cure in the blood and system. Sold by all Druggists. o27—dawlw

DEAR READER—Would you have your food set well upon your stomach, your digestion regular, and no trouble from sick headache, sour stomach, constipation; in short, would you be cured of Dyspepsia? then use Coe's Dyspepsia Cure. It is certain remedy in all such cases.

Dr. Schenck's

NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street**, Boston, where he will be professionally every WEDNESDAY from 9 to 3. Every person complaining with Consumption or any disease leading to it, are invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part, also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint.

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

REASONS WHY THE

AMERICAN WATCH,

MADE AT WALTHAM, MASS.,

IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "anchres," "lepines" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

AGRICULTURE.—The returns to the Department of Agriculture state that the corn crop has deteriorated, from early frosts and excessive rains, but the quantity is larger than ever. The yield of wheat is about 143,000,000 bushels, showing a small decrease, which is fully compensated by the quality of the grain. This is 10,000,000 bushels more than the crop of 1859. The diminution in the South is most apparent. The estimates point to less than 17,000,000 bushels in eleven States heretofore unreported, a fraction less than five-tenths of the crop of 1859.

The California wheat harvest is excessive. In 1860 the product of that State was nearly 6,000,000 bushels. Now the surplus for export will nearly double that quantity. It is evident the entire wheat crop will exceed by several millions that of 1859, when the yield was reported at 173,104,924 bushels. Then there were five and a half bushels to each inhabitant. In 1866 the estimates point to five bushels to each inhabitant. There is no ground, then, for apprehensions of a scarcity, and little excuse in the amount of the crop for starvation prices.

The yield of oats is extraordinary, and the quality excellent. The indications point to an increase of from 171,497,072 bushels in 1859, to 271,912,695 in 1866. It is the only crop in the South that manifests an equality with its last census exhibit.

Hay is less in quantity than in the previous year, by from one to two-tenths, but is better in quality.

As Bayes, whose cup with poverty was dash'd,
Lay long in bed while his one shirt was wash'd,
The dame appear'd, and, holding it to view,
Said: "If 'tis washed again, 'twill wash in two."
"Indeed," cried Bayes; then wash it, pray, good cousin,
And wash it, if you can, into a dozen."

— A young lady, only the other day, asked me: "What is your favorite flower?" As she was a fashionable lady, I supposed of course, she referred to household matters, and innocently answered "extra family." For some reason or other, all the females in the room set up the endless giggle they are so famous for.

— "Mary, who died for you?" asked a parson of a blooming sweet sixteen. "Nobody as I know on," was the prompt reply. But the parson repeated with zeal, "Mary, I say, who died for you?" Mary was irritated, but replied, "Why, nobody, sir; there was Bob Dawson lay bed-rid for me about six months, but folks say he got up again."

— It is supposed by some that the Prince of Wales visited this country in part to obtain a package of Herrick Allen's Gold Medal Saleratus. Whether he did or not, it would do honor to the Queen's table to have as nice light Biscuit as that article always makes. If any one has any doubts on that subject, go to your Grocer and get a paper immediately, and find of a truth that there is nothing like it. Everybody sells it. 49

The Camp, the Battlefield, and the Hospital,
Or Lights and Shadows of the Great Rebellion.

There is a certain portion of the war that will never go into the regular histories, nor be embodied in romance or poetry, which is a very real part of it, and will, if preserved, convey to succeeding generations a better idea of the spirit of the conflict than many dry reports or careful narratives of events, and this part may be called the gossip, the fun, the pathos of the war. This illustrates the character of the leaders, the humor of the soldiers, the devotion of women, the bravery of men, the pluck of the heroes, the romance and hardships of the service.

The volume is profusely illustrated with over 100 engravings by the best artists, which are *vividly beautiful*, worthy of examination as specimens of the art. The book's contents include reminiscences of camp, picket, spy, scout, bivouac, siege, and battlefield adventures, thrilling feats of bravery, wit, drollery, comical and ludicrous adventures, etc., etc.

Annuitants as well as instruction may be found in every page, as graphic detail, brilliant wit and authentic history are skillfully interwoven in this work of literary art.

This work sells itself. The people are tired of dry details and partisan works, and want something humorous, romantic, and startling. Our agents are making from $100 to $200 per month, clear of all expenses. Send for circulars, giving particulars, and see our terms for agents of the above assertion. Address NATIONAL PUBLISHING CO., 118 Water Street, Boston, Mass.

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street, BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Inventions made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claim of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* to prosecute a patent, and more capable of putting their applications in form to secure them as early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such uniform success of a great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

During eight months, the subscriber, in one of his large practice, made on *twenty-rejected* applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

MONTGOMERY'S
MUSIC, PICTURE FRAME, AND VARIETY STORE,
10 1-2 Daniel Street,
(Over Miss Beal's Dry Goods Store.)

The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Stools, Covers, Sheet Music, Flutines, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.

PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.

PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.

Having made arrangements with Prof W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M. Guild & Co. The superior merits of the former have too long been established to need any comments. Of the latter, suffice it to say that the sale of over fifty of them within the last five years in this City, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.

Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof. Day. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman.

GEN. GRANT.—Burleigh, the New York correspondent of the Boston Journal, gives the following interesting paragraph about General Grant and the Presidency:

A gentleman of this city, an intimate personal friend of General Grant's, called on him in Washington not long since. His purpose was to get the influence of General Grant with the President in relation to an office in the city. Gen. Grant told him frankly that his name would be of no service to him, but an injury. He said he had solicited very few favors of the President, and to them no favorable response was returned. He said that one day Mr. Johnson spoke with him in relation to it. He said to Gen. Grant: "You say that you are not a candidate for the Presidency. Now promise me," said the President, "that you will not let your name be used in connection with that office, and I will grant you any favor in my power to bestow." To this Gen. Grant replied: "Mr. Johnson, I am not a candidate. But suppose the people insist upon making me one, what can I do? And besides, Mrs. Grant has been recently looking at the White House, and thinks she can run that establishment quite as well as it is run now. And you know, Mr. President, that these women will do pretty much as they please. And Mrs. Grant would decidedly object to my giving any such promise." The President looked as if he did not understand exactly whether this was in jest or in earnest.

— A letter from a rebel section of Missouri says:

"As for politics I cannot say much. Nine-tenths of the people here were rebels. How it has contrived to establish the new constitution in this state is more than I can imagine. The rebels talk of having another war. Last year while I was here, they were a lot of very humble individuals; now they are rampant. Every man carries a revolver for personal security. What the result will be, I cannot foresee."

GEN. LOGAN ON COPPERHEADS.—The following is an interrogatory put by a Copperhead to Gen Logan during one of his speeches in Indiana, and the answer:

Cop.—"A few years ago, when you was a Democrat, the Republicans called you 'Dirty-Work Logan;' are you doing the dirty work for the Republican party now?"

General Logan—"Yes, sir; I am skinning Copperheads, and it is the dirtiest work I ever did; but it has got to be done."

— The J. Monroe Taylor Gold Medal Soap has acquired pre-eminence over all other soaps, in point of economy and utility, from the wash-tub to the printer's devil. It is without doubt the best soap made; it has many inferior imitations, but no rivals, and can be safely said to be ahead of all others. 24

Morning Chronicle.

Portsmouth N. H.

FRIDAY, NOVEMBER 2, 1866.

WASHINGTON ITEMS.—The Boston Advertiser's Washington correspondent, under date of Wednesday, gives some items of interest in New Hampshire.

It is understood that upon the recommendation of the Hon. Edmund Burke, Col. J. F. Marsh is, to-morrow, to be appointed Pension Agent at Manchester, N. H., in place of David Cross. Mr. Burke has been here for a fortnight. Dr. Kittredge and the New Hampshire War Democracy and also the Frank Pierce Democrats, have yielded the leadership of the Johnson Republican-Democratic party of that State to Mr. Burke, who has recommended appointees for nearly every important office in the State, and expects to make a clean sweep before long.

Judge Pearson of Nashua, N. H., Chief Clerk of the Pension Office, has been removed, and Mr. James A. Morgan of Ohio, appointed in his place.

Applicants for office and their friends still continue to urge removals and appointments in the States where elections are pending, on the ground that without such action there is little chance of success of the Johnson Democracy. This plea is however, of little avail now, as the near proximity of the elections leaves small opportunity for such action to affect the result either way.

Gens. Grant and Sherman had a long interview with Secretary Stanton to-day. It is inferred from this that the ill-feeling which existed between the Secretary and Gen. Sherman has been done away with.

At the close of business to-day there were nearly one hundred millions of gold held by the Treasury, about fourteen millions of which is held on gold certificates. Thursday the Treasury commences the disbursement of twenty-four millions for interest on the Five-Twenties.

The Secretary disavows any intention of disposing of any portion of the Government gold except for legitimate government disbursement.

GOV. SWANN, of Maryland, as he resolved from the first, has removed the Police Commissioners of Baltimore, and will call upon Pres. Johnson for military force to carry his point, if needful, so that he himself may be sent to the U. S. Senate! The excitement in Baltimore is said to be very great.

MARYLAND.—Judge Magruder, of the Maryland Circuit Court of Appeals, has decided that a negro cannot testify in a case where a white man was concerned. This decision will have the effect of overruling the decision of the district courts. In Calvert county there are no schools, all the colored children being held as apprentices, and the parents have no control over them. Numerous complaints continue to be made by parents who wish to recover children apprenticed illegally.

☞ Early Thursday morning Pierce's nail and heel plate factory at Milford, Mass., was wholly consumed by fire. The fire communicated to the Boston and Worcester railroad freight house, which was destroyed with its contents. Pierce's loss is $40,000; insured $15,000. The railway loss is estimated at $8000. The fire was discovered in a corner of the building where no fire is used, about three o'clock in the morning, and was undoubtedly the work of an incendiary.

THE EVENING STAR DISASTER.—Capt. Mew, U. S. Inspector of steamers, has concluded his investigation into the cause of the disaster to the Evening Star, and attributes it to her being short-handed. She was a strong and safe boat in every respect, and had her crew been of the proper number, would probably have been kept afloat; or, if not, a full crew would have manned her boats, and in that way assisted to save many who were lost. The boats were large enough to carry all on board, but something more effective than ordinary boats is required to float a ship-load of men and women in a furious gale. A large number of cork jacket life-preservers were on board, but it seems they were not generally used. The passengers supposed them too cumbersome and not very valuable, but all the persons who were saved in the boats owed their lives to these preservers.

CHURCH SACKED BY FENIANS.—A Toronto dispatch says that the Episcopal Church at Brantford was entered by a party of Fenians immediately after the receipt of the news that Colonel Lynch and Rev. J. McMahon was sentenced to be hanged. The windows were smashed and the pulpit demolished, while a party of men promenaded the streets cheering for President Roberts and General Sweeney.

—— There was quite a fall of snow in the northern part of Maine last Friday, and at Canaan it fell to a depth of three inches.

—— Joseph S. Floyd, who was discharged from the New Hampshire State Prison last Saturday, has been arrested for robbing the store of Bussell & Sawyer at West Andover. He got as far as Concord, with several boxes and packages of the stolen goods, when his true character was discovered.

—— The Manchester Mirror mentions the serious illness of Dr. Tebbetts, and says a consultation was held by Drs. Crosby and Buck of Manchester, and Dr. Moore of Nashua, in regard to the case of Dr. Tebbetts. They pronounce his difficulty that of lead disease, and consider him in a very critical condition.

[We hope they will tell the public how the lead was used, that the case may be understood.]

—— Jeremiah Wiggin of Ossipee, who had been tried during the present term of the Supreme Judicial Court, for breaking into the store of Charles P. Cook of Tamworth, and stealing goods therefrom, and acquitted, was again arraigned on Friday afternoon for stealing sheep, plead guilty, and was sentenced to State Prison for five years. This is his second term in this institution. Wiggin had a brother discharged from prison last week, and expressed himself as desirous of keeping up the reputation of the family.—*Wolfeboro' News.*

REV. SYLVANUS COBB, D. D. who died at East Boston on Wednesday, was born in Turner, Maine. He studied for the ministry with Rev. Sebastian Streeter. He became pastor of the Universalist Society at Malden thirty-eight years ago, remaining in that office ten years. In 1838 he started the Christian Freeman, and he served as editor thirty years. His literary labors comprise besides numerous pamphlets, "The Compend of Divinity," "Discussions" with Hudson and Adams, and a "Commentary on the Testament," a large octavo. He was for many years a leader in the Temperance cause, and was identified with the anti-slavery movement, and has long been considered as one of the ablest theologians of the Universalist faith. As a citizen he was respected and esteemed by all who knew him. He was 68 years of age.

DEFALCATION IN NEW YORK.—A New York dispatch says George Calvert, a clerk in the employ of C. C. Parks, absconded with $40,000 in gold checks belonging to his employer; $10,000 of the amount has been cashed, and payment on the rest has been stopped.

— The Montreal Witness says the Grand Trunk Railway is in a bad condition east of that city. Rails are unfastened, lips of chains are broken off, and the ties rotton. There are no rails at the repairing shops along the line to replace these rails, and but few ties to replace the rotton ones.—This is owing to the fact that the earnings of the road are insufficient to pay the interest, and repairs are neglected.

— A cooper who was in need of hoop-poles beset a man to furnish him with some. "Where'll I get 'em?" questioned the man. "Anywhere; steal 'em, if you can't do better." The hoop-poles were furnished and paid for, when the cooper happened to inquire of the seller where he got them. "Stole 'em, as you told me to do," was the answer. "Where did you steal 'em?" Oh, up in your woods," returned the man, jingling his pockets.

— The last resort—a grave-yard.

THE APPLE SWINDLERS.—Two or three weeks ago (says the Manchester Mirror) agents pretending to represent Boston houses visited most of the towns in this part of the State for the purpose of buying apples. From $4 to $5 were the prices generally agreed upon for good Baldwins. It was generally looked upon by those having fruit to sell, as a good chance to dispose of it. And it was to those who were shrewd enough to require the money to be paid before the apples were moved. Immense quantities were purchased. Apple agents and their principals soon discovered that the crop in this State was proving to be very much larger than was anticipated, and that the supply was already glutting the home market.

And further, that there was a fair prospect that the prices they had been paying would not be realized upon the second sale. The result was that dodges were resorted to, to relieve themselves of the contracts they had made. In some instances a second visit was made, ostensibly for examining the apples, when a uniform decision would be immediately arrived at, to the effect that they were not of as good quality as expected, and refuse to take them. In cases where they were to be delivered at specified times, where the buyer would be ready with the money, the purchasing party did not appear, so that the owners of apples had either to carry them home again or throw them upon an already glutted market, at low prices.

Another still meaner game has been practiced at the the freight depot there. When parties would arrive with their apples, no one could be found knowing anything about them. But presently a man would appear who pretended to know all the operations of the men who engaged the apples, that they had left and would not be heard from again; but that he himself was in the business and would take what they had at $3.50 per barrel, and we hear of several parties that accepted of the proposition. There is not the least doubt but this last buyer was in league with the first? They calculated that after a farmer got in here—coming, in some instances, a dozen miles—he would be glad to sell at some price, when he found that his expectations were not to be realized as per contract. So, taking advantage of this, considerable quantities have been obtained at less than the market price. It was a mean trick, to say the least.

MEXICAN AFFAIRS.—Advices from the City of Mexico to Oct. 2 have been received. The news of the mental disease of the Empress Carlotta had been received from the Mexican Minister in Europe. A solemn service had been ordained by the ecclesiastical authority in the cathedral and other chief churches, invoking the assistance of heaven in her behalf. Her disease is styled brain fever. She had been conveyed to the palace of Miramar. The last dispatch respecting her condition, dated Oct. 12, gave a bare hope of her recovery.

The Emperor had been sick of intermittent fever.

The condition of Mexico was no better, though the Imperialists had been successful in all the engagements mentioned. Diaz had possession of the city of Oaxaca, but the fortified places were in the hands of the Imperialists, who were expecting reinforcements.

ANOTHER EUROPEAN CROWN IN DANGER.—The late proceedings at the Hague, such as the dissolution of the Lower Chamber, and the publication of a manifesto from the King to the electors, are considered by the Paris *Avenir* as fraught with danger to the monarchy in Holland.

CALIFORNIA.—There was a tragedy in a boncoop yard at Hornitos, Mariposa county. Mr. Hall caught a Chinaman stealing his chickens, and seizing him by his tail of hair, twisted it around his neck and hung our; Chinaman got Mr. Hall's thumb in his mouth, and hung on. Result, Chinaman was choked to death, hung by his own hair, and Hall fainted from the pain to his thumb, and both were found lying together on the ground, the one dead, the other insensible.

— A young gentlemen, dressed in the most fashionable and faultless style, was standing on the steps the other day, picking his teeth and digesting a comfortable dinner, when a stranger, just from the cars, stepped up and politely inquired if he could stop there?" "Stop where?" inquired the young man puzzled at the inquiry. "Here in the city—in Hartford?" "Oh, I suppose so—why don't you inquire at the hotel?" "Excuse me sir," replied the stranger, "I thought you owned the place!"

— It is said that an engineer and a compositor in Leipzic have constructed a printing machine, with seven cylinders, each producing 2000 copies an hour. Also, that Mr. Marinorie, of Paris, has made a newspaper machine that will turn off 10,000 copies an hour. Hoe's prints 20,000, but two of the new machines can be bought for 80,000 francs less than one Hoe. The cost of working these two is estimated at 10,800 francs less per annum than for one Hoe.

Invites the Ladies of this city to call on her, at
No. 50 Congress Street,
AND EXAMINE HER PAINTINGS.
A member of the class at Augusta, Me., says, "I have never been half as much delighted with any accomplishment."
From Brooklyn, L. I., a lady writes—"I have never painted before, and the knowledge of colors and proficiency in their use which I have acquired in one course of lessons is equally surprising and gratifying to myself and friends."
"The Photographs colored for me by Mrs. Coll, two years ago, remain unchanged—as beautiful and perfect as ever?"——is the testimony of a resident of Providence, R. I.
"Mrs. Coll has been the most acceptable artist in Water Colors ever in this city.
N. D. MORGAN, Norwich, Conn."
"From my long acquaintance with art and study of Painting in Italy, I feel qualified to judge, and willingly assure those interested that Mrs. Coll is a true Artist and accomplished Teacher. Her tuition I made great progress in a little time. LUIGI DAMA.
Room 6, Chickering Building, Boston, Mass."
The peculiar methods which Mrs. Coll teaches she will guarrantee to impart thoroughly and satisfactorily in one course of lessons. AMERICAN LIFE DROPS!
FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.
For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that
"IT ALWAYS CURES."
Read the following, which is only a specimen of the many letters we are daily receiving:
"BOSTON, Mass.
"ORRIN SKINNER & Co.—*Sirs:*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow; his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved, and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a few days. Since this, I let my brother, a physician, have part of mine with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDRIDGE."
The Life Drops are carefully prepared by

PERRY DAVIS' PAIN KILLER.
Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and molasses, and a gill of hot water. Stir well together and drink hot. Repeat the dose every hour until relieved. If the pains be severe, bathe the bowels and old with the medicine, clear.
Fishermen, so often exposed to hurts by having their skin pierced with hooks and fins of fish, can be much relieved by bathing with a little Pain Killer as soon as the accident occurs; in this way the anguish is soon abated. Bathe as often as once in five minutes, say three or four times, and you will seldom have any trouble. ni dawlm

Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES.
These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world for the cure of nature. They compel the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions accompany them, by which they may be used, and explaining when and why they should not, nor could not be used without producing the consequences they are chosen to avoid. Will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. Price $1.00.
Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn.; who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. Price $1.50 per bottle.
Sold by Druggists everywhere.

Hygienic Wine.

Approved by the Imperial School of Medicine, Paris.

Tested by the Committee on Chemistry of the American Medical Association, at their Convention, held in Baltimore, May 1st, 1866, and endorsed by its most prominent members.

This *IMPORTED* Tonic, recommended by the most eminent Physicians, is prepared in Paris from

PURE SHERRY!

Admits in its composition only Tonic, Aromatic, and Febrifuge substances. It *replaces* with a great superiority all other Bitters, which have for a base, nothing but Alcohol or inferior Whiskies. It is richer than any other Bitters

Aromatic and Balsamic Principles,

and its taste is exquisite. Its soothing effects on the NERVOUS FEVERS is most astonishing for, while it gently exhilarates, by re animating the functions of the DIGESTIVE ORGANS, and dissipates Languor, by gently refreshing and stimulating the brain, giving a healthy tone to the whole organism, it leaves behind none of the baneful influences that follow Alcoholic stimulants.

HYGIENIC WINE

is moreover

MOST DELICIOUS TO THE TASTE,

Possessing wonderful virtues in all cases of Dyspepsia and DEBILITY, and moreover is unexcelled as an

Appetizer,

IT IS NOT INTOXICATING IN THE LEAST.

MUSCAT PERLE, (Imported)

is a rare fine Wine of most delightful flavor. It is the Pure Juice of a Most Delicious and generous GRAPE, and surpasses in excellence *any Table Wine in the Country.*

All who are solicitous about obtaining a *pure* and a superior Wine, will be delighted with

"Muscat, etc."

☞ Church people are solicited to examine this Wine for communion purposes. A Communion Wine should be *above all things* PURE! In the second place it should be MILD. "Muscat Perle" combines these two most essential qualities, and a trial will convince any one of its superiority over all other wines at present in the market.

These Wines are sold by all respectable Druggists and Dealers.

MESSRS. J. S. HARRIS & CO.:—

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION. I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption. It causes the phlegm and matter to raise, without irritating those delicate organs (the lungs), and without producing constipation of the bowels. It also gives new strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state

Yours respectfully, A. J. SCOVILL.

COUNTERFEIT MONEY.—We observe in the Boston Journal's special dispatch from Washington, that in a package of $445, in fractional currency sent to the Department for redemption, $225 of it was found to be counterfeit. The proportion of counterfeit scrip to genuine in circulation in this State six months ago was in about the same ratio as the above, in fact it had been stated that there was more counterfeit money of all kinds passed in New Hampshire than in any other New England State. About five months since a Detective officer was appointed by the Treasury Department to make the detection and punishment of counterfeiters a speciality. We are not in the confidence of the officer's movements in that line, but we know that two of the ringleaders in the business are now in the State Prison at Concord, and the "King Koniacker" has forfeited his bail and fled the country, and that several others are now under arrest awaiting trial. We also know from our own observation and from communication with business men and our bankers that the amount of spurious money now in circulation in this vicinity has been very much reduced of late. Whether this has been effected by the efficiency of the officer of the Department or not, we leave the public to opine. We think it has.

CITIZENS' LYCEUM ASSOCIATION.—Judging from the attractive list of Lecturers in the advertisement of this association, we are to have a course of lectures the coming season that will compare with any course ever given in this city. The names of Ex Gov. Boutwell and Anna E. Dickinson should be enough to sell all the tickets,—without the names of Dr. Bellows, Geo. W. Curtis, Wendell Phillips and others, which are added. Those wishing tickets should secure them immediately, as but a limited number have been issued.

☞ The husking party at the Atlantic House, on Wednesday evening, was a most enjoyable affair, but we fear the visitors from the city, devoted themselves more assiduously to having "a good time" than to shucking the corn, for they're all loud in their praises of the supper and the dance.

POLICE COURT, Nov. 1.—Wm. F. Rand, for making a brawl and tumult, was fined $3, and costs $4.80. After a long season of inaction, the Court has "started up" on this case, but our citizens must congratulate themselves on the long respite they have enjoyed from anything like disorder.

☞ We learn that Mr. Chas. E. Pierce, who has been connected with the Engineer's Department at Fort Constitution, is about removing to Cincinnati, Ohio, where he will have a salary of $2000 per year.

☞ We understand that Gen. O. O. Howard has signified his acceptance of an invitation to lecture before the Citizen's Lyceum Association.

☞ We are indebted to Mr. J. H. Slater, of this city, for the Glasgow (Scotland) Herald. A pleasant trip and a safe return to him.

☞ Auct. Chapman sells bark and hay, (the cargo of a wrecked vessel,) at Kittery Point, this morning.

☞ In Prague, Austria, last Saturday evening, an attempt was made to shoot the Emperor Francis Joseph as he was leaving the theatre. The culprit aimed a pistol at the Kaiser, but before the ball was fired he was seized by an Englishman and placed under arrest.

☞ Beadle's Monthly for November, is received. "Progress" is the publishers' motto, and this number shows that they make it. For sale at Batchelder's.

☞ A match factory, to employ from 150 to 200 hands, has just been started in Portland. No good reason exists for the absence of such enterprises in our midst.

☞ A dispatch from New Orleans says a number of radicals have left in expectation of a riot.

☞ Senator Wright, of New Jersey, died on Thursday morning, at Newark.

☞ Rumors prevail on the frontier of a new invasion of Canada.

One of Mason & Hamlin's celebrated CABINET ORGANS may be rented or purchased of A. PEARSON, 30 Hanover street.

Dr. Schenck's

NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street,** Boston, where he will be professionally every WEDNESDAY from 9 to 3. Every person complaining with Consumption or any disease leading to it, are invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part, also whether it is Tubercul ous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

REASONS WHY THE

AMERICAN WATCH,

MADE AT WALTHAM, MASS.,

IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. No jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "acres," "lepines" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is as simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

"THE SOLDIERS' FRIEND!"—We stated some days ago, the removal of a one-legged soldier from the post-office in Jacksonville in Illinois. The President has just had a one-armed soldier removed from the post-office at Greenville, Ohio. Mr. Johnson professes great admiration for Union soldiers, but all office holding soldiers that cravenly indorse "my policy," or off go their heads. As Union soldiers are not craven, they won't do it.—*Ex.*

THE BOSTON STATE HOUSE.—The State House at Boston, is to be thoroughly remodelled. The inside is to be torn out, a French roof substituted for the present one, and the entrances changed. Part of the lower floor is to be rented for insurance offices.—*Philadelphia Ledger.*

This is new to Bostonians. On Tuesday next the people of this State propose to grant Governor Bullock lease of the State House another year, and though the Democrats propose to tear out the inside of the edifice, they will congratulate themselves if they send two or three botchers to tinker the laws. The Insurance Commissioners will continue to occupy the basement. It is the old State House, at the head of State street, which is to be improved.—*Boston Journal.*

A SINGED HUNTSMAN.—The Philadelphia Gazette says a man by the name of O'Rourke on Saturday undertook to go shooting. In reaching for his powder flask he dropped it into a tub of water. He poured the powder into a frying pan and fried it over the fire. The result may be easily guessed at. Mr. O'Rourke was blown into the yard, with his head so singed that he looked like a prize fighter. Luckily for him he received no injury except his hair, beard and eyebrows were taken off as closely as if by a razor.

—A Nevada correspondent of the Boston Daily Advertiser says:

I have seen Indians, ever since I entered Nevada, at work at all kinds of manual labor,—in the field winnowing the grain, digging potatoes, and sawing wood; the females washing clothes or assisting in culinary operations; the boys engaged in taking care of the stock, herding and driving the cattle, horses, &c., until I have become perfectly convinced, not only that Indians will work, but that they do work; and I have found at least one instance where they have worked steadily and regularly for years.

—A gentleman who takes a business view of most things, when recently asked respecting a person of quite a poetic temperament, replied: "Oh, he is one of those men who have soarings after the infinite and divings after the unfathomable, but who never pays cash."

AGENTS WANTED
TO CANVASS

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually.
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of the practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in with the most eminent Physicians and Specialists of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, after failure of many to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Skin Bones, Cutaneous Eruptions, Blotches, Pimples, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested by more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of married life, should call first in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in about every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the decision of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which he treats.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichon's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
Caution.—Married ladies in certain delicate situations should avoid these pills, for reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) they will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 6 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed, from observation, sent to any part of the world. All cases warranted. No charge for advice.
N. B.—No students or boys employed. Notice this, address all letters to

Agents Wanted For
The Camp, the Battlefield, and the Hospital, or Lights and Shadows of the Great Rebellion.
There is a certain portion of the war that will never go into the regular histories, nor be embodied in memory of poetry, which is a very real part of it, and will, if preserved, convey to succeeding generations a better idea of the spirit of the conflict than many dry reports or careful treatises of events, and this part may be called the gossip, the fun, the pathos of the war. This illustrates the character of the leaders, the humor of the soldiers, the devotion of women, the bravery of men, the pluck of our heroes, the romance and hardships of the service.
The work is profusely illustrated with over 300 engravings by the first artists, which are *really beautiful*; worthy of examination as specimens of the art. The work contains thrilling incidents of camp, picket, spy, scout, bivouac, siege, and battlefield adventures; thrilling feats of bravery, wit, drollery, comical and ludicrous adventures, etc., etc.
Amusement as well as instruction may be found in every page, as graphic detail, brilliant wit and pathetic history are skillfully interwoven in this work of literary art.
This work sells itself. The people are tired of dry details and patriotic works, and want something humorous, romantic, and startling. Our agents are making from $100 to $200 per month, and we offer the same chance to others. Send for particulars, and see our terms and proof of the above assertion. Address NATIONAL PUBLISHING CO., 118 Water Street, Boston, Mass.

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, and Solicitor of Patents,
78 State Street, opposite Kilby Street, BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions. Opinions on the law gratuitously rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through its extensive advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not unequalled by any other agency, which can be offered them elsewhere. The Testimonials below given, prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate. The immense practice of the subscriber during twenty years, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person more *competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me TWELFTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such success is the proof of great talent and ability on his part leads me to recommend my friends and others to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his *favor*, by the Commissioner of Patents.

Portsmouth, Sept. 17, 1866.—tf

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 1 and 2 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capottes, warranted the best preventive. Order by mail. Three or $4 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

The Chronicle.

A CHRISTIAN PATRIOT.—Rev. Dr. Hosmer, President of Antioch College, told the following story in a speech at Syracuse: "A young clergyman, who was settled at Yellow Springs when the war broke out, raised a company, mostly in his own parish, and marched with it to the field. For brave and meritorious conduct he was raised to the command of a regiment. At the end of the three years he came home with his men, re-enlisted and went back. He was soon promoted to the rank of a brigadier, and it was his brigade that broke the enemy's centre in that terrible engagement near Nashville, thereby saving the city. When the conflict ended the people wanted to send Gen McConnell to Congress, but he would not go. Then they offered to make him Judge of Probate, but he would not take that office. He said: 'I was a minister when I went to the war. I was a minister while I was in the war, and I mean to be a minister while I live.' He has resumed his work at Yellow Springs, and every Sunday I sit, with edification, under his direct and earnest preaching."

CONGRESSMAN CULVER.—Charles V. Culver, present Republican member of Congress from the twentieth Pennsylvania district, who was sent to jail some months since on account of indictments and charges connected with the failure of the banking house of Culver, Penn & Co., of which he was the senior member, is still in jail, awaiting his trial in November. He has all along refused to avail himself of his Congressional privileges in regard to arrest and imprisonment. Indeed he went to jail voluntarily, and will quietly wait the results of the law. His house and furniture have been sold for the benefit of his creditors, and his wife is with him in jail. Few men have had a more sudden transition from princely wealth to complete poverty than has Mr. Culver. His case is a marked example of the fortunes quickly made, and more suddenly lost, by the rapid fluctuations in values in Pennsylvania oil regions.

— A writer, dwelling upon the importance of small things, says "that he always takes notice even of a straw, especially if there happens to be a sherry cobbler at one end of it."

— More than one-half the diseases of the human system are caused from the use of impure Breadstuffs; and as Saleratus and Soda are the essential properties for using, it becomes doubly necessary to be watchful.—Herrick Allen's Gold Medal Saleratus is the only perfectly healthy article to be relied upon. Try one paper, and you will be convinced what we say is true. Never use Soda if you can procure this article. Go to your Grocer and get a paper. Depot 112 Liberty Street, New York. 50.

Morning Chronicle.

Portsmouth N. H.

SATURDAY, NOVEMBER 3, 1866.

☞ In the Georgia Legislature the Governor's message strongly opposes the adoption of the Constitutional Amendment, and says the Amendment is equally novel and unjust. He computes the funded debt of the State at $5,840,000. He says the planting interests of Georgia can never be what they once were. He deprecates the oppression of the debtor class. The Speaker of the House opened the session with a speech, opposing the Constitutional Amendment, which was received with applause.

[All amendments must be *novel*—but how it can be *unjust* to make things equal, it is difficult to see. The rulers of Georgia must come down off the high horse, or else stay out for the present.]

THE SHERMAN LETTER.—After all the Johnson boasting about the letter from Gen. Sherman, which was said to indorse "my policy," it turns out that the letter was written last February, probably before the famous 22d speech, and certainly before the veto of the Civil Rights and the Freedmen's Bureau bills, the Philadelphia Convention, the Presidential tour and the whole swinging round of the Johnson circle. When the letter was written President Johnson was pretending that his policy was merely an experiment, to await the judgment of the people's representatives—it had not become the most offensive illustration of the "one man power" which has ever been seen in our national politics. Truly, the Executive faction must be hard up for indorsements when they can make such an ado about a letter written nearly nine months ago. The President might as well claim his own nomination for the Vice Presidency two years ago as an indorsement of his present attempted betrayal of his party.

HOMES FOR THE POOR.—The Tribune says that Mr. A. T. Stewart has decided not to erect the houses for the poor of New York on the lands offered by a wealthy citizen for that purpose. He will accept aid from no source whatever, but will himself prosecute the project to completion at an expense approximating nearer $5,000,000 than $1,000,000. A well known and expert architect has been consulted, and the noble work of providing homes for the industrious poor is to be commenced at an early day and prosecuted with energy.

MEXICO.—A letter from the Mexican Capital announces the defection of a regiment of Mexicans, organized with Austrian officers, who mustered out all of the latter and went over to Porpirio Diaz at Oajaca. The Austrian band at the Capital had ceased to give open air concerts because of the riotous conduct of the populace. The Emperor, by reason of sickness and distress of mind as to the health of the Empress, had shut himself up in the Castle of Chepultepec. His early abdication was expected.

EUROPEAN ITEMS, Oct. 31.—The Emperor Napoleon has informed the Empress Carlotta that she had better tell Maximilian to cede two of the provinces to the United States in order to consolidate his rule in Mexico.

The Pope has delivered an allocution condemning the conduct of Italy, declaring that he is ready to die in defense of the right, and that in case of need he will seek the free exercise of his ministry in another land.

The Turks claim great victories over the Christians in Candia. In a hard fought battle near Oressa the Cretans lost 700 men, while the Turkish loss was very heavy. Three thousand Cretans had been lost in a cave where they had sought a hiding place and refuge, the tide rising and submerging them. Large submissions were being made by the Christians to the Turkish authority.

☞ On Thursday, the Supreme Court of Indiana, by a unanimous vote, decided that the 13th article of the State Constitution, called the "black article," which forbids negroes coming into the State, to be in conflict with the Constitution of the United States, and void.

☞ At Columbus, Ohio, Nov. 1, Michael Duffy, Charles Anderson and George Wells, who robbed the depot room of the Adams Express Co., at Newark, Ohio, in August last, plead guilty, and were sentenced to the penitentiary for ten years.

☞ On Monday, at Charleston, S. C., a block of buildings on King street, were destroyed by fire. Loss $100,000. Insured for about one-half.

☞ The Dover Enquirer has made a typographical "bull." It mentions Mrs. D. C. Hall as "author of that delightful ballad —'*Biddie* looking out for me.'"

RECONSTRUCTION.—A Northern preacher was mobbed recently at Harrisburg, Virginia, for "creating a disturbance among the negroes." He had set the black people to praying and scared the cowardly knaves out of their ragged old boots.

GOLD, Friday, 146 7-8.

NEW HAMPSHIRE ITEMS.

—— The house of Mr. Thomas Straw of Campton, was burned with nearly all of its contents on the night of the 29th ult. Loss severe and no insurance.

—— The tin shop and tools of C. S. Hayden of Gorham, were consumed by fire on the night of the 27th ult. Insured $1075.

—— In the S. J. Court, at Concord, Nov. 1, the jury in the case of Richard M. Ordway vs. Dr. Timothy Haynes, (in which the plaintiff sued to recover $10,000 damages for alleged malpractice in setting plaintiff's broken leg,) the jury rendered a verdict for plaintiff, $2091. The trial occupied thirty days. A motion to set aside the verdict has been denied, and defendant's counsel propose to bring a writ of review.

PUBLIC PRINTING.—A Washington correspondent says:

Mr. Cornelius Wendell, Superintendent of Public Printing under Buchanan and Johnson, is now in New York, engineering some private political business of the President's. Meanwhile the business of the public printing is badly neglected, as it has been hitherto, to the benefit of Presidential schemes and individual axes. This, though no news to Congress, will no doubt add the heaviest straw to its determination to make the office of Public Printer an elective one, not to be conferred by the President as a convenient sinecure for a tool of any sort, but by the vote of Congress. It is believed that one of the first local duties of Congress at its next session will be the choice of a Public Printer; and if the office is given to Mr. Defrees, as it probably will, rest assured it will be intelligently managed, and not neglected for the pot house.

On this, the Tribune remarks:

We are glad to see that it is proposed to make the office of Superintendent of Public Printing an elective office on the part of Congress. We hope that Congress will elect a person who is a good printer, who will stay in Washington and attend to his business, and not hang around New York taverns and Tammany Hall, doing the dirty work of Andrew Johnson, and the Democratic party.

THE AMERICAN FARMER.—The November number of this monthly is received. The Market Report, is reported specially for its columns, by S. E. Todd, of the N. Y. Times. All new subscribers received during this month, for 1867, get the last two months of this year, free. Price $1 a year. Address, John Turner, Publisher and Proprietor, Rochester, N. Y.

— On Friday last a farmer named Jenkins, who had sold a lot of cotton in Memphis, was seized by the throat as he was about to step on board the cars for home, his pocket ripped open and $1400 abstracted before he could call for help. When he did call the thieves could nowhere be found.

— A young lady residing in Lansing, Michigan, was stung on the forehead by a honey bee, in August last. The poison of the sting caused a severe swelling, and so prostrated her nervous system as to confine her to bed, and eventually caused her death on the 16th ult.

— A Paris correspondent says the Empress Carlotta's malady commenced on her voyage from Vera Cruz to St. Nazaine, when she constantly talked of the immense responsibility she had assumed. In her interview with Napoleon she lost control of her self-possession and became violent and disrespectful. The first subject, however, that distracted her mind was the impossibility of her using the money bequeathed to her by her father in behalf of the consolidation of the Mexican Empire.

NOT GUILTY BY REASON OF INSANITY.—Samuel W. Frost was tried last week, at Ossipee, in the Supreme Court, before Judges Bellows and Sargent, for the murder of William H. Day of Effingham.

The Wolfboro' News publishes the trial in full; and the Manchester Mirror gives the following good abstract.

On the 12th of April last, Frost borrowed a gun to shoot a partridge, as he said. Came home and loaded it with three one ounce balls, went to a neighbor's, where Day and two others were sitting by the side of the house, resting after dinner; called their attention to some unimportant matter and then shot Day through the body, the balls entering the belly and coming out at the back, spattering the contents of the stomach upon the clapboards. One of the men caught the gun just as Frost was about to strike Day over the head with the breech, and took it away from him. After a short struggle, Frost drew a revolver, fired a bullet through the face of Day and then started upon a run for home. After going a short distance he returned and discharged another bullet into the back of his neck, and then walked off. After arriving home he discharged another barrel into his own mouth. On examination made, no ball was found there, it having dropped out of the pistol, as was supposed.

The cause for this awful and barbarous deed, as assigned by Frost, and for which he had made numerous threats, was that Day, at the request of Frost's mother, and against the will of Frost, had carried her in December last to Ossipee, a distance of about 10 miles, to visit her sister. She was gone about six weeks, leaving her son in the house alone. The enormity of the offence, as he said, consisted in its breaking up his plans for extensive lumbering operations during the winter.

Frost is twenty-two years old, lost his father when he was eleven, had fits and rickets till he was eight, and has always been scrofulous, sometimes breaking out into sores. His mother has been insane on two occasions, and an uncle on his mother's side and a cousin on his father's are now both incurably insane.

He has always been quick-tempered and unmanageable. He has exhibited considerable mechanical ingenuity, having made a pair of cart wheels, a wheelbarrow, a well bucket, and other tools for the farm, which he has had the charge of for two or three years past.

He has within a few years had spells of sickness, during which he would go to bed with all his clothes on, including hat, gloves and boots, insisting that he should die if he took any of them off. At times he insisted that he was an agent for the sale of watches and Bibles. At one time he said, with a little practice, he could excel a preacher, a distinguished divine, whom he named, and that he could beat St. Paul, out and out.

In January last, at his Aunt's in Greenland, he wore fancy beads sewed on his hat; upon being asked why he wore them, he said he had done so ever since he was crucified. She asked him what he meant by that, and he said he had been crucified the same as our Saviour was.

He claimed at one time to have a fast horse, and told some boys, more in fun than in seriousness, that he would go a mile easy inside of two minutes, and that when he ran he dragged his belly on the ground.

Frost was indicted in April last, and it being understood that the defence was to be insanity, the Attorney General employed Dr. Bancroft of the Insane Asylum at Concord, and Dr. Tyler of the McLean Asylum, to visit him at the jail from time to time. They were also present during all the trial, which commenced on Monday morning, and closed Friday noon. At the close of the other evidence they were examined as to their opinion of the case. They both testified that Frost was insane at the time he did the deed, is insane now, and is probably incurable.

Thereupon the Attorney General stated that he did not ask a conviction, but wished the case to be submitted to the Jury under the direction of the Court, after a brief charge. The Jury returned in a short time with a verdict of "not guilty, by reason of insanity." Mr. Clarke then moved that the prisoner be not discharged, but that he be sent to the Insane Asylum in accordance with the provisions of the statute. He was sent to the Asylum at Concord for life, or until discharged by due course of law.

EMIGRATION.—The emigration for the present year will be largely in excess of last year. Up to Wednesday over 200,000 emigrants have landed at New York, and the total for the year will probably reach 250,000. The emigration to Southern ports has been larger this year than usual, and it is probable that the total emigration to this country will reach 300,000.

— A man named Jameson played the confidence game at Newton, Iowa, recently. He professed religion, joined the Christian Church and was appointed agent to solicit funds to build a church, and ran away with the money. He was captured and lodged in jail.

— The Bangor Whig reports that a Mrs. Smart, living in Bucksport, was fatally shot by her son a few days since. The gun was standing behind the door, the lad thought unloaded. He took it up carelessly, when it went off, sending the bullet through his mother's neck, killing her instantly. Mrs. Smart was about thirty years of age—her son about thirteen.

AND EXAMINE HER PAINTINGS.

A member of the class at Augusta, Me., says, "I have never been half as much delighted with any accomplishment."

From Brooklyn, L. I., a lady writes—"I have never painted before, and the knowledge of colors and proficiency in their use which I have acquired in one course of lessons is equally surprising and gratifying to myself and friends."

"The Photographs colored for me by Mrs. Coit, two years ago, remain unchanged—as beautiful and perfect as ever!" —is the testimony of a resident of Providence, R. I.

"Mrs. Coit has been the most acceptable artist in Water Colors ever in this city.

N. D. MORGAN, Norwich, Conn."

"From my long acquaintance with art and study of Painting in Italy, I feel qualified to judge, and willingly assure those interested that I consider Mrs. Coit a true Artist and accomplished Teacher. Under her tuition I made great progress in a little time. LUCIEN RAND,

Room 5, Chickering Building, Boston, Mass."

The peculiar methods which Mrs. Coit teaches she will guarantee to impart thoroughly and satisfactorily in one course of lessons. Those interested are requested to call on her early as her stay in Portsmouth is limited by other engagements. Materials furnished free of charge during the lessons. AMERICAN LIFE DROPS!

FOR THE SPEEDY CURE OF

Diphtheria,

Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

BOSTON, Mass.

"ORRIN SKINNER & CO.—*Sirs:*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours. A. B. ELDER."

The Life Drops are carefully prepared by

PERRY DAVIS' PAIN KILLER.

Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and mix asses, and a gill of hot water. Stir well together and drink hot. Repeat the dose every hour until relieved. If the pains be severe, bathe the bowels and back with the medicine, clear.

Fishermen, so often exposed to hurts by having their skin pierced with hooks and fins of fish, can be much relieved by bathing with a little Pain Killer as soon as the accident occurs; in this way the anguish is soon abated; bathe as often as once in five minutes, say three or four times, and you will seldom have any trouble. nl dawlm

Hygienic Wine.

Approved by the Imperial School of Medicine, Paris.

Tested by the Committee on Chemistry of the American Medical Association, at their Convention, held in Baltimore, May 1st, 1866, and endorsed by its most prominent members.

This *IMPORTED* Tonic, recommended by the most eminent Physicians, is prepared in Paris from

PURE SHERRY!

Admits in its composition only Tonic, Aromatic, and Febrifuge substances. It *replaces* with a great superiority all other Bitters, which have for a basis, nothing but Alcohol, Gin and Whiskies. It is richer than any other Bitters in

Aromatic and Balsamic Principles,

and its taste is exquisite. Its soothing effects on the NERVOUS FLUIDS is most astonishing for, while it gently exhilarates, by re animating the functions of the DIGESTIVE ORGANS, and dissipates Languor, by gently refreshing and stimulating the brain, giving a healthy tone to the whole organism, it leaves behind none of the baneful influences that follow Alcoholic stimulants.

HYGIENIC WINE

is moreover

MOST DELICIOUS TO THE TASTE,

Possessing wonderful virtues in all cases of DYSPEPSIA AND DEBILITY, and moreover is unexcelled as an

Appetizer,

IT IS NOT INTOXICATING IN THE LEAST.

MUSCAT PERLE, (Imported)

is a rare fine Wine of most delightful flavor. It is the Pure Juice of a Most Delicious and generous GRAPE, and surpasses in excellence *any Table Wine in the Country.*

All who are solicitous about obtaining a *pure* and a superior Wine, will be delighted with

"MUSCAT PERLE."

☞ Church people are solicited to examine this Wine for communion purposes. A Communion Wine should be *above all things* PURE! In the second place it should be MILD. "Muscat Perle" combines these two most essential qualities, and a trial will convince any one of its superiority over all other wines at present in the market.

These Wines are sold by all respectable Druggists and Dealers.

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

Messrs. J. N. HARRIS & Co.:—

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It causes the phlegm and matter to raise, without irritating those delicate organs (the Lungs), and without producing constipation of the bowels. It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

Yours respectfully, A. L. SCOVILL.

IN BOARD OF ALDERMEN, Thursday, Nov. 1.—The petition of owners of Congress Block for leave to open Congress street to lay or repair drain, was granted.

The use of Ward Room on Elm street, two evenings a week for three months, was granted the City Guards.

An adjourned meeting was held on Friday evening, relative to petition for highway from North Street to Freeman's Point.

Communication.

Mr. Editor:—It is seldom I visit the Post Office, I am not a "constant visitor." I had occasion to go there on Thursday evening, and it happened to be the hour that the evening mail was being assorted, so that I remained until the delivery windows were opened—and during my stay I was extremely annoyed by a crowd of precocious, rude, and uncouth boys of an age perhaps to be called *young men.* Besides making "night hideous" with their unearthly yells, I was crowded and jostled by their pushing one against another. Of course the P. M. cannot assort the mail matter and attend to the Police of the lobby. Will the Chief of the P. P. drop in occasionally? *Verbum sat sapiente.* A LADY SUBSCRIBER.

At noon, Major Hackett will sell a very valuable residence on Dover street, with stable, garden, and other conveniences.

☞ Guy Fawkes' night is coming, and fish horns are in demand with the juveniles. We don't wonder the walls of Jericho fell down, if rams' horns produce so disagreeable a noise. If Parliament wasn't "blown up," the continuance of this barbarous tooting *ought* to be.

☞ The patent balance slide valve, patented by Mr. John S. Howell, of this city, has been well tested and gives great satisfaction wherever it is used.

☞ Those ladies who desire the acquisition of a pleasing accomblishment, will do well to call on Mrs. Colt, at 50 Congress street. See her advertisement.

☞ The Odd Fellows of Essex county, Mass., had a grand turnout in Salem on Thursday. The Union Cornet Band of this city accompanied the Newburyport Lodge.

AFRICAN CATHOLIC CHURCH. — The old Swedenbergian church building on Longworth street, Cincinnati, has been purchased for a congregation of colored Roman Catholics, and has been solemnly dedicated by the archbishop for that purpose. It is now called St. Anne's church.

AUSTRIAN MCCLELLAN.—"We learn," says the Nord, "that General Clam-Gallas, one of the Generals whom the Austrian Government renders responsible for its late reverses, and who has been placed on the retired list, has resolved to take up his residence in Belgium."

☞ The debasement into which men in office have fallen cannot be more strongly exemplified than by the fact that the Government advertising at Portsmouth has been removed from that old and sound exponent of Union sentiments, the Journal, to the "States & Union," the paper which Daniel Marcy set up to advocate his election to Congress, which he supported through the rebellion to resist the Government, and which the indignant citizens of Portsmouth once forcibly abated as a nuisance. An administration which recognizes such sheets as its organs, and pampers them with the money of the people, has got down to a deep below which there can be no lower deep.—*Dover Enq.*

Dr. Schenck's

NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street,** Boston, where he will be professionally every WEDNESDAY from 9 to 3. Every person complaining with Consumption or any disease leading to it, are invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer, but for it he can tell exactly how far the lungs are gone, and what part, also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint.

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver be kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at **all times.**

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

REASONS WHY THE

AMERICAN WATCH,

MADE AT WALTHAM, MASS.,

IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. No jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "ancres," "lepines" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

Morning Chronicle.

IT IS THE PISTOL which establishes the elective franchise in Texas. The qualification of a voter is service in the Rebel army during the war and hearty support of Johnson's policy. The "unreconstructed" villains of that State, reckless by character and boldly frank from the freedom and security of their geographical position, blurt out a new policy of the unwhipped Secessionists, and a new peril to the country. "We have learned something by this war," they say; "we have got a new wrinkle on our horns. Had the South refused to go into the Presidential election in 1860, and instead of that, passed ordinances of secession and perfected the Confederacy, Buchanan would have recognized it, and secession would have been accomplished before Lincoln was inaugurated. You d—d nigger-worshipping Yanks ar'nt out of the bush yet! We have a Southern man in the White House and a bolder man than Buchanan."

Bowie-knifing and pistoling friends, prepare yourself for peace. The October and November elections will save Texas as well as the nation. Among other blessings, they will in time give your State impartial suffrage, and that will make you loyal within twenty-four hours, and unstrap the revolvers from you. Wait, and you will see the healing power and glory of Freedom.—*N. Y. Tribune.*

PERSONAL.—Private J. W. Dickinson, an old soldier of Company A, 15th Regiment Mass. Volunteers, has been brevetted Captain for gallant conduct at the battle of White Oak Swamp, Virginia, on the fourth day of the seven days' retreat. He was in all the battles and skirmishes that the gallant Fifteenth was engaged from the battle of Ball's Bluff to the battle of Antietam, Maryland, and proved himself worthy of the title.

— An exchange paper says: "Never let people work for you gratis. Two years ago a man carried a bundle for us, and we have been lending him twenty-five cents a week ever since."

— An Irishman, porter in a store in Philadelphia, was closing up one rainy evening, not long since, when he took off his coat while putting up the shutters. When asked why he went out in his shirt-sleeves in all the rain. "Sure," says he, "don't I want a dry coat to go home in?"

— The Brooklyn Times of last Saturday announces the marriage of Mr. William Way to Miss Gertrude Griel, all of Brooklyn, E. D.

A happy life, as man and wife,
They'll live—such is my firm belief;
Though, sooth to say, her *Will*-ful *Way*
She had, while he was brought to *Grief*.

Agents Wanted For
The Camp, the Battlefield, and the Hospital,
Or Lights and Shadows of the Great Rebellion.
There is a certain portion of the war that will never go into the regular histories, nor be embodied in romance or poetry, which is a very real part of it, and will, if preserved, convey to succeeding generations a better idea of the spirit of the conflict than many dry reports or careful narratives of events, and this part may be called the gossip, the fun, the pathos of the war. This illustrates the character of the leaders, the humor of the soldiers, the devotion of women, the bravery of men, the pluck of our heroes, the romance and hardships of the service.
The volume is profusely illustrated with over 100 engravings by the first artists, which are *really beautiful;* worthy of examination as specimens of the art. The book's contents include reminiscences of camp, picket, spy, scout, bivouac, siege, and battlefield adventures; thrilling and heavy, wit, drollery, comical and ludicrous adventures, etc., etc.
Amusement as well as instruction may be found in every page, in every detail, brilliant wit and authentic history are skillfully interwoven in this work of literary art.
This work sells itself. The people are tired of dry details and partisan works, and want something humorous, romantic, and startling. Our agents are reaping from $20 to $50 per week, clear of all expenses. Send for circulars, giving particulars, and see our terms and proof of the above assertions. Address NATIONAL PUBLISHING CO., 148 Water Street, Boston, Mass.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate. Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
CONSULT A PHYSICIAN.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR DOW, No. 7, Endicott street. Those who need the service of an experienced physician and surgeon should give him a call
Dr. DOW's Imported French Pills are for sale only at his office.
Dr. DOW's Female Pills are sold and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

The Chronicle.

☞ We find in an exchange the following clever poem, written by a gentleman of Elmira, New York. It is called "In a Coal Mine" and is a mine of puns. In fact, the *double entendres* are so thick that the hasty reader will miss more than half of them:

A car-full of carless ones,—
The day was ours to spare,—
As students did we seek a mine
To see coal laborers there.

We found the place—twas miles away
To west and then by south;
And though was ours a joyous mood,
We looked down in the mouth

Of that dark cavern, an' thro' sight
By courage were not blinded,
To plunge away beyond the light;
We felt we should be pitied.

But on we went, and thoughts of ill
Flew off while we we delv'n,
And each one from a coal-edge cried
Behold, all this is mine!

Not only pleasure did we hope
To find for us in store.
We sought as well a higher path,
To get a little lore.

We found a pencil vein—I state
What no one will deny—for
Although there was no lack of slate,
'Twas not a place to sign for.

The star lamps gleamed before our eyes,—
What constellation finer—
Though borne by many a bearish chap
Who was no worse a miner?

And so we studied o'er the mine
While bright ideas budded,
And when we turned away we knew
The mine was much ore studded.

And when we saw daylight again,
Delight did us enfold,
Although we found such one had got
A very little coaled.

For we were glad that no mishap
To sorrow had been doomin' us,
And that no wayward mass of coal
Had sealed our fate by toombin' us.

— Mrs. Frances D. Gage says in a letter from Pennsylvania: "I met one of the jurymen who helped to decide the fate of John Brown—a more ardent hater of slavery and of secession than he is to-day will be rarely found. Truly the old man's 'soul goes on marching on.'"

— Robert Toombs, the wandering traitor, lately insulted a party of Americans while ascending the Rigi in Switzerland. He was very abusive of the North and Yankees, and wanted to fight one of the gentlemen of the party, at whom he rushed with a knife, greatly alarming the ladies. This "chivalric" Southerner was drunk.

— Among the good things of this world we are compelled to give the preference (in the soap line) to the J. Monroe Taylor Gold Medal Soap; after having thoroughly tested, we do not hesitate to pronounce it the greatest, the finest and the best of any and all soaps in the market; and we are more than anxious that the ladies should test it, and thereby get something that will prove a true and lasting friend for life. Call upon your grocer for it, and have no other. 25

Morning Chronicle.

Portsmouth N. H.

MONDAY, NOVEMBER 5, 1866.

GOV. SWANN of Maryland, had from the first, it is apparent, made up his mind that the Commissioners should be removed, and no evidence in their favor could have changed him. His own words have made it plain that the trial over which he has presided was a farce and a mockery—that these men were not summoned to Annapolis to be tried, but to be condemned.

The changes had to be made before next Tuesday, (says the Tribune,) and they have been made. The new Commissioners may be trusted to take care of the interests of the "fourteen thousand disenfranchised people of Baltimore," next Tuesday, and the 14,000 friends of the Rebellion may be trusted to take care of the Governor. New Commissioners, new Judges of Elections, a new police, will have control of the polls, and Baltimore under their rule will send twenty-one members to the Legislature pledged to vote for Thomas Swann as United States Senator from Maryland. This is the meaning of the removal of the Commissioners—to wrest the State from the Union men who saved it from rebellion, and make the Legislature the tool of one man's political ambition.

[Is it not possible that the U. S. Senate may reject the swindler, and send him home?]

MR. HARLAN'S DEFENCE.—Ex-Secretary Harlan has written a letter which would make a page in our paper, in reply to the charges made against him in connection with the sale of Indian lands. In answer to these charges he says:

By inquiring of the publishers, these vilifiers would have learned that I had no personal interest in this company, or in the sale of these lands, direct or indirect, immediate or remote, and that I never owned or held, or sought to own or hold, one dollar's worth of their stock, and that no relative or business associate of mine ever held or owned, or sought to hold or own, any such interest or stock.

☞ The Newburyport Herald, a sturdy supporter of Johnson and his policy, and which is frequently quoted and commended by its democratic contemporaries for its sound views on National affairs, gives the South and its Northern allies this piece of advice:

"There are two parties in the United States that do not seem to realize the extent to which they have been whipped in the last half dozen years—the rebels, who failed in arms, and the democrats who failed at the ballot box. It is time for the first to understand that never more can Southern society be restored or Southern rights, even as the most moderate of them, the Union men, understood them. Hereafter there is to be an equality of races and classes among all citizens, and to a great extent—vastly too great for us—the government is to be consolidated. They must make the best of their situation as it is. The latter, the democrats, might as well know, first as last, that no more, for a long time at least, will the people rally under that name; they must seek a different track for their machine. Now the sooner that both these parties realize the facts the sooner will they be in the way of acquiring new influence, and retrieving their fortunes in new forms, and the better it will be for the country, which sadly stands in need of a conservative influence in the courts, legislatures, congress, and other bodies, to offset the radicalism rampant everywhere.

THE NEW SENATOR FROM OREGON.—The Oregon correspondent of the San Francisco Bulletin gives the following account of the new Senator from that State, Mr. Corbett:

"The new Senator was born in Massachusetts, but removed at an early age to Washington county, New York. He was bred a merchant in New York city. At an early year he came to this coast to seek his fortune, and in February, 1851, he settled in Portland and commenced business as a merchant. He still maintains a wholesale house here, and has steadily prospered from that day to this. Last spring he took the mail contract between Lincoln, California, and Portland, Oregon, and now carries on that great enterprise more successfully than it was ever done. He is still on the younger side of forty—probably thirty-eight years of age. His religious associations are with the Presbyterians. He is an active, industrious man, of good habits and pure life, benevolent, and of excellent repute among his neighbors. He has the good wishes and sympathy of all who know him, and whatever good fortune may befall him, few will be found to envy him or carp at it.

The new Senator is an original Republican, and although never in office or politics as a pursuit, yet he has always been active in the councils of the party and liberal with his time and means to advance its prospects and purposes."

NEW HAMPSHIRE ITEMS.

—— A new Freewill Baptist meeting house in Melvin Village, will be dedicated Thursday, Nov. 15. Services commence at 10 1-2 o'clock.

—— The blasting of the ledge of the Amoskeag dam at Manchester, has commenced below the west end, preparatory to constructing a fishway which will be about three hundred feet long, and will cost about $5000.

—— Floyd, the robber, at West Andover, secreted himself in the store in the evening, and was locked in when the proprietors closed up to go home. In leaving the store Floyd unbarred the back door and thus secured a free egress. After packing up the goods his first dodge was to walk a distance toward Danbury, scattering men's socks and other articles along, to decieve his pursuers. In going back to the store he took the railroad track. He then stole a wheelbarrow and commenced wheeling the goods down to the Potter Place depot, a mile and a half distant. Apparently wishing to deceive people as to the number of persons engaged in the robbery, he helped himself plentifully to boots and rubbers, and would wear a pair of the former awhile and then a pair of the latter, thus leaving rather mixed up tracks. At last the property was safe on board the train, but Floyd's inability to pay his fare, and the discovery of a web of cloth in one of his boxes, led to his detection.

—— The Window Shade Manufactory of J. R. Abbott & Co., at Clintonville, in Antrim, was entirely destroyed by fire on Thursday afternoon. One of the workwomen attempted to put a stick of wood into the stove while holding a varnish brush in her hands. The brush took fire, which immediately communicated to her clothing, and she was very seriously burned. The room being saturated with varnish and benzine, the flames rapidly spread, and the whole building with all its contents was soon destroyed. The excellent force pump on the premises was immediately put in operation, and thus the bedstead and cabinet shop and other buildings adjoining, were saved. The South Antrim fire engine was taken up as soon as possible and also rendered some service. The large stock of window shades, together with coffins, coffin furniture, a large quantity of hardware, a valuable library, &c., are burned. The loss is about $5000.

☞ Gen. B. F. Butler makes his first speech since his return from the West at Newburyport this evening. It is expected to be one of the most eloquent of the season. Quite a number of the City Government and many of our citizens will leave here in the afternoon train and return on the freight train at 10 P. M.; a special car is to be attached thereto. The General is a son of New Hampshire, and the compliment is merited. C.

☞ A correspondent sends us this question with a request that we answer it: "Had a man in the South who owned slaves a right to more votes than one who did not own slaves?" At the polls on election day, no man, anywhere in this country, can lawfully cast more than one vote, no matter what effect of property he owns. But to choose a Member of Congress the law requires a district to contain about 112,000 inhabitants, who would, in a Free State, cast about 20,000 votes. In South Carolina the 2d Congressional District, including Charleston, contained before the war 41,766 white citizens, and 78,223 slaves, and cast about 7000 votes. In Congress, therefore, these 7000, because they owned 78,000 slaves, had as many votes as 20,000 voters in the free States who did not own slaves. And now, since the slaves have been made free, unless the proposed amendments, or similar ones, should be adopted, 7000 voters in South Carolina will have as much representation in Congress as 30,000 voters in any of the Northern States.

THE EMPRESS CARLOTTA OF MEXICO. Foreign gossip says that the Empress Carlotta, as soon as Napoleon had expressed his determination not to alter the period at which the French troops were to be withdrawn from Mexico, burst into a fearful passion, and made use of language that made the Emperor stare. A Paris letter assigns the following as the cause of the disturbed state of mind of the Empress:

"The first subject which appears to have distracted the mind of the Empress was the clause in her father's will by which he merely gave a life use in the twenty-five millions he bequathed to her, although he gave her power to dispose of the principal by will. The Empress applied to her brother, Leopold II., and to the Count of Flanders, to annul this clause, and allow her to devote the twenty-five millions to the consolidation of the Mexican empire. Her brothers, however, imbued with the prudence which so pre-eminently characterized King Leopold I., turned a deaf ear to her solicitations, and, reminding her of the prodigal generosity with which her husband had spent his own private fortune, as well as a portion of hers, positively refused her request. The empress cannot forgive this act, and as she is aware that the King and his brother have been privately supported in their decision by the Austrian Imperial family, she will not consent either to visit her family at Brussels or at Vienna. Thence arose *her despair* on the Pope having declined to sanction the concordat proposed by Maximilian. Her appeals rejected by Napoleon III., by her own brothers, and by the Pope, it is not surprising that her high-toned mind and ardent feelings should have given way in presence of so much bitter mortification."

The latest news by mail from Vienna says that the monomania from which Carlotta at present is suffering is an incessant and unvanquishable apprehension that those around her are seeking to make away with her. She refuses to eat any food prepared for her, and nourishes herself, so it is said, upon raw chesnuts and cold water, nor will she even take this poor sustenance in the presence of any of her attendants. The best skill, has, of course, been consulted on her case, and the impression exists that she will never recover a healthy tone mind. "Pride goeth before destruction; and a haughty spirit before a fall."

LAMENTABLE OVERSIGHT.—The Oregonian says: "A very great oversight has been noticed in the President's reception address to Queen Emma, of the Sandwich Islands. Through an unaccountable inadvertance he neglected to inform her that he had once been an Alderman, and that he had risen gradually by his own merit to the highest place in the nation."

☞ Every dollar of the Internal Revenue tax paid by the North and West is a load upon the industry and resources of loyal men, imposed by Rebels. The Rebels themselves surely should lighten this load by bearing their their proportion of the expenses of the war. Johnson, when placed in office by Booth, found the Rebel States under a law of Congress justly putting on them the necessity of bearing that proportion. The Government taxes were being collected in the South. Johnson issued an order that their collection should be stopped. With imperial usurpation, he has released the South from taxation, and overthrown a law of the land, and defied the authority of the People's Congress.—*Tribune.*

☞ Wanted immediately, a foreign war, to save the Administration of Andrew Johnson from present ruin and ultimate infamy. Maximilian's return to Europe for domestic reasons, and the voluntary withdrawal of the French troops, have made the eleventh hour energy of our foreign policy in the case of Mexico so cheap and ridiculous that a solid and enduring fight, say with England, is immediately wanted, to band the nation together in support of the Government and give success to "My Policy." No proposals to submit the Alabama and Shenandoah spoliation claims to arbitration will be listened to. Apply at the White House.—*Tribune.*

AMERICAN LIFE DROPS!

FOR THE SPEEDY CURE OF

Diphtheria,

Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which only is a specimen of the many letters we are daily receiving:

"BOSTON, Mass.

"ORRIN SKINNER & CO.—*Sirs:*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend. We always during Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and severe sore throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours. A. B. ELDGR."

PERRY DAVIS' PAIN KILLER.

Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and molasses, and a gill of hot water. Stir well together and drink hot. Repeat the dose every hour until relieved. If the pains be severe, bathe the bowels and back with the medicine, clear.

Fishermen, so often exposed to hurts by having their skin pierced with hooks and fins of fish, can be much relieved by bathing with a little Pain Killer as soon as the accident occurs; in this way the anguish is soon abated: bathe as often as once in five minutes, say three or four times, and you will seldom have any trouble. nl dawlm

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly filling the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

Hygienic Wine.

Approved by the Imperial School of Medicine, Paris.

Tested by the Committee on Chemistry of the American Medical Association, at their Convention, held in Baltimore, May 1st, 1866, and endorsed by its most prominent members.

This *IMPORTED* Tonic, recommended by the most eminent Physicians, is prepared in Paris from

PURE SHERRY!

Admits in its composition only Tonic, Aromatic, and Febrifuge substances. It replaces with a great superiority all other Bitters, which have for a base, nothing but Alcohol or inferior Whiskies. It is richer than any other Bitters in

Aromatic and Balsamic Principles,

and its taste is exquisite. Its soothing effects on the NERVOUS FLUIDS is most astonishing for, while it gently exhilarates, by re animating the functions of the DIGESTIVE ORGANS, and dissipates Languor, by gently refreshing and stimulating the brain, giving a healthy tone to the whole organism, it leaves behind none of the baneful influences that follow Alcoholic stimulants.

HYGIENIC WINE

is moreover

MOST DELICIOUS TO THE TASTE,

Possessing wonderful virtues in all cases of DYSPEPSIA AND DEBILITY, and moreover is unexcelled as an

Appetizer,

IT IS NOT INTOXICATING IN THE LEAST.

MUSCAT PERLE, (Imported)

is a rare fine Wine of most delightful flavor. It is the Pure Juice of a Most Delicious and Luscious GRAPE, and surpasses in excellence *any Table Wine in the Country.*

All who are solicitous about obtaining a *pure* and a superior Wine, will be delighted with

"Muscat Perle."

☞ Church people are solicited to examine this Wine for communion purposes. A Communion Wine should be *above all things* PURE! In the second place it should be MILD. "Muscat Perle" combines these two most essential qualities, and a trial will convince any one of its superiority over all other wines at present in the market.

These Wines are sold by all respectable Druggists and Dealers.

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

MESSRS. J. N. HARRIS & CO.:—

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep seated PULMONARY CONSUMPTION. I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It causes the phlegm and matter to rise, without it irritating those delicate organs (the Lungs), and without producing constipation of the bowels. It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

Yours respectfully, A. . SCOVILL.

☞ A terrible accident happened at the Navy Yard on Friday evening, which resulted fatally. Mrs. Jones, wife of Carpenter Daniel Jones, of the Yard, was in her chamber, when a lucine lamp broke or parted in some way, the top falling to the floor, breaking, and setting the oil and her clothing all on fire. She ran to another chamber for a shawl to wrap herself in, and ran down to her husband, who was sleeping on a lounge below stairs, but fainted and fell in the doorway. Her husband gathered her clothing, &c., about her, and by clasping her close, succeeded in extinguishing the flames; but her neck was burned severely, and no doubt the flames scorched her mouth and throat internally, and she died in about two hours. She was an active and estimable lady, about sixty years of age, and leaves a large family to mourn this startling and shocking fatality.

Mr. Jones himself was severely burned on the hands and arms, and it is feared may be maimed permanently. In pulling a cloth from a table, to help smother the flames, another lighted lamp fell to the floor, broke, and added its oil to the mad fire.

EXACTING THE STATE LICENSE.—The merchant tailors and dry goods dealers of this city pay heavy rents, Government, State and Municipal taxes, clerk hire, etc., and sell their goods at reasonable profits, and in doing so expect from the proper authorities a corresponding protection to their trade. On Thursday afternoon City Marshal Johnson received information that three men, in three separate carriages, representing themselves to be the agents of a "Heavy Cloth Manufactory in England," that had failed and were obliged to put their goods into the market at ruinous rates, were disposing of patterns of English cloths for overcoats and suits of clothes, carpeting and sheeting, at prices much less than the same could be obtained by our resident merchants in New York and Boston. His first idea was that the goods must have been smuggled or stolen, and in accordance with that view set about him to find the men.

On Friday morning he, in company with other officers, "spied" three teams loaded up with large bundles of goods at the "City Hotel" in this city. When they were about to start they were all arrested and taken to the Station House and there interrogated as to when they came here and whether they had licenses. They said they arrived the previous night from New York and had not yet sold a dollar's worth. They had U. S. Licenses and did not know that they required a State license.

Mr. Johnson, accompanied by Mr. Kent, went to North Hampton, Rye and other adjacent towns, and found that they had been selling goods for two days previous, and had their "Head Quarters" at the City Hotel here. The cloths and cassimeres were disposed of very cheap, and they offered cotton cloth, such as is worth here 35 cents, at 8 and 10 cts. per yard—valuable carpeting at 50 and 75 cts. per yard. Some of the English cloths which they had sold were brought back by the officers as evidence against the parties for peddling without a license.

They were brought before His Honor Judge Odell Friday evening and were defended by John S. H. Frink. Mr. Goodall, prosecution, charged them with peddling without a license. They plead guilty and gave bonds in the sum of $100 each to appear at the next term of the S. J. Court for trial. Their names are Michael Harrity, John Callahan and Wm. Berry, all from New York city. They say their goods, of which they have a lot, come from 180 Chatham Street, New York. The penalty for the offence is a fine not exceeding $100, nor less than $20. It is quite probable the bail will be forfeited.

POLICE COURT, Nov. 3.—Lanson Spaulding, found drunk on Fleet street, was sentenced to pay a fine of $5 and costs $3 86.

John Burk, another victim of intemperance, had a lecture on the use and abuse of alcoholic stimulants, at a cost of $6.69

James D Meloon, for brawl and tumult, was find $3 and costs $3.69.

Oliver Ginn, found drunk on Chapel street, was assessed $6 86. By the rules of euphony such a name is sufficient to intoxicate a common man. "All over gin!"

☞ In view of the great meteoric shower expected about the middle of this month, the description of a former display of this kind (to be found on our fourth page) will prove interesting. Already have our heavens been brilliantly illumined by the frequent flight of impatient meteorites, too eager to wait for the grand flight set for the night of the 14th.

☞ A very nice appearing man hired a team in Newburyport, who it was afterwards learned was insane. Information was received by our police authorities of the fact, on Saturday, and on his arrival he and the team were taken charge of, and sent back to Newburyport.

— Wanted, by a confectioner—a candid young woman.

☞ A novel entertainment advertised in our columns for to-morrow evening, will doubtless draw many ladies and gentlemen to the Temple. A grand concert by the Band will open the entertainment, which will be interpersed by the reading of election returns. All candidates for Congress from this vicinity—which includes Exeter, Dover and Rochester—are supposed to be in condition to offer a few feeble remarks if called on. All Portsmouth candidates are expected to govern themselves accordingly.

☞ Gov. Langdon Engine House is being newly shingled. That's right, don't let the water in on our "boys" till time of need.

☞ While the flakes for curing fish have been allowed to become dilapidated at Noble's Island, we notice new ones have been set up near Liberty Bridge.

☞ Kingsbury's Excelsior soap, advertised in another column, is a beautiful article in appearance.

Ayer's Cathartic Pills

ARE the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of the internal organs, purge out hidden and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into healthy natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immense y to the relief of our afflicted, suffering fellow men.

The Agent below named is pleased to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand Ayer's, and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. o23—2m

Dr. Schenck's

NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street,** Boston, where he will be professionally every WEDNESDAY from 9 to 3. Every person complaining with Consumption or any disease leading to it, are invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part, also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint.

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at **all times.**

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

REASONS WHY THE

AMERICAN WATCH,

MADE AT WALTHAM, MASS.,

IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. No jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "uncres," "lepines" and "English Patent Levers" are perfectly well aware of the truth of this statement.
